

Government Administration Committee A
Inquiry on AI Data Centres in Tasmania

The House of Assembly Standing Committee on Government Administration A has resolved to inquire into and report upon the construction and operation of AI data centres in Tasmania.

Members of the public may use this form as a template to provide comment on the Committee Inquiry Terms of Reference. The Terms of Reference are set out below and comments should be limited to these areas.

Submissions become Committee documents that may be published on the Committee website and quoted in the Committee's report to Parliament. Should you not wish whole or parts of your submission to be published, please clearly indicate this in your submission. Persons making submissions must not release them without the approval of the Committee. Submissions are protected by parliamentary privilege but the unauthorised release of them is not.

Submissions should be received by the closing date of **Monday, 21 September 2026** and should be emailed to assemblygaa@parliament.tas.gov.au, or posted to: Secretary, Inquiry into AI Data Centres in Tasmania, Parliament House Hobart, 7000.

Submitters contact details:

Name:

Email:

Contact number:

(The above information is used by the Secretariate to verify submissions and to contact the submitter should the Committee wish to seek further information. Should you not provide the above information, the Committee may not accept your submission to the Inquiry.)

Terms of Reference:

Inquire into and report upon the construction and operation of AI data centres in Tasmania, including recommending future legislation and regulations necessary to:

1. Protect public resources and the environment;

- Ensure Tasmanian residents and existing industry has priority for power and water, and there are no negative impacts regarding supply and costs.
- Ensure there is environmentally sustainable use of resources and no negative impact.

2. Ensure Tasmania's Resource Management and Planning System adequately recognises and addresses the specific impacts of the development and construction of AI and data facilities;

Ensure during the construction phase it does not negatively impact the natural environment.
Ensure the cost of living and services for Tasmanians is not impacted

3. Provide Parliamentary oversight and accountability for new facility construction and resource allocation;

Processes must be accountable to the public.

4. Ensure transparent public disclosure of resource consumption;

This is a very strong requirement.

5. Provide the Tasmanian community with adequate opportunities for consultation;

Ensure enough time given for the boarder community in Tasmania to participate.

6. Ensures the Tasmanian community receive tangible benefits from all AI and data facilities constructed in the state; and

Ensure there are no negative impacts now and in the future.

7. Any other matter incidental.

Electronic waste and recycling to be managed in a sustainable way.
