

UTAS Stadium Redevelopment

Mrs GREENE question to MINISTER for SPORT

My question is on behalf of Brian, a constituent in Launceston. Can the Minister provide an update on the UTAS Stadium redevelopment, including whether the \$130 billion project remains on time and on budget? More specifically, can the Minister please advise whether each of the construction milestones remains on track, whether there have been any changes to the project scope, budget, or delivery timetable? Whether there are any current risks to delivery and what impact construction works will have on crowd capacity, access, and events at UTAS Stadium during 2026 and 2027? When does the Government expect the redevelopment to be fully completed?
