On Requisition for Coal - in reply to Accountant of Stores Memo:
— The original Requisition was made out for
English Coals because I considered that where good furniture
had so recently been placed, the damage that would
inevitably be caused by Port Arthur Coal would counterbalance
any saving that might be effected by using a very inferior article

Private Secretary - Council Paper 46.

Legislative Council Office,
7th February 1852

Sir

I am under the necessity of representing to you the great inconvenience arising from the Royal Society of Musicians continuing to occupy one of the Rooms belonging to this Department.

First, the trouble arising from the ill cured specimens of Natural History contained in the museum render it most unhealthy - and indeed scarcely tolerable to sit in my Office, and it appears to be increasing somewhat in intensity that I fear it will soon reach the Council Chamber.

Secondly, the public being admitted on certain days in the week to this museum, and my Office being the only means of ingress thereto, the important Papers and documents which are in my charge must be more or less subject to risk, to say nothing of the interruption to my labours, and the impossibility in which the Door Keeper of the Council must be to discharge his duties in reference to admission to, or exclusion from the Chamber.

I have the honor to be, &c.

19th February 1852.

Sir,

A Question having arisen before the Council, as to the proper place for depositing the Acts passed by that body, I have the honor to request you will lay before the Governor (if not inconsistent with your duties) of taking the opinion and pleasure of their Honors the Judges whether these Acts shall as heretofore be deposited in the Supreme Court.

The Act of Parliament 9. Geo. 4th Cap. 83. Section 22 only requires that they should be enrolled and recorded - Nevertheless they have always been also deposited in the Supreme Court.

The new Constitution Act which repeals such of the provisions of the Huskisson Act as relate to the Constitution and powers of a Council in Van Diemens Land is silent on the question of said Deposit, but it nevertheless directs that the Registrar of the Supreme Court shall keep among the Records of the Supreme Court a duplicate of any Speech, Message or Proclamation of the Lieutenant-Governor signifying to the Council Her Majesty's assent to any Bill whenever His Excellency shall have reserved the Royal Assent. The obvious inference of this provision is, that the Act so assented to shall be in the keeping of the same officer.

The practice of Parliament is, that the Acts are deposited in the Record Tower. Here there is no Record Tower, and as the Colonial Secretary is the Keeper of the Records of the Crown, it may be desirable to consider whether the Supreme Court would not be the most convenient Depositary of the Laws - and whether it must not be inferred from the 33 Section of the Act of Parliament 5 & 6 Vict: Cap: 76. that it was the intention of the Imperial Legislature

I send you some of the Papers necessary for the completion of our Sessional Volume.

1. The Title Page
2. The Table of Contents - (in which I have assumed that you will page the Summaries and Indices in small roman numerals)
3. Summary of Proceedings on Bills
4. Select Committees
5. Abstract of Petitions.

I will send you the two indices as soon as they are complete which will be in a very few days.

I also send you an Abstract of the Rules and Orders, which it would be very desirable to print and place at the head of the Orders.

I would also ask you at your leisure to have a few Copies of the Standing Orders with the Abstract bound for use in the Chamber &c. We have found great inconvenience for the want of this - for instance - one Copy well bound, lettered on the Side "The Honorable the Speaker" Standing Orders of the Legislative Council

Sir,

In reference to your communication of the 18th instant forwarding a letter from the Secretary to the Royal Society intimating that a Sub-committee of that Society had been appointed, to make arrangements for securing suitable premises with the least possible delay, I have the honor to represent to you that Whereas many months have now elapsed since the necessity of providing such premises was urged upon the Secretary to the Royal Society, there now remained but seven weeks prior to the re-assembling of the Legislative Council, during which short interval all the necessary alterations and preparations must be made for the ensuing Session which I anticipate will be a long and a busy one.

I find it absolutely necessary to urge upon the consideration of the Government that by a Resolution of the Council I am made responsible for the safe Custody of the Records of that Body - yet so long as the Royal Society continue to occupy the rooms now used as a Museum, my office is a Public Thoroughfare.

I have further to represent that the rooms hitherto occupied by the Speaker will be converted into the Council Library, and that the rooms now occupied by the Royal Society will be required for the Speaker's use.

I would therefore request that the Sub-committee

above referred to may be urged to take the necessary steps for immediately vacating the Rooms in question.

On Col. Secretary's letter enclosing Mr Manley's Re. purchase of Vellum.

— It was not under the direction of a committee that I applied for Vellum, but for the sake of durability and to follow the practice of Parliament.

The size of the Sheets required for the Record copies of the Acts of Council is 15 + 12 inches — but it is by no means indispensable that they should be printed on Vellum — this if that article can be obtained from England at a moderate expense, it would be obviously preferable to Parchment.

Sir,

By directions of the Honorable the Speaker I have the honor to call your attention to my various communications pointing out the urgent necessity of the Speaker's Room being made available for his use, more especially to my letter of the 29th March, and to submit that ten days only remains for making the necessary alterations and arrangements prior to the opening of the Session.

It will be a very serious impediment to the business of the Session, if these alterations must be made while the Members are sitting - and in the meanwhile the Speaker will be without the necessary convenience of a Room appropriated to his use - It will therefore become apparent to you that it is absolutely necessary that the cases &c. which now fill the Speakers Room be forthwith removed, and I am to solicit the favor of your hands of giving the necessary instructions to effect this object.

I have the honor to be, &c.

Sir,

By direction of the Honorable the Speaker of the Legislative Council of Van Diemen's Land I have the honor to transmit to you for the Legislative Council of Cape Town, a Volume containing the Votes and Proceedings & Sessional Papers of the last Session of this Council.

I have the honor to be &c

J. Hartwell Heustower
Clerk of the Council

The Clerk of Legislative Council
Cape of Good Hope.

The Duties of the Door Keeper of the Legislative Assembly Chambers - June 8 - 1852.

1st. He must whilst the Council is sitting - attend at the principal entrance - in the full dress ordered - and admit no person whatever except His Excellency the Governor & Suite - Messengers from His Excellency, Members, Officers of the Council, any Superior Officer of Government and Persons bearing the Speakers Order. His attention is particularly directed to this instruction - as he will be held responsible that no unauthorised person obtains admission to the building.

