APPENDIX.

Extracts from Reports of Collectors of Agricultural Statistics	191
--	-----

TO THE HONORABLE THE COLONIAL SECRETARY.

Legislative Council Office, Hobart Town, August, 1871.

SIR,

I HAVE the honor to forward to you, together with this Report, the Statistics of this Colony, for the year 1870.

In previous years I have experienced great difficulty in obtaining the materials required for the compilation of the annual volume. Last year I mentioned one Government Officer who had been specially negligent in this respect.

I am sorry to record that this year the same officer has failed, after repeated applications, to furnish me with the necessary Returns (namely, those for the Gaols, &c., Launceston), and I have thus been compelled to omit them.

The officer thus referred to has since retired from the public service.

It is pleasing to be able, on the other hand, to report that a great improvement has taken place in the rendering of Accounts of the Road Trusts and Municipalities. They have been more correct, and have generally been sent in more promptly than in any former year. I have also been gratified to observe, on several occasions, indications of a greater readiness to supply information,—a proof of the increased importance which is now attached to the official Statistics of this Colony.

A change having lately been made in the Municipal Officers at Sorell, it was found that proper records had not been kept in that District of certain particulars required for the purposes of these Statistics; and the Returns relating to Municipalities, Cases dealt with by Magistrates, and Litigation, are therefore incomplete in as far as relates to the Municipality of Sorell.

Before proceeding with my remarks on the different returns contained in this volume, I desire very briefly to allude to the Despatch (No. 30, of March 24, 1870), of the Right Hon. the Secretary of State for the Colonies,—a Copy of which you did me the honor to forward to me—referring, in very gratifying terms, to the manner in which my duty as Government Statistician of this Colony has been discharged. Such an acknowledgment on the part of Her Majesty's Government of my services in that capacity is valuable, not only as a recognition of past labors, but as an encouragement for the future in the prosecution of a tedious and toilsome work, extending over about seven and a half or eight months out of every year, which has been performed for the past five years as an addition to other official duties, without any increase of emolument.

I.—POPULATION.

The last Census was taken on the 7th February, 1870. Adding to the numbers, on that date the increase by excess of Births over Deaths up to the 31st December, and deducting the decrease by excess of Emigration over Immigration, the estimated Population on December 31, 1870, is found to have been—Males, 53,464; Females, 47,301; Total, 100,765.

Immigration
and Emigra-
tion.

The number of persons who arrived in the Colony during the year 1870 was 5982, and the number of those who departed from it, 5888 ; giving an addition to the population of 94 from this source. In 1869 there was, in this way, a decrease of population of 638 ; in 1868, an increase of 723 ; in 1867, a decrease of 466 ; and in 1866, an increase of 690 : so that in the last five years there has been an alternate increase and decrease.

The number of Immigrants introduced into the Colony under the auspices of the Board of Immigration in 1870 was 342, of whom 301 were from Germany, 21 from England, 18 from Ireland, and 2 from Scotland.

II.—TRADE, COMMERCE, AND NAVIGATION.

Imports.

The Imports in 1870 are stated to have been of the value of £792,916, being at the rate of £7 17s. 4½d. per head of the estimated population at the end of the year, against a total in 1869 of £975,412, and a rate per head of £9 12s. 0¼d.

They were therefore less in value by the sum of £182,496 than in the preceding year ; the decrease being at the rate of 18·71 per cent.

It may be well to compare the Imports for the last five years. They were as follows:—

Years.	Total Value.	Increase (+) or Decrease (—).
	£	£
1866.....	882,107	+ 119,732
1867.....	856,348	— 25,759
1868.....	845,152	— 11,196
1869.....	975,412	+ 130,260
1870.....	792,916	— 182,496

It appears that with the exception of 1866 and 1869 (the amount in the latter year being quite unusual), there has been a continuous decrease during the whole period.

The import trade with the different Countries in the last four years (there being no means of ascertaining the distribution before 1867) was—

COUNTRIES.	1867.	1868.	1869.	1870.
	£	£	£	£
United Kingdom	299,892	265,396	408,188	282,342
Victoria	432,347	458,073	459,555	396,330
New South Wales	49,715	46,099	31,764	38,988
Queensland	—	135	3705	6890
South Australia	8875	6225	8640	2150
New Zealand	5058	2820	2115	7395
Mauritius.....	54,051	59,367	47,585	57,106
Calcutta	—	455	—	—
Valparaiso	—	2760	—	—
Cape of Good Hope	—	—	480	—
China	6410	3602	4820	—
Hamburg.....	—	—	—	290
South Seas	—	220	5560	1425
TOTAL	856,348	845,152	975,412	792,916

The decrease, it will be observed, is principally in the trade with Victoria ; that with the United Kingdom having been greater than in 1868, and not very much less than in 1867. With Queensland and New Zealand, (from Mauritius the only goods imported are Sugar and Gunny Bags) the trade increased ; with New South Wales (although larger than in 1869) and South Australia, it decreased. With China we had no transactions in imported goods in 1870, the whole of our supply of Teas having been received indirectly, the great bulk through Victoria.

The figures in the above table, reduced to their centesimal proportions, give the following results:—

COUNTRIES.	PROPORTION PER CENT. OF TOTAL IMPORTS.			
	1867.	1868.	1869.	1870.
United Kingdom	35·02	31·40	41·85	35·61
Victoria	50·49	54·20	47·11	49·98
New South Wales	5·80	5·45	3·57	4·92
Queensland	0·74	0·38	0·87
South Australia	1·04*	0·02	0·88	0·27
New Zealand	0·59	0·33	0·22	0·93
Mauritius	6·31	7·02	4·88	7·20
Calcutta	0·05
Valparaiso	0·33
Cape of Good Hope	0·05	..
China	0·75	0·43	0·49	..
Hamburg	0·04
South Seas	0·03	0·57	0·18

The proportions, in 1870, as between the United Kingdom and Victoria, stood very nearly as they were in 1867. As regards Queensland, New Zealand, and Mauritius, the ratio in 1870 is the greatest in the period; but as regards New South Wales and South Australia, it is lower than the prevailing rate.

At the respective ports of Hobart Town and Launceston the Imports were in the last five years:—

	1866.	1867.	1868.	1869.	1870.
	£	£	£	£	£
Hobart Town.....	469,255	495,030	439,540	443,735	404,755
Launceston.....	412,852	361,318	405,612	531,677	388,161

The Imports at Launceston in 1869 were swelled to an unusual amount by the items—Railway Plant, £88,045; Specie, Gold and Silver, £36,000. These being excluded, the value of the ordinary Imports in 1869 would still be greater by £19,471 than in 1870. The value in 1870 was less than in any year (with the exception of 1867) of the period. At Hobart Town the Imports in 1870 were, without any exception, the least in value of any year in the whole period.

Turning now to the Exports, we find that their value in 1870 is stated to have been £648,709, of which £625,505, or 96·42 per cent. were the produce of the Colony, and £23,204, or 3·58 per cent. the produce of other countries. On the total value in 1870 there was a decrease, as compared with that in the preceding year, of £178,223, or 21·55 per cent. Exports.

The Exports in 1870 were at the rate of £6 8s. 9d. per head, against £8 2s. 9½d. in 1869, and £9 2s. 10½d. in 1868.

For the last five years the Exports were:—

Years.	Total Value.	Increase (+) or Decrease (—)
	£	£
1866.....	834,606	— 46,359
1867	790,494	— 44,112
1868	920,820	+ 130,326
1869	826,932	— 93,888
1870.....	648,709	— 178,223

* In the previous year's report (1869), this per-centage appears opposite Queensland, having by inadvertence been placed on the wrong line.

Except in the one year 1868, there has been a continuous decrease as compared with 1866—that in 1870 being the largest in the period.

The Export trade with the different Countries in the same four* years was as follows:—

COUNTRIES.	1867.	1868.	1869.	1870.
	£	£	£	£
United Kingdom	378,532	435,523	331,748	253,200
Victoria	223,879	277,797	344,523	267,382
New South Wales	70,157	111,631	82,426	83,542
Queensland	14,076	23,001	8788	9281
South Australia	26,260	16,094	16,744	8119
New Zealand	74,057	50,764	41,272	25,730
Mauritius	2533	5630	821	1370
Guam	—	380	610	85
TOTAL	790,494	920,820	826,932	648,709

There was a decrease, it will be seen, in our Exports to all Countries except New South Wales and Mauritius, although, as regards Victoria and New South Wales, the value was greater in the last than in the first year. I do not exclude Queensland from the former category, because 1869 being the only year in which the amount was smaller than in 1870, and the difference in favour of the latter year being very slight, it cannot be inferred that there is yet any real improvement.

In centesimal proportions, the distribution of the Exports in the last four years was,—

COUNTRIES.	PROPORTION PER CENT. OF TOTAL EXPORTS.			
	1867.	1868.	1869.	1870.
United Kingdom	47.89	47.30	40.12	39.03
Victoria	28.32	30.17	41.66	41.22
New South Wales	8.88	12.12	9.97	12.88
Queensland	1.78	2.50	1.06	1.43
South Australia	3.32	1.75	2.02	1.25
New Zealand	9.49	5.51	5.00	3.97
Mauritius	0.32	0.61	0.10	0.21
Guam	—	0.04	0.07	0.01

Comparing the Export trade at the two ports for the five years, we have—

	1866.	1867.	1868.	1869.	1870.
	£	£	£	£	£
Hobart Town	460,735	465,990	418,810	406,960	346,504
Launceston	373,871	324,504	502,010	419,972	302,205

The decrease in 1870, as compared with 1869, was,—at Hobart Town, 14.85 per cent.; at Launceston, 28.04 per cent.

On referring to the decennial table of Exports which follows the Customs returns, it will be seen that the only articles on which there was an increase in value in 1870 were Oats, Barley, Hides, Skins and Leather, and Hops. On Bark the decrease was £1294; on Bran and Pollard, £1756; on Butter and Cheese, £6579; on Flour, £16,327; on Fruit, preserved and green, £14,020; on Wheat, £29,826; on Horses, £2853; on Sheep, £1550; on Sperm Oil, £27,940; on Timber, £5350; on Vegetables, £27,207; on Wool, £56,807. These decreases were not caused by any fall in the prices of goods (except as regards Bark in which there was an increase in quantity of 459 tons, and perhaps Timber), for the quantities show a corresponding diminution. In Wool, our staple production, there was a decrease in quantity of 1,460,170 lbs. as against 1869. The export of Wool was smaller than in any year of the last decennium, with the exception of 1861.

* Four years are taken instead of five for the reason assigned when treating of the Imports.

The trade in Butter and Cheese seems to be declining. There was no year in the decade in which it was so small as in 1870. In 1861 the value was £10,739. It reached £26,570 in 1865; and from that time it has receded.

The quantity of Flour exported has never been so small in any of the ten years, except in 1865, when, however, the increased price made the total value greater than in 1870.

The trade in Fruit and Jam was, apparently, somewhat smaller than the average of the last four years, but considerably in advance of what it was at the beginning of the decade.

There were only three years—namely, 1864, 1865, and 1866—in which the export of Wheat was smaller than in 1870. That of Oats in the latter year was a good average; and that of Barley was the largest of any of the ten years, except 1868. The Leather and Skin trade, judged by the value, is in a flourishing condition,—1870 showing the maximum in the ten years. The production of Hops is steadily advancing, the export in 1861 having been only 43,646 lbs., and in 1870, 365,489 lbs.; but it is feared that in consequence of the low price which has prevailed for some time past, and the duty imposed by some of the other Colonies, this increase will not continue.

The export of Horses and Sheep has been constantly declining, and threatens to cease to be an item of any importance. That of Pigs (which are not included in the returns at pp. 58–9) shows a better result; the number in 1861 having been only 251, and 1870, 3632, valued at £5067.

The export of Sperm Oil was exceeded in 1869, 1868, 1864, 1862, and 1861. Whale fishing, as an industry, cannot, therefore, be said to be in a satisfactory condition.

The value of Timber exported in 1870 was less than in any of the other years of the period; but it is probable (seeing that on some descriptions there was an increase) that a reduction in price has had some share in producing that result, although this does not appear in the return of prices.

