TO THE HONORABLE THE COLONIAL SECRETARY.

Legislative Council Office, Hobart Town, August 5, 1880.

SIR,

I HAVE the honor to present to you the Statistics of this Colony for the year 1879; and to offer such observations under the several heads as circumstances seem to require.

I.—POPULATION.

The population on the 31st December of that year is calculated to have been 112,469, of whom 59,447 were males, and 53,022 females; the increase during the year being 2522, or 74 more than in 1878. The addition by excess of births over deaths was 1876, and by excess of immigration over emigration, 646. **Population, pp. 23-30.**

The mean population for the year, or the number of inhabitants on 30th June, which is now used as the basis for the calculation of nearly all ratios relating to population, is estimated to have been 111,208.

Reference was made in my last Report to the difficulty of reconciling the returns of immigration and emigration between Tasmania and the principal Australian Colonies, as furnished by them and by our own Customs department respectively. No such difficulty has been felt in regard to the returns for the past year; and the number of persons who left this Colony for Victoria and New South Wales has therefore been taken from the returns of arrivals there.

In regard to New Zealand, however, our own returns have been used for departures as well as arrivals, inasmuch as they appeared to be more in accordance with the probabilities of the case than those furnished by that Colony. According to the latter, 143 persons embarked for Tasmania, and 329 arrived from thence: but as the returns of the Customs here made the latter number 549, and as the number of outward bound passengers as enumerated at the port of departure must always, for reasons stated in former reports, be less than it really is, it seemed plain that a considerable proportion of those who proceeded to New Zealand from this Colony were not reckoned among the arrivals in the former Colony.

The total number of persons who arrived in the Colony in 1879 was 10,578; of those who left it, 9932: the difference in favour of the incomers being, as before stated, 646. Victoria took 7985 of our people, and gave us back 8807 of her own, or 822 more than she received; New South Wales took 1370, and gave back only 1354, leaving us with a loss of 16; South Australia absorbed 17, and returned 12; New Zealand attracted 549, (probably more), and parted with 399, retaining 150; while the United Kingdom exchanged 6 of her denizens for 11 of ours—an exchange for us which (if the lighter Muses may venture to intrude within the domain of Statistics) reminds one of that of Glaucus and Diomedes:—

> "So then was Glaucus both in mind and deed
> Robbed of his wits by Kronos' son divine,
> To change arms with illustrious Diomede.
> Thus gold for brass it pleased him to resign—
> Arms worth a hundred oxen for the worth of nine."*

Under the regulations of the Board of Immigration, commonly known as the "Bounty System," there were introduced in 1879 56 persons, of whom 45 were from England, 7 from Ireland, and 4 from other countries. In 1878 the number so introduced was 44.

* Worsley's *Iliad*, vi. 28.

Ten persons were naturalised in 1879, 8 being Germans, 1 a Swede, and 1 a native of China. As regards occupation, 6 were described as farmers, 1 as a miner, 1 as a hawker, 1 as a storekeeper and licensed victualler, and 1 as a carter.

III.—Trade, Commerce, and Navigation.

Change in Customs Returns.

In the present volume, by direction of the Hon. the Colonial Treasurer to the Customs Department, a change has been made in the mode of furnishing the returns of Imports and Exports. Previously, those for Hobart Town and Launceston were furnished to me and printed separately—a practice which, while it had the advantage of showing the commerce of each port, occasioned considerable inconvenience, since any person who wished to know the Imports or Exports of any particular article for the whole Colony, was put to the trouble of first turning to the one set of returns, then to the other, extracting the figures, and adding them together, which often entailed a good deal of labour and loss of time. One return now embraces the commerce of both ports;* and the same amount of information can consequently be obtained by a simple inspection.

Imports, pp. 34-51; 60-1.

The value of the Imports in 1879 was £1,267,475, which was less than in 1877 and 1878 (the decrease as regards the latter year being £57,337), but greater than in any other of the last ten years. The rate per head was £11 7*s.* 11¼*d.*, against £12 3*s.* 7*d.* in 1878.

The Import trade with the different countries was as under:—

	£
United Kingdom	337,050
Victoria	713,175
New South Wales	107,309
New Zealand	5845
Queensland	14,440
South Australia	2400
Mauritius	74,347
Foreign States	12,909

As compared with the year 1878, there were the following increases:—

	£
New South Wales	18,256
Queensland	4040
Foreign States	8683
	£30,979

As regards all the other countries there were decreases, as follows:—

	£
United Kingdom	36,416
Victoria	647
New Zealand	14,835
South Australia	275
Mauritius	30,093
Other British Possessions	6050
	£88,316

The value of imports from the United Kingdom was the smallest since 1872. Those from Victoria were nearly the same as in 1878. The decrease as regards New Zealand seems comparatively very large, but it must be observed that in 1878 the imports from that colony were exceptionally great. Still, however, the value in 1870, 1876, and 1877, exceeded that of 1879. The trade with South Australia has always been very uncertain, and therefore the small decrease in 1879 is of little importance. The imports from the Mauritius in 1878 were, like those from New Zealand, exceptional. As compared with those of 1877 there was an increase of £2702. From "Other British Possessions" there were no imports in 1879: hence the decrease.

* This saving of space has enabled me to introduce several additional decennial tables without increasing the size of the volume.

On comparing the imports of some of the most important articles as between the years 1878 and 1879, we find that the principal differences were in boots and shoes, coal and coke, coin (gold), drapery, grain (wheat), jewellery and plate, live stock, musical instruments, spirits and cordials, wines, stationery, sugar, tobacco and cigars. On the following there were increases to the extent shown :—

	£
Boots and Shoes	9721
Coin, Gold	26,500
Drapery	18,635
Live Stock—Cattle	2610
Sheep	2803

The decreases were these :—

	£
Coal and Coke	12,026
Grain, Wheat	18,910*
Jewellery and Plate	5064
Live Stock—Horses	11,791*
Musical Instruments	3399
Spirits and Cordials	4032
Wines	3021
Stationery	8226*
Sugar	44,727*
Tobacco and Cigars	3325

In the three articles of wheat, horses, and sugar alone the decrease was about £75,000—more than the difference between the total values of the imports for those years; so that in all others, taken collectively, there was a considerable increase.

The value of sugar brought into the colony in 1878 was very high (£165,968), the next highest being £145,816, in 1873. At the beginning of the decennial period it was only £96,661.

The value of spirits has not been so small since 1873; that of wines, since 1872.

The value of Exports in 1879 was £1,301,097, being less by £14,598 than in 1878, but greater than in any other year of the decennium, with the exception of 1877 and 1878. The rate per head in 1879 was £11 14*s.* 0¼*d.*, against £12 1*s.* 11*d.* in 1878. Exports, pp. 50-60; 62-3.

Of the total value in 1879, £1,289,395 or 99·1 per cent. was that of the produce of the Colony, and £11,702 or 0·9 per cent. that of other countries. In 1870 the value of the latter was 3·71 per cent. of the total Exports.

The following were the Exports to various countries in 1879 :—

	£
United Kingdom	600,876
Victoria	361,909
New South Wales	202,387
New Zealand	97,046
Queensland	5515
South Australia	33,069
Mauritius	95
Foreign States	200

The increases and decreases as between 1878 and 1879 were as under :—

Increases.	£
Victoria	52,250
New Zealand	4635
South Australia	6389
Others	295

Decreases.	£
United Kingdom	38,888
New South Wales	38,809
Queensland	470

* The imports in 1878 were exceptionally large.

The Exports of Bark during the past year were greater than in the two preceding years. Those of Butter and Cheese were less than in any of the last twenty years—the farthest point to which the comparison was carried being 1859. In 1859 the value was £12,782, in 1865, £26,570, from which it declined to £2391 in 1872, rose to £11,072 in 1876, fell to £8821 in the next year, and to £595 in 1879. It is not easy to understand why dairy-farming in Tasmania should have so declined. Good butter can always find a ready sale, and the same has generally been the case with cheese.

The Jam trade was little less active in 1879 than in the year before, the quantity shipped being 3,915,881 lbs. against 3,981,450. The quantity of Green Fruit sent away was greater than in 1878, being 142,252 and 123,785 bushels respectively.

In the Metals—Gold and Tin—there was a large increase in 1879. The following were the quantities and values of the Exports in the last four years:—

		Quantity.	*Value.*
		ozs.	£
Gold	1876	10,278	41,861
	1877	6729	26,904
	1878	15,305	59,124
	1879	38,895	145,723
		tons.	
Tin, ore and smelted	1876	1616	99,605
	1877	5747	296,941
	1878	5947	316,311
	1879	4563	303,203

In regard to Gold it should be observed that the real quantity exported is very much greater than that which appears in the Customs Returns, since large parcels are frequently sent to Melbourne by private hand, of which no record can be made.

The Exports of Grain have been falling off for years, in consequence of the imposition of protective duties in some of the other Colonies, of the increasing ability of those Colonies to supply themselves, and also, it may be inferred, in consequence of the growing difficulty of obtaining labour of suitable kind and at remunerative rates. In 1879, Wheat, 15,090 bushels, Oats, 109,086, and Barley, 8412, were shipped away, the quantity of wheat being considerably larger than in 1878 when it was only 6497 bushels, but that of the other articles showing a serious decrease. In 1870 the Exports were—Wheat, 78,955 bushels, Oats, 359,225, Barley, 10,697.

The value of Hides, Skins, and Leather in 1879 was only £12,811, against £23,424 in 1878.

The quantity of Hops was 558,622 lbs., against 684,348.

The number of Horses was smaller, being 137, against 287; that of sheep greater, being 938, against 654. The value of sheep exported in 1879 (£31,324) was the largest in the ten years. It increased with the improvement in the breed, and the reputation of the breeder. In 1870 such sheep were valued at about £4 11*s.* per head, in 1879 at over £33. At the late Exhibition in Sydney, Tasmanian wool growers took 37 prizes, 2 being Champion Gold Medals. Stud rams from Tasmania have since brought at auction in Sydney as high as 155 guineas; 12 four-tooth rams averaging £58 16*s.* 8*d.* each, the general average being for rams £22 6*s.* 5*d.*, and for ewes £16 0*s.* 3*d.*

Hides, Skins, and Leather show a large falling off in the value, from £23,424 to £12,811, the latter amount being the smallest since 1866. The trade in Rabbit Skins was, however, unusually lively, the number exported (1,022,892) being the largest ever recorded.

The trade in Hops has been declining since 1876, from the same causes as those which have operated in the case of grain, namely, protective duties and growing independence of foreign supplies. The quantity shipped in the last seven years was as shown below:—

	Lbs.		Lbs.
1873	826,783	1877	726,018
1874	819,145	1878	684,348
1875	767,444	1879	558,622
1876	848,405		

The quantity of Whale Oil exported in 1879 (245 tuns) was the smallest since 1867.

The Timber trade also showed a great depression, the value of the exports in 1879 being £59,713, against £72,989 in 1878, and nearly the same figures in 1877. The value has not been so small as in 1879 since 1872.

Tin was exported in 1879 to the value of £303,203. This was less than in 1878, but very much larger than in any other year. The shipments of Tin from their commencement were as follows:—

	£		£
1873	220	1877	296,941
1874	7318	1878	316,311
1875	31,325	1879	303,203
1876	99,605		

Nearly all the Tin is now smelted in the Colony, only 75 tons of ore having been exported in 1879. There was also sent to Sydney for reduction in that year 172 tons of slag.

The quantity of Vegetables sent abroad in 1879 (9475 tons) was about 50 per cent. larger than in 1878, and has not been exceeded since 1871. The value (£39,474) is the highest in the last ten years, the next highest being £28,997 in 1877.

Wool was exported in 1879 to the extent of 7,385,002 lbs., a decrease as compared with 1878 of 127,660 lbs. In no other year of the last decennium, however, except 1877 and 1878, was the quantity larger. In the first five years of that period the average annual export was 4,938,902 lbs.; in the last, 7,192,365 lbs., nearly double.

