LEGISLATIVE COUNCIL.

GENERAL HOSPITAL, LAUNCESTON.

REPORT FOR 1873.

Laid upon the Table by Mr. Chapman, and ordered by the Council to be printed,
July 21, 1874.

LAUNCESTON GENERAL HOSPITAL.

ANNUAL REPORT for 1873.

SIR,

I HAVE the honor to submit the Report of the Launceston General Hospital for 1873.

During the year there was a considerable increase in the number of both indoor and outdoor patients, as compared with the previous twelve months. I am sure that some were relieved as out-patients who could have paid for medical advice and medicines, and that the kindness of gentlemen having the privilege of recommending patients was not unfrequently abused and taken advantage of.

The new printed form of "Dispensary Ticket" issued towards the close of the year had at once the effect of reducing the number of applicants.

Dr. Charles Martin having resigned the position of House Surgeon, which he had held nearly two years, Dr. A. J. Macqueen, was appointed in his stead, from the 1st of June.

The cost per head was less than in 1872, notwithstanding a smaller daily average in the house.

The Members of the Board of Visitors have frequently visited the Institution, and their reports have been always satisfactory.

I beg to append the usual statistical information.
