- 1653** The Minister for Resources to move—That the House:—
- (1) Notes that 7-13 May 2017 is Motor Neurone Disease Week, a national week dedicated to raising awareness of Motor Neurone Disease (MND) and raise funds to help bring about a world free from MND.
 - (2) Recognises that MND affects over 400,000 people globally with over 140,000 people diagnosed with MND each year, that is 384 new cases every day.
 - (3) Further notes that over 2,100 Australians are living with MND, including some 45 Tasmanians. MND Australia reports that 752 Australians died from MND in 2015, more than 2 people per day.
 - (4) Acknowledges that the Deloitte access Economics Report on the Economic Analysis of Motor Neurone Disease (MND) in Australia released in 2016 revealed that the total cost of MND in Australia was a staggering \$2.37 billion in 2015, which equates to \$1.1 million per person.
 - (5) Further recognises that MND not only affects the person with motor neurone disease but also directly or indirectly effects on average 14 other friends and relatives.
 - (6) Further notes that during MND Week this year, MND Australia is running a new social media campaign, 'Life Measured in Moments' a series of videos telling the stories of everyday people living with MND and encourages Tasmanians to visit the MND Australia website, get involved in an MND Week event near them or donate to MND Tasmania on MND Button Day this Thursday 4 May, who will have volunteers on the streets fundraising and raising awareness of MND.
 - (7) Congratulates and thanks both MND Australia and MND Tasmania, who for over twenty years, have proved effective advocates, promoted optimal care and support options for those living with MND and tirelessly raised funds for research into the cause and, ultimately, cure for MND.
 - (8) Further notes that, 21 June 2016, is Motor Neurone Disease Global Day, a global day of recognition for Amyotrophic Lateral Sclerosis (ALS) and Motor Neurone Disease (MND)—a disease that affects every country on the globe. (3 May 2017)
- 1654** Ms O'Connor to move—That the House:—
- (1) Acknowledges that the Labor Green Government undertook 9,500 free energy efficiency upgrades for low income households, community groups and small businesses, significantly lowering household energy costs and making homes warmer in winter, cooler in summer and healthier year round.

- (2) Notes the Hodgman Government scrapped the free energy efficiency upgrade scheme and replaced it with a Harvey Norman style credit scheme with the Westpac Bank, inviting Tasmanians to go in to debt to make their homes more energy efficient.
- (3) Further notes that between 2013-15, Westpac Bank donated \$31, 900 to the Tasmanian Branch of the Liberal Party.
- (4) Recognises that the deal announced by the Minister for Energy, Hon. Matthew Groom MP, is potentially lucrative for Westpac and will deliver to the big bank thousands of new customers.
- (5) Calls on the Minister for Energy to explain in detail the arrangement with Westpac Bank, including detail on interest rates to be charged after the three year zero interest period ends for customers, and whether any safety net has been put in place to protect low to medium income Tasmanians from the risk of high interest credit card debt as a result of this deal. (3 May 2017)

1655 Mr *Brooks* to move—That the House:—

- (1) Notes that two-time Olympic cyclist Tracey Gaudry, has been appointed as the CEO of the Hawthorn Football Club.
- (2) Further notes that Mrs Gaudry is the first full-time female Chief Executive Officer of an AFL club.
- (3) Further notes that Mrs Gaudry has held significant senior professional roles in sport which include being a current vice-president of the International Cycling Union and the General Manager of Commercial and Growth at Athletics Australia.
- (4) Further notes that this is another major positive step for women in senior roles in AFL that follows Richmond President , Peggy O’Neal becoming the first female president of an AFL club in 2013, and the very successful launch of the first AFL Women’s Competition in 2017.
- (5) Congratulates Tracey on her appointment to lead the Tassie Hawks, and wishes her every success in the future. (3 May 2017)

