

Royal Hobart Hospital- Installation of Handrails in Lifts

Mr BEHRAKIS question to MINISTER for HEALTH, MENTAL HEALTH and WELLBEING

One of my constituents, 83-year-old Bert from Moonah, has raised with me his concerns that lifts in the Royal Hobart Hospital do not have any handrails, which causes some difficulty for the elderly and those with disability who attend the hospital. Would the Royal Hobart Hospital consider ensuring handrails are installed in the lifts?
