Dear Members of Parliament

Please do not allow this stadium to be built. Please consider the more important issues:

1. We have one of the lowest literacy rates in this country so spend some of the money on helping improve the literacy of Tasmanians.
2. An aged friend of mine waited 3 years to have her knee replaced in Tasmania so spend some of this money on solving some of our medical problems, this is just one. Even for elective surgery the waiting time is the second highest in the country.
3. Spend some of this money on public housing. The demand is outweighing the availability and this leads homelessness. For example a student of mine spent 7 of the 14 years of his life sleeping in a car. Fix it as no one should have to experience that!

These are just three reasons. Please do the sensible thing and make the lives of Tasmanians better!

Kindest regards
Vicki Ward
