Subject: Changes to Tasmania's gun laws
Date: Thursday, 25 October 2018 11:10:17 AM

I am a city boy from an Australian farming family. I have been a casual shooter since my childhood on my relatives farms in country Victoria. I am totally opposed to the relaxation of Tasmania's firearm laws as I do not believe relaxation is necessary.

My family always used bolt action rifles and double barrel shotguns and never found a need for semi automatic or silenced weapons.

I do not want to live in a society where a profusion of firearms makes me and my descendants unsafe. Maintain the national firearms agreement and stop pandering to big business and small but vocal sections of the community.