1656 Ms *Woodruff* to move—That the House:—

- (1) Notes that in addition to the waste feed and fish faeces polluting the marine environment, which remains largely out of sight, fish farms are creating significant quantities of marine debris.
- (2) Recognises that storms, accidents, human error and carelessness results in fish farming equipment being lost or abandoned, and these often linger for years in waterways and wash up on beaches.
- (3) Understands that a number of clean-ups in Macquarie Harbour and the Channel region have resulted in the recovery of large amounts of fish farm debris including ropes, feed bags, plastic buoys and large sections of poly pipe, often too heavy to remove.
- (4) Further notes that on 28 April 2017 the Greens received an email from a concerned yachty of an enormous circular structure made of poly pipe towering approximately 3 meters above the water in Snake Bay.
- (5) Further understands fish farm debris is both polluting our waterways, and present a serious safety risk to waterway users.
- (6) Further notes the warning from the General Manager of Marine Safety Tasmania that a boat user will be killed if Tasmania’s aquaculture companies do not remove floating debris in waterways, after a boat struck a 150m long poly pipe that had been dislodged from a salmon farm operated by Tassal near Dover in 2016.
- (7) Acknowledges that recreational fishers, sailors, and community groups are increasingly frustrated with the inability to hold the fish farms to account for their debris, with reports to MAST, the EPA and DPIPWWE not resulting in any credible action.
- (8) Calls on the Government to protect boat users, our waterways and beaches from the scourge of fish farm marine debris through legislative changes to hold fish farming companies to account, backed by funding of bodies tasked with enforcing those rules. (3 May 2017)

1657 Ms *Dawkins* to move—That the House:—

- (1) Recognises the environmental issue of food waste in Tasmania.

- (2) Notes the recently held national Food Waste Roundtable which brought together Government, Industry and the Not-for-profit sector, to further the goal of halving food waste in Australia by 2030.
- (3) Further notes that Australian consumers waste around 20% of food that they buy, and more than 4 million tonnes of food ends up in landfill each year.
- (4) Recognises that this reflects a worldwide problem, and understands it's estimated that one-third of food produced worldwide is wasted each year.
- (5) Further notes that food wastage costs the Australian economy about \$20 Billion a year, but the social impact is also immense. While we produce enough food to feed tens of millions of people a year – every month over 600,000 people seek help for food relief from charities.
- (6) Further recognises the economic, environmental and social benefits that would flow if we did not waste so much food.
- (7) Supports the encouragement of businesses in Tasmania that sell food to donate it to charities rather than throw it away.
- (8) Calls on the Government to support and contribute to any efforts to formulate a National Food Waste Strategy, and actively seek opportunities to improve the effectiveness of dealing with food waste in Tasmania. (3 May 2017)

1658 The Minister for Building and Construction to move—That the House:—

- (1) Notes that the Hodgman Liberal Government is committed to lifting health and safety outcomes for all Tasmanians.
- (2) Further notes that WorkSafe Tasmania, in conjunction with the federal Asbestos Safety and Eradication Agency, have developed at the Government's request a new Asbestos Awareness and Education campaign, launched on Tuesday 4 May 2017.
- (3) Further notes that Australia was one of the highest users of asbestos per capita in the world until the mid-1980s, leaving a legacy of asbestos containing materials in our built environment despite the complete prohibition of its use in Australia in 2003.
- (4) Acknowledges that people who've never worked with asbestos — but were exposed to it through activities such as home renovations — can suffer from asbestos-related diseases.
- (5) Applauds a major focus of the new campaign of increasing awareness and understanding of asbestos among DIYers to ensure that everyone can readily access key information and facts.
- (6) Further notes that the six week multimedia campaign urges Tasmanians undertaking any renovation work to check the WorkSafe website – www.worksafe.tas.gov.au/asbestos-safety – before picking up their tools to learn more about:—
 - (a) common asbestos locations;
 - (b) asbestos facts and myths; and
 - (c) how to safely manage asbestos.
- (7) Further acknowledges that the Liberal Government is a strong supporter of our building industry – including the DIY sector – and is committed to ensuring everyone can safely go about their work. (4 May 2017)

