Funding Boost For Queenstown Senior Citizens Club

The Queenstown Senior Citizens Club has today been presented with State Government funding enabling members to carry out much-needed repairs and maintenance on their clubrooms.

Premier David Bartlett and Lyons Labor MHA Heather Butler visited the club to break the good news to President Bev Mee and other members on the way to a meeting of State Cabinet at the local council chambers.

“Heather told me the Senior Citizens Club is one of the hubs of the Queenstown community, with a great camaraderie among members,” Mr Bartlett said.

“She has also been telling me that members are very proud of their clubrooms but that they could do with a good ‘tickle-up’.

“It seemed to me that this was a very worthwhile community project for the State Government to get involved with.

“So I was only too happy to drop by and give Bev and the other club members the good news while we were all in Queenstown.
