

Liberty Bell Bay – Communication with Workers during Winding-Down

Ms FINLAY question to MINISTER for BUSINESS, INDUSTRY and RESOURCES

Once again this morning hundreds of workers and contractors families have woken up unsure about their future. Workers and contractors at Liberty Bell Bay are being told one thing by administrators and another by company emails, including this email saying that they have just undertaken a name change, but no-one is telling them what comes next. Can the minister please explain what steps are being taken while ASIC pursues winding-up proceedings and the operating company is changing its name, to ensure absolute transparency for workers and local businesses, and what steps are being taken to prevent decisions being made at Liberty Bell Bay without due care and consideration for the people whose livelihoods depend on it?