1659 The Minister for Resources to move—That the House:—

- (1) Notes that Agfest, Tasmania's premier agricultural and machinery field day event ran from May 4 – 6 May 2017.
- (2) Recognises that Agfest was first held at Symmons Plains in 1983 however had outgrown that site by 1986 where it was moved to its current location at Quercus Park, Carrick.
- (3) Acknowledges that Agfest is administered by Rural Youth Tasmania which is a non-profit organisation with members between the ages of 15 and 30.
- (4) Further notes that the Agfest Committee is a volunteer role comprised of approximately 60 Rural Youth members.
- (5) Agfest continues to grow each year, with Agfest 2016 attracting over 60,000 patrons and 700 exhibitors injecting millions of dollars into our local economy annually.
- (6) Congratulates Agfest Chair Kate Birch and thanks Rural Youth and its tireless band of volunteers for their hard work and dedication that has made Agfest the truly iconic, nationally recognised event it has become. (4 May 2017)

1660 Mr *Jaensch* to move—That the House notes:—

- (a) Hobart and Tasmania hosted the 2017 Lions National Convention at Wrest Point, as in 1993 and 2003;
- (b) this is a particular honour as 2017 is the Centenary Year of Lions International;
- (c) the Centenary Convention's theme is 'Where There's a Need, There's a Lion', and the Hobart event will be officially opened by Her Excellency Professor The Honourable Kate Warner AC, Governor of Tasmania;
- (d) around 1,600 delegates are arriving in Tasmania from all over Australia, including Lions from my former home state of WA, making this one of Tasmania's biggest business events for the year;
- (e) Lions are great guests. They link up with people and projects in our own communities, sharing knowledge and ideas from other places. They also tend to stay and explore, visiting family and friends they have made through Lions, and drinking all their wine. First time visitors tend to become firm friends and ambassadors for Tasmania when they go home. The economic benefit to Tasmania of all this hospitality over the next fortnight alone will be around \$3 million – the overall long-term benefit is much greater; and
- (f) they are here to discuss the future of their local and global organisations, their projects and priorities across fields including youth, medical research and community service, international outreach and humanitarian programs and the continuing contribution of Lions as a force for goodwill and positive action in the world. (4 May 2017)

1661 Mr *Jaensch* to move—That the House:—

- (1) Notes:—
 - (a) Tasmania Police conducted Operation Crossroads over the Easter period 2017, conducting 18,777 random drug and alcohol tests, up from 14 319 in 2016;
 - (b) 54 motorists were charged with drink driving offences, up from 40 in 2016, which is partly due to an additional day of testing in 2017;
 - (c) 81 motorists returned positive oral fluid tests, indicating the presence of illicit drugs in their system, as a basis for further testing;
 - (d) the number of positive drug driver tests was almost double the number recorded last year, which reflects the increased number of tests conducted; and
 - (e) most importantly, there were no fatal crashes and only two serious crashes, which is an improvement on 2016's result of zero fatalities and four serious crashes over the same period in 2016.
- (2) Thanks and congratulates all Tasmania Police personnel who contributed to the Operation Crossroads initiative, and all Tasmanian and visiting road users for heeding their messages and keeping our roads fatality free this Easter 2017. (4 May 2017)

1662 Ms *Woodruff* to move—That the House:—

- (1) Notes that the Liberal and Labor Parties have both declared themselves to be content with the impacts, regulatory framework, monitoring and enforcement of fish farming in Tasmania, including the projected doubling of the industry.
- (2) Understands that residents, recreational fishers, other commercial fishers, tourism operators, and sailors feel shut out of the flawed Okehampton Bay approval, and of decisions for a massive salmon farm that would blanket Storm Bay.
- (3) Realises the Minister for Primary Industries and Water, Hon. Jeremy Rockliff MP has repeatedly refused to explain why his Department spent two years fighting the release of information about fish deaths not reported by Tassal for weeks, which represents just one example of the secrecy surrounding his management of this industry.
- (4) Calls on the Hodgman Government to drop its single-minded support of short-term corporate interests, and instead ensure the marine environment is protected, there is a strong social license for this industry, and act for the long-term interests of salmonid growers and the Tasmanians they employ. (4 May 2017)