2. He will admit by the side gate to the Gallery those persons only who may present tickets signed by Members, or by the Clerk of Council.

The Reporters for Newspapers will be admitted without any written authority.

3. He must always lock the Gate when compelled to leave it, but his duty is to be constantly stationed at the Main entrance, either in person, or by Deputy, during the sitting of the House.

4. When he retires to rest for the night he will give the Key of the outer Gate to the Watchman & and again receive it from him in the morning; and he will report to the Serjeant-at-Arms, whenever he observes anything improper in the conduct of the Watchman.

5. In case of Fire (after giving alarm to the Police and sending for the Serjeant-at-Arms) he will, along with the Watchman, secure first all the documents in Mr Heustower's - Clerk of Leg: Council - Strong box (of which he has a Key) then all other Records, Books, Furniture &c &c and remove them to some place of safety.

6. He is to give assistance to the House Keeper in every way he can, especially in seeing that the Fires are lighted in good time, and that Lamps all trimmed and lighted when wanted; also in keeping the accounts correct, and taking charge of all the Stores Furniture &c in the building & for which they will be responsible.

Before retiring to rest for the night he is to see that all Fires & Lights in the different rooms are extinguished & he is to report to the Serjeant-at-Arms whenever necessary to do so.

James Fraser
Serjeant-at-Arms &c

Duties of the Housekeeper of the Legislative Council Chambers.
June 8th 1852

1. He has the charge of all the Stores, Coals, Wood Oil Candles &c &c - and must keep a correct account in a Book of every article received on one side of it, and on the opposite side, of every thing expended; and when any article is required, he is to apply to the Serjeant-at-Arms, who will from time to time examine the Accounts -

2. He has the charge of all the Furniture &c &c in the Building - the cleaning & keeping in order all the rooms, so

that the Members & Officers of Council may at all times, find the various apartments fit for use at any moment they may be required.

3. It is her duty to have all the fires lighted in good time, & also to attend to the trimming and lighting of the Lamps &c during the Session and at other times. - She will be assisted as much as possible in her various duties by the Door Keeper and they will be held responsible for all articles entrusted to their charge, of which a list will be furnished - All Vouchers, Bills and receipts in their possession will be given to the Serjeant-at-Arms to be handed to the Clerk of Council.

4. Before retiring to rest at night She is to be careful to examine & see that all fires and lights are extinguished in the various parts of the Building, and to report to the Serjeant-at-Arms whenever necessary to do so.

James Fraser
Serj.-at-Arms H.

Hobart Town 25th June 1852.

Sir,

Towards the close of the late Session of the Legislative Council the following resolution was moved and unanimously passed "that the Members of the Committee of the late Council charged with the alterations and fittings up of the Council Chamber viz

The Honble the Speaker
The Honble the Colonial Secretary
W. Bayley, together with
W. T. Archer &
W. Dunn

"be constituted a Select Committee to consider and report to "the Council, the best practical method of improving the means of "hearing and seeing in the Chamber, and of effecting such other "improvements as they may deem desirable"

A contract for the work recommended by the Committee was taken by the Director of Public Works at £214.16.6 but as a vote of the Council was not taken, I have the honor to request that you will authorise the appropriation of the money and place the amount in a Supplementary estimate for the present Year.

I have the honor to be, &c.

Leg: Council Chamber
16: June 1852

Hon. -

It is necessary that the greatest care and regularity be observed in the delivery of all the Council Papers - I have therefore to request that W. Young be specially instructed in this particular - The Distribution of Votes & Proceedings, Sessional Papers, Bills &c will be as follows: -

Daily

1 copy to each Member	24 copies	✓
2 copies " the private Secretary	2 "	✓
2 " " " Colonial Secretary's Office	2 "	✓
1 " to each of the members of the Executive Council not being M.L.C.	3 "	✓

Weekly

1 Copy to the Lord Bishop	1
1 " " " Speaker Sydney	1
1 " " " Speaker Melbourne	1
1 " " " Speaker Adelaide	1
	35

As in addition to these copies, many will be required for official purposes from time to time, great care must be taken that the copies supplied by the Government Printer be not wasted lost or destroyed.

I have arranged with that Officer to supply 60 copies daily - if any Department should at any time run in this supply, the Assistant Clerk will be good enough to notice it to me immediately in order that reference be made on the subject to the Government Printer without loss of time.

In issuing these papers it will be W. Young's duty to make such a Record of the fact that he may at all times be in a condition to show beyond a doubt that every paper was duly issued at the proper time.

W. Hartwell Manstone

The Assistant Clerk
of the Legislative Council.

My dear Sir

You will have observed that the 3 Messages received yesterday were ordered to be printed & taken into consideration on Tuesday (I fear my Mss. was not sufficiently plain) the several Bills enclosed in them (viz, Municipal, Water Laun[illegible]ston, & Schools) will then be read a first time & ordered to be printed for 2d Reading - With regard to the question of Furniture, the Speaker & other members concurring decide that it is most essential that the Bills should be printed with the furniture as originally decided - I have therefore pointed out to him the necessity of going at least a week between the first & Second reading to give sufficient time for the printing.

Believe me &c

My dear Sir

Major Cotton has applied to me for certain testimonials which in reference to questions put to him in the Select Committee on the Survey Department, he deemed it imperative on justice to himself, that each Member of that Committee should peruse.

If the Members have done so, or so soon as they shall have had an opportunity of considering the evidence contained in these testimonials, he requests they may be restored to him, as he does not intend them to be printed as a portion of the proceedings.

Believe me &c

Sir,

6th October 1852.

We have the honor to acknowledge the receipt of your letter of the 18th ultimo, requesting us to place ourselves in communication with the Collector of Customs with a view to advising upon the question of classifying the Clerks of that Department.

Having received from Mr. Dyer a statement of the duties respectively performed by the Clerks in the Customs at Hobart Town & Launceston, noting that six Gentlemen are employed as Clerks in that Department, namely, four at Hobart Town and two at Launceston; and having carefully considered the duties required from them respectively, we are of opinion, that in order to place them on the footing contemplated in the Scheme of Classification recommended by the Board of which we were Members they should be classed as follows - viz. At Hobart Town, the First Clerk in the First Class - the Second in the Second Class, the third & fourth Clerks in the third class. At Launceston, the First Clerk in the Second class, and the Second Clerk in the Third class.