The export of Wool in 1870 shows a decrease of 1,076,871 lbs. upon the average of the preceding five years, 1865–9, which is 5,223,784. The decrease was therefore at the rate of 20·57 per cent. The cause is generally attributed to fluke, and the enormous increase of rabbits on the sheep runs.

The following table shows the exports for the last three years of certain articles which, not being of sufficient importance, or else not having established a permanent place in the trade, were not included in the decennial return:—

	QUANTITIES.			VALUE.		
	1868.	1869.	1870.	1868.	1869.	1870.
Coalstons	180	1270	1614	£ 120	£ 810	£ 980
Goldozs.	—	—	2141	—	—	7475
Haytons	354½	152	129½	1620	870	1025
Maltbushels	5960	8283	11,160	2670	3235	4185
Malt liquorgalls.	9170*	9870	8163	1095	1180	957
Oysters and Crayfish....pkgs.	273	275	309	600	1190	1010
Seeds, Plants, and Trees...ditto	2178	1375	1205	3560	2195	2095
Stone, buildingtons	2186	2642½	1423	4400	4980	2545

In the Official Report of the Intercolonial Exhibition held at Sydney in 1870, there are some observations which bear upon our Export Trade, and it may therefore be useful to reproduce them here for the benefit of our Producers and Exporters.

“Wheat.” The wheat most esteemed is that from Adelaide. Nothing produced in this Colony quite comes up to it in quality, but then there is a compensation in quantity, inasmuch as the average yield is greater here than in South Australia. Our best wheat districts are in the neighbourhood of Young, Barrowa, Murrumburrah, Bathurst, Carcoar, Cowra, Wagga Wagga, Orange, New England, and Maneroo. Taking as a standard Adelaide wheat at 5s. a bushel, that grown in these localities will realise in Sydney about 2d. less. Next in excellence is reckoned the grain from the districts of Mudgee, Yass, Queenbeyan, Gunning, Braidwood, and Goulburn, which generally averages about 4d. a bushel below the Adelaide wheat. Victorian is classed as about equal in quality with the best of New South Wales wheat, and Californian a shade below it. Taking the same standard of value, Tasmanian wheat realises about 4s. 6d., and that from New Zealand, which however is very unequal in quality, ranges from about 4s. to 4s. 3d.”

* Also, 200 dozen pints, value, £30.

"*Barley.* The Colony furnished only one exhibitor of this grain, which perhaps was not an unfair indication of its comparative neglect by our farmers. * * * * It has been frequently grown on the Hunter River, but is very apt to get the weevil within two or three months; and as maltsters like to have it kept for at least that time, it is scarcely available for their use. Some few years ago Messrs. Tooth and Co., the principal brewers of Sydney, offered a special prize for barley the produce of the Colony, in the hope that it would stimulate the local production of an article they largely import; but though the prize was gained by an excellent sample grown at Bega, no stimulus was given to the general cultivation. * * * * It is only on the south-east corner of the Colony, where there is a moist cool sea-breeze, that malting barley can be advantageously grown on the coast, but on the cool table lands it can be produced of excellent quality, and the probability is that the railways will now lead to a considerable increase in cultivation. At present, the Sydney brewers, unable to get their wants supplied by local growers, import barley and malt from Tasmania and New Zealand. From these Colonies they are drawing a continually increasing supply, and are gradually limiting their orders from England. The import of barley in 1869 was 8587 bushels."

"*Potatoes.* * * * * The import for the year amounted to 9775 tons, of which about 1300 tons were re-exported to Queensland. * * * * The northern rivers are found to be rather too hot for the successful cultivation of this root. Even to the South the warm spring weather is not very favourable. In a cool season the potatoes produced there are excellent, but when the hot weather sets in rapidly the quality is injured. Though the coast climate is not very favourable for the production of the best article, except in good seasons, it gives the sea-side Settlers the advantage of the first of the season. From about November to February they have the Sydney market all to themselves. By that time the Victorian potatoes from Warrnambool come in, and as they are more highly esteemed they take the lead, and the remaining unsold stock of New South Wales potatoes can only be placed at a reduction of 10s. to 20s. per ton. The Victorian potatoes in turn are rivalled by the potatoes from the North Coast of Tasmania, which come into the market a few months subsequently."

"*Malt Liquors.* * * * * In the art of brewing, Sydney is placed at some disadvantage. There are only three or four months in the year in which the weather is cool enough to allow the malting process to be carried out satisfactorily, and from the small quantity of barley produced in the Colony nearly all the grain has to be imported. The hot weather is also a difficulty to be encountered, and the very best XXX is only manufactured during the winter months, though by the aid of artificial refrigerators, to regulate the temperature of the fermenting tuns, sound beer can be produced all the year round. The Sydney water, too, is very pure, and rather too free from lime for brewing purposes. That drawn from Botany is simply rain-water filtered through sand, and that drawn from wells sunk in the sandstone rock on which the city is built is naturally filtered. The popularity in Sydney of the ale brewed at Castlemaine, in Victoria, has induced the manufacturers to open a branch establishment in this Colony, but though the processes are identical, they fail in the Sydney climate, and with the Sydney water, to produce an article identical with the Victorian beer. * * * * The import of beer in 1869 was more than 1,000,000 gallons in wood, and more than 500,000 in bottles, and the total value was about £260,000."

Surely in the production of malt liquors, if any where, is an opportunity for Tasmania to extend her trade. She has, confessedly, advantages in this respect possessed by none other of the Australian Colonies; and if beer can be sent from Castlemaine, an inland town, to Sydney at a profit, much more could it be supplied from the ports of Tasmania.

A part of the concluding remarks of the same Report are worth quoting, since they apply quite as much to this Colony as they do to New South Wales, and perhaps more.

"A survey of the industries of the Colonies cannot but disclose the fact that in most of them, especially in the agricultural and pastoral departments, there is room for very great improvement. That the methods hitherto adopted have been rough and ready, such as have been natural to the early stages of Colonial development, but such as are not adapted to produce the best and fullest results of which the Colony is capable. The soil can produce more, and can produce better, and can produce in greater variety, than it has ever been made to do; and a more intelligent application of scientific knowledge, and a more careful collection and distribution of the information still to be obtained from further experience, will, even with our present resources of labour and capital, add immensely to the productiveness of the soil. The exhibitions of the Agricultural Society, which are adapting themselves yearly more exactly to the wants of the community, cannot fail greatly to assist this progress. They reveal all the defects in our present methods, and give prominence to all improvements. They encourage those who take the lead, and they stimulate into activity those who drag in the rear.

"With respect to manufactures, we note that there have been some satisfactory successes, and some disappointing failures; that the latter have been partly due to the want of capital, or to the want of skill—and more the latter than the former."

It would be well if the following words were equally applicable:—

"The lesson has now been learnt that favourable local conditions are not sufficient, unless the requisite technical knowledge is also supplied; and in new industries for the future more care will be taken to secure the best available practised skill, so that the local advantages may be utilised to the utmost, and the early difficulties of a new enterprise may not be aggravated, and by blunders that might be avoided."

Total Trade.

The total value of our sea-borne trade in 1870 amounted to £1,441,625. The average for the preceding four years was £1,732,968; so that there was a decrease to the extent of £291,343, equal to 16·81 per cent.

Customs Union.

There are many causes which have contributed to this serious declension in our trade, but at present I need only mention one, seeing that that affects not only this Colony, but the whole group of British Communities in this quarter of the world—I allude to the destructive 'War of Tariffs' which Colony has been waging against Colony, sometimes by

way of protection, at others by way of reprisal. Whatever the motive may be, the end is the same: the weapon, even if it hurts the foe, is sure to spring back and wound most the hand that wields it. The only complete remedy for this unnatural and pernicious state of things is to be found in the establishment of a Customs Union, which, so far as their trade and commerce are concerned, would have the same effect as if all the Colonies were brought under one Government. To Tasmania the matter is one of vital importance. The larger, wealthier, and more populous Colonies may, perhaps, be able for a time to set the laws of nature and the teachings of experience at defiance; but to a small community like this, whose resources are limited, and whose most useful population has gone to increase the wealth of her more powerful neighbours, such a war means little less than the extinction of her commerce. But a Customs Union, while it would unquestionably benefit the smaller Colony in an especial degree, would also largely conduce to the prosperity of the others; and viewing the question in its widest aspect, as affecting the whole of these branches of the great English-speaking family, I can only express my earnest desire that a Customs Union, comprehending all the Members of the Australasian Group of Colonies, may at no distant time be established.

Having, in the previous remarks, carried back the comparison of the Imports and Exports for five years, I shall pursue the same course with respect to the Shipping Returns:—

I N W A R D S.

PORTS.	1866.		1867.		1868.		1869.		1870.

O U T W A R D S.

PORTS.	1866.		1867.		1868.		1869.		1870.	
	No.	Tonnage.	No.	Tonnage.	No.	Tonnage.	No.	Tonnage.	No.	Tonnage.
Hobart Town ..	236	55,104	231	50,742	226	51,617	220	50,579	233	53,679
Launceston and Sub-ports	396	50,961	400	52,012	433	59,874	444	61,986	378	53,584
TOTAL	632	106,065	631	102,754	659	111,491	664	112,565	611	107,263

These tables show a considerable falling off both in the number of Vessels, and the Tonnage in 1870, as compared with 1868 and 1869. The true state of the shipping trade may be better exhibited by adding together the totals of both tables.

YEARS.	INWARDS AND OUTWARDS.	
	No.	Tonnage.
1866.....	1275	213,968
1867.....	1229	200,144
1868.....	1313	222,044
1869.....	1316	226,975
1870.....	1224	212,910

It will be seen that while the *tonnage* is very nearly the same as in 1866, and considerably in excess of that in 1867, though less than in the other years, the *number* of vessels is less than in any of the other years.

Shipping
registered.

The amount of registered shipping belonging to the Colony on 31st December, 1870, shows a total of 183 vessels, having a capacity of 16,913 tons, and manned by 1427 men and boys; being a decrease, as compared with 1869, of two vessels, of 347 tons, and of 27 men and boys.

Steamers
registered.

The number of registered steamers continued the same as in the previous year, the only change being the substitution at Launceston of one wooden for one iron vessel.

Whale
Fisheries.

The Whale Fisheries in 1870 employed 15 vessels with a tonnage of 3446; the number of their crews being 376. The produce was—Black Oil, 1 tun, and Sperin Oil 448 tuns, together valued at £35,880. Compared with those for 1869 these figures show the following decreases:—Vessels, 2; Tonnage, 918; Crews, 39; Black Oil, 12 tuns; Sperin, 195 tuns (30.33 per cent.); Whalebone, 8 cwts.; Value of produce £13,030.

Coal.

The quantity of Coal raised in 1870 was returned as 9786 tons, against 10,256 in 1869, being smaller by 470 tons, or 4.58 per cent.

Prices.

The prices of agricultural produce were generally lower in 1870 than in the previous year. Flour from a range of £13 to £16 per ton, fell to £11 10s. to £13, and Bread in consequence became cheaper by $\frac{1}{2}$ d. the 2 lb. loaf. Wheat in 1869 stood at 5s. to 7s. per bushel; in 1870, at 4s. 10d. to 5s. 2d.; Barley in 1869 at 5s. to 6s.; in 1870 at 3s. 6d. to 5s.; Oats in 1869 at 3s. 6d. to 4s. 6d.; in 1870 at 2s. 9d. to 3s. 8d.; Maize rose in 1870 by 1s. per bushel. Hay fell from a range of £5 10s. to £6 per ton in 1869 to £2 15s. to £3 in 1870. Butcher's Meat showed the following variations:—Beef per lb. in 1869, 2½d. to 8d.; in 1870, 5½d. to 8d.; Pork, in 1869, 6d. to 1s.; in 1870, 6d. to 8d. Veal, in 1869, 8d. to 1s.; in 1870, 6d. to 1s. Timber maintained about the same price as in the previous year. Under the head of Vegetables, the only noticeable variation is in the price of Potatoes, which was £4 10s. to £6 per ton in 1869; in 1870, £2 15s. to £3 15s.