- 1663** Ms *Woodruff* to move—That the House:—
- (1) Understands that in March 2017 Forestry Tasmania proposed to light 230 regeneration burns in Autumn 2017, stating these burns would only occur when weather conditions were suitable and smoke could disperse.
 - (2) Notes that on 29 to 30 April 2017 in communities across the State, and specifically at New Norfolk, Judbury, Cygnet and Huonville, residents were subjected to thick choking smoke from Forestry Tasmania burns.
 - (3) Further notes that air quality reporting data showed high spikes in smoke pollution in April 2017, particularly across the New Norfolk, Huonville and Cygnet areas.
 - (4) Recognises massive regeneration burns are a serious health concern, as particulate pollution is a known risk to people with respiratory and cardiac conditions, elderly people and children.
 - (5) Also recognises these burns damage our reputation as a clean, green tourism destination, and that there are other methods for Forestry Tasmania to achieve regeneration.
 - (6) Further understands Forestry regeneration burns are again not being adequately controlled, that these fires escaped their bounds in Judbury, and the Tasmanian Fire Service had to be called in to control the situation while there were two other vegetation fires around the State.
 - (7) Further understands Forestry regeneration burns compete with the TFS's opportunity to conduct fuel reduction burns.
 - (8) Calls on the Government to realise extremely high levels of smoke pollution and fires escaping control are not in the interests of public health and safety, and to direct Forestry to put these first as their business priorities. (4 May 2017)
- 1664** The Minister for Health to move—That the House:—
- (1) Congratulates the 700 people who ran through clouds of coloured powder at Windsor Park on Sunday to raise \$10,000 for Bravehearts as part of Megan McGinty's run across seven states in seven days.
 - (2) Recognises the important work Braveheart does in our community in protecting children from sexual assault and abductions through education and empowerment.
 - (3) Notes that in Australia one in five children are sexually assaulted and we as a community all have a responsibility to keep our children safe. (4 May 2017)
- 1665** The Minister for Health to move—That the House:—
- (1) Notes that the Government in April 2017 announced that \$5 million per year would be allocated to the John L Grove Centre to fund the 20-bed slow-to-recover rehabilitation centre over the next four years, as well as committing to its ongoing funding.
 - (2) Recognises that this funding will help stroke patients like Mr Wayne Ackerly of George Town, who suffered a massive stroke in November 2016, and spent nearly a month in the Launceston General Hospital before moving into the John L Grove rehabilitation centre in December 2016.
 - (3) Commend the staff at the centre who have helped Mr Ackerly walk again after he was told he probably would not walk again and may not even return home, noting that he is walking now and will be able to return home soon which is great news.
 - (4) Acknowledges that this important funding is a major demonstration of the Liberal Hodgman Government's commitment to allied health and nursing professionals working together in the state and the important contribution this teamwork makes to Tasmanians' quality of life.
 - (5) Notes that the Hodgman Liberal Government is able to invest more than \$600 million more than the previous Government as a result of the hard work in fixing the budget and focusing on the real and pressing health needs of Tasmanians. (4 May 2017)
- 1666** The Minister for Police, Fire and Emergency Management to move—That the House:—
- (1) Notes that 4 May 2017 was St Florian's Day, otherwise known as International Firefighters Day, which is an opportunity to honour the work and sacrifices that firefighters make in our community.

- (2) Acknowledges that 15 Tasmanian firefighters have passed away while on duty in this State.
- (3) Recognises the inherent dangers faced by the 350 men and women career firefighters in Tasmania who go to work each day with the community expectation that they will be the last line of defence to protect life and property. (4 May 2017)

1667 Ms *Courtney* to move—That the House:—

- (1) Recognises that National Volunteer Week for 2017 took place from 8 May – 14 May 2017, with the theme ‘Give Happy, Live Happy’.
- (2) Notes that National Volunteer Week celebrates the positive contributions of our wonderful volunteers in our communities.
- (3) Congratulates the wide variety of community groups across Tasmania who are hosting events and awards ceremonies for their volunteers.
- (4) Acknowledges the hard work and dedication of Volunteering Tasmania, who do an outstanding job of promoting and sustaining ‘volunteerism’.
- (5) Commends all finalists in the upcoming 2017 Southern Cross News Tasmanian Volunteering Awards for their efforts and wishes them every success.
- (6) Thanks the thousands of volunteers around our State who help to support our community. (4 May 2017)

