

Leslie Road and Huon Highway Intersection – Safety

Mr GEORGE question to MINISTER for INFRASTRUCTURE and TRANSPORT

My question is on behalf of the Leslie Vale Community Group and Friends of Longley Area group. You have committed, both in letter and Estimates last year, to improving the safety of the dangerous intersection of Leslie Road and the Huon Highway, including appointment of a consultant by mid-2026. Will you now confirm whether this commitment will be delayed by the demolition of the Department of State Growth and how will you allay immediate fears for the community?
