

(No. 3.)

1868.

T A S M A N I A.

GENERAL HOSPITAL, LAUNCESTON.

REPORT FOR 1867.

Laid upon the Table by the Colonial Treasurer, and ordered by the House to be printed, July 28, 1868.

LAUNCESTON GENERAL HOSPITAL.

ANNUAL REPORT for 1867.

THE Board of Management of the General Hospital, Launceston, have the honor to lay before the Government their Annual Report for 1867.

During the past year the average daily number of Patients was slightly in excess of that for 1866, and the cost for their maintenance was reduced from 1s. 10½d. to 1s. 8d. per diem.

The payments received from Self-supporting Patients exceeded those of 1866 by about 50 per cent.

The number of Out-Patients having annually increased, and the Board believing that many persons receive recommendations for relief at the Dispensary who are in a position to pay a private Practitioner, requested the sanction of the Government to refer all cases to the Police for enquiry.

In pursuance of this object a weekly return of persons applying for relief is furnished to the Superintendent of Police, and the enquiries made by him will no doubt prevent in great measure the abuses to which this department of the Institution has been subjected.

In conclusion, the Board would remark that the greatest economy consistent with the welfare of the Patients is exercised in the management of the Establishment.

The yearly cost for the maintenance of a Patient, as shown by the Financial Statement appended, is a little over £30, an expenditure which will bear favourable comparison with that of any Hospital in the British Dependencies.

GEORGE TURNLEY, *Surgeon Superintendent.**REPORT of the Surgeon Superintendent of the Launceston General Hospital for the Year 1867.*

DURING the year 1867 there were admitted into the Hospital 397 Patients, of whom 305 were males, and 92 females; 349 were Hospital cases, and 48 were Invalids.

There were remaining under treatment at the close of 1866, 96 Patients; so that the total number treated during the year was 493, of whom 232 were discharged cured, 61 relieved, 44 incurable, 71 died, and 85 remained.

Of the total number of deaths 22 occurred within the first week after admission into Hospital; viz., 3 on the first day, 2 on the second, 8 on the third, 2 on the fourth, 4 on the fifth, and 3 on the seventh.

The ages of those who died were as follows:—

Under 20 years	2
From 20 to 30.....	2
30 to 40	6
40 to 50	17
50 to 60	14
60 to 70	15
70 to 80	12
80 to 90.....	2
90 to 100	1
TOTAL.....	<u>71</u>

Of the Patients admitted, 49 were Self-supporting, 13 were wholly or in part charged to Imperial Funds, and 335 were Colonial Paupers.

The sum of £120 3s. was received from Paying Patients during the year.

The average daily number during the year was 99½, and the daily cost per head, 1s. 8d.

The cases treated during 1867 were :—

	<i>In-door Cases.</i>	<i>Out-door Cases.</i>	<i>Totals.</i>
Diseases of the respiratory organs.....	56	158	214
brain and nervous system	39	46	85
heart and blood-vessels.....	7	9	16
eyes	24	25	49
skin.....	8	129	137
