

Men's Shed – George Town

Mrs GREENE question to MINISTER for COMMUNITY and MULTICULTURAL AFFAIRS

My question is from Luke Moore, a constituent in my electorate. Luke has supported workers at Liberty Bell Bay through months of uncertainty and the closure of the site. He says these workers have not only lost their jobs, but many have lost their routine, their sense of purpose, and their sense of connection that comes with work. Given George Town does not currently have a Men's Shed, will you consider providing funding to establish one, giving local men a place to reconnect, support one another and rebuild that sense of belonging?