In last report the clips of wool from 1873 to 1877 were shown. The following figures bring the information up to November, 1879. The month of November was chosen as the termination of the year rather than June, because it is the last month before the new clip begins to come in, and, therefore, the period between the last day of October and the first of November in the following year includes nearly all the wool from slaughtered as well as shorn sheep removed during the year:—

	Lbs.		Lbs.
1873	5,480,890	1876	7,058,393
1874	6,054,485	1877	7,599,033
1875	6,629,211	1878	8,029,808

Thus it appears there has been a continuous rise in the quantity year by year. That this is not caused only by the increase in the number of sheep will be seen from the following figures, which show the average weight of each fleece, as found by dividing the clip by the number of sheep (not including those in the Straits) returned in the statistics:—

	Average Weight of Wool per Sheep. Lbs.		*Average Weight of Wool per Sheep.* Lbs.
1874	3·67	1877	4·02
1875	3·53	1878	4·17
1876	3·85	1879	4·36

Here, also, the increase (with the exception of 1875) has been continuous. In 1879 the fleeces had gained 16 per cent. as compared with their weight in 1874. These figures may not be quite accurate in regard to the absolute weight of fleece, inasmuch as to make them so, the number of sheep would require to be corrected according to the more accurate returns furnished to the Chief Inspector of Sheep; but they are perfectly trustworthy as regards the point which they are intended to prove,—that the weight of wool per sheep has been increasing for many years past,—the difference as between 1874 and 1879 being 16 per cent. A part of this extra weight, however, is caused by a larger proportion of sheep being now shorn in the grease.

The quantities of goods in Bond on 31st December last varied considerably from those in the previous year, in the case of some of the principal articles being much Goods in Bond p. 64.

Shipping, pp. 65-70.

During the year 1879 there entered Tasmanian ports 705 vessels, the tonnage of which was 189,087, and the number of the crews 10,829. Of the vessels, 429 were sailing and 276 steam; 516 had cargoes and 189 were in ballast. Of those with car oes 255 were sailing, 261 steamers; of those in ballast 174 were sailing, 15 steam. The total tonnage at Hobart Town was 104,362; at Launceston and Sub-ports, 84,725.

The following was the tonnage from each country or part of the world:—

	Tons.
United Kingdom	7987
Victoria	101,450
New South Wales	36,376
Queensland	1462
South Australia	9681
New Zealand	26,578

Total tonnage at Hobart Town	104,381
Ditto, Launceston	88,427

As compared with the amount of shipping in the previous year, there was an increase on the

Tonnage Inwards, of 30,024 or 18·87 per cent.
Ditto Outwards, of 36,017 or 22·97 per cent.

The following was the tonnage entered and cleared at each port and sub-port in 1878 and 1879:—

Entered.	1878.	1879.
Hobart Town	85,537	104,362
Launceston	54,534	62,789
Ditto, Sub-ports:—		
Stanley	8238	8159
Wynyard	2951	2410
Ulverstone	4451	4977
Torquay	3352	6390

Cleared.	1878.	1879.
Hobart Town	82,499	104,381
Launceston	55,372	64,945
Ditto, Sub-ports :—		
Stanley	8011	8424
Wynyard	2824	2429
Ulverstone	4663	6239
Torquay	3422	6390

The increases on tonnage entered and cleared per cent. were:—Hobart Town, 24·22; Launceston, 16·22; Stanley, 2·05; Ulverstone, 23·06; Torquay, 88·66.

Thus the largest increase was at Torquay—nearly double; the next largest at Hobart Town; Ulverstone being third, and Launceston fourth; while at Wynyard there was a decrease.

On the total tonnage inwards and outwards during the last ten years the increase was 79·36 per cent.

In regard to nationality, the tonnage in 1879 stood thus :—

	Inward.	*Outward.*
United Kingdom	9692	10,286
Colonial	178,144	181,271
Foreign—		
United States	385	385
German	248	248
Norwegian	324	324
French	294	294

There were on the Shipping Registers at the end of 1878, 217 vessels, measuring 20,104 tons; at the end of 1879, 207 vessels, of 18,820 tons—a decrease of 10 vessels, of a tonnage of 1284. Of the vessels in 1879, 15 were steamers, of 4596 tons and 1343 horse-power. The number was the same as in 1878.

On the tonnage of vessels built and sold out of the Colony in 1879 there was an increase of 152, but a decrease of 2 in the number.

The Whale Fisheries have been dwindling down in importance for many years. Ten years ago the number of vessels employed in them was 15, 1879 only 11; the tonnage in 1870 3446, in 1879 3156; the produce in 1870, 448 tuns sperm oil; in 1879 only about 269 tuns. The value of oil, which in 1870 was returned as £35,880, in 1879 had decreased to £13,425. Whale Fisheries, p. 70.

The return of certain Trades, Manufactories, and Works in operation in 1879 gives a total of 3259, which is 41 more than in 1878—and that, notwithstanding that the total number at Hamilton was reduced from 97 to 52 (a difference of 45), the collector for 1878 having, as the present collector supposes, improperly included journeymen and workmen as well as masters. Trades, Manufactories, &c. p. 71.

The principal increases were these:—Agricultural Implement Makers, 4; Boot and Shoe Makers, 11; Brickmakers, 11; Butchers, 30; Cabinetmakers and Joiners, 9; Clothing Factories, 3; Ironmongers, 5; Lime Kilns, 3; Pastrycooks and Confectioners, 3; Publicans, 29; Saddle and Harness Makers, 5. The increase in General Dealers is balanced by the decrease in Grocers, and seems to be caused by a difference in classification.

The average rates of Wages were generally lower in 1879 than in the previous year, but those of Bricklayers, Joiners, Millers, Saddlers, Tanners were higher, as were also those of Shepherds, Domestic Servants (males), and among females, of General Servants. The rates per acre paid to Reapers were also higher. Rates of Wages, pp. 72-3.

The prices of most of the commodities at Hobart Town included in the returns do not vary much from year to year. The chief differences, as between the last two years, were these:— Prices of Commodities, p. 74.

Potatoes, ditto	1	10	0	to	5	5	0	4	10	0	to	6	0	0

Thus it appears that agricultural produce generally, with the exception of Potatoes, was cheaper in the latter year, as were also Posts and Rails, other descriptions of timber being the same.

The contract prices of many articles were higher in 1879. Such were Barley (pearl), Brandy, Butcher's Meat, Butter, Candles, Currants, Eggs, Flour, Porter, Oatmeal, Rum, Tea, Tobacco. Those of Oil (black), Raisins, Rice, Sago, Salt, Soap, Sugar, and Port Wine, on the other hand, were lower.

Gold Mining, p. 75.

Gold Mining was never so productive as in 1879. The average number of persons employed in it during the year was 2060 (nearly twice the number in 1878); the value of mining plant £60,200, against £46,000 in the previous year; the amount of Gold produced—alluvial (estimated) 37,750 ounces, quartz 22,405 ounces, total 60,155 ounces; value £230,895, against 25,249 ounces, value £100,000 in 1878. The average yield per ton from quartz was 1oz. 8dwts. 7grs., which is the highest average in the last ten years, the next highest being 1oz. 8dwts. 3grs. in 1876; the quantity of stone crushed in 1879 being 15,834 tons, and in 1876 only 7830.

The Commissioner of Gold Fields reports that from the commencement of the present year to the date of his writing (12th July)—say six months—the yield of the Gold Mines was—quartz, 18,000 ounces; alluvial (estimated), 15,000 ounces. The value of both he places at £138,000, which, at the same rate, would be £276,000 for the year, or about £46,000 more than the value in 1879.

The following are some of the largest yields to the ton during the last year:—

Tasmania Company, Beaconsfield—
- 4 ozs. 7¼ dwts. from 270 tons of stone.
- 3 ozs. 3 dwts. 1½ grs. from 480 ditto.
- 2 ozs. 19 dwts. 14 grs. from 3020 ditto, for half-year to 30th June.

New Chum Company—
- 3 ozs. 6 dwts. 20 grs. from 80 tons of stone.
- 5 ozs. 18 dwts. 6 grs. from 358 ditto.

In May last the latter company obtained an average of 4 ozs. 9 dwts. 21 grs.

The Tasmania Company is reported to have paid twenty dividends up to the end of May, amounting to £75,500,* and the New Chum Company five, amounting in the whole to £17,500.

Other Mines, p. 76.

Coal Mining did not flourish during the past year. The quantity of Coal raised was 9514 tons, against 12,311 in 1878. The only places where it was increased were Jerusalem and Tarleton. At New Town it diminished by nearly one-half.

In Building Stone there was a considerable increase, the quantities being—1878, 88,350 cubic feet, and 800 tons; 1879, 123,221 feet, and 20 tons. There was also an additional quantity of material returned as "iron stone" or "bluestone," used for building purposes.

In Lime and Limestone there was also an increase in 1879. The quantities in 1878 were, Lime 7000 bushels, Limestone 1800 tons; in 1879, 12,900 bushels, and 1824 tons and 7000 cubic feet respectively.

* Two other dividends have since been paid, making the whole amount £85,875.

The production of Slates had ceased in 1878; in 1879 it was resumed to the extent of 10,400.

The quantity of Tin Ore raised in 1879 was less than in the previous year, being 5791 and 6193 respectively; the smelted metal turned out being 4440 and 4162¾ tons in the same years. The decrease in 1879 was caused by the fall in the price.

IV.—Finance, &c.

The Consolidated Revenue (excluding Loans) in 1879 was £375,367 2*s.* 8*d.* The following Table shows the revenue and its changes in the last five years, more (+) or less (—):— Revenue, pp. 82, 84.

	£		£
1875	342,606		
1876	327,016	—	15,590.
1877	366,118	+	39,102.
1878	385,936	+	19,818.
1879	375,367	—	10,569.

In Customs Duties there was a reduction in 1879 of £11,342 10*s.* 2*d.*; in Stamps, of £802 17*s.* 1*d.*; in Tolls, of £149 9*s.* 4*d.*; in Railway Receipts, of £454 8*s.* 2*d.**; in Rents of Waste and Mineral Lands, of £846 13*s.* 2*d.*; in other Rents, of £482 9*s.* 8*d.*; in Reimbursements, of £3989 8*s.* 4*d.*; and in Interest, of £694 3*s.* 5*d.* On the other hand there were increases in the following items:—Publicans and other Licences; Post Office; Telegraphs; Probate Duty; Registration of Dogs; Rural Police Rate; Fines, Fees, &c.; Sales of Lands; and Miscellaneous.

The Expenditure (excluding that from Loans) of the General Government was approximately (estimating the outstanding liabilities at £8500) £405,838 12*s.* 8*d.*; being £26,606 16*s.* 8*d.* more than in 1878. Expenditure, pp. 83, 84.

There appears a large increase under the head of "Railways" of £31,192 19*s.* 8*d.*; but this is a mere matter of account. The interest (£32,500 per annum) paid to the Tasmanian Main Line Railway Company having been charged in 1879 for the first time to current revenue. Deducting this £32,500 the expenditure of 1879 would be less by £5893 than that of 1878.

There were also decreases in the disbursements for Ecclesiastical, Charitable Institutions, Gaols, and Penal Establishments, Defences, Lands and Surveys, Public Works, Interest, Aid to Road Trusts and Municipalities, and Scab Act Fund; under all the other heads there were increases. That of £3199 on "Miscellaneous" items was caused by expenses on account of the Sydney Exhibition, and by an excess of £2372 on Interest on overdrawn accounts at the Bank.