1668 Ms *Dawkins* to move—That the House:—

- (1) Recognises the importance of the \$100 million a year abalone export industry in Tasmania, the world’s largest abalone resource, which supplies 25% of the total annual global production of wild caught product.
- (2) Notes that the industry employs a significant number of Tasmanian divers from within the dive services sector.
- (3) Further notes that while the industry is now experiencing an increase in prices for catches, and some industry players are very profitable, the industry has changed over recent years, with many actual divers now struggling to earn enough money to sustain their businesses.
- (4) Further notes that while some of these divers would like to leave the industry, they face high exit barriers, which contribute to an imbalance between the number of divers employed in the sector and the number the market can properly sustain.
- (5) Further notes the second Knuckey report concludes that the ‘dive services market is functioning, but structurally unattractive, with low profitability’.
- (6) Calls on the Government to show leadership and investigate the possibility of implementing exit support for divers, ensuring the ongoing sustainability of the abalone industry and its dive services component – which many Tasmanian families rely on. (4 May 2017)

1669 Ms *Dawkins* to move—That the House notes that on 4 May 2017 the Minister for Primary Industries and Water, Hon. Jeremy Rockliff MP refused to provide any details of the response of the Department of Primary Industries, Parks, Water and the Environment to video evidence of horrific animal cruelty at another Tasmanian abattoir. (4 May 2017)

Orders of the Day

1 Acts Enumeration Amendment Bill (*pro forma*) (No. 2): Second reading. (The Premier)

2 Hearing Awareness Week: Adjourned Debate on the Question proposed on Wednesday, 27 August 2014 by Ms *Courtney*—That the House:—

- (1) Notes that 24 – 30 August 2014 is Hearing Awareness Week.
- (2) Further notes that hearing loss can be caused by hereditary conditions, infectious disease, prolonged exposure to excessive noise or the effects of aging and that less than 20% of the people who could benefit from wearing a hearing aid wear one. One in six Australians is affected by hearing loss which is an estimated 3.5 million people.

- (3) Urges Tasmanians who are concerned about their hearing to have a hearing test.
- (4) Thanks those people and organisations that are involved in Hearing Awareness Week, which will see a range of promotional activities happen across the country, including ‘silent’ sports events, public exhibitions on hearing technologies, and hearing safety training by employers to alert people to the issues. (Next Speaker: Mr *Shelton*)

3 Births Deaths and Marriages Registration (No Forced Divorce) Amendment Bill (No. 34 of 2014): Second reading.

4 Mineral Resources Development (Hydraulic Fracturing) Amendment Bill (No. 9 of 2015): Second reading.

5 Buy Local: Adjourned Debate on the Question proposed on Wednesday, 25 March 2015 by Ms *Ogilvie*—That the House:—

- (1) Notes that the Liberal Government’s promise to Buy Local is nothing more than a cruel joke.
- (2) Recognises that the promise has been broken in a litany of ways including:—
 - (a) sending \$4 million worth of training funding to interstate companies;
 - (b) awarding \$2.5 million to a multinational firm to provide the TasTAFE student management information technology system;
 - (c) providing a \$420,000 contract for debt collection services for all units of the Department of Health and Human Services to a Victorian company when two of the five firms who put in tenders were from Tasmania;
 - (d) awarding a contract valued at \$360,000 for car parking at the North West Regional Hospital to Victoria when two of the three firms that made bids for this job were Tasmanian;
 - (e) giving a \$105,000 contract for upgrading the asbestos register to New South Wales when seven of the 11 companies who tendered for this were Tasmanian;
 - (f) gifting more than \$330,000 to a New South Wales company to make jackets and raincoats for our police;
 - (g) awarding a Victorian company almost \$600,000 in information technology funding to build an asset management system for the Parks and Wildlife Service, despite receiving four bids from Tasmanian companies; and
 - (h) overlooking a Tasmanian company to undertake \$1.5 million worth of pavement marking and instead giving this work to a Victorian firm.
- (3) Further notes that these examples alone add up to nearly \$10 million worth of work that has gone interstate, in direct contradiction to the Liberal Party’s promises.
- (4) Calls on the Liberal Government to reintroduce its own Bill “Supporting Local Business and Jobs (Local Benefits Test) Bill 2011” to prove that its commitment to buying locally is more than just a hollow slogan.