The past year must therefore have been a trying one for the agriculturist. The price of Wool, however, which, according to the Customs Returns advanced from 1s. 1d. in 1869 to 1s. 2½d. in 1870, tended in some degree to relieve the depression.

Wages.

The rate of Wages seems generally to have been lower than in 1869, as might be expected, seeing that the necessities of life were cheaper, while the demand for labour was certainly not increased.

Trades, &c.

The next return, relating to Trades and Manufactures, requires a few words of explanation, in order that a casual comparison of it with the corresponding return for the previous year may not mislead. The stock of forms having been exhausted, rendering it necessary to get a new supply printed, advantage was taken of the opportunity to make a few amendments. With this view, after examining the list of trades compiled in connection with the late Census, the following were added:—Brickmakers, Cheese-makers, Market Gardeners, Hawkers, Jam Manufactories, Millwrights, Plasterers, Saddle and Harness-makers; while the following, being so few in number as to be of little interest, were omitted:—Glue and Size-makers, Gold Beaters, Mast and Block-makers, Starch Manufactories, Vinegar Manufactories.

On comparing the returns for 1869 and 1870 respectively, we find these increases in the latter year:—Agricultural Implement makers, 5; Blacksmiths, 9; Bricklayers, 4; Builders, 23; Butchers, 17; Cabinet-makers and Joiners, 13; Carpenters, 19; Cider-makers, 2; Corn and Ship-Chandler, 1; Engineers, 5; Fellmongers, 22; Foundries, (iron and brass), 3; General Dealers, 6; Gunsmith, 1; Mills, water, 5; Mills, horse, 1; Painters, Plumbers, and Glaziers, 8; Pastry-Cooks and Confectioners, 4; Pianoforte-maker, 1; Publicans, 14; Saw-mill, 1; Soap-boilers, 3; Stone-masons, 4; Tanners, 5; Tin-workers, 2; Tobaccoists, 2; Turner, 1; Wine Merchant, 1; Wool-staplers and Sorters, 3. On the other hand there were the following decreases:—Auctioneers, 5; Bakers, 8; Basket-maker, 1; Boot and Shoemakers, 11; Brewery, 1; Candle Manufactory, 1; Chemist and Druggist, 1; Cooper, 1; Dyer, 1; Furriers, 2; Grocers, 3; Jam Manufactories, 2; Maltsters, 2; Pottery, 1; Sail-makers, 2; Shipwrights and Boat builders, 8; Tailors, 5; Watch-makers, 2; Wheelwrights, 2.

III.—FINANCE.

The receipts and disbursements of the General and Land Revenues in the two years 1869 and 1870 are shown in the subjoined return furnished by the Assistant Colonial Treasurer :—

RECEIPTS and Expenditure of GENERAL REVENUE and LAND FUND for the Years 1869 and 1870, as ascertained up to 30 June, 1871.

W. LOVETT, Assistant Colonial Treasurer.

The expenditure from the Commissariat Chest on account of the Imperial Service in 1870 was £65,759 8s. 2d., being £3255 12s. 0d. less than in 1869. Imperial Expenditure.

The Rates of Exchange with London in 1870 varied considerably, as compared with 1869. The Bank rate for purchase of mercantile bills stood at $\frac{1}{2}$ per cent. discount in January; rose to par in the following month, and so continued until August, and again rose to $1\frac{1}{2}$ per cent. premium in September, but fell to $\frac{1}{2}$ per cent. discount in November, and continued at the same rate until the end of the year. For their own bills the Banks charged, at the beginning of the year, 1 per cent. premium, which was raised in February to $1\frac{1}{4}$, and in September to 3 per cent., but in November and December was reduced to $1\frac{1}{2}$ per cent. Course of Exchange.

With the other Colonies the Exchange was the same as in 1869.

The Rates of Discount showed but little variation; and the Interest allowed on Deposits in the Banks was the same as in the latter half of 1869.

The comparison of the Bank Returns for 1870 with those for 1869 shows a considerable falling off in the business of the former year. It is true that the value of Specie and Bullion in hand in the first quarter exceeded that in the corresponding quarter of the previous year by £19,468 0s. 6d., but in the next three quarters it fell short of it by £16,429 2s. 11d., £27,947 14s. 2d., and £26,136 6s. 6d., respectively. The balances Banks.

due from other Banks were considerably smaller in 1870 than in 1869; while the debts due to the Banks (how much of these was invested funds, such as Debentures, we have no means of knowing) were larger. The value of the Notes in circulation, though somewhat larger in the first quarter of 1870, was about £3000 less in each of the other quarters. The most noticeable difference between the figures of 1869 and those of 1870 is in regard to the Deposits, which showed a decrease in the first quarter of £301 3s. 4d.; in the second, of £68,678 11s. 0d.; in the third, of £69,501 0s. 5d.; and in the fourth, of £79,013 6s. 4d.

The most important items of the Bank Returns for the last five years are compared below:—

YEARS.	AVERAGE ASSETS.		AVERAGE LIABILITIES.	
	<i>Coin and Bullion.</i>	<i>Debts due to Banks, &c.*</i>	<i>Notes in Circulation.</i>	<i>Deposits.</i>
	£	£	£	£
1866.....	171,485	1,039,105	83,325	662,420
1867.....	151,952	1,039,521	75,367	628,056
1868.....	171,382	1,065,490	76,490	750,754
1869.....	198,291	1,047,004	86,867	767,071
1870.....	185,755	1,084,966	86,094	712,472

Comparing the first and last years, there is an increase in every column. The Specie in the Banks was less in 1870 than in 1869, but more than in the other years; the Debts due to the Banks, &c. were greater than in all the other years; the value of Notes in circulation also exceeded that of the other years, with the exception of 1869; the Deposits, though greater in 1870 than in the two first years, were smaller than in 1868 and 1869. The increases in the figures for the latter year were most probably due in some measure to the brisk speculation in Gold Mining Scrip which then prevailed. This was followed by a reaction in the next year, the consequences of which were felt in the stagnation of trade, and in commercial failures, and disturbance of credit. It is therefore nothing more than might naturally be expected that a comparison of the years 1869 and 1870 should be unfavourable to the latter year.

Savings Banks. The average amount of business done by the Savings Banks, and the state of their funds in the last five years, is shown by the following data:—

YEARS.	ASSETS.			LIABILITIES.		<i>Deposits during the year.†</i>	<i>Repayments during the year.†</i>
	<i>Mortgages.</i>	<i>Debentures.</i>	<i>Cash in other Banks, and on hand.</i>	<i>Amount of Deposits.</i>	<i>Reserve Fund.</i>		
	£	£	£	£	£	£	£
1866.....	135,913	64,190	10,422	194,429	21,426	—	—
1867.....	125,282	73,565	11,242	193,093	22,867	101,646	102,924
1868.....	130,804	66,659	15,223	194,960	23,152	111,466	105,266
1869.....	126,615	82,276	22,278	212,508	24,185	122,019†	105,544
1870.....	134,492	87,189	19,595	223,262	23,648	119,120	109,065

The fact which first strikes us on running the eye down the above columns is, that notwithstanding the evidences which meet us everywhere of the dulness of trade, and the declension of our commerce with other Countries, the business of the Savings Banks has shown a steady increase. We may, I think, account for this fact, partly on the supposition that with the decline of the prosperity of former years the people have become more economical in their habits; and partly by the absence of that spirit of enterprise which formerly afforded a means of investment for small savings; thus causing to flow into these Banks a part of that capital which was then directly and actively employed with the prospect of a larger profit in creating or distributing wealth.

* Including Notes, Bills of Exchange, Stock and Funded Debts, but not including Debts due from other Banks.

† The amounts for 1866 cannot be given, the Returns for that year not being complete.

‡ In the Return for 1869 (Statistics, p. 71) this appears as £112,018 14s. 5d. The error was in the addition.

Of the invested funds, it will be seen that in 1866 the Mortgages amounted to £135,913, the Debentures to £64,190; while the cash in hand was £10,422: in 1870, the Mortgages amounted to £134,492, the Debentures to £87,189, and the Cash in hand to £19,595. In the former year, therefore, 64·56 per cent. of the funds was lent on Mortgage, 30·49 per cent. on Debentures, and 4·95 per cent. was uninvested; in the latter, the proportions were—Mortgages, 55·74 per cent.; Debentures, 36·14 per cent.; Cash in hand, 8·12 per cent. The decrease in the proportion occupied by Mortgages, and the corresponding increase in the other items, is very considerable.

The amount standing to credit of Depositors, and the Reserve Fund, have pretty steadily increased during the whole five years. The amount deposited during the year had increased from £101,646 in 1867 (the first year in which it was recorded in the Statistics) to £119,120 in 1870, having risen to £122,019 in 1869. In like manner, the amount repaid to Depositors during the year had increased from £102,924 to £109,065. The excess of Deposits over Repayments in the four years was £31,452.

The business of the Post Office Money Order Office in the last four years—the furthest unbroken period to which the comparison can be extended—was as follows:—

Post Office
Money Orders.

YEARS.	ISSUED.		PAID.	
	No.	Amount.	No.	Amount.
		£		£.
1867.....	3319	12,729	2412	10,033
1868.....	3378	13,070	2512	10,719
1869.....	4398	16,668	3135	12,991
1870.....	5193	19,338	3722	14,551

The system has made steady and continuous progress from its establishment; and the increases, as between 1867 and 1870, were in the following ratios, per cent.:—*Issued*: Number, 56·46; amount, 51·92. *Paid*: Number, 54·31; amount, 45·03.

Of the whole number of Money Orders issued in 1870, 2027, or 39·03 per cent., were on other places within the Colony; 1575, or 30·33 per cent., on Victoria; 863, or 16·62 per cent., on England and Wales; and 728, or 14·02 per cent. on other countries.

The Public Debt of the Colony, consisting of Debentures, on the 31 December, 1870, was £1,268,700. Beside this sum, Debentures to the amount of £74,800 were authorised, but not issued at that date; and others, to the amount of £15,100, were issuable for the purpose of redeeming other loans falling due in 1871. Of the total amount of the Debt, £400,000 were incurred on account of the Launceston and Western Railway, and £100,000 for the abolition of State Aid to Religion; the annual sum of £15,000, which was previously a direct charge against the Colonial Revenue for purposes of public worship, being thus commuted for a payment by way of interest of £6000 a year.

The return relating to Gold Mining is, I am sorry to say, not so perfect as I should have wished to make it, the Commissioner at Lyndhurst having been unable to furnish the desired information for his district. The particulars given are, therefore, those of the district of Fingal only. There, however, we observe an increase of 95 persons employed, the total average number in 1870 having been 110 against 15 in 1869. From alluvial operations 600 ozs. are said to have been produced in 1870, against 137 ozs. 2 dwts. in 1869. In the latter year Quartz Mining in that district was altogether suspended; in 1870, during a part of the year, one Company was at work, producing 364 ozs. of gold, the average yield being 8 dwts. 6 grs. per ton.

As the productiveness of the Gold Fields of this Colony is a matter of vital importance in its present depressed condition, and as anything bearing upon the subject must necessarily be of interest, I subjoin the observations of the Commissioners, furnished at my request; and, with reference to them, I would suggest that it should be made a condition of the occupation of crown land for mining purposes that the occupant should furnish to the Commissioners periodical returns of such particulars relating to their operations as may be required for statistical purposes, such as number of persons employed, value of mining plant, amount of gold obtained, &c. Those who are working upon private property would probably be willing to furnish similar information as a matter of public interest.

Mr. Shaw, the Commissioner at Lyndhurst, writing on the 27th March last, says:—

“Referring to your Circular of the 16th January last, asking for a return of gold-mining operations in this District, I regret to say I am unable to furnish it. Since the receipt of your Circular I have endeavored to collect the necessary information, but have failed. There was no provision in the late regulations to enable me to keep any record of the quantity of gold produced, and information was frequently refused. I object to put my name to a document which must necessarily be inaccurate. I cannot give you even an approximation.