It may be proper to point out that this classification would give the third Clerk a smaller Amount of Salary than he at present receives, a circumstance which would require adjustment by means of personal allowance until an opening might occur by promotion to restore the individual to the amount of Salary which he is entitled to expect

We have the honor to enclose the Schedules furnished to us by the Collector of Customs upon which we have based our recommendations.

We have the honor to be &c.

Sir

In obedience to Your Excellency's instructions just communicated to me, I have the honor to inform Your Excellency that on Wednesday the 13th instant the Chairman of Committees reported the Small Debts Recovery Act Extension Bill with Amendments, of the provisions of which Bill the following is a brief Abstract.

Section 1 continues the Act of Council 15 Victoria No 4 until the end of the Session of the Legislative Council which shall commence after the 31st January 1853.

Section 2 Authorises the Examination of a Debtor, taken into custody before a Magistrate.

Section 3. Provides for the subsistence of destitute Debtors confined in Gaol under the Act in question.

His further proposed to commit the Bill for the purpose of remedying the inconvenience at present existing under the Act, which provides that the Debtor when apprehended shall be taken before the Justice who has issued the Warrant.

I have the honor to be Sir
Your Excellency's most obedient humble
Servant.

Legislative Council Chamber
9th Nov. 1852.

Sir

I have the honor to acknowledge receipt of your Memorandum of the 6th instant, together with the Applications herewith returned.

The Board appointed in March 1851 were required to prepare a general Scheme of Classification of Clerks without any reference to individual cases.

In applying the Scheme which was drawn up accordingly, I am of opinion that as far as may be consistent with the general working of the various Departments, its operation should be retrospective. The difficulty lies in the adjustment of each case.

The Principles upon which the Board arrived at their conclusion were, First, that the Classification should be strictly adapted to the exact requirements of the Service and Secondly, that subject to this paramount consideration, all possible encouragement should be afforded to old & faithful Servants.

With regard to the retrospective operations of the measure, it was felt that much difficulty would arise in considering how far the past services of Officers entitled them to the privileges of any particular Class, for instance one Officer after having been 20 years in the Service may now stand in the First Class, and be entitled to the benefit of more than five years service in that class — his previous 15 years only entitling him to rank during the fifteen years as a third class Clerk.

I have the honor, &c.

The Accountant of Stores —

The Colonial Secretary's letter of 10th instant respecting increase to Salaries voted by the Council, and asking copies of the Supplementary Estimate.

The Council sanctioned the appropriation of a sum not exceeding £2350 for additions to Salaries of Officers. No individuals were specified, but it was understood (at least so I always gathered) that all Officers at and under £300 a year paid out of the general Revenue under the control of the Legislature were contemplated. I recollect particularly that Mr Lewis's case was discussed tho, I believe that gentleman's Salary exceed £300. I myself submitted to the Colonial Secretary the case of Assistant Police Magistrates, and was assured by Mr Chapman that the sum of £2350 would cover the increase to that class of Officers. The wording of the Original Motion on the 3rd September was "to consider .... an increase in the Salaries of Persons employed .... whose Salaries do not exceed £300". On the 14th September it was resolved "that the Salaries of all Officers belonging to the Departments which are under the Control of the House and which do not exceed £300 per Annum be increased according to certain rates."

On the 17th September it was resolved that £1412.4.1 be appropriated to meet the increase of £25 per C from 1st July voted in favor of those Officers in certain Departments whose Salaries do not exceed £100 a year £123. 6. 9 for the increase of £20 p.c. for Salaries not exceeding £200 a year — £141 for the increase of 15 p.c. for Salaries not exceeding £250 — £30 for the increase of 10 p.c. for Salaries not exceeding £300 —

I regret that I cannot supply the number of copies required of the Supplementary Estimate as amended. That document however only shews the gross sum of £2350. I however enclose a copy showing all the items as ultimately agreed to by the Council.

The Accountant of Stores —

Legislative Council Chamber
11. December 1852

Sir

I have the honor to acknowledge receipt of your communication of the 8th instant. giving me an opportunity of suggesting any alterations that may appear to me unavoidably necessary in the Estimate of this Department for the year 1853.

1. I would suggest that the amount estimated for the purchase of Furniture be enlarged from £50. to £100- I do so because since I prepared the Estimate the difficulty of obtaining articles of Furniture has been much increased, and because as the business of the Council proceeds, I perceive how much inconvenience is felt from the total absence of receptacles for Books, Papers &c, I need not say that no article shall be applied for that is not urgently needed, but I may take this opportunity of mentioning that articles of Furniture applied for by me twelve months since have not yet been able to be procured.

2. The Copying Clerk attached to this Department being of the Second Class with, I presume be entitled to the addition of £10 per annum - that item therefore, should be increased from £150. to £160.

3. I would also suggest, that under the Head of "Works & Buildings" a sum of £200. be provided for Repairs to the Council Chamber and Offices - It is quite possible that but a small portion of this sum may be needed, but it is difficult to foresee what alterations may be found absolutely necessary.

I have the honor to be,
Sir,
Your most obedient
humble servant.

- Mr W. Darch's letter Re. W. Fiddicks Salary, & Colonial Secretary's query.

- Having taken into consideration the general construction of the Customs Department, and the duties performed by the various Clerks respectively, we were of opinion that that Department might advantageously be composed of (1 First Class Clerk, (1 Second Class Clerk, (and 2 Third Class Clerks; it will be remembered that at the time we drew attention to the difficulty arising from the circumstance of one of the gentlemen now employed receiving a higher Salary than this classification would entitle him to, and recommended a personal allowance in order to adjust his particular case for the present.

Sir,

I have the honor to acknowledge receipt of your communication of the 28th ultimo, and hasten to inform you by return of post, that I have according to your request waited upon the Colonial Secretary and inquired of him whether it is the intention of His Excellency that the Council shall proceed to business on the day to which it now stands prorogued.

