In accordance with the Bill of Materials (BOM) and the Bill of Materials (BOM) for the project, the client agrees to pay for the BOM. The BOM is a document that provides a detailed list of materials and quantities required for the project. It is used to estimate the cost of the project and to ensure that the correct materials are used. The BOM is a key document in the project and is used to track the progress of the project and to ensure that the project is completed on time and within budget.