The state of the money market during the last year was very nearly the same as in 1878. The Exchange with London was the same in the last ten months of both years. In January and February, 1878, the Banks bought mercantile bills at par and sold their own at ¾ per cent. premium. For the remainder of the year the rates were ¼ per cent. discount, and 1 per cent. premium respectively. The latter rates prevailed during the whole of 1879. The Exchange with the other Colonies of the group continued unaltered through both years. Course of Exchange, p. 86.

The rates of discount from 23 December, 1878, on through the following year were 8 and 9 per cent. for bills of 95 days and over respectively; previously to that date bills of 95 days and under were negotiated at 7 per cent.

Interest on fixed deposits for 3, 6, and 12 months continued to be given at 4, 5, and 6 per cent., as in 1878. The maximum has since fallen to 5 per cent.

The Banking Returns show a steady increase of business in the past as compared with the previous year. The total assets in the last quarter of 1879 and 1878 were £2,158,200 and £2,101,932 respectively, and the liabilities, £2,121,129 and £2,007,498; showing an increase of £56,268 and £113,631, or 2·68 and 5·66 respectively. The specie Banks, pp. 87-8.

* A discrepancy may be observed between items of revenue as stated by the Treasury and other departments, and also in the Treasury Account Current and Decennial Tables. These are thus explained:—The Treasury accounts being kept open for twelve months after the expiration of the year the amounts will vary according to the date to which they are made up.

and bullion increased in the same quarter of the two years from £302,712 to £323,625; the debts due to the Banks, from £1,648,980 to £1,740,577; the Notes in circulation from £122,588 to £125,830; the Bills in circulation, from £5528 to £7093; and the deposits, from £1,873,004 to £1,983,594.

Savings Banks, pp. 89-90.

The business done by the Savings' Bank was somewhat less in 1879–80 than in the preceding year, the amount to credit of depositors on the last day of February standing thus:—1879, £308,389; 1880, £298,202. The following were the deposits and repayments in the course of the two years:—

	Deposits.	*Repayments.*
1878–9.....	£181,303	184,355.
1879–80.....	174,925	185,112.
Difference.....	− 6378	+ 757

The tendency no doubt was to transfer money from these to the ordinary Banks, where a higher rate of interest (on fixed deposits) was obtainable.

The number of accounts open at the end of February was, however, greater in 1880 than in 1879, having increased from 12,764 to 13,128; the smaller class of depositors being more numerous in the later year. During the year 1879–80 2156 accounts were opened, and 1792 closed; the corresponding numbers in the year before being 2209 and 1706 respectively.

Post Office Money Orders, pp. 91-2.

The progress of the Money Order system has been more rapid than perhaps any thing else connected with the Colony. Since its first complete year (1866) 14 years ago, the whole business, that is, the Orders issued and paid, taken together, has increased 474 per cent. as regards the number, and 394 per cent. as regards the amount.

The number of Orders issued in 1879 was 17,065; amount, £61,152; the number paid 11,024; amount £37,383. The increase as between 1879 and 1878 was—

	Issued.	*Paid.*
Number.....	1828	1041
Amount.....	£6243	£2265

The following figures show the number issued in the two years classified according to the places on which they were drawn:—

	1879.	**1878.**
Stations within Tasmania.....	7798	6763
On other Colonies	7694	7040
On United Kingdom.....	1573	1434

The largest increase was on the Tasmanian Orders; for, while the others were only about 9 per cent. in excess, these were about 15.

Public Debt, pp. 93-4.

The Public Debt on 31 December, 1879, was £1,786,800 (not including £8600 authorised but not raised), having increased by £48,300 during the year. The rate per head was £15 17*s.* 0*d.* against £15 16*s.* 11¾*d.* in the previous year. The debt consisted of Debentures to the amount of £1,754,800, and Treasury Bills to the amount of £32,000. During the year £30,300 was borrowed on Debentures for public works and immigration purposes, and £25,000 on Treasury Bills to meet charges on the Consolidated Revenue; and £7000 of Treasury Bills were paid off. The rates of interest were, £977,600 at 6 per cent.; £300,000 at 4 per cent; and the rest at 5 per cent. The charge for interest during the year amounted to £91,837 19*s.* 3*d.*

Taxation, p. 95.

Of the whole revenue of the Government in 1879, £236,404, or nearly 63 per cent. was raised by taxation from the following sources: Customs Duties, Licences, Stamps, Probate Duty, Police Rate, Tolls, and Contributions from sheepowners for the purposes of the Scab Act. The rate per head of taxation for the General Government was £2 2*s.* 6*d.*, against £2 5*s.* 7½*d.* in 1878.

The local taxation amounted to £79,586, or £0 14*s.* 3¾*d.* per head, against £0 14*s.* 8¼*d.* in 1878.

The total amount borne by the taxpayer for all purposes was £2 16*s.* 9¾*d.* per head, against £3 0*s.* 3¾*d.* in the preceding year.

V.—ESTABLISHMENTS AND INSTITUTIONS MAINTAINED OR ASSISTED BY GOVERNMENT.

Post Office, p. 128.

The number of Post Offices and Receiving Houses was 198 in 1879, 191 in 1878; the number of persons employed increased from 301 to 308; the number of miles travelled by mail conveyance from 621,768 to 658,040.

The following was the number of letters, packets, and newspapers which passed through the Post Office in the last two years:—

					Increase.
Letters.	Inland	1879	1,774,207	..	120,167
		1878	1,654,040		
	Ship	1879	691,902	..	32,141
		1878	659,761		
Packets.	Inland	1879	70,470	..	6146
		1878	64,324		
	Ship	1879	57,876	..	—
		1878	58,309		
Newspapers.	Inland	1879	1,429,341	..	95,660
		1878	1,333,681		
	Ship	1879	611,561	..	22,342
		1878	589,219		

The increase upon the total numbers was,—upon letters, 6·58 per cent.; upon packets, 4·66; and upon newspapers, 6·14.

The revenue from the Post Office is estimated to have been £17,800 in 1879, or £800 more than in 1878; the expenditure £26,675, or £454 more.

Electric Telegraph, p. 129.

In the works of the Electric Telegraph there was a slight falling off in 1879 as compared with that of the preceding year. The number of stations increased from 59 to 62; the miles of line from 692 to 731; the miles of single wire from 910 to 949, and the number of persons employed from 76 to 79; but, notwithstanding the number of paid messages declined from 69,197 to 65,189, an increase being found only on the unpaid, which rose from 21,116 to 26,643. The messages paid and unpaid between stations within the Colony had a small increase of 11; while those between this Colony and other countries had a decrease of 1492. On the revenue of the Department there was a decrease of £51 9*s.* 9*d.*; but on the expenditure an increase of £178 2*s.*

If we compare the results of last year's working with those of 1877, they will show a very considerable improvement; and so with any other year. Ten years ago there were only 13 stations, 199 miles of wire, and only 20,536 messages were transmitted. Since that year the figures have continuously increased, with the single exception of 1879.

Launceston and Western Railway, pp. 130-2.

The results of the traffic on the Launceston and Western Railway in 1879 were not quite as favourable as in the previous year. The harvest of 1878-9 was below the average; and this fact must have had considerable influence on the amount of goods requiring conveyance. The crops in the present year having been exceptionally good, a corresponding increase in railway traffic in the present year may be expected.

The total train miles run on this railway in 1879, (100,624), was 1088 under those in 1878. On the tonnage of goods (16,363), there was a decrease of 1058; on the number of passengers, of 3216; on the total amount received (£21,583 19*s.* 6*d*), of £606 0*s.* 4*d.*; and on the receipts per train mile (4*s.* 3·4*d.*), of 0·9*d.*

On the working expenses (£18,699 7*s.* 5*d.*) there was an increase of £1018 6*s.* 7*d.*; being per mile open 18*s.* 2*d.*; per train mile 2·9*d.*

The profit from the railway in 1879, was £2884, against £4508 in 1878; the proportion of working expenses to gross earnings being 86·82 per cent., against 79·68 in the previous year.

The passengers were 103,256 and 106,472 respectively; the average distance travelled by each 17·63 and 17·39 miles; the average rate per passenger 1*s.* 11·43*d.* and and 1*s.* 11·10*d.*; per mile 1·33*d.* and 1·32*d.*; the tonnage of goods 16,363 and 17,421 in 1879 and 1878 respectively; average distance per ton, 27·36 and 29·11; rate per ton, 6*s.* 3·55*d.* and 6*s.* 9·02*d.*; per mile, 2·76*d.* and 2·78*d.*

The average train mileage in 1879 was 2236, against 2260 in 1878.

The gross earnings per mile open were £479·6 and £493 respectively; the working expenses per train mile 3*s.* 8·6*d.* and 3*s.* 5·7*d.*; and per mile open, £360·4 and £342·2.

Main Line Railway.

The Returns of the Main Line of Railway have not been received,* as the Manager states that he cannot give the exact figures until the accounts of the Board in England have been forwarded, and these have not yet reached him.

Marine Boards, p. 133.

The receipts of the Marine Boards in 1879 were £13,464 17*s.* 5*d.*, being £1202 17*s.* 2*d.* less than in 1878. The Expenditure—£14,720 19*s.* 8*d.*—was also less by £1007 11*s.* 11*d.* The Circular Head, Mersey, and Table Cape Boards had, however, a somewhat larger revenue, with a lessened expenditure.

Light-houses, *ib.*

The Light-house fund was also larger, being £6627 10*s.* 9*d.* in 1879, and £6153 1*s.* 9*d.* in 1878, with a larger balance at the end of the year. The outlay in 1879 was £5341 4*s.* 1*d.*

Salmon, &c. Breeding Establishment, *ib.*

In regard to the Salmon and Trout Breeding Establishment, I have only to remark that the work of distributing ova and fry still goes on, as the following statement will show:—

A salmon of 7¼ lbs. weight was captured in the Derwent in December last, and brown trout of 18, 22, and 22½ lbs. were taken in other rivers during the past season. In February last a fish of 28 lbs. was found dead in the Huon River. It was pronounced to be a salmonoid of some kind, but whether *trutta*, *fario*, or *salar*, unfortunately could not be determined, in consequence of its having been too much knocked about.

Government Establishments, pp. 134-141.

The Returns of the Establishments maintained by Government may be thus summarised:—

General Hospitals.—Average daily number 134, being about 1½ more than in 1878. Cases treated—In-patients, 1640; out-patients, 2528. There was a diminution of 15 in the in-patients, and of 2127 in the out-patients,—the latter being the result of an improved system of dealing with such cases.

Towards the end of November a Hospital for "Contagious Diseases" was established at the Cascades. The average number of patients during the part of the year in which it was in existence was 11½.

The great proportion of the in-patients in the General Hospitals in 1879, was between 15 and 25 years of age; the next largest number being between 55 and 65; then comes 45 to 55; 65 and upwards; 25 to 35; then 35 to 45.

* Since received; *vide* Appendix.

The birth-places are not given for Launceston. At Hobart Town 504 were born in the Colonies, 340 in England and Wales, 160 in Ireland, 53 in Scotland, and smaller numbers in other places.

Pauper Establishments.—Average daily number 898,* against 854 in 1878. The greater portion of these paupers was of 65 years of age and upwards. As to education 800 could read and write; 729 could not read, and 234 could read only; while 5 were of superior education. Birth-places: 1125 England and Wales; 441 Ireland; 95 Scotland; 57 Australian Colonies; 50 other countries. The Queen's Asylum for Destitute Children was discontinued in the course of the year, the remainder of the children being boarded-out.

Hospitals for the Insane.—Average daily number 300, being 2 more than in 1878. The average age of patients at New Norfolk was 46, and at the Cascades, 58½.