That Officer's reply was, that he has heard nothing to the contrary, and is under the impression that the Session will be opened on the day named, the 8th instant.

I may perhaps, be permitted to suggest, that had His Excellency any intention of further proroguing the Council, a Gazette to that effect would be issued not later than tomorrow, for which the Colonial Secretary would undoubtedly be in possession this day.

I have the honor to request that you will be pleased to give directions for laying down some Strong matting in the Council Chamber below the Bar.

Druggett has hitherto been used for this purpose, but when the Chamber was dismantled upon the recent occasion of a Ball given there, it appeared to me undesirable to replace the Druggett which was subject to so much wear and tear from the number of persons constantly moving to and fro below the Bar. A Requisition was accordingly made for nothing similar to that laid on the Stairs. As the Council meets on Tuesday next for the Despatch of business, I would request your early attention to this trifling matter.

I have the honor to be, &c.

The Director of Public Works.

Enclosed is a letter from the Lieut. at Army on this subject.

To Sir William Thomas Denison Knight Lieutenant Governor of Van Diemen's Land and its Dependencies

May it please Your Excellency

We, Her Majesty's dutiful and loyal subjects the Members of the Legislative Council of Van Diemen's Land in Council assembled, beg respectfully to request that Your Excellency will be pleased to transmit to Her Majesty, through the Principal Secretary of State for the Colonies, the accompanying Address to Her Majesty, which passed this Council on the 11th instant, and of which the following is a copy.

To the Queen's Most Excellent Majesty.

We, the Members of the Legislative Council of Van Diemen's Land in Council assembled, beg to approach your most Gracious Majesty with an expression of our sentiments relative to that part of Your Majesty's Speech at the opening of the present Session of Parliament which had

reference to this Colony.

Your Majesty on that occasion was graciously pleased to say "The system of Secondary Punishments has usefully occupied the Labours of successive Parliaments; and Shall leave it for you to find it possible to devise means by which, without giving encouragement to crime, Transportation to Van Diemen's Land may, at no distant day, be altogether discontinued."

This intimation, so expressive of Your Majesty's personal regard for the welfare of this Colony, has diffused universal delight among Your Majesty's loyal and dutiful subjects of Tasmania, and furnishes us with a well founded confidence that the great evil which has accrued so disastrous an influence upon its highest social interests is about to cease.

They now feel that there is cause to hope for their country, and for the moral and religious welfare of their Children, when their beloved Queen has spoken so decisively in their behalf. The darkness and despondency of the past have given way to confidence in a brighter and happier future.

Believing that a sound moral constitution of society is the basis of all national greatness, they look forward to the happiest social results when, from the moral incubus which has hitherto rendered the very name of their country infamous, as well as depressed the development of its fine resources, they shall rise to their proper position, and enjoy their legitimate share of the unexampled prosperity which a bountiful Providence is now conferring on Your Majesty's Australian Possessions.

It is therefore with no ordinary satisfaction that we, the Representatives of the people of Van Diemen's Land, approach Your Majesty with a renewed assurance of our unabated loyalty and attachment to your Majesty's Royal Person and Government, and with the warmest expressions of gratitude for the approval of Your Majesty's most gracious intentions with reference to the future destination of that remote portion of Your Majesty's dominions.

Legislative Council Chamber
12th March 1853

Sir

I am directed by the Hon: the Speaker to acknowledge receipt of your communication of the 12th Ultimo applying by direction of the Council of the Royal Society of Van Diemens Land for a Copy of the Acts and Proceedings of the Legislative Council to be placed in the Library of the Royal Society, and I have the honor to forward by the Speakers direction a copy of the Votes and Proceedings and Sessional Papers of the First Session of 1852 together with the Acts passed during that Session and also those passed during the Second Session of the same year.

5th April 1853.

Sir,

I beg to direct your attention to a Requisition from this Department which was sent in on January 1852, for one large Sky Light to be made according to the draught of a plan which I then received, and to a Requisition dated in September last, for one Waggon Table to be made according to a plan transmitted therewith.

I addressed your predecessor on the subject of these Requisitions in June last.

The inconvenience which has hitherto been felt from the absence of these necessary articles increases at every Session with the increasing business of the Council. I trust therefore, that it may be found practicable to supply these two articles of furniture before the Council meets again.

The Speaker having decided that the Reporters Box should be removed from its present position to a similar locality on the left side of the Gallery, - and that the Clock should be removed to the wall facing the Speakers Chair, - (the Royal arms then to occupy the space thus vacated by the Clock) I have the honor to request that you will be pleased to issue the necessary instructions for effecting these alterations at your early convenience.

I have the honor to be,
Sir,
Your most obedient Servant.

The Fires requiring a regular supply of Fuel in the Council Department are the following

The Clerk of the Councils Office	1
The Library	1
The Assistant Clerks Office	1
The Housekeeper	2
	5
Also, the Speaker's Room occasionally throughout the Year	1
	6

It must however be remembered that the quantity of Fuel allowed to other Fires will be insufficient for these, for the Hours of Business in this Department frequently extend to Fourteen (instead of six) in the Day.

During the Session, in addition to the Fires Specified above there are the following:

Council Chamber	2
Committee Rooms	2

It is also to be observed that the Session takes place in the depths of Winter.

On letter from the Police Magistrate at Campbell Town requesting information respecting the Small Debts Recovery Act.

The Session which commenced on the 8th March last was a new Session - the Session of 1853: but the Small Debts' Act is not affected by this circumstance. The first Small Debts Act passed in February 1852, that is in the First Session of 1852 and was to expire with the Second Session of 1852 (6 January 1853) But a new Act was passed in October 1852 which continued that Act until the end of the Session which commenced and was holden after the 31st January 1853 - that is to say until the end of the Session which is now in existence.

On Mr George Turnbull's letter of 18th May applying for increase of Salary.

