[a] The figures for 1841 as published in the *Gazette* are full of errors, which cannot now be corrected; and they should therefore be used with great caution.
[b] The figures (Persons) for 1847 include 2246 Military, Women, and Children; also 3739 Male Convicts on Public Works.

[d] ,, ,, 1857 ,, 690 ,, ,, ,, ,, ,,
[e] The discrepancy in the number of Brick and Stone Houses in 1881 and 1870 arises from a large number of country residents in 1881 not giving the description of their dwellings, which are consequently placed under "Unspecified Material."

[Compiled by Government Statistician from Returns supplied by the Customs Department.]

* The corresponding numbers to and from, as ascertained by the Customs Departments of the various Colonies, are so utterly irreconcilable that it has been deemed more desirable to take the departures as ascertained by our own Customs Department than to base the statement of migration upon the compilations prepared at Colonial and Foreign ports of arrival or departure. Owing, however, to the completely insular character of Tasmania as a Colony, conclusions drawn in respect of increase or decrease to population are less liable to error than similar conclusions drawn in respect of each Colony of Continental Australia. As regards migration seaward, it must be borne in mind that it is more than probable that the figures given independently by each Colony are equally and indefinitely erroneous within certain limits, and therefore it is unwise to assume that the differences shown between the statements of two Colonies afford any reliable index to either the extent or direction of the divergence from the truth.

* The blanks indicate that no Election was held for the district, the present member being returned unopposed.

† As several constituencies return more than one member, an elector may record more than one vote, and hence it follows that the percentage given only roughly indicates the proportion of voters *per se* who took part in the elections.

[a] It is impossible to give the exact Post Office Revenue, the same description of stamps being in most cases used for the purposes of the Post Office and of the Stamp Act.
[b] On 1st January, 1881, the rate per half oz. for Intercolonial Letters was reduced from 3*d.* to 2*d.*
[c] This amount embraces Fees and Contributions from other Countries not included in former years.

NOTE.—Of Local Letters, Packets, &c., only "Outwards" are taken into account, in order that the same letter may not be twice included.
(Certain corrections have now been made by the Secretary, General Post Office, in respect to information supplied by former summaries.)

There is sometimes great difficulty in fixing the prevailing rate in Districts where few individuals of the particular class are employed

* In making these calculations the following rule has generally been observed:—Fractions of a £ over 10*s.* have been regarded as £1, those under 10*s.* ignored.

† Distribution of the proportions charged against each item calculated on the basis of Unredeemed Loans. Specific Rates of Interest against particular works being affected by renewals are ignored: all items are consequently charged at the mean rate, and therefore the same item may show a diminished charge for Interest according as the mean rate of Interest is lowered.

‡ Includes £3305 10*s.* 6*d.* for streets.

§ Includes expenditure in connection with Melbourne Centennial Exhibition, £481 0*s.* 1*d.*, and Expenditure in connection with Paris Exhibition, £558 4*s.* 4*d.*

MEMO.—The Returns hitherto furnished of the Area of Crown Land under Rental have, for many years past,* shown a considerable excess beyond the actual quantity under lease. It is difficult now to account for the very great discrepancy; but it may have arisen, in some measure, from the fact that, *after* the annual Returns are made up, lists of persons who have failed to pay rent are received from the Treasury, and they have not been taken into consideration when the Returns for the following year have been prepared.

* Up to, and including, 1866.

With respect to the nominal decrease in Number of Leases in force and acreage, Mr. Belstead gives the following explanation:—Of the mineral and gold leases cancelled during the year 1885, a very large proportion, certainly 80 per cent., had been taken up whilst the scrip-broking mania was in progress, for purely speculative purposes, and in very few cases had any mining been done or attempted to be done upon the ground. Upon the subsidence of the excitement the rents were allowed to fall into arrear, and the leases were consequently forfeited. Much of the same ground is now being retaken up in smaller areas and worked.

* Ground principally worked under Miners' Rights. † Not including certain land taken up by cooperative parties and privately.

[There being no Statistical Staff connected with the Mining Department in Tasmania, as in the neighbouring Colonies, the figures have been kindly supplied by the Collectors of Agricultural Statistics. As some of the mines are only partially worked during the year, and many mining companies are unregistered, it is difficult to obtain anything approaching accurate information. Tin is worked alluvially and in lode, so that a correct division cannot be obtained. These figures must therefore be regarded as roughly approximate.]

TRADES, MANUFACTORIES, AND OTHER INDUSTRIES.

With regard to the following industries, the aggregates are alone given, as it would not be desirable to localise information to Districts, thereby in many cases unnecessarily disclosing the extent of the business of private individuals or companies, as the case may be.

Unfortunately, the figures given by some establishments in respect of capital invested vary greatly year by year; such figures can therefore be only regarded as rough approximates.