Gaols and Penal Establishments.—Average daily number 350, being about 7 fewer than in 1878. The average age of male prisoners at Hobart Town was 42½; of females, 37 nearly; at Launceston, both sexes, 43. Of the whole number received during the year 1053 could read and write; 285 could read only: 629 could not read; and 7 were of superior education. Of the inmates of the gaols, 717 were born in England and Wales; 595 in the Australian Colonies; 461 in Ireland; 177 in Scotland; and 24 in other countries. The number of prisoners convicted once before was 365; of those who had been convicted twice, 219; and of those who had brought themselves still more frequently within reach of the law, 998. In 1878 out of 1616 prisoners received into the gaols, 1272 had been convicted before: in 1879, out of 1743, 1582 had been previously convicted, and the proportion of previous convictions, which in 1878 was 78 per cent., in 1879 rose to 90 per cent.

Cost of Establishments.—The Hospitals, (including that for Contagious Diseases) entailed a gross expenditure of £10,005 (omitting fractions), a net expenditure of £9201: the average cost per head per annum being, at Hobart Town, gross £78 16*s.* 9*d.*, net, £72 13*s.* 6*d.*, at Launceston, gross, £67 12*s.* 3*d.*, net, £61 16*s.* 11*d.*

The Hospitals for the Insane cost £9921 gross, £8137 net. The gross average per head per annum was £28 14*s.* 4¼*d.* at New Norfolk, and £31 0*s.* 6*d.* at the Cascades; the net being £22 3*s.* 8¼*d.* and £30 5*s.* 10*d.* respectively.

The cost at the different Pauper Establishments was very nearly the same per head, the general average per annum being, gross £13 10*s.* 2*d.*, net £12 18*s.* 5*d.* The total cost was £11,683 10*s.* 8*d.* gross, £11,242 15*s.* 2*d.* net.

The gross cost of the Gaols and Penal Establishments was £10,935, net £8314; the average per head per annum being £31 3*s.* 11¼*d.* and £23 14*s.* 4½*d.* respectively.

The expense of all these establishments was £42,545, against which there was a set-off of £5649 received for labour of inmates, sale of produce, &c., leaving their actual cost £36,895. On the latter there was a reduction of about £2000 as compared with the year 1878.

Among the establishments assisted by the Government it may be sufficient to mention the Ragged Schools and Benevolent Societies. The Ragged Schools had 601 children on the books (60 less than in the previous year), with an average daily attendance of 435, or 19 more, showing that the schools were in a more satisfactory condition. Establishments assisted by Government, pp. 142-3.

The amount of relief distributed through the Benevolent Societies was materially less in 1879 than in 1878; the numbers in those years being—

	Permanent.	*Occasional.*
1878	199	655
1879	184	558
Decrease	15	97

The whole of the assisted charitable and philanthropic institutions received from the Government in 1879, £2463, from private subscriptions £894, from other sources £596.

* Excluding those at the Cascades, that establishment having been broken up on 30th June.

Besides the demands upon the Treasury for charitable purposes already mentioned, there was disbursed in 1879 a sum of £9633 for "Out-door relief," and £2031 for destitute children boarded-out, making the whole gross charge upon the public funds for hospitals, paupers, ragged schools, and out-door relief, £56,672.

It should be remarked that, while the expenditure on boarded-out children was greater in 1879 than in 1878, in consequence of the abolition of the Queen's Asylum, the amount required for out-door relief was not so large by £222.

Volunteers, p. 145.

The Return of Volunteers shows a total of all ranks on 31st December last, of 714; 313 composing the artillery, and 401 the rifle regiments. The rank and file are set down as 553.

Road Trusts, pp. 146-7; 149.

The Road Trusts had 4079 miles of road under their care; they received from rates and tolls £14,321, from Government £13,140; the total amount at their disposal (including balances) in the year was £37,305, and their expenditure was £31,472. In the great majority of cases the amount of assessment was 1*s.* in the pound. One Trust assessed itself at 2*d.*, one at 3*d.*, and one 9*d.*, and six Trusts adopted 6*d.* as their rate.

Municipalities, pp. 148-9.

The Municipalities had a total revenue of £86,418, of which £44,793 was derived from rates, £4682 from government, £3188 from licences and dog tax. Their expenditure was £92,996. The amount of their assessment ranged from 7*d.* to 1*s.* in the pound, including police rate. Hobart Town was taxed for municipal purposes 2*s.* 1*d.* in the pound, independently of water rate, which was regulated according to assessment of the premises; Launceston the same, with 1*s.* 2*d.* for water rate, making together 3*s.* 3*d.*

Hobart Town had a debt of £89,626; Launceston, of £90,216; Deloraine, of £1500; and Westbury, of £1800.

Property Valuation, p. 150.

The annual value of property throughout the colony, as shown by the rolls in 1879, was £683,077; the value in the two principal Towns being £184,300, in the Rural Municipalities, £368,565, and in the Police Districts, £130,212. As compared with the value in the previous year, there was an increase of £17,388; and in 1870, an increase of £72,853, or about 12 per cent.

VI.—Crown Lands, Agriculture, &c.

Lands leased, pp. 152-3.

The extent of land held under lease from the Government for ordinary purposes at the end of 1879, was 2,023,013 acres, the rental of which was £8360. As compared with the corresponding figures in the previous year, there was an increase of 20,141, or nearly 10 per cent. in the acreage, but a decrease of £348, or 4 per cent. in the rental.

The area of land leased during the year 1879 was very much smaller than in the year before, being 248,594 and 91,349 acres respectively.

Land sold, pp. 152-4.

The quantity of land sold was larger in 1879 than in the previous years, as the following figures will show:—

	Country Lots.	*Town Lots.*	Total.
	Acres.	Acres.	Acres.
1879	52,880	724	53,604
1878	44,933	1309	46,242

The increase on the total sales being 7362 acres; and on the country lots 7947 acres; there being a decrease on the town lots of 585 acres. The amount for which the land was sold was £76,263 in 1879 and £74,748 in 1878; and the average price per acre:—

	Country Lands.			*Town Lands.*		
	£	*s.*	*d.*	£	*s.*	*d.*
1879	1	6	1	10	1	5
1878	1	9	2	7	1	1

For town lands the demand seems to have been very brisk. At Launceston the average price was over £28 per acre; at Ross, £18; at St. Helen's, nearly £38; at Taranna, about £60; and at Waratah, £75.

During the year 1879, there were granted to persons who fulfilled the conditions of the Immigration Act, 897 acres, against 1054 acres in 1878. Land granted, p. 153.

The quantity of land alienated by sale or free grant up to the end of the past year was 4,193,445 acres, leaving 12,584,555 acres still unalienated and in possession of the State. Public Estate, ib.

There were 42 Gold Mining Leases applied for in the past year, and 44 were executed. At the end of the year 77 were in force, having an aggregate area of 757 acres. In 1878, 86 leases were applied for, 49 executed; there were in force on 31st Dec., 104, with an area of 1070 acres. Auriferous Land, p. 155.

In the Business Licences and Miners' Rights issued in 1879 there was a considerable increase, as the following comparison will show:—

	Business Licences.	*Miners' Rights.*
1879	72	2690
1878	42	1786

The amount received on account of auriferous lands in 1879, was £280 14*s.* 11*d.* less than in 1878, the figures being £2351 0*s.* 8*d.* and £2070 5*s.* 9*d.* respectively.

In regard to "Mineral Leases" there was also a considerable decrease in 1879. In that year 67 were granted for tin mining, 4 for iron, and 1 for coal, the aggregate area being 3145 acres, and the rental £746. Mineral Leases, pp. 156–7.

The number of such leases in force on 31st Dec. 1879, was 392; the area 25,144 acres; and the rental £6098. Of these 354 were for tin; 11 for copper; 9 for iron; 6 for coal; 5 for slate; 3 for bismuth; 2 for galena; 1 for lime; and 1 for shale. As compared with 1878, there was an increase on the number of leases of 62, but a decrease of 3230 in the acreage, and of £729 in the rental.

The Agricultural and Live Stock Returns for the year ended 31st March last were published in the *Gazette* of June 1—ten days earlier than they have ever been published before. They might have appeared still earlier, but for the want of information in respect to one property at Westbury in consequence of the absence of the owner, and for some delay in regard to the district of Sorell caused by the Collector waiting for the completion of the threshing, in order to obtain the exact result. After waiting, however, for a week, I obtained an estimate of the wheat at Sorell remaining unthreshed, and published the tables in the next week's *Gazette*, with a note explaining that they were subject to future revision. It appeared, on careful consideration, better to adopt this plan than to hold them back until they could be made absolutely correct, inasmuch as it is of more importance to the agriculturalist that the information should be afforded as early as possible, before he puts in his crops, than that it should be minutely accurate. A near approximation is sufficient for his purpose. As republished in the present volume, the tables have been revised and corrected. Agriculture, pp. 158–164.

The following was the average of land under cultivation in 1879-80:—

		Acres.	*Acres.*
Cereals	Wheat	45,191	
	Barley	6571	
	Oats	37,259	
	Rye	110	
			89,131
Legumes	Pease	5958	
	Beans	353	
	Tares	186	
			6497
Root Crops	Potatoes	9762	
	Turnips, Carrots, Mangel Wurzel, and Onions	3370	
			13,132

	Acres.
Artificial Grasses (seed)	3553
Hay	35,638
Hops	578
Other crops	273
Gardens and Orchards	6559
In Green Forage	1198
Total in crop	156,559
In Artificial Pasture	117,666
Under bare fallow	26,287
All other cultivated land	66,399
Total under cultivation	366,911

Included in the above were 4431 acres of land newly broken up, and 6885 under rotation of crops.

The proportion per cent. of each crop to the total land in crop was as under :—

Wheat	28·86		Artificial Grasses	2·27
Barley	4·20		Hay	22·76
Oats	23·80		Hops	·37
Rye	·07		Other crops	·17
		56·93	Gardens and Orchards	4·19
Pease	3·80		In Green Forage	·77
Beans	·23			
Tares	·12			100·00
		4·15		
Potatoes	6·24			
Other root crops	2·15			
		8·39		

The differences (omitting some of the small crops) in the acreage of 1879-80, as compared with that of the previous year, were these :—

Wheat	3201 less.	Other root crops	419 more.
Barley	2531 more.	Hay	1705 more.
Oats	8457 more.	Hops	82 less.
Pease	1258 more.	Gardens and Orchards	267 more.
Potatoes	1683 more.		

On the total land in crop there was an increase of 12,762 acres, the acreage being the largest since 1870-1 ; on permanent artificial grasses, of 794 acres ; on fallow land, of 2181 acres ; and on the total land under cultivation, of 11,508 acres, the area being the largest in the decennium. In land classed as "all other cultivated land" there was a decrease of 4229 acres.

Thus, although less Wheat and Hops were sown, there was more land in almost every other description of crop ; and the increase in all these crops is very much greater than it was in grasses.

The gross produce of Wheat was 1,042,999 bushels (about 9 $\frac{1}{10}$ bushels per head of the probable population in the present year); of Barley, 182,753 ; of Oats, 1,065,847 ; of Potatoes, 31,103 tons ; of Hay, 54,079 tons; of Hops, 738,616 lbs. The barley, oat, and hay crops were the largest in the last ten years ; the hop and flax crops the smallest.

The average yield of Wheat, Oats, Pease, and Hay was the largest in the last ten years. That of the principal crops per acre was as follows :—

Wheat	23·08 bushels.	Potatoes	3·18 tons.
Barley	27·83 bushels.	Hay	1·51 tons.
Oats	28·60 bushels.	Hops	1280 lbs.

Comparing the average produce in 1879-80 by districts, we have these results :— Wheat, maximum, 29·42 bushels, at Fingal ; minimum, 14·89, at George Town : Barley, maximum, 34·85, at Richmond ; minimum, 15·75, at Geoage Town ; Oats, maximum, 43·50, at Campbell Town ; minimum, 17·17, at George Town ; Potatoes, maximum, 4·73 tons, at Fingal ; minimum, 2·13, at Campbell Town and Bothwell: Hay,

maximum, 2·21 tons, at Emu Bay; minimum, 1·08, at New Norfolk; Hops, maximum, 1465 lbs., at Glenorchy; minimum, 422 lbs., at Brighton.

