

## Small Organisation Grants

### **Mr WILLIE question to MINISTER for BUSINESS, INDUSTRY and RESOURCES**

Recently, my constituent Ash received an email from you titled 'Fighting for the little guy'. In it you said we have thousands of small organisations in Tasmania doing amazing work every day, and they often need a little bit of support themselves; a little bit of one-off financial assistance to kickstart a campaign or finish a project - so you were putting the callout. You asked Ash to send you the details of his organisation, his project and how much he needed up to the value of \$1000, and that you will fight for him to get that funding. Can you provide more information about the grant fund Ash can access, or are you just harvesting people's information with false hope?
