### Fund-raiser for children

I would like to let readers know of the fun night that more than 100 women experienced last Saturday night (July 29) at Avoca.

The function was a fund-raiser for the Launceston General Hospital's children's ward and about \$4000 was raised during a night that was amazingly well planned.

There was much hilarity and terrific participation.

Women of all ages came to the Avoca Memorial Hall from the surrounding areas.

The organisers should be very proud of what was achieved.

Those who generously donated so many prizes and-or spent up in order to help the children of the North should give themselves a large pat on the back.

It's wonderful to be reminded of the marvellous community spirit that we have in Tasmania, when we make our own good times and help others in our community.

— HEATHER BUTLER, MHA, Labor Member for Lyons.
