

Sale of Liberty Bell Bay

Mr FERGUSON question to MINISTER for BUSINESS, INDUSTRY and RESOURCES

I have a constituency question for the Minister for Business, Industry and Resources and in so doing acknowledge the terrific support we've received around the Chamber for the workers, their families, and the industrial businesses around Liberty Bell Bay. I ask the Minister to please advise what measures have been and are still being undertaken by the Government to maximise the success of a potential sale during the current administration process.