Legislative Council Chamber
19th May 1853

Dear Sir,

In submitting for His Excellency's favorable consideration Mr George Turnbull's application for an increase of Salary, I feel it an imperative duty to bear my testimony to that gentleman's unwearied assiduity in the discharge of his onerous duties. His intelligence, excellent memory and general aptitude for business have afforded me such valuable assistance as to force me to the conclusion that had any individual less peculiarly fitted for the office occupied his position, I should have experienced the greatest possible difficulty in conducting the clerical business

The Hon:
The Colonial Secretary

of the Legislative Council - and I feel assured that the Chairman of Committees will bear me out in my estimate of Mr Turnbull's usefulness. It is true that much time is allowed the Officers of the Council for repose during the recess, but the continued labors during the Session are such as to require a very strong Constitution and I know that Mr Turnbull's health suffered during the last year from the effect of the perpetual strain upon his energies. His hours of laborious duty are from ten o'clock A.M. until (sometimes) Midnight, and a glance at the Votes and Proceedings of the two Sessions of 1852 must be sufficient to shew what his labours were. When it is remembered that during those two Sessions thirty three Select Committees were appointed and held protracted sittings, and that Forty two Bills were initiated, and that the Staff of Officers of this Council is so small, I think it will be readily admitted that Mr Turnbull's Labours (performed as they are in so thoroughly efficient a manner) are deserving of a high rate of remuneration. I will only add that the Assistant Clerk of the Council in Victoria receives a Salary of £600 per Annum.

Fr. Hartwell Heusloue
Clerk of the Council.

As Chairman of Committees during the two Sessions of 1852, I have had abundant opportunities of observing the manner in which the duties of Assistant Clerk of the Council have been performed by Mr Turnbull, and I am bound to say that I fully concur in the opinion expressed by Mr Heuslowe as to the Zeal and intelligence of Mr Turnbull, and his peculiar fitness for the Office which he holds.

R. W. Rutt
21 May 1853.

I have great pleasure in adding my testimony to

to that of the Clerk of the Council and the Chairman of Committees in favor of Mr George Turnbull. He has ever discharged the duties of his Office - often of considerable responsibility and great labor - with Zeal and Ability, and I have no doubt has acted materially in the very satisfactory manner in which the clerical duties of the Department have been performed.

Legislative Council Chamber
30th May 1853.

Sir,

In accordance with the request contained in Your Circular of the 7th instant, I have the honor to submit an Estimate of the probable expense of this Department for the Year 1854.

29 May 1853.
£3,728.16.0

No alterations I have made as compared with the Estimate for the present year, are —

1. An addition of £10. to the Salary of the Copying Clerk to which he becomes entitled under the Regulations for the classification of Clerks.

2. An addition of £100 for Fuel, on account of the rise which has taken Place in the articles coming under that head, and which threatens to advance. The quantity of Coal required for the use of the Chamber and various Offices has been taken at 30 Tons that is for Sixty Fires throughout - the total number of Fires being ten or Eleven, of which some are of course, only kept up during the sitting of the Council - this quantity at present prices would cost £117 - but should Coal rise, as anticipated to £5 - the cost would be £195 - and this would be exclusive of the Wood required - but as the quantity of Fuel consumed in 1852 amounted only to 21 Tons of Coal, and nine tons of wood, and as the strictest care is taken by the Sergeant-at-Arms to control the consumption, I trust that the Expenditure may in 1854 fall far short of the amount which I have deemed it necessary to Estimate.

3. I have made a slight alteration of £1. in the amount Estimated for the extra Messenger, that amount having been erroneously taken for the half of a Clerk's year; and

4. I have deducted £50 from the sum Estimated for Witnesses expenses - the amount hitherto

expended having been very trifling.

Under the head of Furniture, I have again Estimated for £200, on account of the enormous price of Labour, and of all articles of Furniture, and because there are many articles of Furniture urgently required, which cannot be obtained although I have applied for some of these so far back as the beginning of last year. The Furniture account having passed through the Office of the Director of Public Works I am unable to supply any information as to the amount expended upon this item.

I have not inserted any amount for Repairs and alterations to the Buildings, because the Director of Public Works inserted a sum for that purpose in the Estimate of his Department for the present year, but it is quite necessary that some provision should be made for contingencies of that description.

I have the honor to enclose an application from the Assistant Clerk and Librarian for increase of Salary, to which I have appended some remarks - and a similar application from the Housekeeper and Doorkeeper. These applications I beg to recommend to His Excellency's favorable consideration.

18 May 1853

30 May 1853

I have prepared a Separate Estimate (hereunto) of the amount required to continue the temporary increase granted to all officers whose Salaries do not exceed £300 per annum.

On Robert & Judia Wilsons Application for an increase of Salary.

Nothing can be more satisfactory than the manner in which the duties of their respective Offices is discharged by Mr. and Mrs. Wilson — they are most valuable Servants to the Council, and it would be exceedingly difficult to supply their place should they be compelled to relinquish it. A very serious responsibility rests upon them in the safe custody of so large a Range of Buildings, and considerable labour is entailed upon in keeping them in a neat state — While on the ~~one~~ one hand their high respectability afford ample guarantee as to their trustworthiness, on the other they are not above affording any assistance, or undergoing any labour that may be necessary.

Mr. Wilson, who is by trade a Compositor, has also rendered valuable assistance, upon emergencies, in forwarding the rapid printing of the Council Papers. — I consider these persons very deserving of any encouragement that can be extended to them.

Ch Accountant & Storekeeper relative to Office Fires.

– I am not in a position to furnish this certificate, having had no Register kept. Had however an account of the days when fires were lighted been kept, such a register would have afforded no adequate rule as to the quantity of Fuel consumed inasmuch as the hours were perpetually varying. Fires being sometimes kept up till Midnight & sometimes till 2, 3 or 4 o'Clock in the morning.

Address presented to His Excellency 1854.

Immediate

Legislative Council Chamber
22d April 1854.

Sir,

As the duty of numbering the Acts of Council devolves upon me, I have the honor to request that I may be furnished with the opinion of the Law Officers as to the proper method of doing so.

The session has generally commenced and terminated between two Anniversaries of Her Majesty's accession. The session of 1851 which did not follow that rule gave rise to a slight confusion in the numbering of the Acts, a repetition of which I am desirous of avoiding. This Session has commenced during the 17th year of H. M. Reign, and is likely to continue until after the 18th shall have commenced.