Reference has already been made to the prices of some articles of agricultural produce at Hobart Town. It may be added that the mean of the prices returned for the whole Colony was—Wheat, 4*s.* 3½*d.* per bushel; Barley, 4*s.* 4¼*d.*; Oats, 2*s.* 0¼*d.*; Potatoes, £3 13*s.* per ton; Hay, £2 17*s.* 10*d.*; Hops, 1*s.* 3*d.* per lb.; Apples, 4*s.* 4*d.* per bushel; Pears, 3*s.* 10¾*d.*

In the use of machinery for agricultural purposes there is the same advance which has been noticed on former occasions. In steam engines, chaff-cutters (worked by horse or steam), cultivators, corn-crushers, hay-rakes (horse), horse-hoes, and similar implements, lift and force pumps, mowing machines, reapers and mowers combined, and strippers, there were considerable increases. The farmers are apparently quite alive to the advantages of the reapers and binders, which have recently been perfected, 47 of these machines being returned in the present year. Of course the success of these tends to displace the old reaping machines.

The area of wheat land reaped by machine in the past season was 14,180 acres, and by hand 31,011; the proportions being 31 and 69 per cent. respectively. On the former there was an increase, as compared with the preceding year, of 279 acres. With the present improved machines there will probably be a much larger increase in the coming season. In that of 1869-70 the area reaped by machines was only 3685 acres; so that it has nearly quadrupled since that year.

The following information relating to Agriculture in the year ending 31 March, 1880, in the three mainland colonies of Victoria, New South Wales, and South Australia, the returns for which have been received, may be useful:— **Agriculture in certain Colonies.**

Colonies.	*Area under*				*Average Produce per Acre.*			
	Wheat.	Oats.	Potatoes.	Hay.	Wheat.	Oats.	Potatoes.	Hay.
	Acres.	Acres.	Acres.	Acres.	Bush.	Bush.	Tons.	Tons.
Victoria	707,738	167,721	41,600	201,169	13·3	24·0	4·0	1·5
New South Wales	233,368	23,883	19,271	112,414	15·5	22·2	3·2	1·4
South Australia	1,458,096	4117	7320	265,067	9·8	15·0	3·8	1·1

The increases in the acreage, as compared with that of the preceding year, were—

Victoria: Wheat, 16,116; Oats, 33,293; Potatoes, 5073; Hay, 28,370.

New South Wales: Wheat, 116; Oats, 1754; Potatoes, 2546; Hay, 8318.

South Australia: Wheat, 152,245; Oats, 1186; Potatoes, 1922; Hay, 46,708.

The crop of Wheat in Victoria was a fair average, but about 50 per cent. more than in the year before; that of Oats, Potatoes, and Hay was exceptionally large.

The yield of Wheat in New South Wales was about 1 bushel, and that of Oats about 2 bushels in excess.

In South Australia all the above crops were more abundant in the last season. For two years previously the wheat crop had been deficient.

Among the minor crops in Victoria were hops, which covered 260 acres in 1879-80, against 203 in the previous year, and produced 2528 and 1168 cwts. in the two years respectively.

The following was the number of Live Stock in the Colony (not including the Islands in Bass' Straits) on 31st March last:—Horses, 24,593; horned cattle, 129,317; sheep, 1,835,970; goats, 2278; mules, 4; asses, 11; pigs, 38,610. As compared with the previous year, there was an increase in horses of 486; in horned cattle of 3041, and in asses of 3. In sheep there was a decrease of 2861; in goats of 89; in mules of 5; and in pigs of 985. **Live Stock, pp. 165-6.**

To every head of the mean population there were on 31st March:—Horses, 0·22; horned cattle, 1·15; sheep, 16·39; goats, 0·02; pigs, 0·34. If, therefore, an equal distribution of the live stock had been made on this basis, every man, woman, and child would have had a small flock of 16 sheep, one head of cattle and about a seventh share in a second, about a fifth share of a horse, and about the third share of a pig; while fifty persons would have rejoiced in the joint possession of a goat.

The imports of sheep in 1879 were 13,132, against 10,980 in 1878; and of horned cattle, 1476, against 1347.

The number of animals slaughtered at the public slaughter-houses in Hobart Town and Launceston in 1879 was:—Sheep, 94,171; cattle, 8084; pigs, 4968. We have no means of ascertaining the number slaughtered in the country districts, inasmuch as there are no public abattoirs there, and consequently no information on the subject is available. There was an increase in the sheep of 6674; in the cattle of 45; but a decrease in the pigs of 724.

The number of persons who washed their sheep in warm water in 1878 and 1879 was returned as 19 and 60; and the number who sheared in the grease 1131 and 1352 respectively. There was also a corresponding increase in the number of persons furnishing returns, which was as follows:—

	Returns of Live Stock only.....	1074	..	1116

Collectors' Reports, pp. 213-16.

The Collectors in their reports for the most part speak favourably of the last season's crops, but refer to the low prices of produce. Potatoes, however, in several districts suffered from drought or grub, and mangels from drought. The district of Russell seems to have been unfortunate. Not only did the crops fall below what was expected, but they were destroyed by parrots and caterpillars. In the Portland district satisfactory progress was being made. Sheep and cattle were increasing, new land was being taken up, scrub burnt off, and land laid down in grass. The advantages of a rotation of crops and of fallowing were becoming better understood, and in some parts artificial manures were being more largely used. In the district of Russell, we are informed, guano and bone dust were used "in quantities exceeding anything of the kind observable in previous years." The report from Hamilton speaks of a "marked improvement in farming." Underground drainage is mentioned only in reference to the district of Russell, where it is said to have been tried, in a few instances, on a small scale, by means of pipes, "with gratifying results."

VII.—Law, Crime, &c.

Commitments, pp. 168, 173.

There were committed in 1879, 114 persons, being 5 more than in the preceding year. The males were 99; the females 15, or less than one-sixth. In regard to their civil condition, 81 had been, up to the time of their commitment, always free; 29 were free by servitude; 2 were holding conditional pardons; and 2 were under sentence.

So many persons had not previously been committed since 1874.

Superior Courts, *ib.*

The number of indictments and informations preferred in the Superior Courts of the Colony was 105, and of persons tried, 96; which is 19 more than in 1878, and is the largest number since 1873. Of the cases tried, 35 were for offences against the person, 37 for offences against property, and 24 for other offences. Seventy-five of them were felonies, 21 misdemeanors. Sixty-seven, or 70 per cent. were convicted; but none was executed. It is worthy of note that, while the convictions for offences against persons and property were very nearly the same in 1879 as in 1875 (a difference of only one more of the former) those for other offences have very seriously increased, the numbers being—1875, 3; 1876, 1; 1877, 6; 1878, 6; 1879, 20. The cases discharged or acquitted in 1879 were 29, precisely the same number as in 1875.

Inferior Courts, pp. 169-73.

The cases dealt with by Magistrates in 1879 were 8709 in number, or 808 more than in 1878. The number convicted (including lunatics, but not orders for payment of money) was 5556, or 591 more.

Including the cases which resulted only in orders for the payment of money (such as some under the Masters and Servants Act, the Indigent Persons Maintenance Act, &c.) the convictions were 7061, being 81 per cent. of the number dealt with; 387 or 5·48 per cent. being offences against the person; 679, or 9·62 per cent., being offences against property; and 5995, or 84·90 per cent., offences of all other kinds.

The number discharged or acquitted in the lower Courts was 1538, or 17·66 per cent. of the whole number of persons proceeded against.

The total number of persons reported to the police during the year was 11,047, of whom 636 were, from want of evidence, or other causes, not prosecuted.

The persons convicted were thus punished:—By fine, 2750; by imprisonment, in lieu of fine or surety, 1454; by peremptory imprisonment, 964: 76 were bound over with or without sureties; 1505 were ordered to pay moneys (for rates, support of relatives, &c.), and 278 though convicted, were suffered to go unpunished. Thirty-four were found to be insane, and are therefore not included in the "convicted."

On looking more closely into the return of cases brought before the magistrates, and comparing the particulars with those of previous returns, my attention was arrested by the increase in the numbers of certain offences, all referable more or less directly to a common origin, namely, idle, dissolute, unruly conduct—what is commonly known as "larrikinism." For the last three years the comparison stands thus:—

	1879.	1878.	1877.
Rape	27	8	4
Ditto, Assault with intent to commit	6	1	—
Indecent Assaults	20	18	12
Unnatural Offences	9	1	4
Ditto, Assault with intent to commit	—	3	1
Drunkenness	1504	1374	1345
Obscene, &c. Language or Behaviour	564	479	577

The Civil business of the Courts was greater in 1879 than in previous years; indeed, there is hardly anything in which the Colony seems to have made greater progress than in litigation. The following are the figures for 1870 and 1879, respectively:— Litigation, pp. 174-5.

	1870.	1879.
Summonses issued	2934	4008
Causes tried	1439	2141
Amount sued for	£14,222	£24,967
Amount of verdicts obtained	£7233	£13,165

The Civil cases (8) tried before the Supreme Court in its ordinary jurisdiction, however, were only half as many as they were in 1878. The only other year in the decennium when they were as few was 1876.

Three petitions (for dissolution of marriage) were presented to the Supreme Court in its Matrimonial Jurisdiction in 1879, being one more than in 1878; and 3 Protection Orders were granted. Divorce, p. 175.

Probates and Letters of Administration to the number of 148 were granted in 1879, the value of the property being sworn under £312,957. In 1878 the number was 142, the value of property £253,770. Probates, &c., ib.

Fourteen persons were adjudicated bankrupts in 1879, and 52 distressed debtors presented petitions for liquidation by arrangement. In the former there was an increase, as compared with the previous year, of 1; in the latter, of 12. The voluntary bankruptcies had not been so numerous since 1870. Bankruptcies, p. 176.

The total number of Mortgages registered in 1879 was greater, although the value of the properties was smaller, than in 1878. Under the new, or "Torrens" system, there was an increase in both. The increase in value of mortgages under the latter since 1870 was 173 per cent. Mortgages, pp. 176-7.

The numbers and amounts in the two years were:—

	Number.	Amount. £
1879.		
Under old system	452	248,052
Ditto new system	269	126,355
	721	£374,407
1878.		
Under old system	421	284,245
Ditto new system	249	112,994
	670	£397,239

Lands' Titles Office, p. 177.

There was also an increase in other transactions of the Lands Titles' Office, as well as in mortgages, as will be seen from the figures which follow:—

	No. of Transactions.	Amount. £	Area. Acres.
1879	1321	426,595	157,138
1878	1276	369,474	145,398

The value in 1879 was more than three times that of 1870.

Bills of Sale, p. 178.

Bills of Sale were registered in 1879 to the number of 230, and renewals 67, the amounts secured by both being £97,141. There was an increase of 26 and 27 in the numbers respectively, and of £22,367 in the amount, as compared with the preceding year. The amount in 1879 was the largest in the ten years, the next largest being £92,680 in 1872.

Grant Deeds, *ib.*

The Grant Deeds enrolled in 1879 were 337, being 40 fewer than in 1878. These increased from 260 in 1871 to 650 in 1874; fell off to 364 in 1877; and rose to 377 in 1878.

Inquests, pp. 179-80.

The Inquests in 1879 (118), were fewer than in any other year of the decennium—the nearest number being 126, in 1876. There were 16 children under 7; 8 from 7 to 16; 53 persons between 16 and 60; and 41 above 60. The finding of the juries was murder in 3 cases; manslaughter in 2; suicide in 3; accidental death in 44; "found dead" in 18; excessive drinking in 4; disease, aggravated by neglect, in 1; and in 43 cases the causes are not particularised.

VIII.—Education, &c.

Public Schools, pp. 182-3.