With reference to your request that I will furnish such information as I am able to give as to the present prospects of gold-mining in my District, I can only say that at Waterhouse one claim is being worked; at the Back Creek, one; and at Nine Mile Springs, three. Throughout the whole District the land is locked up under lease or application for lease; the holders are not working themselves, nor is there any probability of their doing so, so long as they are permitted to hold the ground, and miners cannot get a footing in any part.”

The Commissioner at Fingal, on the 5th April, writes:—

“I have the honor to enclose a return of the mining operations in this District for the year 1870, which I have compiled from the best available information; but, for many reasons, the return is not so accurate as I could have wished, and can only, with regard to the alluvial workings, be looked upon as approximate.

The fact of my not having held office during the first seven months of the year is some reason for my not being aware of the workings of the whole year; and it must also be borne in mind that no one Company, alluvial or quartz mining, was in operation for more than two months, and several were only doing dead-work, and stopped before obtaining any gold. Indeed, I may say that no gold has been obtained from alluvial ground by any Company since my appointment to the charge of this District. The Tullochgorum, Mangana Alluvial, Mangana Gold Mining, (Carter's and Arabin's), and the Band of Hope Companies are all at a standstill, although started with great promise for the future; and the Railway, a small Company not registered under the Companies' Act, but which has gone to some considerable expense to prove some ground in Black Horse Gully, near Reedy Marsh, has also failed to remunerate its shareholders. Notwithstanding the large sums that have been expended, the ground held by these Companies remains for the most part untested; and the question as to its containing gold in remunerative quantities is no nearer a satisfactory answer than if a pick had never been put into the ground. Incapacity and duplicity appear to have been the rule in the management of the great bulk of Tasmanian Gold Companies; and until a new era is inaugurated, and the present system of company manipulation abolished, it seems useless to expect remunerative results from alluvial Companies in this District.

The alluvial ground that has been taken up under miners' rights has given very fair results, and the yield of alluvial gold at the present time in this District is very far in advance of the previous year, if indeed it does not exceed anything hitherto realised in Tasmania. It is estimated that, at the lowest computation, from seventy to eighty ounces per week are being obtained by the alluvial gold miners at Reedy Marsh, and this yield seems to be steadily increasing. It is impossible to form more than an approximate estimate of the yield of gold, and large quantities are probably obtained and sold privately, of which no note can be taken. One can only judge by drawing inferences from those few cases where a fair estimate can be formed of the results of the miners' labor. The Reedy Marsh alluvial gold field is now supporting a population of some three hundred strong, and these are receiving daily accessions to their numbers.

In quartz mining there is little to report, only one Company (the Tower Hill) was at work during the past year, and that only during the months of November and December, with the results stated in the table. This Company's battery is now, and has been for some time past, at a standstill, but a small amount of work is now being done upon the claim; and it is much to be regretted that, owing either to the quantity or the quality of the quartz not being equal to expectations, the hopes excited by the excellent commencement made by this Company have been so greatly cast down by the sudden suspension of operations upon the claim.*

The general appearance of the reefs in this District is such as to afford fair prospects of success to *bonâ fide* workers upon them. * * * A Company with a genuine capital of some twenty thousand pounds might, in competent hands, be reasonably expected to give fair returns to the shareholders, upon a very large per-centage of the gold-bearing reefs in this District; but investors must not expect to receive immediate returns for their outlay, nor to procure competent men, nor substantial machinery, at a nominal outlay of capital. A small battery is at present at work on the City of Hobart Claim. The proprietors of this claim have an exceedingly promising property. * * *

In the course of next summer we may fairly look for some tangible results both from our quartz reefs and alluvial mines, and I trust to be able to furnish you with more particulars in my next report than in the present meagre sketch; the materials for which, poor as they are, I have been some time in collecting, owing to the absence of all data from which to compile a full report.”

IV.—ESTABLISHMENTS OR INSTITUTIONS MAINTAINED OR ASSISTED BY GOVERNMENT.

Post Office.

The returns relating to the Post Office in 1869 and 1870 exhibit the following particulars:—Revenue, 1870, £12,753; 1869, £12,388 11s. 1d.; Expenditure, 1870, £15,740 3s. 7d.; 1869, £13,598 7s. 4d. In 1870, six additional Post Offices and receiving-houses were established, six more persons were employed, and the miles of post roads were increased by 70.

* Since this report was furnished, the yield from this Company's claim has been such as to restore confidence among those who were previously discouraged by failure of success in gold-mining.

The number of Letters received and despatched in those years at the Offices at Hobart Town and Launceston was :—

YEARS.	RECEIVED.				DESPATCHED.				
	Paid.	Ship.	Franked.	TOTAL.	Inland, paid.	Ship, paid.	FRANKED.		TOTAL.
							Inland.	Ship.	
1869.....	200,108	166,156	79,210	445,474	183,676	142,140	67,724	3380	396,920
1870.....	222,701	178,764	85,289	486,754	207,135	152,668	61,619	3399	424,821

The Town and District Letters were as follows :—

Years.	Paid.	Franked.	TOTAL.
1869.	73,555	26,477	100,032
1870.....	76,390	34,145	110,535

The Newspapers were :—

YEARS.	RECEIVED.			DESPATCHED.		
	Inland.	Ship.	TOTAL.	Inland.	Ship.	TOTAL.
1869.....	142,859	194,179	337,038	678,288	193,531	871,819
1870.....	121,476	214,358	335,834	614,946	200,309	845,255

On Letters there appears to have been a considerable increase, amounting on the whole number passing both ways through the offices to 8·45 per cent.

On Newspapers, on the contrary, there was a decrease, taking them in the same way as before, at the rate of 2·30 per cent.

The total number of messages sent by Electric Telegraph increased from 13,980 in 1869 to 20,536 in 1870,—the increase being at the rate of 46·89 per cent. This result was doubtless caused by the reduction in 1869 of the rate of charge for messages within the Colony from 2s. 6d. to 1s. for ten words. From 1 May, 1869, when the reduction first took place, to 30 April, 1870, the amount received is stated to have been £781 3s. 9d.; but between the same dates in the next year, it increased to £878 13s. 11d.

Electric
Telegraph.

The number of Stations was increased during the year by 4, and the number of persons employed also by 4.

The following statement, furnished by the Secretary to the Salmon Commissioners, shows the number of Ova and young fry distributed from the breeding ponds during the past year. In 1869, 14,489 ova and fry of the Salmon and Brown Trout were supplied; in 1870, the number was increased to 23,390. These fish have now been introduced from Tasmania into several of the Australasian Colonies, and many of the rivers and streams in this Colony have been stocked with them.

Penal and
Charitable
Establish-
ments.

Owing to neglect of duty on the part of the gaoler at Launceston in not furnishing the returns relating to the Establishments under his control, those of the Penal and Charitable Establishments are to that extent incomplete; and I have not the means therefore of ascertaining the total cost for the year.

The cost per head per annum in 1870 was:—At Port Arthur—Under punishment, £36 19s. 8d.; insane, £29 7s. 0d.; paupers in hospital, £28 0s. 6½d.; not in hospital, £21 13s. 0½d.: at the Gaol for Males, Hobart Town, £21 18s. 3d.: at the Gaol for Females, Cascade—women, £12 10s. 7d.; children, £8 16s. 4½d.: at the Cascade Pauper Establishment, £11 9s. 7d.; Cascade Reformatory for Males, £11 16s. 10d.: at the General Hospital, Hobart Town, £44 11s. 1d.: at the Hospital, Launceston, £35 3s. 4½d.: at the Hospital for Insane, New Norfolk, £26 8s. 10d.: at the Queen's Asylum, £16 9s. 2½d., the profit arising from the farm not being taken into account: and at the Brickfields Pauper Establishment, £12. At the following Establishments, which were assisted by grants from the Treasury, but not under Government control, the cost per head was:—Industrial School for Females, £15 15s. 7½d.; Ragged School £0 19s. 9d.; the Boys' Home, £19 19s. 9d.

Boards of
Works.

The Boards of Works had at their disposal during the year a sum of £16,318 1s. 6d., out of which they expended £5664 6s. 3d., leaving a balance unexpended at the end of the year of £10,880 3s. 9d. The expenditure was about £3000 less than in the previous year.

Road Trusts.

The Road Trusts had under their control in 1870, 2769½ miles of road. The rates on private property ranged from 3d. to 1s. in the pound. The aggregate receipts amounted to £22,458 16s. 10d., and the expenditure to £18,179 12s. 5d. The receipts of the Bridge Trusts were £2224 13s. 3d.; the expenditure was £1941 15s. 11d.

Municipalities.

The Municipalities of Hobart Town and Launceston show a total of receipts of £34,505 3s. 8d.; of expenditure of £32,593 7s. 0d. The rates in Hobart Town were 3s. 1½d. in the pound, and at Launceston, 3s. 3d.

The total receipts of the Rural Municipalities were £21,642 2s. 3½d.; the expenditure, £20,842 10s. 10½d.; the number of miles of road under their control being 316. These totals, however, are not complete, no return having been received from Sorell.

Valuation of
Property.

To the present volume a return of the annual rateable value of property throughout the Colony, as shown by the Valuation Rolls, has been added. The total amount is £669,615 16s. 0d.

V.—CROWN LANDS, AGRICULTURE, AND LIVE STOCK.

The extent of Land rented from the Crown in 1870 is stated to have been 1,350,211 Crown Lands. acres, against 1,441,413 in 1869: the amount received for rents is returned as £7210 17s. 2d. in 1870, £7307 19s. 2d. in 1869. There was therefore a decrease in the acreage, of 91,202; in the rental, of £97 2s.

The number of lots of Crown Land sold in 1870 was 332; in 1869, 305. The acreage in 1870 was 23,759a. 0r. 15½p.; in 1869, 19,474a. 2r. 8p. The amount realised in 1870 was £26,831 15s. 7d.; in 1869, £21,921 6s. 4d. The average price per acre in 1870 was, for Country Lots, £1 1s. 8½d.; for Town Lots, £3 8s. 5d.; in 1869, for Country Lots, £1 1s. 9d.; for Town Lots, £3 9s. 1d.

The Return relating to Auriferous Lands shows that in 1870 there were applied for—Miners' Rights, 1524; Mining Leases, 161; Prospecting Lease, 1. In 1869, the numbers were—Miners' Rights, 1152; Mining Leases, 118; Prospecting Claims, 16. In spite, therefore, of the reaction arising from unhealthy speculation in Gold Mining, this industry was making progress; and the present favorable results of the operations at the Tower Hill and City of Hobart Mines will give increased confidence to investors, and have a powerful influence in promoting the development of our Gold Fields.

The Agricultural and Live Stock Returns for the year ended 31 March last, were Agriculture. completed and published in the *Gazette* on July 11th—15 days earlier than in the previous year. The Returns from Hamilton were not received complete until June 27; those from Sorell, in consequence of the confusion existing there in regard to Municipal affairs, and the entire change of officials, not until July 8. In two days afterwards the returns were completed, carefully checked, and forwarded to the Government Printing Office for publication.

The total acreage of land in cultivation in 1870 was 330,257, against 318,484 in the Acreage. previous year,—being an increase of 3·70 per cent.

The number of acres occupied by the principal crops in the last five years was—

Crops.	1866.	1867-8.	1868-9.	1869-70.	1870-1.
Wheat	71,348	64,020	62,186	62,379	57,382
Barley	4596	6860	7954	9080	7617
Oats	34,358	27,574	24,199	30,061	30,946
Pease	3655	4558	3627	3841	4538
Potatoes	10,520	10,766	7977	9290	9823
Hay	33,762	33,064	33,275	34,862	33,612
Hops	143	233	476	561	642

The only crops which show any improvement are Barley, Pease, and Hops. As regards Potatoes, although a wider area was under crop in 1870-1 than in 1869-70, yet it was under that in 1866. The increase in Hops is about 450 per cent. But the present low prices, and the protective duty which has just been put on this and other articles in Victoria, will probably prevent any further increase until some counteracting cause shall have come into operation.

In all the root crops, except Mangel Wurzel, there was a decrease. In Mangel Wurzel there was an increase of 117 acres.

