MUNICIPAL TAXATION.

---

Presented by Mr. Nutt, and ordered by the House to be printed, 11 November, 1857.

*The Honourable the House of Assembly of Tasmania, in Parliament assembled.*

The humble Petition of the Citizens of Hobart Town.

RESPECTFULLY SHOWETH:

THAT your Petitioners have been given to understand that Two Bills are now under the consideration of your Honourable House, intituled respectively "The Hobart Town Corporation Act" and the "Hobart Town Improvement Act," containing clauses which, if passed into law, would not only be injurious to them as Citizens, but would tend to the injury of the whole Community, inasmuch as the Rates could be increased 150 per cent., which, in the present state of trade, is beyond their means of paying.

Your Petitioners believe that the several Bills give by law too great power to the Mayor and Aldermen, and that a patronage will be possessed by them which they should not possess; an opinion to which we are led by viewing the acts of the existing Corporation in the useless works in which they have expended the Rates, and the partiality they have displayed by the improvements made in the locality of their own property.

Your Petitioners are apprehensive that their having such large sums at their command, and an opportunity of mortgaging the Rates for Five Years (which would amount to £100,000), would lead to extravagance and waste, and entail upon the Rates some £6000 per annum for interest.

Your Petitioners do most humbly trust that your Honourable House will pause before you increase the powers already possessed by them, as many of the clauses in the Acts are of that description which, in the hands of such an irresponsible body, will tend to abuse and extravagance.

Your Petitioners would specially call your attention to the power by the Bills given to the Town Surveyor, and trust that you will guarantee that Office shall be filled by a practical and competent Surveyor; also to that clause which compels the Rates to be paid upon unoccupied houses.

Your Petitioners therefore humbly pray that your Honourable House will not extend the amount of Taxation beyond One Shilling in the Pound—a sum sufficient, with proper economy, for all the wants of the City; nor allow them to mortgage the Rates beyond One Year's amount of Taxes; and that you will carefully examine and revise the Bills now before you.

And your Petitioners will ever pray.
