TASMANIAN COUNCIL OF EDUCATION.

REPORT FOR 1871-2.

---

Laid upon the Table by Mr. Wilson, and ordered by the Council to be printed,  
June 25, 1872.

## ANNUAL REPORT of the TASMANIAN COUNCIL OF EDUCATION for the Year 1871-72.

*To His Excellency CHARLES DU CANE, Esquire, Governor and Commander-in-Chief in and over the Island of Tasmania and its Dependencies.*

MAY IT PLEASE YOUR EXCELLENCY.

1. In conformity with the provisions of "The Tasmanian Council of Education and Scholarship Act," we have the honor to submit this our Twelfth Report embracing the proceedings of the Council between the 1st May, 1871, and the 30th April, 1872. 22 Vict. No. 21.  
Section 30.

2. The Honorable F. M. Innes was re-elected President for the year ending 30th June, 1872. President.

3. We caused an Examination to be held in the month of June, 1871, of Candidates for Exhibitions to Superior Schools. Eleven presented themselves for examination; and, on the recommendation of the Examiners, Exhibitions of the value of £20 each were awarded to Alfred Doran, pupil of the Rev. J. R. Buckland, Hutchins School, Hobart Town, and Morton John Cecil Allport, pupil of W. W. Fox, Esq., Horton College, Ross. Exhibitions to  
Superior  
Schools,  
Gazette  
Notice, 20  
June, 1871.

The Examiners in closing their Report on the Examination observe :—

During the past year the Council has raised the standard of qualification for an Exhibition from 528 marks to 600, the latter number being the half of the maximum. This standard was reached by five boys, and the two foremost, Alfred Doran and Morton John Cecil Allport, obtained 1071 and 816 marks respectively. We recommend them for the two Exhibitions offered by the Council, and certify that they are, in our opinion, well deserving of the honor.

Besides those who have attained the highest standard, five others have obtained the number of marks qualifying them for the mention of their names in the Table.

The number of Candidates, which has very much fluctuated, was small as compared with the experience of several preceding years, but larger than at some former Examinations. The establishment of a Preliminary Examination has probably produced the effect which was intended in diminishing somewhat the number of Candidates. Few boys, or none, now offer themselves except those who are at least likely to acquit themselves creditably, though they may be outstripped by other competitors.

Alfred Doran, who has distinguished himself so highly at this Examination, has obtained a larger number of marks than has been reached at any former Examination. Three years ago he was awarded one of the Exhibitions conferred by the Board of Education, and last year gave proof of steady industry, as well as of great natural ability, by attaining the third place among the competitors for the Exhibitions of the Council. If he perseveres, there is every reason to hope that the highest honor which our System of Education provides,—the Tasmanian Scholarship,—succeeded by distinction at a British University, will be attained by him hereafter. We are of opinion that his career already reflects honor on the schools in which he has been trained.

4. The Twelfth Examination for the Degree of Associate of Arts was held in September, 1871; M. H. Irving, Esq., M.A., Head Master of Wesley College, Melbourne, being Examiner in all the subjects except Drawing, which was confided to Henry Hunter, Esq. Thirteen Candidates presented themselves, all of whom passed the preliminary Examination, and eleven succeeded in obtaining the Degree, eight being placed in the First Class, two in the Second Class, and one in the Third Class. Degree of  
Associate of  
Arts, Gazette  
Notice, 26  
Sept., 1871.

To the Senior Associate, George Wilson Waterhouse, in addition to the Council's Gold Medal, were awarded the First Prize of Books of the value of £10 for Mathematics, Prize of Books of the value of £7 10s. for Latin, Second Prize of Books of the value of £5 each for English, Greek, and French. To Charles Caleb Williamson, placed in the First Class, were awarded the Council's First Prize of Books of the value of £10 each for English and French, and Prize of Books of the value of £7 10s. for Latin. To Frederick Scott Aldred, placed in the First Class, was awarded the Council's First Prize of Books of the value of £10 for Greek ; and to Charles William Butler, who was also placed in the First Class, were awarded the Council's First Prize of Books of the value of £5 for Natural Philosophy, and a Second Prize of Books of the value of £5 for Mathematics.