The acreage in Beans and Tares forms but a very minute proportion of the whole; but small as it was, there was an increase last year of 183 acres, or 31·17 per cent. On that in Tobacco there was a decrease of 98, or 44·14 per cent. Green Forage shows an increase of 503 acres, or 31·54 per cent.; Permanent Artificial Grasses, an increase of 2954, or 3·72 per cent.; Bare Fallows, an increase of 4069, or 18·45 per cent.; all other Land in a state of Cultivation, an increase of 8960 acres, or 16·12 per cent.; New Land broken up, an increase of 419, or 7·70 per cent.; under Rotation of Crops, an increase of 14,472 acres, or 58·61 per cent. If the last term has been rightly understood in furnishing the information to the Collectors, the result is very satisfactory, and must be regarded as an earnest of the institution of a better system of cultivation. Seeing a large increase under this head in the Port Sorell district, I examined the nominal return, and found the total made up of a very large number of small, or comparatively small, holdings; so that I have no reason to question its correctness. At Sorell in 1870-1, 5498 acres were returned under this head; in the previous year, none.

The number of acres of Wheat reaped by machine in the past year was 11,993; in the previous year, only 3685. In 1869-70, the acreage reaped by machine was only 5·92 per cent. of the whole acreage under Wheat, 94·08 per cent. having been reaped by hand; in 1870-1, it amounted to 20·90 per cent. of the whole, the acreage reaped by hand being only 79·10 per cent. It would appear, therefore, that the farmers are becoming aware of the necessity of employing machinery in agricultural operations, and this is an important step gained.

Average
produce.

As the gross produce is dependent upon the acreage and average yield, it is not necessary to burden this report with any remarks upon it. I shall therefore pass on to compare the average of the principal crops in the last four years. I am not able to carry it back five years, because previously to 1867-8—the first year in which the returns were compiled by me—the average was not calculated, and it would be a work of too much time and labor to do so now. Hops are omitted, because in the earlier part of the period, being almost confined to one district, unless the age of the plants were also given, any general average would, for purposes of comparison, be very deceptive.

Crops.	1867-8.	1868-9.	1869-70.	1870-1.
Wheat, bushels	13·98	14·13	15·35	15·92
Barley, ditto	24·40	15·79	22·49	22·44
Oats, ditto	22·94	19·75	22·19	22·79
Pease, ditto	18·64	13·13	19·21	18·04
Potatoes, tons	3·49	3·43	3·54	3·41
Hay, ditto	1·03	0·85	1·29	1·31

Prices.

The prices of agricultural produce, as returned by the Collectors, do not seem to present many variations of any importance as compared with those of the previous year. Barley was generally cheaper, as well as Apples and Pears. But the greatest decline was in the price of Hops, which at New Norfolk fell from one shilling and sixpence per pound to ninepence, or 50 per cent. At Glenorchy, in 1871, they were returned at one shilling per pound; in 1870, at one shilling and eightpence. This fall in the price of one of our principal productions has caused serious loss to an important class of agriculturists.

Agricultural
Machines.

In the return of Machinery used for agricultural purposes we observe some increases, namely, Clod Crushers, 12; Cultivators, 19; Horse Hoes, Grubbers, and Scarifiers, 106; Irrigation Works, 13; Lift and Force Pumps, 5; Ploughs (sub-soil), 20; Reaping and Mowing Machines, combined, 18; Seed Drills, 12; Threshing Machines (horse), 4; while, on the other hand, there are decreases in the following :—Steam Engines, 4; Chaff Cutters, 10; Corn Crushers, 2; Hay Rakes (horse), 4; Mowing Machines, 21; Reaping Machines, 6; Sowing Machines, 2; Threshing Machines (steam), 4.

Live Stock.

In comparing the number of Live Stock in the past and previous years, we observe an increase of 96 Horses, 6362 Horned Cattle, 19 Goats, 2 Mules, and 1 Ass. In Sheep there was a decrease of 181,412 on the number returned in the earlier year. A comparison of the returns furnished to me, with those obtained by the Chief Inspector of Sheep, shows that in that year, in some instances, Sheep belonging to the same owner were included in more than one district, and this being corrected in 1870-1, would account for some part of the difference; but the immense numbers of Rabbits which prevail in some parts of the Colony, and are now causing such alarm among the flockowners, must have had a much greater share in the reduction.

Live Stock
slaughtered.

The number of Sheep and Cattle imported and slaughtered in the last quinquennium, as given by the Inspectors of Stock at Hobart Town and Launceston, was :—

YEARS.	SHEEP.		HORNED CATTLE.	
	Imported.	Slaughtered.	Imported.	Slaughtered.
1866.....	15,010	74,487	1363	6365
1867.....	35,595	69,673	1935	7001
1868.....	44,732	76,512	2427	6304
1869.....	24,856	86,886	1657	7833
1870.....	17,515	89,585	1653	7196

If from the number slaughtered we deduct the imported stock, we shall arrive pretty nearly at the number of home raised stock killed for the consumption of Hobart Town and Launceston. These, accordingly, were:—

Year.	Sheep.	Cattle.
1866.....	59,477	5002
1867.....	34,078	5066
1868.....	31,780	3877
1869.....	62,030	6176
1870.....	72,070	5543

The consumption in the two last years has enormously increased, if the Returns furnished to me be correct.

The Reports of the Collectors of Agricultural Statistics do not give much indication of improvement during the past year. Clearing, fencing, &c., are stated to be proceeding briskly in Gould's New Country, and some attention is there given to the growth of hops. The latter is also said to be the case at Hamilton. At Longford the Collector considers that the agricultural and pastoral interests are "in a healthy state." At New Norfolk 60½ acres of land were planted with hops in the year, and three new kilns were erected. The Collector at Port Sorell has furnished an exceedingly good Report, and I would commend it to the consideration of the general class of farmers in this Colony. "A little better system of farming prevails here," he says, "if any system save a very bad one can be said to exist in any part of the district." It appears from his remarks that the farmers are not unwilling to learn, if they had any one to show them practically how to adopt a better system. It is much to be deplored that there are no means of doing so, or of disseminating among them information to this end. The Agricultural Associations might, if they felt inclined, do very much more to benefit the cultivators of the soil in this way than they now do. At Richmond I am glad to observe "a steady inclination to extend the use of machinery, as evidenced in the increase in the number of reaping and threshing machines, &c." At Westbury the Collector states that in a great many instances the grain perished from the wet. "There are a great number of tenants," he observes, "in this district not in a position to expend money in draining their lands. Those who are adopting that very excellent system feel the very great advantage it is to their lands, whether in crop or otherwise."

Collectors' Reports.

VI.—LAW, CRIME, &c.

The number of persons committed for trial in 1870 was 138; in 1869, 155; being a decrease of 10·97 per cent.

The number of persons tried in the Superior Courts in the last two years was:—

Trials in Superior Courts.

YEARS.	Felonies.	Misdemeanors.	TOTAL.	CLASSED AS OFFENCES.	
				Against the Person.	Against Property.
1869.....	81	31	112	47	65
1870.....	78	32	110	45	65

The comparison is therefore in favour of the latter year.

One Execution took place in 1870, as in 1869.

Executions.

The number of offenders summarily dealt with by Magistrates or committed for trial in 1870 shows a favourable comparison with that in the previous year; the decrease being at the rate of 7·97 per cent.

Magisterial Jurisdiction.

YEARS.	NUMBER OF OFFENDERS.		
	Apprehended.	Appeared on Summons.	TOTAL.
1869.....	4447	2859	7306
1870*	4035	2689	6724

* Offences at Sorell not returned. In 1869 there were there apprehended 98; and 102 persons appeared on summons.

Litigation.

The amount of litigation in the Supreme Court under "The Small Debts Act," in 1869 and 1870, was as follows :—Summons issued, 1870, 50 ; 1869, 58 : Cases tried, 1870, 32 ; 1869, 27 : amount of Claims sued for, 1870, £503 4s. 1d. ; 1869, £488 17s. 0d. : amount of Verdicts obtained, 1870, £415 15s. 10d. ; 1869, £410 6s. 4d. : Warrants and Subpœnas issued, 1870, 18 ; 1869, 26.

In its ordinary Civil jurisdiction the Supreme Court tried 18 cases in 1870, against 28 in 1869 ; and issued Writs of Summonses in 1870, 366 ; in 1869, 356.

In the inferior Courts of Requests the litigation in the two years was :—

Years.	Total Number of—		Total Amount of—		Writs of Fi. Fa. issued.
	Summonses issued.	Cases tried.	Claims sued for.	Verdicts obtained.	
			£ s. d.	£ s. d.	
1869.....	2370	1261	13,797 10 8½	6381 15 0	365
1870.....	2518	1389	13,718 19 8½	6816 16 11	428

Probates, &c.

Probates and Letters of Administration were granted by the Supreme Court in 1870 to the number of 87, representing a sum of £207,596 ; the number in 1869 being 84, the amount £83,957.

Insolvencies.

The Insolvencies in the two years were as follows :—

Years.	Number declared Insolvent.	Amount of Scheduled—	
		Assets.	Liabilities.
		£ s. d.	£ s. d.
1869.....	75	22,166 6 6	159,572 6 2
1870.....	80	45,689 6 5	132,561 8 1

Mortgages.

The number of Mortgages registered was—in 1870, 234 ; in 1869, 269 ; the amount in 1870, £139,138 5s. 0d. ; in 1869, £145,690 3s. 7d.

Lands' Titles
Office.

Under the Real Property Act 584 transactions are recorded as having taken place in 1870, the value of property in question being £135,466 ; the area, 90,509a. 3r. 4p. In 1869 the number of transactions was 506 ; the value of property, £120,794 ; the area 63,375a. 1r. 27p.

Grant Deeds.

The number of Grant Deeds enrolled in the Supreme Court in 1870, was 396, against 419 in 1869, being a decrease of 5.49 per cent.

Inquests.

Inquests were held in 1870 on the bodies of 152 persons, against 158 in 1869.

VII. EDUCATION, RELIGION, &c.

Public
Schools.

From the returns contained in this volume, and from a return prepared by the Board of Education, a copy of which was forwarded to me by direction of the Chairman, I am enabled to supply the information which follows.

The number of Schools under the Board of Education was 128 ; the number of Children on the Rolls, 9997 ; in average daily attendance, 5041. The cost of the Public Schools was—£16,588 11s. 3d., £12,211 1s. 1d.* of which was borne by the State, and £4377 10s. 2d. by the Parents. The particulars extracted in the following table may be useful and interesting beyond this Colony.

* The total cost of the Schools is stated at p. 156 to have been £12,040 15s. 0d. The difference is explained to have been caused by expenses which were not directly chargeable to the Schools.

COLONIES.	PERCENTAGE OF CHILDREN TO POPULATION.		COST PER SCHOLAR—						COST PER HEAD OF POPULATION.		
			Of Number on Rolls.			Of Number in Average Daily Attendance.					
	On the Rolls.	In Average Daily Attendance.	To the State.	To the Parents.	TOTAL.	To the State.	To the Parents.	TOTAL.	To the State.	To the Parents.	TOTAL.
			£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.

The expenditure by the Council of Education in 1870 amounted to £1055 9s. 9d., including £800 on account of Four Tasmanian Scholarships. The Expenditure on account of School Exhibitions awarded by the Council and Board of Education, respectively, was £570 15s. 1d. The number of such Exhibitions held in 1870 was 29, eight of which were awarded in that year.

The Return relating to Friendly Societies shows that 15 Societies complied with the requirements of the Act by rendering their Accounts to the Clerks of the Peace—two less than in 1869. The aggregate Receipts of these Societies during the past year amounted to £3326 7s. 6d., the Expenditure to £3783 10s. 7d., the invested capital to £8798 17s. 7d., and the number of Members to 1565. Friendly Societies.

There was a decrease on the Receipts and Capital, but an increase on the Expenditure and on the number of Members.

VIII.—VITAL STATISTICS.

In 1870 there were registered the Births of 1615 male, and 1439 female children, a total of 3054, being 195 more than in 1869. Births.

The Birth rate in 1870 was 30·31 per 1000 of the population at the end of the year. For the last five years the Birth rate was—

In 1866	28·81 per 1000.
1867	30·18
1868	29·69
1869	28·78
1870	30·31

It was therefore higher in 1870 than in any of the other years.