The importance of the question has been magnified in my eyes, by perceiving that among the Acts of Parliament there are certain number of Acts namely from 1st Vict. Cap. 18. to Cap. 27 bearing an ambiguous heading, inasmuch as the acts passed after June in 1837 were headed 1 Vict. those passed prior to the June of 1838 also headed 1 Vict. The practice which there obtained in Parliament appears however to have been altered.

Legislative Council Chamber
Hobart Town 15 July 1854

Sir,

I have the honor to acknowledge the receipt of your communication of the 27th April requesting me to furnish any papers in my charge bearing upon the subject of public Education.

I have deferred my reply until I could procure from the Inspector of Schools the most recent documents connected with that Department & I have now much pleasure in forwarding to you the following papers with which that gentleman has supplied me. Viz.

1. The existing School Regulations.
2. The Form of Application required before establishing a New School
3. A Circular expressing the views of the Board which Superintends Public Education here on the local relations of Schools.

To these papers I beg to add the following. Viz.

4. The Draft of a Bill introduced by Sir W. Denison in 1848 which was not passed

5. A similar Bill introduced in 1852.
6. A Message introducing the above.
7. The Report of the Inspector of Schools upon the Public Day Schools for 1850-51.
8. Petitions of the Roman Catholic Bishop respecting the Schools Bill.
9. Petition of Roman Catholic Clergy & Laity against the School Bill.
10. Report from the Select Committee on the Bill.
11. A Message from Sir W. Denison introducing a Similar Bill in 1853.
12. The Inspectors Report for 1852.
13. Report of a Special Board appointed to inspect the Schools.
14. Report from a Select Committee in 1853.
15. Petitions of the Revd. T. Cox
16. Correspondence respecting the Establishment of the Normal School

You will observe that the Select Committee recommended the constitution of a Board comprising the Members of the Executive & Legislative Councils which recommendation was adopted.

The First Report of this Board I anticipate will shortly be laid upon the Table, & will doubtless be printed, and I shall have much pleasure in forwarding to you a copy of the same.

20th July 1854.

Sir,

I am directed by the Honorable the Speaker to inform you that it has been intimated to him by the Government that in consequence of the Attorney-General's detention in Launceston & subsequent illness, the business to be brought under the consideration of the Council is not in so advanced a State of preparation as to secure its rapid progress if submitted at so early a period as was proposed.

In order therefore to obviate the inconvenience to Members of being unnecessarily detained in Hobart Town, it is proposed to move an adjournment on Tuesday next for a fortnight.

I have the honor to be, &c.

Sir,

Referring to your letter of the 11th instant, I have the honor to inform you that I shall require two Journals similar to those formerly supplied from England for the Service of the year 1856 should such books not be able to be obtained in the Colony.

These Journals should be eight Quires each of the size, and ruled with blue lines, after the pattern now transmitted. Lettered in gilt on the back, - one Council the other Committee - and red marginal line on the left side of each Sheet, with Index lettered, having four pages each for the three first letters, namely A. B and C, and two pages for each of the other letters.

I would request attention to the description just made - for I observe the last two Journals received had the red marginal line on the right side of the left hand pages - and the Index of one of these was ominus the letters L. & M.

The Speaker of the Legislative
Melbourne.

12th March 1855.

Sir,

I have the honor to inform you that in reply to an application from me, I have this day received from the Clerk of the Legislative Council of Victoria, a communication intimating that on the 2nd December last a Copy of the Votes & Proceedings and Sessional Papers of the Victoria Council for the Session of 1853-54 was forwarded to you by the City of Hobart Steamer, for the use of the Legislative Council of this Colony and that a letter was also sent to you on the same day, advising you of such transmission.

The Volumes in question has never reached this Department, where it is much needed, may I therefore request the favour of your taking such steps as may be necessary to supply the deficiency.

I have the honor to be &c

H: Hastwell Henslowe

The Hon:
The Colonial Secretary.

My dear Sir

In December last I sent in a requisition for an Iron Safe for the Safe Custody of the Records in my charge.

It is of the greatest importance that I should be supplied with one immediately, as I have no Safe place of Custody for the Voting Papers now coming in.

My dear Sir

Yours very faithfully

On Mr Champie note as to Night Watchman.

I do not consider this Officer indispensable - the Acts and Voting papers are kept in an Iron Safe - and I apprehend that the risk from Fire is not very great - the other Council Records cannot be considered of greater importance than the documents preserved in the other Public Buildings.

Complaints having been made to me by some of the Gentlemen connected with the Press on the Subject of the Issue of Bills and Council Papers, I beg to inform you that the following are the Arrangements adopted by this Department in reference thereto.

1. So soon as Bills which have been ordered by the Council to be printed are received by me, a Copy is forthwith transmitted to the Editor of each of the Newspapers.

2. A Copy of the Votes and Proceedings and each Sessional Paper is in like manner transmitted to the Editor of each Newspaper.

3. An additional Copy of the Votes and Proceedings can be obtained from Mr Wilson the Door Keeper by the Reporter for each Newspaper as soon as those daily papers arrive from the Printing Office.

Any error or irregularity in carrying out these arrangements shall as far as lies in my power, be remedied, upon being pointed out to me by yourself.

Sir,

I have the honor to request your permission to lay upon the Table A General Index to the Votes and Proceedings and Sessional Papers of the Legislative Council of New South Wales from the year 1843, which I have thought it desirable during the Recess to prepare, as a means of facilitating reference to many useful precedents and much valuable information.

You will at once perceive that this work has been one of considerable labour, which I have only been enabled to accomplish by the able, zealous and indefatigable assistance afforded by Mr Dumbrill. I trust I shall however consider our patience and exertions amply repaid, if the work which I now propose to submit to the Council shall prove as useful as I anticipate.

Sir

Your attendance is requested before the Select Committee appointed to inquire into the Convict Department on Friday the thirty first day of August at the rising of the Council.

In order that you may be prepared to answer questions that may then arise, your attention is particularly requested to the six questions embodied in the Address to His Excellency the Governor and herein enclosed.

Information will be required from you of the number of Colonial Prisoners forwarded to Port Arthur, the Cascades or other Parts of Van Diemen's Land, during the last two years:—

The respective periods of punishment and a nominal Return of such Prisoners:—

The nature of the employment of said Prisoners during the period mentioned.

