

Cost-of-Living Support – Energy

Ms BURNET question to PREMIER

My question is from Gary and Peter, who were on the bus this morning on their way to volunteer at the Royal Hobart Hospital. They've both worked there for many, many years. You may not be able to help on the first question: can you increase the pension for them? The second question is: what are you doing to reduce the cost-of-living pressures, especially around energy costs?