The proportion of male to female-children whose Births were registered, in the last five years, was—

In 1866	104·12 to 100.
1867	102·66
1868	104·51
1869	102·19
1870	112·23

The excess of males in 1870 is very remarkable, and quite unusual.

The number of Deaths registered in 1870 was 1404, of whom 873 were males, and 531 were females. Beside these, 4 convicts under sentence died at Port Arthur, and one criminal (free by servitude) was executed, whose deaths were not registered, making the whole number of Deaths in the year 1409, against 1442 in 1869. The ratio of Deaths to total population was therefore 13·98 per 1000. Deaths.

The rate of mortality for the last five years is shown below:—

Years.	Ratio. per 1000 of living Population.
1866	13·72
1867	14·36
1868	16·61
1869	13·51*
1870	13·98

*At page xxv of the Report for this year, the ratio is stated to be 14·52, and the total deaths 1442. The total deaths, as will be seen from the context, should be 1342, making the rate of mortality as above.

Deaths,
continued.

The deaths of males and females in proportion to the total number of each sex living at the end of the year were, per 1000,—males, 16·33 ; females, 11·23. For every 100 deaths of females there were, therefore, 145·45 deaths of males.

The following table shows the ratios of deaths in 1870 at each age to 1000 persons of each sex of the same age living at the date of the last Census,* 7th February, 1870 :—

AGES.	MALES.		FEMALES.		
	<i>No. of Deaths.</i>	<i>Proportion per 1000 of Males at each Age living.</i>	<i>No. of Deaths.</i>	<i>Proportion per 1000 of Females at each age living.</i>

	90 „	49	208·51	10	126·58
Above 90 „	11	305·55	—	—	
Ages not specified.....	2	—	1	—	

The deaths of males almost uniformly exceeded those of females, the exceptions being at the ages of 2 to 5, 5 to 10, 40 to 50, and 60 to 70. In the case of children under one year, and in that of persons between 80 and 90, the excess was very marked. Between 2 and 10 years the chances of life were slightly in favour of the boys, and again between 40 and 50, and between 60 and 70, the males have the advantage. At the last named period of life, the rates seem to have been practically equal. Between 40 and 50 is the most dangerous epoch of a woman's life ; and the rate of mortality at that age might therefore naturally be expected to be in favour of the other sex.

The proportion of deaths of males and females at each age to 100 deaths of males and females, respectively, of all ages, was—

<i>Ages.</i>	<i>Males.</i>	<i>Females.</i>
All ages	100·00	100·00
Under {	1 year	23·35
	2 years	3·96
	5 years	6·21

	30 years	6·78
	40 years	7·72
	50 years	10·93
	60 years	11·11
	70 years	9·79
	80 years	8·85
	90 years	1·88
Above 90 years	1·26	—
Not specified	0·23	0·19

* This is the nearest obtainable approximation to the true numbers. The errors will probably not be greater than if the population had been obtained by calculation from the estimated number on 31st December.

The deaths are classified according to diseases as follows:—

	Males.		Per-centage of Total Deaths of each Sex.	
	Males.	Females.	Males.	Females.
I. Zymotic diseases.....	111	96	12·71	18·08
II. Constitutional diseases.....	95	91	10·88	17·14
III. Local diseases	416	217	47·65	40·87
IV. Developmental diseases.....	155	95	17·76	17·89
V. Violence	80	22	9·17	4·14
Unspecified causes.....	16	10	1·83	1·88
All causes.....	873	531	100·00	100·00

The greatest number of Deaths occurred in the March quarter, when it was 381; the least in the December quarter, when it was 280. This is in accordance with the general law prevailing in this Colony.

The meteorological features of the past year may be thus summarised:—Barometer at temperature of 32°, and at mean sea level 29·914, being ·039 in excess of the previous year, and ·107 in excess of the 25 years' average; mean temperature, 55·96, being ·14 below that of the previous year, but 1·51 above 25 years' average; mean diurnal range, 18·52, being ·64 higher than the previous year, which exceeded the mean of the 25 years by ·02; mean solar intensity, 92·57, which was below the usual standard; mean terrestrial radiation, 42·45, also below; humidity of air, ·71, also below; elastic force of vapour, ·317, below 1869, but slightly above the 25 years; total rain-fall, 27·53 inches, being 3·66 above 1869, and 4·88 above the 25 years; number of days on which rain fell, 130, the same as in 1869, but 15 below the average of 25 years; ozone, 6·52, being ·68 below 1869, and ·66 below the 25 years; wind, prevailing direction, N.W., and total force during the year, 704·13 lbs. per square inch, being 182·47 lbs. more than in 1869. The monthly mean of the wind-force was 15·20 above that of 1869, but 4·31 below the 25 years' average.

The number of cases of Disease treated in the Hospitals (not including the Insane) and in the Queen's Asylum for Destitute Children, during the year, was 1505, and the number of Deaths, 180, being in the ratio of 11·96 per cent. At the Queen's Asylum there was one death. At the Cascade Pauper Establishment the deaths of Males were 22; Females, 19: the rate of mortality, calculated on the average number of each sex during the year was therefore, for Males, 13·33 per 100; for Females, 16·10 per 100. For the whole population the rate of mortality between 60 and 70 (the average age of these paupers being 67) was for Males 15·24, and for Females, 9·79 per cent.

At the Hospital for the Insane there were 180 cases of sickness treated, and 21 deaths, the ratio of deaths to cases being 11·66 per cent.

In 1870, there were performed 670 Marriages, being an increase of 19 on those of the preceding year. The Marriage rate per 1000 of population in 1870 was 6·65. For the last five years it was:—

Years.	Rate per 1000 of Population.
1866.....	5·86
1867.....	6·06
1868.....	6·49
1869.....	6·55
1870.....	6·65

The ratio in 1870 thus appears to have been the highest in the five years.

Not a single Vaccination was performed in any public institution during the past year, the Medical Officers having, in every case, furnished "Nil" returns.

IX.—MISCELLANEOUS.

Political
Franchise.

The only returns under this head which require any remark are those relating to Parliamentary Representation. In order to carry out the changes in the constitution of the two Houses, the Electoral Act, 34 Vict. No. 12, directs that no Court of Revision shall be held "for the purpose of preparing Electoral Rolls and Polling Lists to come into force on the eleventh day of April, 1871," and the number of Electors on the Rolls was therefore the same as in the previous year.

Conclusion.

The general view of the state of the Colony, which we gain from the foregoing facts, and from the returns themselves, in as far as its material interests are concerned, cannot be said to be satisfactory. The trade with other countries was still declining, and under the operation of the system of protective duties* in which our neighbours fondly, but foolishly, put their trust, may be expected to be still further limited; and the business of the Banks was following in the same track. The low prices of Wool and Hops were the cause of great depression among the growers, and must have seriously affected all other interests. The improvement which is now established in the price of Wool, and the defective yield of Hops in England, will doubtless bring about a partial reaction in the present year. The prospect of the speedy commencement of the Main Line of Railway will lend an impetus to trade; and the development of the Gold Fields at Mangana, Black Boy, and on the North Coast, which, if somewhat slowly, is nevertheless surely, proceeding, warrant us in believing that the worst period of depression is already passing away. If there were any probability of a Customs Union being soon established, we should be justified in indulging more sanguine hopes; but as long as the present unnatural retaliatory† system continues, it must act as a serious hindrance to the prosperity of the Colony.

I have the honor to be,

Sir,

Your most obedient Servant,

E. C. NOWELL, *Government Statistician.*

* "Protection has been clearly shown to mean,—a thieving from one man to give another the half, and waste the other half on the way." *Lectures on Political Economy*: By F. W. Newman, p. 26.

† "The plea of *reciprocation* was the last fallacy by which it was sought to forbid Free Trade; and the meaning of it was, to keep up the system of prohibitions after it was condemned, by teaching each State that no *one* must abolish it for fear others should not follow its example." *Ibid.*, p. 194.

Domestic Servants, Male	987	Printers	12		
				TOTAL.....	33,014

NOTE.—In a few instances, such as Carpenters, Painters, Shoemakers, Gardeners, &c., the number of Master Tradesmen may be somewhat in excess of the real number as compared with Journeymen Tradesmen, but this arises from the impracticability of distinguishing in many cases between the two classes: in all cases where they could be ascertained to be Journeymen they have been so classified.

E. C. NOWELL, *Government Statistician.*

WHALE FISHERIES.

RETURN of VESSELS belonging to the Port of HOBART TOWN employed in the WHALE FISHERIES, and of the Quantity and Value of OIL and BONE produced, for the Year 1870.

VESSELS EMPLOYED.				PRODUCE.			
Number.	Tonnage.	Crews.		Black Oil.	Sperm Oil.	Whalebone.	Value.
		Men.	Boys.	Tuns.	Tuns.		£
15	3446	376	..	1	448	..	35,880

T. T. WATT.

NOTE.—There are no Vessels employed in Whale Fishing at Launceston.

COAL.

RETURN of the Quantity and Value of COAL raised in the Colony during the Year 1870.

LOCALITY OF MINES.	NO. OF TONS RAISED.	AVERAGE PRICE PER TON.	VALUE OF COAL RAISED.
		£ s. d.	£ s. d.
New Town	1108	0 17 0	941 16 0
Seymour	2898	0 8 0	1159 4 0
Port Sorell (River Don)	2400	0 10 0	1200 0 0
Tasman's Peninsula	3380	1 3 0	3887 0 0
TOTAL	9786	..	7188 0 0

The above particulars were obtained from the Returns of the Superintendents of Police; those referring to the Mines at Tasman's Peninsula from the parties working them. The price at the latter appears to include freight and cartage.

E. C. NOWELL, *Government Statistician.*

PUBLIC DEBT.

MEMORANDUM showing the Amount of the various LOANS of the Government of TASMANIA.

Consolidated Loan, under Act 31 Vict. No. 9, 1867, redeemable in

London as under:—

	£	s.	d.
In the year 1893	100,000	0	0
„ 1894	100,000	0	0
„ 1895	100,000	0	0
„ 1896	100,000	0	0
„ 1897	100,000	0	0
„ 1898	100,000	0	0
„ 1899	100,000	0	0
TOTAL, (see Statement A)	—	700,000	0 0
Debentures redeemable in London under Act 33 Vict. No. 38, 1869, (see Statement B)	100,000	0	0
Debentures redeemable in Hobart Town from the year 1871 to the year 1902, (see Statement B)	468,700	0	0
Debentures authorised but not yet issued, (see Statement C)	74,800	0	0
		1,343,500	0 0
Deduct Debentures redeemable in the year 1871 which are provided for under Act 34 Vict. No. 34	15,100	0	0
		£1,328,400	0 0

W. LOVETT, *Assistant Colonial Treasurer.*

THE Rate of Interest paid upon all the Loans hitherto contracted by the Government of Tasmania is 6 per cent. per annum; excepting on Debentures under Act 19 Vict. No. 18, which have been issued at 5 per cent. The Interest upon the Debentures authorised by the Consolidation Act (Return A) is payable on January 1st and July 1st in each year: upon all other Debentures on such dates as the Governor in Council may appoint.

E. C. NOWELL, *Government Statistician.*

A.

RETURN of DEBENTURES redeemable in London consolidated by Act of Parliament, 31 Vict. No. 9, passed 11 October, 1867.

--	--

Drawbacks.

There is allowed upon the exportation of the following articles and goods imported into the Colony; viz.—Wine, tea, sugar, coffee, cocoa, chicory, currants, raisins, dates, rice, hops, malt liquors, candles, wax and composition, ginger, pepper sago, soda crystals, sulphur, white lead, sheet lead, Barcelona nuts, mustard, manufactures of silk, cotton, linen, and wool, and all articles manufactured therefrom; drapery, haberdashery, hosiery, millinery, furs, hats, boots, shoes, wool-bags, and cornsacks, being in the original packages in which the same were imported, a drawback of the Duty paid thereon, provided always that proof be made to the satisfaction of the Collector that the full duties due on importation have been paid; and upon the exportation of jam, packed in jars or tins only, manufactured in the Colony, a drawback of two pounds eight shillings for every ton net weight of jam: provided that the exporter or manufacturer gives notice in writing to the Collector of his intention to pack jam for export; and the Collector is required upon the receipt of such notice, either himself or by an officer of Customs appointed by him for such purpose, to view such jam, and also to seal the case or cases in which such jam is packed.