There were 171 Schools under the Board of Education in 1879—being 7 more than in 1878. These were conducted by 138 male and 172 female teachers, pupil teachers, and paid monitors. They had 12,652 distinct scholars on the rolls during the year, the average number of scholars on the rolls being 8520, and the average number in daily attendance, 6203. There was an increase, as compared with the preceding year, of 199 distinct scholars on the rolls, of 223 on the average on the rolls, and of 171 on the average daily attendance.

The amount of pecuniary aid granted for primary education from the Treasury in 1879 was £15,951, being at the rate of £2 13*s.* 4½*d.* per head per annum for the average daily attendance. The amount received from parents for school fees was £6148. Adding the cost of administration and inspection, the whole expenditure for these schools from public funds was £17,888, or £2 17*s.* 8*d.* per head; the contributions from parents being 19*s.* 9¾*d.* per head.

Exhibitions, p. 184.

There were 13 exhibitions tenable at superior schools awarded by the Board and Council of Education in 1879, costing £986.

Scholarships, &c., *ib.*

The Tasmanian Council of Education expended £2050 in discharging its functions in regard to higher Education, by granting the degree of Associate of Arts, and conferring Scholarships tenable at approved Universities. Last year a new feature was introduced into the system, by the establishment of two minor scholarships, of £40 each per annum,

to enable students who have taken the Associate's degree to pursue their studies until they are in a position to present themselves for examination for the Tasmanian Scholarships. These minor scholarships fill up an hiatus which previously existed between the two ends of the educational chain. There is nothing now to prevent any one who possesses the requisite ability and energy from rising from the lowest class of a school under the Board of Education, to the highest honors which the principal Universities of the United Kingdom can confer.

It should be mentioned, to the honor of our Educational Institutions, that exhibitions are now awarded to girls as well as boys. Five such exhibitions were awarded last year. Allowances are also made to country exhibitioners, to enable them to pursue their studies in the chief towns.

Forty-four Friendly Societies filed returns for the past year, against 35 in the year before. They had an aggregate of 4107 members; their receipts amounted to £11,912; their expenditure to £9996; and they had £30,849 of accumulated capital. Of these 4107 members, 1593 belonged to the Manchester Unity, 184 to the Ancient and Independent Order of Odd Fellows, 639 to the Rechabites, and 442 to the Foresters. Friendly Societies, pp. 186-7.

IX.—Vital Statistics.

During the past year 3564 children were born and registered, being 62 more than in 1878. The rate per 1000 of mean population was 32·04, being 0·23 per 1000 lower than in 1878, but higher than in any other year in the last decennium. Births, pp. 190-200.

Of the children born 1790 were females and only 1774 males. Thus the number of females exceeded that of males. This is a very remarkable circumstance, which, as far as I am aware, has happened only five times in the history of the colony,—in 1879, 1873, 1852, 1841, and 1839. In 1879 the births of male children were to those of female in 99·11 to 100.

The deaths of children under 1 year of age in 1879 were 384, being 10·77 per cent. of the births, which is rather higher than the corresponding proportion of deaths (10·71) in 1878.

The Marriages in 1879 were 804, against 866 in 1878,—a decrease of 62. Of this decrease 35, or more than one half occurred among the Independents, or those who were married according to their rites; 15 among adherents of the Church of England; 7 among those of the Church of Rome; while the Baptists and the "Christians" had each 4, and the Free Church of Scotland 3, fewer. Marriages, pp. 198-9.

The marriage-rate in 1879 was 7·23 per 1000—fewer than in 1877 and 1878, but higher than in all the other years of the decennium.

The number of Deaths at all ages registered as having occurred in 1879 was 1688—a reduction of 12 on the number (1701) of ascertained deaths in the previous year. Deaths, pp. 191-200.

The death-rate in 1879 was 15·18 per 1000, being ·49 per 1000 lower than in the previous year. The rate has not been so low since 1873.

The rate which the deaths at each age bore to the deaths at all known ages registered in or for 1879 was as under:—

	Per Cent.		Per Cent.
0— 1	22·76	40—50	5·45
1— 5	8·18	50—60	8·42
5—10	3·32	60—70	14·94
10—20	5·27	70—80	14·64
20—30	5·93	80—90	6 05
30—40	4·03	90—100	1·01

Here we observe the small proportion (as compared with other countries) of infants under one year, and the large proportion of aged persons, of 60 and upwards—17 being registered as between 90 and 100.

The mortality is usually greatest in Tasmania in the first or third quarter of the year, the fourth being decidedly the healthiest. Last year the greatest number of deaths

occurred in the third; the first quarter being next in order of mortality. In 1878 the first quarter was the most fatal, the second next.

The following were the proportions per cent. of each class of diseases to the total specified diseases in the last two years:—

		1879.		1878.
I.	Zymotic	17·78	..	17·63
II.	Constitutional	11·99	..	13·11
III.	Local	42·30	..	41·63
IV.	Developmental	22·02	..	21·26
V.	Violent	5·91	..	6·37
		100·00		100·00

There was very little difference in the relative proportions. The Zymotic were among those that were in excess.

In the Zymotic class, scarlatina caused 2 deaths in 1879, against 7 in 1878; diphtheria 61, or 2 more; quinsy, croup, and whooping cough were more fatal in 1879, the deaths from these three being 42, against 15 in 1878. Typhoid and other fevers of the same type caused 2 deaths fewer, erysipelas, 4 more, influenza and other like diseases 10 more; rheumatism, 12 more; other diseases of the Zymotic class 1 more. Dysentery, diarrhœa, and cholera had a much lower mortality, the numbers in the two years being 82 and 111 respectively. The other diseases of this class present no variations worth noticing.

In the Constitutional class there was an increase of 8 deaths from cancer, and 2 from mortification, 1 from polypus, 1 from noma, 1 (a female) from gout, and 2 from unspecified diseases. From dropsy, however, there were 6 less, and from tumor 3 less.

Tubercular diseases caused 25 fewer deaths, phthisis having only 87 deaths, instead of 112; tabes mesenterica having 6 fewer. Scrofula, on the contrary, carried off 2 more, and other diseases of the same order 4 more.

In the Local class affections of the brain and nervous system were less deadly; for while apoplexy, paralysis, and cephalitis (or inflammation of the brain) were more so, convulsions and other disorders of the brain had fewer deaths.

Heart disease was more destructive, the numbers being 132 and 109 in 1879 and 1878 respectively.

The respiratory system had nearly the same number of deaths—one less; there being an increase in those from lung disease, but a decrease in those from bronchitis.

The digestive organs had 9 less; the urinary 13 more.

Among diseases of the Developmental class the principal cause of death was old age, the deaths from which were 231 in 1879, against 213 in the previous year.

The deaths through homicide were 3 less; through suicide also 3 less.

The following list will show the number of deaths from, and consequently the relative destructiveness of, a few of the principal causes of death in the last year:—

1. Old age	231	7. Diarrhœa	64
2. Heart disease	121	8. Diphtheria	61
3. Phthisis	87	8. Cancer	61
4. Pneumonia	75	9. Apoplexy	51
5. Convulsions	73	9. Bronchitis	51
6. Atrophy and debility	65	10. Paralysis	45

Old age is uniformly first. Heart disease, which in the preceding three years occupied the third or fourth place, reached a higher grade of fatality in 1879. Pneumonia was fourth, instead of being, as it generally is, fifth or sixth. Diphtheria, in the preceding three years, did not come within the first eight at all; and cancer made its appearance among them only once.

The number of cases of disease treated in the General Hospitals at Hobart Town, Launceston, and Campbell Town in 1879, was 1673,* and the deaths 153; the latter being 12 less than in 1878. The following were the ratios per cent. of deaths to cases and admissions in 1879:— Deaths in Hospitals. pp. 201-3.

	To Cases.	*To Admissions.*
At Hobart Town	7·45	7·95
At Launceston.....	10·21	11·32
At Campbell Town.....	5·66	6·00

The mortality, as in previous years, was much higher in the Launceston Hospital than in the other Hospitals, where it was exceptionally low.

At the Hospital for the Insane, New Norfolk, 297 cases of sickness were treated, and 19 patients died; the rate of mortality being 6·40 per cent.

The deaths at the Pauper Establishments and Gaols in proportion to the average number maintained throughout the year, were—

Brickfields, Hobart Town	27·91	71½

The mean reading of the barometer at Hobart Town throughout the year was 29·875, or ·071 higher than in 1878; of the thermometer 55·39, or ·37 higher. The mean of the highest readings in the sun of the self-registering thermometer (100·60) was 10·87 above that of 1878; the means of the highest readings in the shade (65·24), and the lowest on the grass (37·00) were rather below those of 1878. Humidity (·76) was ·01 higher; obscuration (7·00) was ·36 higher. Wind-force was lower, the monthly mean being ·60, against 1·05, and the maximum 4·87, against 7·79. The rain-fall in the year was 21·07 inches, being 8·69 inches less than in 1878, and about 3 inches less than the average of 35 years. Spontaneous evaporation (28·30) was greater by ·04 than in 1878. The amount of ozone was less, being 4·79, against 5·23. Meteorology, pp. 204-5.

Ever since the abolition of the Magnetic Observatory established in Hobart Town by the Admiralty, the meteorological observations there have been taken by Mr. F. Abbott; and as the increasing infirmities of age have compelled him at last to give up a work which he has performed for so many years at his own expense, for the pure love of science, unless some arrangement be made to continue his observations the present will be the last occasion on which it will be possible to furnish a Meteorological Table for Hobart Town. If this should be the case, it will be the more to be regretted because at a Conference of the Government Meteorologists held at Sydney in November last, it was agreed "That in view of the great importance which a better knowledge of the movement and origin of strong gales and storms on our coast lines and neighbouring seas is to the shipping and commercial interests generally, it is desirable to secure as far as possible co-operation in all the Australasian Colonies for the investigation of storms as well as for agricultural and general climatological purposes;" and that the Government of each colony should be asked to sanction the expense of publishing certain observations taken at the same local hour, so that they could be compared with each other. It was deemed especially desirable that there should be a station at Hobart Town. As a proof of the importance of such a system to the shipping interest it was stated that "the observations at Hobart Town would indicate a considerable time beforehand whether the disturbance would become a serious one on the eastern coast of Australia. For instance, it was a fact that the gale

*In was only discovered in writing this report, that the returns of diseases and deaths for the Launceston Hospital since 1876 have been based upon the "admissions" and not on the "cases" treated, the distinction, apparently, not having been understood.

in which the *Dandenong* was wrecked was indicated at Hobart Town thirty hours before it reached Sydney."

The subject is one of deep importance to insurers of shipping, and it seems strange that the Insurance Offices have not taken it up. The system might probably be worked in this colony at Hobart Town and George Town (the localities recommended by the Conference) by officers of the Telegraph department, and the whole expense, which need not be heavy, might be divided in proportion to population among the contracting colonies; and perhaps the funds might be wholly or partly provided out of the charges on shipping.

Putting aside the interests of science, there can be no question that a well-arranged and carefully worked system of recording and publishing daily the changes of weather in the principal colonies of the group might be made the means of saving much valuable property from shipwreck, as well as many lives.

X.—Miscellaneous.

Political Franchise, p. 208.

The number of electors for the Legislative Council on the rolls before the last revision in the early part of the present year is stated by the various Returning Officers (whose returns, however, both as regards the Council and Assembly, do not in some instances, quite correspond with those furnished last year) to have been 3063. There were added 269 and struck off 204, leaving 3128 on the revised rolls, being a gain of 65. No contested election for the Council was held during the past year.

On the rolls for the House of Assembly there were 15,334 electors before the revision; 2435 were added, on revision, and 2110 struck off, leaving 15,659, or 325 more than on the last rolls.

