Vehicle and Traffic Amendment Bill 2010

This Bill amends the definition of “traffic offence” in the *Vehicle and Traffic Act 1999* to enable demerit points to be awarded against a driver of a regulated heavy vehicle for a prescribed fatigue management offence under the *Heavy Vehicle Road Transport Act 2009* or the regulations. The other amendments under this Bill are a consequence of the provisions for fatigue management and the enforcement powers in relation to heavy vehicle limits being comprised in the *Heavy Vehicle Road Transport Act 2009* on the commencement of that Act.