No drawback is allowed upon the exportation of jam in any quantity less than one ton, or on any other articles or goods entered for drawback unless the Duty on any one of such articles or goods amounts to Five Pounds, and unless such goods are shipped within three years from the day of importation thereof, or in the case of the exportation of jam manufactured in the Colony, within one year from the time when the exporter shall declare the same to have been manufactured, or in the case of malt liquors within one year from the day of importation thereof: and any person making such declaration falsely in any particular is subject to a penalty of not less than One hundred Pounds.

Drawback of Duty is allowed upon Carriages imported by Visitors for their private use, upon re-shipment within six calendar months from date of inward entry; upon silver plate imported by the owner for his own use on exportation at any time; a drawback of sixpence per 100 lbs. is also allowed on export of malt made from imported barley, provided Duty has been paid on such barley within three months before the date of exportation.

34 Vict. No. 2.	<p>NOTE.—The purchase or consideration money is to be truly expressed and set forth in words at length in or upon every such principal or only deed or instrument of title or conveyance.</p> <p>And where any lands or other property of different tenures or holdings, or held under different titles, contracted to be sold at one entire price for the whole, shall be conveyed to the purchaser in separate parts or parcels by different deeds or instruments, the purchase or consideration money shall be divided and apportioned in such manner as the parties shall think fit, so that a distinct price or consideration for each separate part or parcel may be set forth in or upon the principal or only deed or instrument of conveyance relating thereto, which shall be charged with the said <i>ad valorem</i> duty in respect of the price or consideration money therein set forth.</p> <p>And where any lands or other property contracted to be purchased by two or more persons jointly, or by any person for himself and others, or wholly for others, at one entire price for the whole, is conveyed in parts or parcels by separate deeds or instruments to the persons for whom the same is purchased for distinct parts or shares of the purchase money, the principal or only deed or instrument of conveyance of each separate part or parcel, shall be charged with the said <i>ad valorem</i> duty in respect of the sum of money therein specified as the consideration for the same. But if separate parts or parcels of such lands or other property are conveyed to or to the use of or in trust for different persons in and by one and the same deed or instrument, then such deed or instrument shall be charged with the said <i>ad valorem</i> duty, in respect of the aggregate amount of the purchase or consideration moneys therein mentioned to be paid or agreed to be paid for the lands or property thereby conveyed.</p> <p>And where any person having contracted for the purchase of any lands or other property, but not having obtained a conveyance thereof, shall contract to sell to any other person, and the same shall in consequence be conveyed immediately to the sub-purchaser, the principal or only deed or instrument of conveyance shall be charged with the said <i>ad valorem</i> duty in respect of the purchase or consideration money therein mentioned to be paid or agreed to be paid by the sub-purchaser.</p> <p>And where any person having contracted for the purchase of any lands or other property, but not having obtained a conveyance thereof, shall contract to sell the whole or any part or parts thereof to any other person or persons, and the same shall in consequence be conveyed by the original seller to different persons in parts or parcels, the principal or only deed or instrument of conveyance of each part or parcel thereof shall be charged with the said <i>ad valorem</i> duty in respect only of the purchase or consideration money which shall be therein mentioned to be paid or agreed to be paid for the same by the person or persons to whom or to whose use or in trust for whom the conveyance shall be made without regard to the amount of the original purchase money.</p> <p>And in all cases of such sub-sales as aforesaid the sub-purchasers, and the persons immediately selling to them, shall be deemed and taken to be the purchasers and sellers within the intent and meaning of the provisions of this Act relating to the <i>ad valorem</i> duties on conveyances on the sale of property thereby imposed.</p> <p>But where any sub-purchaser shall take an actual conveyance of the interest of the person immediately selling to him, which shall be chargeable with the said <i>ad valorem</i> duty in respect of the purchase or consideration money paid or agreed to be paid by him, and shall be duly stamped accordingly, any deed or instrument of conveyance to be afterwards made to him of the property in question by the original seller shall be exempted from the said <i>ad valorem</i> duty, and be charged only with the ordinary duty on deeds or instruments of the same kind, not upon a sale.</p> <p>And where any lands or other property separately contracted to be purchased of different persons at separate and distinct prices shall be conveyed to the purchaser, or as he shall direct in and by one and the same deed or instrument, such deed or instrument shall be charged with the said <i>ad valorem</i> duty in respect of the aggregate amount of the purchase or consideration moneys therein mentioned to be paid or agreed to be paid for the same.</p> <p>And where any lands or other property shall be sold and conveyed in consideration wholly or in part of any sum of money charged thereon by way of mortgage or otherwise, and then due and owing to the purchaser, or shall be sold and conveyed subject to any mortgage, bond, or other debt, or to any gross or entire sum of money to be afterwards paid by the purchaser, such sum of money or debt shall be deemed the purchase or consideration money, or part of the purchase or consideration money, as the case may be, in respect whereof the said <i>ad valorem</i> duty is to be paid.</p>	27 Vict. No. 38.	24 Sept. 1863.

^a Includes deposit of £20 to purchase Bye-road. ^b The disagreement between this balance and that given in last Return is caused by the latter having been made up to 31st December only. ^c Includes loan of £210. ^d Includes repayment of loan £182 16s. 6d. ^e Does not agree with balance given in last Return. ^f Includes loan of £306. ^g Includes repayment of loan of £120. ^h Of this sum £22 2s. 9d. was the balance overdrawn at the beginning of the year.

The balances for and against the Trusts are distinguished by the signs *plus* (+) and (—) *minus*, respectively.

Where two Rates are given for the same Trust, the first is on private property, the second on leased crown land.

In accordance with Act 33 Vict. No. 8, the Road Trust Accounts for 1870 were made up to 28th February, 1871.

[Compiled from Returns furnished by the respective Trusts.]

^a General Rate, 10d.; Road Rate, 3d.

^b Does not agree with balance in previous Return.

^c Municipal Rate, 4d.; Road Rate, 6d.; Police Rate, 9d.

^d The Return from Sorell could not be obtained, in consequence of the Accounts not having been properly kept.

Where two Rates are shown as made on the same day, the first is on private property, the second on leased Crown Land.

The balances for and against the Municipalities are indicated by the signs *plus* (+) and *minus* (—) respectively.

The area was supplied by the Survey Department. The Population is not inserted in the present Return, as the Census of 1870 does not afford the means of ascertaining it.

[Compiled from Returns furnished by the Wardens.]

E. C. NOWELL, Government Statistician.

MEMO.—The Returns hitherto furnished of the Area of Crown Land under Rental have, for many years past,* shewn a considerable excess beyond the actual quantity under lease, which has only lately been discovered, since the last Returns were prepared. It is difficult now to account for the very great discrepancy; but it may have arisen, in some measure, from the fact that, *after* the annual Returns are made up, lists of persons who have failed to pay rent are received from the Colonial Treasury, and they have not been taken into consideration when the Returns for the following year have been prepared.

* Up to, and including, 1866.

E. W. BOOTHMAN, *Deputy Commissioner of Crown Lands.*

APPENDIX.

*REPORTS, or Extracts from Reports, of Collectors of Agricultural Statistics,
1870-1.*

1. BOTHWELL.

THE Returns completed and forwarded to you, per post on 29th ultimo [April], compare favorably with those for the previous year, inasmuch as they shew an increase of one hundred and six acres under crops, and an increase in the number of sheep and horses; in cattle there is a small decrease, which must be attributed to the numbers sold during the year. In fruit there is a large increase, the past season having proved exceptionally productive of that article.

I observe a remarkable difference under the head "Permanent Artificial Grasses," which, I find, was occasioned by erroneous Returns furnished me last year by proprietors, who inadvertently included cleared paddocks of natural grasses under the head "Artificial." The acreage returned this year is as correct as it is possible to give it.

So far as I can judge at present there will be as large an area under cereal crops this year as the last—ploughs being busily at work preparing the ground for the reception of seed.

H. G. QUODLING, *Superintendent of Police.*

2. BRIGHTON.

THE crops generally within the Municipality of Brighton were good and above the average of the last few years in certain localities. At Bagdad they were in most cases extra good, Mr. Webb's yielding 35½ bushels wheat to the acre. Many crops in the early stage looked most promising, but suddenly died off in patches, or, in the whole, attacked by the takeall. Taking the whole District the yield of grain has been above the average. The early part of the season was remarkably dry, permitting hay and grain crops to be got in in good order, not usual in this District. In many places the noxious weed, the Californian Thistle, has been discovered growing luxuriously. The inhabitants generally are aware of the mischief it will cause if not at once eradicated, and are taking means to that end. A general complaint exists that Hobart Town prices for all farm produce is so low that no profit is left to the producer.

The Returns have been delayed owing to some of the farmers being away from their homes when I called. Their wives not being able to furnish me with the information required, I have had in many cases to call the second and third time before I could obtain the necessary information.

CHAS. WRIGHT, *Collector.*

3. CAMPBELL TOWN.

I HAVE the honor to forward herewith Returns of Stock and Crop, as collected by me for the Municipality of Campbell Town, for the year ending 31st March, 1871, and beg to inform you that no improvements have taken place here during the past year.

JOHN R. CHAMBERS, *Collector.*

4. CLARENCE.

I BEG to forward you a report of my observations whilst taking stock and crop. The yield of wheat on many farms has been small, which is attributable, in the first place, to the continued wet weather in the early part of seed time—the consequence being the seed was not sown on some ground until the end of September. Another cause is the rust which generally attacks the late crops, while the early crops in almost every case are free from it. In reference to rust, in a conversation I had with Mr. Littlechild, of Lindisfern, he told me he had a sort of wheat that withstood the rust at all times; he not only speaks from his own experience, but from that of his brother, Mr. Thomas Littlechild, of Oatlands, and many other friends who have tried it. I mention this as it would be a great boon to agriculturists to get wheat that will withstand the ravages of rust. The continued dry weather has been very unfavorable to root crops, and they are much below the average yield. The aphid blight has not been very troublesome, and in many parts of the District turnips have been grown successfully. The fire blight on the apple trees still continues its ravages, although in some orchards it has not been so troublesome as in former years.

With regard to improvements I may mention that Messrs. D. and Neil Lewis are making considerable improvements on the estates of Milford and Cilwen, which consist of new buildings, also fencing, part of which consists of the ordinary post, with seven wire rails: this fence is erected at half the cost of the post and rail fence. Mr. R. Strachan has erected salt pans for the purpose of salt boiling, which promises to be remunerative.

GEO. S. DAWSON, *Collector*.

5. DELORAINE.

I HAVE the honor to forward the Agricultural and Stock Returns for the year ending 31st March, 1871.

Although the wheat crop in some parts of the District did not turn out so well as expected, yet, on the whole, the average yield is not much below that of last year.

I have taken great pains this year to make the Returns as correct as possible—a matter of some difficulty, owing to the reluctance of some persons to give the requisite information.

EDWARD WILLIAMS, *Superintendent of Police*.

6. EVANDALE.

I HAVE the honor to forward herewith the Stock and Crop Returns for this Municipality.

I am sorry to say that both the agricultural and pastoral interests are in a very depressed state in this neighbourhood. I am, therefore, unable to report any improvement therein.

R. MARRIOTT, *Superintendent of Police*.

7. FINGAL.

In forwarding the accompanying Returns, I regret I was not able to send them in earlier, but, wishing you to have them correct, has caused the delay, as I have had, in several instances, to call twice, and even three times, before I could get the necessary information. I had, in one instance, to ride forty-eight miles to obtain the Returns of one person who is only eight miles distant from where I reside.

I now believe the Returns to be substantially correct, and reliable in almost every particular.

I have added an Abstract Return of Live Stock and Dairy Produce, which, I trust, may meet your approval.

I do not observe much improvement in agriculture generally during the past year, except in Gould's Country, where there is considerable improvement in clearing, fencing, &c., and a few hop plants I observed there appear to grow remarkably well, and some of the settlers intend to plant more this next season.

