No. 13

(At 10:00 o'clock a.m.)

Notices of Motion

- 33** The Minister for Resources to move—That the House:—
- (1) Notes recent claims by the Tasmanian Greens relating to the Intergovernmental Panel on Climate Change (IPCC) and forestry in Tasmania in recent weeks.
 - (2) Further notes:—
 - (a) the August 2019 IPCC Special Report on Climate Change and Land, which says: “Sustainable forest management can maintain or enhance forest carbon stocks, and can maintain forest carbon sinks, including by transferring carbon to wood products”;
 - (b) the research shows that a mixed strategy of conservation and timber production, is more likely to be optimal for long term atmospheric carbon reduction;
 - (c) the first instalment of the IPCC’s Sixth Assessment Report reinforces findings from the previous IPCC reports, notably the above 2019 Special Report, that are consistent with the Tasmanian Government’s approach to sustainable forest management.
 - (d) the IPCC defines deforestation as ‘the conversion of forest land to non-forest land’; and
 - (e) that broad scale clearance and conversion of native forest on public land is prohibited under the Tasmanian Government’s policy for maintaining a permanent native forest estate, and is regulated by the independent Forest Practices Authority.
 - (3) Acknowledges that Sustainable Timber Tasmania does not participate in deforestation, as defined by the IPCC, in the management of our native public production forests. Our native forests are re-grown after harvest.
 - (4) Further notes that maintaining a native forest estate is a key commitment of Tasmania’s Regional Forest Agreement (RFA).
 - (5) Further notes our approach maintains our native forest estate and provides environmental, economic and social benefits, for generations to come. (2 September 2021)
- 34** The Minister for Resources to move—That the House:—
- (1) Notes the:—
 - (a) Tasmanian Timber Awards were held on 10th September 2021, recognising excellence in Tasmanian timber; and
 - (b) Tasmanian Liberal Government is proud of our State’s sustainable forestry sector which contributes around \$1.2 billion to the Tasmanian economy and provides thousands of direct and indirect jobs.