The amount carried to Colonial Funds during such period for the labor of Such Prisoners.

Under whose charge have those Prisoners been placed?

Is there any Colonial property at Port Arthur, Cascades, or in Salisbury Crescents? If any, of what does it consist?

What are the Regulations for the punishment of Colonial Prisoners?

And any other information relating to the matter under investigation.

I take the liberty of suggesting that if any Correspondence has taken place between yourself and the Colonial Agent relative to the Books required, it might be desirable to supply me with a copy to lay before the Library Committee.

I take this opportunity of enquiring whether there would be any objection to transferring from your Office to the Legislative Council the Parliamentary Papers, Journals and Votes and Proceedings which I believe the Colonial Agent transmits to you regularly.

To the Queen's Most Excellent Majesty

Most Gracious Sovereign

We Your Majesty's dutiful and loyal Subjects, the Members of the Legislative Council of Tasmania, in Council assembled desire respectfully to approach Your Most Gracious Majesty with renewed assurances of our loyalty, fidelity, and attachment to Your Majesty's Person and Government.

We respectfully pray that, accepting Your Gracious Majesty's Representative the Governor Your Majesty will be pleased to direct that the system of appointing gentlemen from England to fill offices of the Government of this Colony shall for ever cease.

We respectfully inform Your Majesty that this system operates injuriously and unsatisfactorily to Your Majesty's faithful Colonists, who naturally look forward themselves to discharge the high duties of the Offices of their Country, - a patriotic feeling of the descendants of England which we are convinced Your Majesty will appreciate and recognise with pleasure.

We respectfully assure Your Majesty that members of Your Majesty's Colonists born in the Colony are now eminently qualified to discharge all these duties faithfully, no less to the satisfaction of Your Majesty's Government than to that of their fellow-Colonists; and therefore we respectfully submit that the necessity for any such appointments from England no longer exists.

Colonial Secretary Huestis' letter to Colonial Secretary Chandler, & Despatched with the Votes and Acts of Session 1854.

- Will take care that the Acts of 1854 and of last Session are duly forwarded as requested and that the Votes & Proceedings of the last Session as well as all future Papers are transmitted to Libraries.

But as the number of copies of previous Sessions is very small, scarcely sufficient indeed for the reference of members during the Session, it would be very inconvenient to the Council to furnish a Copy of the 1854, Volume.

On The Accountant of Stores letter re to Supply of Fuel and light.

The number of Fires lighted during the Session is few. I however calculated that Fuel for six fires throughout the year (considering that during the Session some of them are necessarily kept up 12 or 14 hours) would be sufficient and experience has shown that the calculation was tolerably correct. The average quantity of Fuel consumed during the last three years has been 2½ Tons of Coal and Six Tons of wood annually.

The average consumption of Spermaceti has been 193 lbs annually. and 54 Gallons of Oil. At the duration of the Session as well as the daily sitting is perpetually varying I am unable to give any nearer estimate than this. The great consumption of Coals of Fuel & light is during the Session. to divide it according to months or days would therefore lead to no correct conclusion.

In the matter of the appeal of the Defendants to the Queen in Council against the Judgment of the Supreme Court of Tasmania.

Sir,

In this case the sum of £1000 has been voted by the Governor and Legislative Council to defray the costs of legal proceedings taken against the Honorable the Speaker and Serjeant at Arms of the Legislative Council by J. L. Hampton, and to defray the costs of the appeal to Her Majesty.

The Judges of the Supreme Court have ordered that the Defendants shall give Security to the amount of £1200 either by way of Recognizance or by depositing such sum with the Registrar of the said Court for the performance of such judgment as may be made upon the said appeal, and for prosecuting the same and paying such costs as may be awarded to the Plaintiff such order being in effect a Security for the costs incurred by the Plaintiff in the Court of the proceeding on the appeal.

It has been deemed advisable to give such Security by depositing the amount required, and I have the honor therefore on the part of the Defendants to request that the Governor will grant an authority for transferring the amount above mentioned to the Registrar of the Court for the purposes set forth in the order referred to.

The Honorable the Speaker of the Council not being in Hobart Town, I make this application on his behalf, and that of the Serjeant-at-Arms, because the time within which the required Security must be given will expire on the 9th proximo, but while by this days post I write to Captain Fenton and obtain his written confirmation of such application and forward it without delay.

The Clerk of the Legislative Council
Victoria

To the Queens most excellent Majesty
in Council

The Humble Petition and Appeal of Michael Fenton of Fenton Forest in Tasmania heretofore called Van Diemens Land Esquire Speaker of the Legislative Council of Van Diemens Land aforesaid and Samuel Hales of Hobart Town in Tasmania aforesaid Serjeant at Arms of the said Legislative Council.

Sheweth

That an Action for false imprisonment was commenced in the Supreme Court of Van Diemens Land aforesaid on the 17th day of September now last past by John Stephen Hamilton of Hobart Town aforesaid Esquire against your Petitioners for an alleged assault upon and false imprisonment of the said John Stephen Hamilton by your Petitioners.

That the Declaration in the said Action was filed in the said Court on the 27th day of the said month of September and that the damages in the said declaration were laid at Five Thousand Pounds.

That on the 31st day of October now last past your Petitioners severally pleaded - First the General Issue and Secondly a Special plea of Justification.

That on the 8th day of November now last past the Plaintiff filed a General Demurrer to the said Second plea of your Petitioners and the said Demurrer came on for Argument before the said Court on the 13th day of the said month of November and on the 27th day of the same month the said Supreme Court of Van Diemens Land gave Judgment that the said Second plea was not sufficient in Law.

That on the 10th day of December now last past your Petitioners presented their petition to the said Supreme

Court of Van Diemens Land for leave to appeal to Your Majesty in Your Majesty's Privy Council from the said judgment of the said Supreme Court upon the said Demurrer and that the execution of the said judgment might be suspended pending the said appeal

That the said Supreme Court by two several Orders bearing date respectively the 6th day of March now last past Severally Signed by the Honorable Valentine Fleming the Chief Justice and the Honorable Thomas Horne the Puisne Judge of the said Court Ordered that the execution of the said Judgment of the said Court in the said Cause should be Suspended pending the said appeal and that the said appeal be allowed.