There is one heading in the Returns, "All other Cultivated Land," which very few appear to understand. Perhaps you could in a future season place it under a different heading, or advise the Collector as to what description of cultivated land should come under that heading.

FRED. T. RANSOM.

8. FRANKLIN.

In forwarding to you the Agricultural and Live Stock Returns for the year ended the 31st of March, 1871, I beg to state that I have nothing to report in the shape of improvements in this District during the year. The majority of the settlers in this District are very small holders, and I have included the produce of several under one name. Every possible care has been taken in collecting and compiling the Returns, which, I believe, you will find to be correct in every particular.

JOHN M'GINNES, *C.D.C.*

9. GLAMORGAN.

HEREWITH I have the honor to forward you the Agricultural and Live Stock Returns for the Municipality of Glamorgan, and trust you will find everything satisfactory respecting the compilation of the Returns.

The yield of the wheat crops this year has been in most instances very unsatisfactory; in consequence of the red rust being very prevalent throughout the whole of the District, entirely destroying many acres of grain.

The farmers complain very much also of the ravages of the wire-worm or takeall, especially among the barley crops.

The stock at present does not look particularly well, owing to the scarcity of grass, caused by the long continued drought. Rain is very much needed. There are no complaints of the fluke among the sheep.

ALFRED JNO. AMOS, *Collector*.

10. GREEN PONDS.

HEREWITH I beg to forward you the Returns of Agricultural and Live Stock in this Municipality on the 31st March, 1871.

I have delayed sending them until now in order that the large farmers might have time to thresh out their grain by the steam threshing machines, and so ensure a more accurate Return as to quantity.

I have again included under "All other Cultivated Land" all land that has been cropped during the past year with crops for which there are no headings in Return (16 acres), and land which was sown but not reaped on account of being eaten off by rabbits (147 acres), and land which has been cultivated, and is now enclosed in paddocks and used for feed, but which will be cropped again (4634 $\frac{3}{4}$ acres), making together 4787 $\frac{3}{4}$ acres.

In some places in the Return you will find the yield very small as compared with the acreage; it arises from the rabbits having destroyed the greater portion of the crop.

The difference in sheep between the present and last years arises from a number of sheep belonging to owners in this Municipality being now at the Lakes.

The fire blight has reduced the yield of apples considerably in this Municipality.

THOS. W. STANWIX, *Superintendent of Police*.

11. HAMILTON.

IN furnishing the Report asked for in Memorandum of instructions, it does not appear to me that any very particular alteration has taken place in this Municipality further than shown in the accompanying Returns, which I have compiled as carefully as I could.

I believe there are many bushels more apples and pears in the Municipality than given. It is not often they find their way to market, and the proprietors are consequently careless as to quantities, and in many instances they are given away to any one wishing to have them.

Hop cultivation seems to be growing into favour, and additional land has been brought under the plough. Cold water sheep washing is still in favour, and very little is thought about introducing agricultural machinery. The only improvements to note are the sheep dips.

W. J. BELLETTE, *Collector*.

12. LAUNCESTON.

HEREWITH I have the honor to forward Return of Stock and Crop for the District of Selby; and in doing so would draw your attention to the fact that in wheat there is not quite so much as last year, in consequence of a good deal of land being left in fallow, and some not worked, but returned under "All other Lands." There is also a decrease in barley for this year arising from the same cause. Peas have increased, but beans have slightly decreased. Onions have this year been a total failure, and gardeners cannot assign a cause for such failure. Of all the others I think the average is very much the same as last year. In apples there is a great decrease owing to ravages of the grub, which has destroyed thousands of bushels. In pears the early frosts have so much injured them that the gardeners will not take the trouble to pull them, and they lay rotting in thousands on the ground. I regret very much that the Returns were not sent before, but I have been suffering from a severe attack of bronchitis, which prevented me from attending to them for a fortnight.

JAMES PROPSTING.

13. LONGFORD.

I HAVE the honor to forward herewith the Stock and Crop Returns, which have been prepared with the greatest care, and which I believe to be quite correct.

I would also beg to add that I consider the prospects of this District, both in its agricultural and pastoral pursuits, to be in a healthy state.

J. PERKINS.

14. NEW NORFOLK.

IN compliance with your Memorandum dated 15th March, 1871, in forwarding the accompanied Agricultural and Live Stock Returns for the year ending 31st March, 1871, I have the honor to report that there has been an increase in acreage of hops of 60½ acres since last Returns. Three additional hop kilns have been erected during the year. The hop crop has on the whole been generally good, and some of the plantations have suffered more than others from an insect commonly called the red spider.

The potatoe crop (principally the late planted) has not turned out so well as previous year.

The fire blight continues to affect the several orchards throughout the District more or less.

The extremely low price of hops this year, coupled with heavy Intercolonial Duty upon them, is likely to cause a decrease of plantations. Several persons have informed me of their intention to grub up largely this year in consequence; and, if so, many hundreds of the poorer class of persons will be seriously affected thereby, as the hop plantations give employment to men, women, and children. It is estimated that last season's hop-picking gave employment to over 1800 persons—men, women, and children from Hobart Town and the surrounding Districts—besides those employed who are residents of this District.

I have nothing further of importance to report.

JOHN EVENDEN.

15. OATLANDS.

IN forwarding the Stock and Crop Returns for this Municipality for the year ending 31st March, 1871, the only thing in them that calls for a remark is that the Agricultural Returns show a falling off in the number of acres under grain crops. This I think may be traced to the spread of rabbits in the District. In some portions they have become so numerous that it is quite impossible to cultivate, and, unless some remedy be found, hundreds of acres that so late as the season ending the 31st March, 1869, were cultivated with profit will not be ploughed again.

WILLIAM EXTON, *Collector*.

16. PORT SORELL.

I HAVE the honor to forward herewith the Returns as directed in your Circular of the 17th March last, and beg to express my regret that it has been necessary to delay them so long. They have been, however, accurately compiled, and will, I trust, prove satisfactory.

In obedience to paragraph 5 of your Circular, I beg also to forward my opinion of the state of the agricultural and pastoral pursuits of this District. I do so as well as I can, although it is a subject with which, practically or in theory, I am but little versed. I am not able to do so comparatively with last year, as I was unable to keep any copy of the Returns forwarded owing to their magnitude.

In the first place there is not a single manure pit in the District; the heaps are usually close to the stable door, and the horses have frequently to go into the stable in at least from 10 to 12 inches of manure, which is allowed to accumulate until it reaches 4 or 5 feet in height. There it remains unturned from season to season, the rain washing all the best of its juice away in streams, leaving but little matter of any value as manure behind. When carted to the field it is allowed to remain in heaps until the growth of the rubbish sets in, and the greenness of the lots suggests to the owner that it is time to spread it on the field to assist a good clean crop to grow. Bone dust or guano are very rarely used.

Our hay crop is principally grown from oats instead of English or other grasses, thus depriving themselves of after grasses for fattening purposes, and in most cases impoverishing the land needlessly. It is usually of very bad quality, averaging about 3 cwt. of "mother of maum," (I do not know the proper term, so give you the local one), ferns, and thistles to the ton. It is dangerous to use by any person who has a care for clean manure, and most who are particular get hay from Launceston by steamer, paying of course extra freight for the bulk. This accounts to a great extent for the bad manure, as the horses mostly bed themselves with the hay grown in the District. Straw is seldom used for this purpose, and no cattle are bedded down in the District except those fattening, and they do not number more than six in the year for the whole District.

Owing to the agricultural portion of the District having been originally very densely wooded, the District being a comparatively new one, and most of the farms even now but partially cleared, decomposition is most likely constantly going on amongst the vegetable matter, and no lime or other ingredient being used to counteract its influence, our wheat is very subject to fungus, rust, and blight. It is generally sown thickly also, and this helps it considerably to discolor, as it grows in many instances very long, and the saline dampness and strong winds of the coast lay it down; it is difficult to reap, and is of indifferent color and dryness, although strong grain. The oats also are usually discolored from the same causes, save what is grown at Kentish, and this is considered fit for seed, and realizes in the market a better price than any other grown in the District. A little better system of farming prevails here, if any system, save a very bad one, can be said to exist in any part of the District. The barley crop is mostly discolored this year, from what cause I am unable to state. Potatoes are not of good quality either. Some show the old disease, and some are quite rotten at the heart, but the yield this year per acre is above the average, I believe.

Californian Thistle is unknown here as yet, but a strange weed very much resembling Dandelion pervaded the whole of the artificial pasture of the District simultaneously last year, and has destroyed large quantities of grass.

We have very little machinery, and will not be able to use any for many years, owing to the number of stumps still in the land, and the labour, which is usually paid for at a higher rate than any other part of the Colony, is of a very inferior kind. The roads are in a very bad state, and it is almost impossible to move the only steam threshing machine we possess from place to place; its usefulness is therefore very much limited indeed.

I have added the steam machine for making casks, which is most profitably worked by the Messrs. Cummings & Co., of the Don, although I am doubtful whether this properly belongs to the agricultural class. It is really a wonderful piece of machinery, and should you desire to see the plans of it I can, I believe, procure a lend of them from Mr. Cummings for you.

I am really at a loss to know what further to state, or whether what I have already said is required or of any value.

I may, perhaps, say that the farmers are of the average middle class mostly, many of them knowing little about rotation farming, and generally waiting to see what those considered more enlightened do, and then following in many instances their not very good example.

The land is mostly of basaltic formation, and is very prolific, but is in most cases very badly treated indeed.

Should I have omitted any matter on which you desire information, I shall feel it a great pleasure at all times to afford it if I possibly can.

J. REYNOLDS, *Collector*.

17. RICHMOND.

I HAVE the honor to transmit the Agricultural and Live Stock Returns for this Municipality for the year ending the 31st of March, 1871.

In doing so I would observe that rust was very prevalent last year in the wheat crops, more particularly in that sown late in the season. The prospects of agriculture and pastoral pursuits are much the same as usual, with the exception that both are just at present suffering from the continued absence of rain, (none scarcely having fallen since the month of December last). In the case of the former the farmers are, and have been for some time, unable to plough any but fallow land, consequently the sowing is likely to be later than usual; and in the case of the latter the stock on many farms are famishing for want of water.

I have no improvements to note as having taken place during the year, unless it is a steady inclination to extend the use of machinery, as evidenced in the increase in the number of reaping and threshing machines, &c.

J. GRIFFITH.

18. ROSS.

THE lands of the District are principally pastoral, and consisting of large estates, and, with few exceptions, occupied by the owners. Generally speaking they are fine pastoral runs, but of late the enormous increase of rabbits in the District has caused great destruction thereon, so much so that in some instances the sheep-holders have had to reduce their flocks.

There are but few spots in the District well adapted for agriculture. The past year has been the best known for many years on account of copious rains during the growing season. The lands under cultivation are mostly of a hungry, sandy nature, and require a deal of moisture to produce a good crop.

There are no improvements to note during the past year.

W. E. WARNER, *Collector of Agricultural and Live Stock Returns*.

19. WESTBURY.

IN forwarding Agricultural and Live Stock Returns for this Municipality, I notice a decrease in the land under cultivation, also in yield compared with the previous and other years. I attribute the decrease in the yield of wheat and oats to the very wet season that we had in this District. The grain was perished from the wet in a great many instances. There are a great number of tenants in this District not in a position to expend money on draining their lands; those who are adopting that very excellent system feel the very great advantage it is to their lands, whether in crop or otherwise.

In horses I notice an increase, notwithstanding that the Railway now takes all the grain to Launceston with few exceptions.

In horned cattle there is an increase of 2224, the largest number I find since 1863.

In sheep there is a large decrease of 9177. The only manner in which I can account for this decrease is that the markets are chiefly supplied with fat sheep from this District, and the large number of sales taking place. We supply pretty well Devon and the Coast.

In pigs there is an increase of 156. These animals are on the increase since 1864. The Melbourne markets are well supplied from this District, together with Launceston.

I omitted noticing that fallowing land has been attended with good results.

MYLES MAHONEY, *Superintendent of Police, Collector of Statistical Returns for Westbury.*

CORRIGENDUM.