On a general view of the foregoing facts it will be seen that, while in some respects the condition of the Colony was not so flourishing in 1879 as in the preceding year, there were evidences of advance in others. As an instance of this it may be mentioned that, according to a local newspaper, between 40 and 50 houses were a short time since in course of building in Launceston. The quantity of gold produced was more than doubled; the amount of shipping was considerably greater; the number of industries increased; and if the prices of agricultural produce were generally low, the yield was exceptionally good.

The revival in trade which has already commenced in England and elsewhere may be expected to react beneficially on these Colonies; and judging from present indications, there is every reason to believe that the year now passing will compare very favourably with that which we have now had under review.

I have the honor to be,

Sir,

Your most obedient Servant,

E. C. NOWELL, *Government Statistician.*

[a] Includes payments under head of Magistracy, which were formerly included under head of "Police."

[b] Payments for Magistracy being now shown separately in Estimates are included under head of "Judicial."

[c] From 1872 to 1877 the only expenditure has been included under the head of "Powder Magazines and Batteries;" and as it is impossible to separate the amount paid on account of Magazines and Batteries, the full amount is placed under the head of Miscellaneous.

[d] In 1871 the Survey and Public Works Departments were amalgamated under the head of Lands and Works. The total departmental expenditure from 1871 to 1878 is placed against Crown Lands and Surveys. From 1879 the cost is again separated.

[e] Includes £6800 Treasury Bills paid off, being for Public Works under Acts 40 Vict. No. 4 and 41 Vict. No. 10, made payable out of Revenue. These Treasury Bills are now provided for by Act 43 Vict. No. 19; and the amount appears under the head of Miscellaneous Receipts in 1879, the Accounts for 1878 having been finally closed before the passing of this Act.

[f] All expenditure under this head is provided for by Loans Act, and is not therefore included in this Return.

[g] Total amount of reserve available for payment of Road Trnst for 1871.

[h] Total amount of reserve available for payment of Road Trusts for 1872, and also includes a payment of £75 13*s.* 6*d.* to Deloraine Road Trust on account of arrears transferred to this year.

[i] Includes £1873 0*s.* 11*d.*, being excess of payments to Road Trusts over available reserves for years 1871 and 1872, transferred to this year.

[j] Includes £18 16*s.* 2*d.*, payment to Longley Road Trust on account of the year 1874, made in 1876.

[k] Includes payments to Road Trusts for 1875 made in 1877.

[l] Includes all Road Trust claims for 1877 paid during 1878, and also arrears of 1876, £1526 12*s.* 4*d.*,

[m] Includes all Road Trust claims for 1878 paid during 1879, and also arrears of 1876 and 1877 £4123 14*s.* 1*d.*

[n] Total amount of reserve available for year 1879.

[o] For details, see p. 84.

[p] Includes £6046 14*s.* 2*d.* for repairs, furniture, &c. for Government House.

[q] Treasury Bills issued in 1874 and redeemed in 1875.

* NOTE.—As the Accounts for 1879 will not be finally closed until 31 December, 1880, this year will have to be revised in next year's Statistics.

WM. H. WINDSOR, *Assistant Colonial Treasurer.*

(a) In Municipalities, these form part of the Local Revenue.
(b) It is impossible to ascertain accurately the revenue derived from the Post Office and from "The Stamp Act" respectively, the same form of stamps being used for both purposes.
(c) The Government Tolls are let by Tender,—the above being the amount paid by the lessees for the same. The actual amount of Tolls paid by the public to the lessees is not known.
(d) The amount placed against each rate is in accordance with the Returns furnished by the Municipalities. It is certain, however, that in some cases what is nominally a "Police" Rate is really a "General" Rate, the proceeds not being solely applied for maintenance of the Police.

Note.—In the Revenue and Expenditure of Municipalities are included—Municipalities: £18,850 derived from loans, and £11,024 for repayment of loans.

	NOTE.—The purchase or consideration money is to be truly expressed and set forth in words at length in or upon every such principal or only deed or instrument of title or conveyance.			
	And where any lands or other property of different tenures or holdings, or held under different titles, contracted to be sold at one entire price for the whole, shall be conveyed to the purchaser in separate parts or parcels by different deeds or instruments, the purchase or consideration money shall be divided and apportioned in such manner as the parties shall think fit, so that a distinct price or consideration for each separate part or parcel may be set forth in or upon the principal or only deed or instrument of conveyance relating thereto, which shall be charged with the said *ad valorem* duty in respect of the price or consideration money therein set forth.			
	And where any lands or other property contracted to be purchased by two or more persons jointly, or by any person for himself and others, or wholly for others, at one entire price for the whole, is conveyed in parts or parcels by separate deeds or instruments to the persons for whom the same is purchased for distinct parts or shares of the purchase money, the principal or only deed or instrument of conveyance of each separate part or parcel shall be charged with the said *ad valorem* duty in respect of the sum of money therein specified as the consideration for the same. But if separate parts or parcels of such lands or other property are conveyed to or to the use of or in trust for different persons in and by one and the same deed or instrument, then such deed or instrument shall be charged with the said *ad valorem* duty, in respect of the aggregate amount of the purchase or consideration moneys therein mentioned to be paid or agreed to be paid for the lands or property thereby conveyed.			
	And where any person having contracted for the purchase of any lands or other property, but not having obtained a conveyance thereof, shall contract to sell to any other person, and the same shall in consequence be conveyed immediately to the sub-purchaser, the principal or only deed or instrument of conveyance shall be charged with the said *ad valorem* duty in respect of the purchase or consideration money therein mentioned to be paid or agreed to be paid by the sub-purchaser.			
	And where any person having contracted for the purchase of any lands or other property, but not having obtained a conveyance thereof, shall contract to sell the whole or any part or parts thereof to any other person or persons, and the same shall in consequence be conveyed by the original seller to different persons in parts or parcels, the principal or only deed or instrument of conveyance of each part or parcel thereof shall be charged with the said *ad valorem* duty in respect only of the purchase or consideration money which shall be therein mentioned to be paid or agreed to be paid for the same by the person or persons to whom or to whose use or in trust for whom the conveyance shall be made without regard to the amount of the original purchase money.			
	And in all cases of such sub-sales as aforesaid the sub-purchasers, and the persons immediately selling to them, shall be deemed and taken to be the purchasers and sellers within the intent and meaning of the provisions of this Act relating to the *ad valorem* duties on conveyances on the sale of property thereby imposed.			
	But where any sub-purchaser shall take an actual conveyance of the interest of the person immediately selling to him, which shall be chargeable with the said *ad valorem* duty in respect of the purchase or consideration money paid or agreed to be paid by him, and shall be duly stamped accordingly, any deed or instrument of conveyance to be afterwards made to him of the property in question by the original seller shall be exempted from the said *ad valorem* duty, and be charged only with the ordinary duty on deeds or instruments of the same kind, not upon a sale.			
	And where any lands or other property separately contracted to be purchased of different persons at separate and distinct prices shall be conveyed to the purchaser, or as he shall direct in and by one and the same deed or instrument, such deed or instrument shall be charged with the said *ad valorem* duty in respect of the aggregate amount of the purchase or consideration moneys therein mentioned to be paid or agreed to be paid for the same.			
	And where any lands or other property shall be sold and conveyed in consideration wholly or in part of any sum of money charged thereon by way of mortgage or otherwise, and then due and owing to the purchaser, or shall be sold and conveyed subject to any mortgage, bond, or other debt, or to any

And to prevent doubts respecting what shall be deemed the principal deed or instrument of conveyance in certain cases, it is declared : That where *upon the sale of any annuity or other right not before in existence* the same shall not be created by actual grant or conveyance, but shall only be secured by bond, warrant of attorney, covenant, contract, or otherwise, the bond or other instrument by which the same shall be secured, or some one of such instruments if there be more than one, shall be deemed and taken to be liable to the same duty as an actual grant or conveyance. And where there shall be several deeds, instruments, or writings for completing the title to the property sold, such of them as are not liable to the said *ad valorem* duty shall be charged with the duty to which the same may be liable under any general or particular description of such deeds, instruments, or writings contained in *The Stamp Act.* And where *in any case not hereby expressly provided for* of several deeds, instruments, or writings a doubt shall arise which is the principal, it shall be lawful for the parties to determine for themselves which shall be so deemed, and to pay the said *ad valorem* duty thereon accordingly; and if necessary the other deeds, instruments, or writings on which the doubt shall have arisen shall be stamped with a particular stamp for denoting or testifying the payment of the *ad valorem* duty upon all the deeds or instruments being produced and appearing to be duly stamped in other respects. And where there shall be duplicates of any deed or instrument chargeable with the said *ad valorem* duty, one of them only shall be charged therewith, and the other or others shall be charged with the ordinary duty on deeds or instruments of the same kind not upon a sale, and on the whole being produced duly stamped as hereby required, the latter shall also be stamped with a particular stamp for denoting or testifying the payment of the said *ad valorem* duty. *Exemptions from the preceding Duties on Conveyance upon the Sale of Lands, &c.* All transfers of Debentures of the Colony. (a) Previous to 1871 no record was kept of the *total* number of Letters, &c. passing through the Post Office, the numbers dealt with at Hobart Town and Launceston only being recorded.
(b) Estimated. See note to previous Return.
(c) From 1st November, 1870, the rate per half oz. for Inland Letters was reduced from 4*d.* to 2*d.*, and for Intercolonial Letters from 6*d.* to 3*d.*
(d) Obtained from the Lands Department. The number of miles in former years has been overstated.

The Submarine Cable was opened for public use on the 1st May, 1869. A great reduction in the charges for Inland Messages was made on the 20th May, 1869.

[a] Not including the officers at the Mount Nelson or Longford Stations, or at the Launceston and Western Railway Stations, whose salaries are not paid by the Department, or the men occasionally employed in repairing the Lines. [b] The Revenue as here given does not include the amount collected, nor the Expenditure the amount paid, by the Department as Agent for the Submarine Cable Company and Lines in other Colonies, &c. [c] Does not include the annual subsidy of £4200, which, since the 1st May, 1869, has been paid to the Submarine Cable Company. This amount has been excluded, as it was desired to show the working expenses of the Department, but it must of course be included in order to ascertain the total cost to the Colony of the telegraphic service. [d] Includes Shipping Messages, Enquiries, &c. transmitted free, the numbers of which are estimated as follows:—1000 in 1869, 3000 in 1870, 3000 in 1871, 4000 in 1872, 4000 in 1873, 4000 in 1874, 5000 in 1875, 5000 in 1876, 6000 in 1877, 6000 in 1878. The number of Messages transmitted between Railway Stations on railway business is not included. [e] Corrected, the numbers given in last Return, as furnished by the Telegraph Department, having been since found to be erroneous.

MEMO.—The Returns hitherto furnished of the Area of Crown Land under Rental have, for many years past,* shown a considerable excess beyond the actual quantity under lease. It is difficult now to account for the very great discrepancy; but it may have arisen, in some measure, from the fact that, *after* the annual Returns are made up, lists of persons who have failed to pay rent are received from the Colonial Treasury, and they have not been taken into consideration when the Returns for the following year have been prepared.

* Up to, and including, 1866.

* K. signifies "Cumulus," K.N. "Cumulo-nimbus,"

At Hobart Town the Observations are taken twice daily; viz., at 7·30 A.M. and 4·30 P.M.
The mean is in all cases taken from the *sums* of the two daily registers, not from the maximum and minimum.
The direction of the wind is registered from currents at a height of 92 feet above the sea level, and its force in lbs. per square foot.
The relative quantity of rain that fell under the different winds is registered each morning at 7·30 A.M.

EXTRACTS from Reports of the Collectors of Agricultural Statistics.

BOTHWELL.

THE Stock and Crop Returns having been prepared with great care, will, I trust, be found satisfactory. I cannot observe any alteration in the mode of cultivation.

The District being a pastoral one, very little interest is taken in any other pursuit.