The Examiner in closing his Report observes :—

On adding together the marks obtained in the several subjects, it appeared that of the thirteen Candidates two had failed to obtain the Degree ; that one had reached the standard for the Third Class, two that of the Second, and that no less than eight had got beyond the number of marks required for a First Class ; and accordingly on the evening of Monday, 11th September, the following Class List was published :—

	MARKS.
First Class.—Waterhouse .....	3303
Williamson .....	2761
Maxwell .....	2725
Aldred .....	2720
Creswell .....	2670
Butler .....	2542
Crisp .....	2289
Morriss .....	2209
Second Class.—Giblin .....	2119
Bedford .....	1820
Third Class.—Bisdee .....	1459

Such a Class List speaks for itself, but a comparison with former years brings out its excellence more strongly. It is as follows :—

YEAR.	Total No. of Candidates.	Rejected at Preliminary Examination.	Admitted to Examination.	Passed for A.A.	First Class.	Second Class.	Third Class.	Highest obtained.	Average of all who passed.
1860	12	3	9	4	3	1	0	2247	2132
1861	12	2	10	8	2	2	4	2722	2013
1862	10	2	8	4	0	1	3	2028	1788
1863	6	1	5	3	0	3	0	2003	1921
1864	6	0	6	6	2	2	2	3295	2228
1865	15	1	14	14	6	2	6	2955	2028
1866	7	0	7	7	2	2	3	2836	1932
1867	10	1	9	9	4	3	2	2530	2095
1868	5	0	5	5	3	0	2	2999	2205
1869	10	1	9	8	6	1	1	3041	2362
1870	8	2	6	5	4	0	1	2354	2117
1871	13	0	13	11	8	2	1	3303	2430
TOTAL..	114	13	91	84	40	19	25	2637*	2095*

Average of previous years.

From the foregoing Table it will be seen—

1st. That the average of First Classes, 8 out of 11, or 73 per cent., is far greater than the average hitherto obtained, 32 out of 73, about 44 per cent.

2nd. That the general average of marks obtained by the Candidates who passed—viz. 2430—exceeds that of previous years by 345. And

3rd. That the total, 3303, obtained by George Wilson Waterhouse, the Senior Associate, but junior Candidate of the year, exceeds the average of all past Senior Associates by upwards of 650 marks, and is slightly above the number attained by Hogg in 1864, hitherto supposed unapproachable.

It is gratifying to note that of the eight First Classes of the present year no fewer than 6 have attained the standard which the Council has fixed for 1872.

That so many should have done so well, proves that Teachers and Pupils have alike been doing their best to obtain the honors and the prizes which the Council's Scheme of Examination holds forth, that the experience of past years has not been forgotten, and that the warnings and fault-findings which have so often been seen in the Examiners' Reports have not been fruitless.

Tasmanian Scholarships. 5. The Examination for the Tasmanian Scholarships in September last was conducted by M. H. Irving, Esquire, M. A. Three Candidates presented themselves.

One—John William Henry Geiss, A.A. 1869—reached the standard prescribed by the Council. A Scholarship was awarded to him, and he has proceeded to Cambridge University. *Gazette*  
Notice, 26  
Sept., 1871.

The Examiner, in his Report, observes:—

One only of the three Candidates has satisfied the conditions prescribed by the Council, having obtained in all 2164 marks, of which 1122 were gained in Classics.

Another Candidate, whose papers bear the motto "*Arcturus*," is little short of him in number of marks, but has just failed to attain the minimum fixed both in Classics and in Mathematics, having obtained in the former 865 out of 900 required, and in the latter 718 out of the necessary 750.

6. On the recommendation of the Examiner, M. H. Irving, Esq., M.A., a prize of Books of the value of £5 for Latin verse composition was, for the second time, awarded to John William Henry Geiss, A.A. 1869, and Tasmanian Scholar of 1871. Latin Verse  
Composition.

Gilchrist  
Scholarship.

7. The first Examination for the biennial Scholarship of £100 per annum for three years, offered by the Trustees of the Gilchrist Educational Trust to the youth of this Colony, was held in August last, and conducted under the supervision of the Council in accordance with the regulations laid down by the Home Authorities. Three Candidates presented themselves, and the papers worked by them were forwarded under seal to the authorities in England through Your Excellency. The following communication, notifying that Mr. Edwin Hughes, A.A. 1868, had been awarded the Scholarship, was forwarded to the Council:—

*University of London, Burlington Gardens, 12th December, 1871.*

SIR,

WITH reference to the Matriculation Examination recently held in connection with this University under the direction of the Colonial Authorities in Tasmania, I have the honor to inform you that of the three Candidates who presented themselves at that Examination, one (Mr. Edwin Hughes, of the High School, Hobart Town,) has passed; and as he has been placed next to the fifteenth Candidate in the original Honors List, the Gilchrist Scholarship will be awarded to him. The other two Candidates (Nos. 640 and 642), though fairly proficient in other subjects, are reported by the Examiners as having failed in Natural Philosophy only.

I enclose a few Pass Lists, and have, &c.,

R. G. W. HERBERT, Esq.
