

Freycinet Master Plan – Review

Ms BADGER question to MINISTER for PARKS

Since the non-statutory Freycinet Master Plan was released in 2019, it has been repeatedly voted down at public meetings by the community of Freycinet as not supporting an adequate vision for the future of the park that is both sustainable, good for the economic township of Coles Bay and good for the environment of that National Park as well. That master plan is now over a year overdue for its review. Minister, when will that review be happening?