T. PERKINS, *Collector.*

CAMPBELL TOWN.

THE season having been far more favorable than is generally the case in this portion of the island, which, as a rule, suffers greatly from the want of rain, the crops are more abundant than usual, the quantity of grain grown more than doubling that of last year; the hay crop has been extremely good, but potatoes and mangel wurzel have suffered greatly from the drought which prevailed in the latter part of the season.

As regards live stock, there is little difference from last year; the number of stud sheep exported has much decreased.

Shearing in the grease still continues.

The crop of apples and pears shows an improvement; but this is owing to the favourableness of the season, which has enabled them to longer resist the attack of the Codlin Moth, the numbers of which have not in any degree diminished.

T. H. POWER.

DELORAINE.

No new productions. The mode of cultivation is the same as last year. The crops on the whole yielded better than they have done for some years past.

There are three reapers and binders added to our stock of reaping and mowing machines, and work remarkably well.

There is no improvement in the breed of live stock, but they have increased in numbers since last year.

P. LANE, *Collector.*

EMU BAY.

IN a few instances, farmers have considerably improved in the mode of farming, and many have cleared forest land which will no doubt prove remunerative shortly. Grass, at present, appears to be the main object.

Owing to the low prices of produce, and damage done to grass seed by the caterpillar, farmers, as a rule, are not in a very prosperous state. The crops have been very good.

No new machinery or farming implements have been brought into use, beyond a few mowing and reaping machines, which have answered satisfactorily.

No improvement in the breed of live stock worthy of special mention.

HENRY BERRESFORD, *Collector.*

EVANDALE.

I HAVE nothing new to report on, as this District is pretty much at a stand still. I notice that double-furrow ploughs are coming into more general use.

I am also glad to be able to say that the crops have generally been very fair this year; the prices, however, are very unremunerative.

Sheepowners are, as a rule, shearing more in grease than formerly.

R. MARRIOTT.

GREEN PONDS.

THE potato crop is very poor in consequence of the want of rain in the proper season.

On eight farms the double-furrow ploughs are in use, and on four farms the double-furrow and three-furrow ploughs are in use: this is in consequence of the ploughs being made on the township by Mr. James Pearce.

The rabbits are still numerous in this District, and very destructive.

There is nothing new to bring under your notice since my last return.

P. FINIGAN, *Collector.*

GLAMORGAN.

LITTLE or no change has taken place since 1879 in either agricultural or pastoral pursuits in this District, except those affected by the splendid season we have had.

There is a great improvement in the produce per acre over other years, chiefly to be attributed to the season.

One stripping machine has been imported, (besides two of the ordinary kind of 'Reaper and Mower combined') being the first used in this District: in dry weather it operated fairly well.

Mr. Meredith remarks on his 'Producers' Schedule' that "chain harrows are invaluable for covering in grass seed when sown."

WALTER RUST, *Collector.*

GEORGE TOWN.

THERE is a falling off in the acreage of wheat, owing to the general increase in oats, barley, pease, beans, potatoes, mangels, and hay, whilst turnips, carrots, and onions remain the same. One new production, lucerne. Apples have largely increased. Horses, cattle, sheep, and pigs have increased; in goats I find a decrease. I find the sheep-owners in this District all wash in cold water, and am informed the value of the wool is one-third more than shorn in the grease, and if washed in warm water, double the value.

ROBT. J. HARRIS, *Collector.*

HUON.

UNDER the head of new productions I have no special report. I am glad to notice a decided increase in the number of stock, also an increase in the acreage of land, showing that, although slowly, the forest lands are surely being settled on and reclaimed for agricultural purposes.

JOHN LAMBERT.

HAMILTON.

THERE is a little improvement in machinery, five double-furrow ploughs have been imported into the District, four of which are in operation on one farm.

There is an increase under Rotation of Crops, which shows a marked improvement in farming.

No underground drainage that I know of.

The breeding of stock, getting up wool, &c., same as last year.

MARTIN NEYLON, *Collector.*

KINGBOROUGH.

IN reporting upon the Agricultural, Pastoral, and Live Stock aspects of the District, I beg most respectfully to state as follows; viz.—

1st. No new productions, to my knowledge.

2nd. No improvements in the mode of cultivation: rotation cropping is a thing almost unknown here, and fallowing is very little better. The principal manures used are farm-yard, collected about the homesteads, and bone dust, the latter by only a few.

3rd. No underground drainage that I have heard of.

4th. No improved kinds of machinery or farming implements that I am aware of, nor any increase in the employment of labour.

5th. No improvements in the breed of stock, nor in getting up wool.

6th. On comparing the statistical information collected this year with that of last I find that there is an increase of over 100 acres under crops, and that the yield of most of them exceeds that of last, particularly barley, oats, pease, hay, raspberries, and apples. Raspberries were sold much cheaper this year than last. In fact the late crops were not picked at all, as the price the owners were offered for them would not pay for picking.

Dairy farming, and soft or small fruit growing, seems to receive more attention here than anything else.

The Returns herewith have received as much attention from the collectors to ensure accuracy as it was possible to bestow upon them.

R. ARMSTRONG, *Chief District Constable.*

LAUNCESTON.

THE only new production this year has been flax, grown by Wm. Jones, Launceston.

There is an increase in the area of land, both under rotation of crops and fallow.

Guano is used extensively on some of the farms, on old land, but stable manure is also used, particularly in the market gardens in the vicinity, when at all procurable.

In machinery, the reaper and binder machines have been introduced into use and are reported to have done their work well and save a good deal of labour.

In both the acreage under crop and the average return per acre, except potatoes, there is a large increase, the season having been a very favourable one.

There is also an increase in apples and pears, but the grub is very destructive. There is also an increase in permanent grass, principally in the Scottsdale part of the District, which with the increased acreage under crop accounts for the decrease in all other land. The new land broken up is in the Scottsdale and Piper's River part of the District.

There is an increase in horses and horned cattle, but a decrease in sheep: this is accounted for by several sheep-owners having left the district, and the parties succeeding them having given their returns in other districts.

JAMES PROPSTING, *Collector.*

LONGFORD.

No change whatever has taken place in this District during the year, that is, with respect to any new productions, mode of cultivation, breeding of stock, or the getting up of wool, &c.

Machinery and farm implements, the reaper and binder, as also the double-furrow ploughs are in greater favour, both of which are increasing in use every year. In conclusion, I may add that the season has been all that could be desired for agricultural purposes, as the yield of the various crops will show.

J. EAST, *Superintendent of Police.*

NEW NORFOLK.

I HAVE not anything to report in the matter of new productions and modes of cultivation, fallowing, and use of manures.

As I anticipated, the area under hops is considerably less, but the crop for this season is a fair average. The red spider made its appearance in a number of fields, which deteriorated the sample, although there were some splendid samples produced, as good as I have seen. I don't think there will be any further reduction of the area under hops for the present, owing to better prices ruling this season than last one.

The potato crop has suffered very much from the grub, owing, I am informed, to the dryness of the season; some fields have been a complete failure. Turnips, mangolds, and other root crops have also not generally yielded well.

The hay crop has been a fair one, and owing to the favourable weather the sample is almost universally good; but the market is low, and, after deducting cost of freight to market, does not leave enough for the farmer.

The wheat and other grain crops are a fair average.

In drainage I have nothing worth mentioning.

The use of double and treble-furrow ploughs is quietly advancing, the double-furrow being the favourite.

Lots of raspberries and other small fruit were left ungathered, the demand not being equal to the supply, which was a great loss to many a poor settler in the bush.

The season has been too dry for apples, and fine samples have only been obtained in favourable situations, or where irrigation is followed.

The breeding of live stock and getting up of wool remains about the same as last year.

JAMES STEVENSON, *Collector.*

PORTLAND.

THERE has been a considerable increase in hay and potatoes, owing to the demand for the same at the tin mines. Also, I notice an increase in sheep and cattle, and in the acreage of permanent artificial grasses.

There has been no improvement in the mode of cultivation of crops, or in the breeding of stock.

Dairy farming and the fattening of stock is what the principal landowners turn their attention to. There have been no new productions during the year.

No improvements have taken place in machinery or farming implements.

A considerable quantity of new land has been taken up by intending settlers, who have improved the same by scrubbing and burning off, and laying down several acres in artificial grasses.

ROBERT W. STUART.

PORT SORELL.

IN forwarding the Agricultural and Live Stock Returns for the District of Port Sorell for the year ending 31st March, 1880, permit me to call your attention to the great increase that has taken place as compared with last year returns. I may here mention that artificial manures have been largely used by several in the District: to this, combined with the fine season we have had, I attribute the great increase in the Statistics.

There is nothing further of any importance taken place since the date of my last Report that would call for any special remarks.

RICHARD DRISCOLL, *Collector.*

RICHMOND.

I AM unable to note any marked improvement in the mode of farming beyond the gradual extension of the use of machinery, and the latest improvement in agricultural implements.

Last season was a favourable one for cereals, and the yield, particularly in wheat, is large.

J. GRIFFITH.

ROSS.

IN forwarding the Agricultural and Live Stock Returns for the year ending 31st March, 1880, I beg to report:—

No new productions or improvements in mode of cultivation, &c.

In grain crops the area of land under cultivation was more than last year, and the produce per acre much larger than the usual average in this District, owing to seasonable rains.

In sheep and cattle the Return shows a small decrease. I attribute this to certain properties having passed into other hands during the year. Improvement in the breed of sheep continues, many of the flocks are shorn in the grease.

W. E. WARNER, *Collector, Ross District.*

RUSSELL.

1. New productions, none.

2. There has been scarcely any perceptible improvement in the mode of cultivation practised, beyond the fact that farmers are recognising the value of manures, guano and bone-dust having been used in quantities exceeding anything of the kind observable in previous years.

3. Few turn their attention to drainage; but in a few instances under-ground drainage on a small scale, by means of pipes, has been tried with gratifying results.

4. No machinery has been introduced during the year, but with regard to farming implements a desire has been shown to benefit by all latest improvements.

5. Nothing in the breeding of live stock, or preparation of wool, calls for remarks.

The early spring gave promise of an abundant harvest, dissipated by long continued drought, and the ravages of parrots and caterpillars. Potatoes have proved deficient in quantity and inferior in quality to an extent not known for many years. In like manner the grain crop that should have yielded abundantly has been in many cases not worth the cutting and havesting.

Poor crops, and the extremely low prices offering for every description of produce, combine to render the year a peculiarly trying one.

A. GRUBB.

SPRING BAY.

1st. New productions, none.

2nd. No improvement has taken place in mode of cultivation, and with few exceptions fallowing is not much resorted to. The manures most made use of are bone dust and guano.

3rd. Drainage is not much attended to.

4th. A reaper and binder has been introduced into the District since last year.

5th. Marked improvement has taken place in the breed of stock, and many stock-owners have made great progress with scrubbing and girdling their runs.

H. G. RUDD, *Collector.*

WESTBURY.

I HAVE the honor to forward Agricultural and Live Stock Returns for year ending 31st March, 1880. In doing so it is gratifying to observe the large increase in wheat and oats. In wheat there is an increase of 44,868 bushels, with 1060 acres less land in cultivation; in oats a corresponding increase, 60,814 bushels in excess of previous year. The yield in the barley crop has not been so good as expected in consequence of the ravages of the caterpillar: one-half the crop on some farms has been destroyed by this insect. The potato crop on many farms has been attacked by the grub, which is similar in size to the codlin moth, but of a different colour. The harvest weather has been exceptionally fine. The low prices given for grain induced many farmers to mow several paddocks for hay. There are about one dozen reapers and binders in use in this District now, dispensing with a great deal of manual labour. Double-furrow ploughs are on the increase. There is nothing particular to note in connection with the mode of cultivating the land. A large quantity of crown land has been applied for and taken up in the outlying portions of this District.