6 China-Australia Free Trade Agreement: Adjourned Debate on the Question proposed on Wednesday, 16 September 2015 by the Minister for State Growth—That the House:—

- (1) Notes the importance of Tasmania’s strong relationship with our largest trading partner China, and the importance of the China-Australia Free Trade Agreement for Tasmania, specifically:—
 - (a) Tasmania’s exporters will become more competitive as a result of the free trade agreement and will facilitate jobs growth and investment in Tasmania;
 - (b) the agreement supports Tasmanian farmers by removing tariffs of up to 30 per cent on dairy products, beef, lamb, wine, apples, cherries, vegetables, seafood, hides, skins and leathers. Farmers will also gain access to growing the exclusive clean wool quota each year until 2024;
 - (c) Tasmania’s resources sector will benefit from China removing all tariffs on resources, making our miners more competitive;
 - (d) tariffs on manufactured goods including, textiles, clothing and footwear will be removed;

- (e) education service exporters will benefit as well, with agreement to progressively liberalise measures affecting trade in services;
 - (f) tariffs on whiskey will also be lifted; and
 - (g) with the Chinese market importing \$119 million of Tasmanian produce in 2014, this is positive news for Tasmania producers.
- (2) Expresses its strong support for the China-Australia Free Trade Agreement.

7 Building and Construction Industry Security of Payment Amendment Bill (No. 55 of 2015): Second reading. (The Treasurer)

8 Animal Welfare (Ban Battery Hens) Amendment Bill (No. 18 of 2016): Second reading. (Ms Dawkins)

9 Care and Consent to Medical Treatment Bill (No. 19 of 2016): Second reading. (Ms Ogilvie)

10 Small Business: Adjourned Debate on the Question proposed on Tuesday, 24 May 2016 by Mr Barnett—That the House:—

- (1) Notes that:—
 - (a) small businesses make a vital contribution to the successful Tasmanian economy and community;
 - (b) in addition to being a major contributor to the economy in terms of output, employment and the overall number of businesses, the small business sector in Tasmania is generally self-reliant, innovative, responsive and entrepreneurial by nature; and
 - (c) Tasmania has around 37,000 small businesses, employing over 100,000 Tasmanians and that these businesses are the lifeblood of our communities, particularly in rural and regional areas, with two fifths of Tasmania's small businesses located in regional areas.
- (2) Recognises that small businesses are typically independently owned and operated, generally with one or two people making critical management decisions around financing, accounting, staffing, processing, purchasing and marketing, and 60 per cent are non-employing.
- (3) Further notes the continuation and success of programs delivered by the Hodgman Liberal Government such as the Business Tasmania Service, Winning Government Business, Retailer Development and Digital Ready programs.
- (4) Acknowledges that small business is vital to the growth and prosperity of Tasmania and has the full support of the Hodgman Liberal Government. (Next Speaker: Mr Barnett)

11 Police Offences Amendment (Begging) Bill (No. 67 of 2016): Second reading. (Ms O'Connor)

12 Criminal Code Amendment (Rape) Bill (No. 70 of 2016): Second reading. (Ms Giddings)

13 Voluntary Assisted Dying Bill (No. 73 of 2016): Second reading. (Ms Giddings and Ms O'Connor)

14 Court Security Bill 2017 (No. 9): Adjourned Debate on the Question proposed on Wednesday, 3 May 2017 by the Acting Attorney-General – That the Bill be now read the Second time. (Next Speaker: Acting Attorney-General)

15 Tasmanian Museum and Art Gallery Bill 2017 (No. 18): Second reading. (The Premier)

16 Sentencing Amendment (Mandatory Sentencing for Serious Sexual Offences Against Children) Bill 2017 (No. 27): Second reading. (Acting Attorney-General)

17 Cultural and Creative Industries Bill (No. 21): Second reading. (The Premier)

18 Children, Young Persons and Their Families Amendment Bill 2017 (No. 24): Second reading. (Minister for Human Services)
