

Tasmanian Regional Forest Agreement – Impact of Withdrawal

Mr FERGUSON question to MINISTER for BUSINESS, INDUSTRY and RESOURCES

My question is on behalf of the forestry workers in my electorate and their families across Bass, especially in the north-east and East Tamar. Given federal Labor's deal with the Greens to withdraw the legal status of the Tasmanian Regional Forest Agreement, will the minister advise what the assessed impact of this betrayal will be for Tasmania? What actions can Tasmanian representatives take to have this appalling betrayal reversed?