That the questions raised by the said several Second Pleas of Your Petitioners were - First the right of the Legislative Council of Van Diemens Land to Punish by Imprisonment for a Contempt of the said Council a Person summoned to give evidence before a Select Committee of the said Council and not attending in obedience to such Summons and Second as to the form of the Warrant of Imprisonment.

That Your Petitioners conceive and are advised that the said Judgment of the said Supreme Court of Van Diemens Land is erroneous and therefore humbly appeal therefrom to Your Majesty.

Your Petitioners therefore most humbly pray that Your Majesty in Council will be pleased to reverse or rescind the said Judgment and to order and direct that the said John Stephen Hamilton may be adjudged to pay Your Petitioners Costs of this appeal Or that Your Majesty will be pleased to grant unto Your Petitioners such other relief in the premises as to Your Majesty in Council shall seem meet.

And Your Petitioners will ever pray &c.

Michael Fenton, Speaker

Tasmania
1st May 1854.

To all to whose view these Presents shall come I Michael Fenton of Fenton Forest in Tasmania Esquire Member of the Legislative Council of Tasmania aforesaid and James Fraser of Hobart Town in Tasmania aforesaid Esquire Sergeant at Arms of the said Council Send Greeting Whereas an action was commenced on the 17th day of September now last past in the Supreme Court of Van Diemens Land now called Tasmania by John Fletcher Hamilton of Hobart Town aforesaid Esquire against the said Michael Fenton and James Fraser for and alleged assault upon and false imprisonment of the said John Fletcher Hamilton and Whereas we severally pleaded to the said action first the general Issue and second a special plea of Justification and Whereas the plaintiff afterwards filed a Demurrer to the said Second Plea and the said Demurrer came on for argument before the said Supreme Court on the 27th day of November now last past when the said Court gave Judgment that the said Second Plea was not sufficient in law And Whereas we are desirous of appealing from the said Judgment of the said Court to Her Most Gracious Majesty the Queens Council and for that purpose of appointing the undermentioned persons to act as our attorneys in the matter of the said appeal. Now Therefore Know Ye that we the said Michael Fenton and James Fraser DO and each of us DOTH by these presents nominate constitute and appoint Alfred Alexander Stubbs and Dugald Edward Jackson now or late of number 19 Buckingham Street in the Strand in London Attorneys at Law jointly and each of them severally our and each of your true and lawful attorneys and attorney for us and each of us and in our and each of your names and name and for our and each of our act and acts deed and deeds to enter and commence the said appeal and carry on and prosecute the said appeal to judgment and final determination thereof in and before the said Privy Council and Her Majesty and before such Officer and Persons having authority in that behalf as may be necessary or proper. And for all or any of the purposes aforesaid to appear for us and each of us in and before the said Privy Council or before any Officer or person or Department connected with the said Council and to make sign seal and deliver and execute all such

My dear Sir

I have much pleasure in returning the Bond duly signed and witnessed and regret that so much delay has taken place in the transmission of the necessary documents. I presume in the copy of your letter to the Gentlemen in London who are to carry on the appeal (for you have not given their name or address) that you desire them not to incur beyond a certain necessary expense without further instruction. If such direction is in any way likely to check proceedings it ought to be corrected, for I have no fear that the Council will hesitate to grant any expense essential to carrying on the appeal and indeed I think they would be justly offended should any act of mine be productive of delay.

Yours faithfully

(Endorsed on the foregoing)

Know all Men by these Presents that I Michael Fenton of Fenton Forest near New Norfolk in Tasmania, Esquire, (the Speaker of the Legislative Council of Tasmania aforesaid) am held and firmly bound unto Her Majesty Queen Victoria, Her Heirs or Successors, in the sum of One Thousand Pounds, to be paid to Her said Majesty, Her Heirs or Successors; For which payment to be well and truly made I bind myself, my heirs executors and administrators jointly by these presents. Sealed with my seal. Dated this day of July in the year of our Lord one thousand eight hundred and fifty six

Whereas an Action at Law was on the seventeenth day of September now last past commenced by John Stephen Hampton, Esquire Comptroller General of Convicts in Tasmania aforesaid against the said Michael Fenton and against James Fraser Esquire, the Sergeant-at-Arms of the said Legislative Council for alleged false imprisonment, and the said Michael Fenton was ordered by the said Legislative Council to defend the said Action and to employ all necessary legal assistance for that purpose and the sum of Two Thousand Pounds was by the said Council voted for or towards the payment of the costs and expenses attending the said defence And Whereas the Pleas of the said Michael Fenton and James Fraser to the Declaration in the said Action sworn by the said John Stephen Hampton demurred to and the Demurrer (after argument) was by the Supreme Court of Tasmania allowed And Whereas the said Michael Fenton and the said James Fraser have pursuant and in obedience to an Order of the said Council appealed to the Judicial Committee of Her Majesty's Privy Council in England against the decision of the said Supreme Court and

Three hundred and ninety one Pounds ten shillings and nine pence part of the said sum of Two Thousand Pounds hath been applied in paying the costs of the said defence before the said Supreme Court and in prosecuting the said Appeal, and the sum of One Thousand two hundred pounds other part of the said sum of Two Thousand Pounds hath been paid into Court to answer the Costs of the Plaintiff in the said Action in case Judgment in his favor shall be affirmed on the said Appeal And Whereas the said Michael Fenton as such Speaker as aforesaid hath applied to the Governor of Tasmania to pay to William George Harris, the Solicitor employed by the said Legislative Council, the sum of Four hundred and eight Pounds nine shillings and three pence, being the residue of the said sum of Two Thousand Pounds to meet the expenses of prosecuting the said Appeal and the Government has consented to do so upon the said Michael Fenton entering into an obligation for the due prosecution of the said Appeal and for the proper application of the said sum of Four hundred and eight Pounds nine shillings and three pence in the prosecution thereof and for the proper accounting to the Colonial Treasury for the expenditure of the said sum of Four hundred and eight Pounds nine shillings and three pence and for the return to the Colonial Treasury of the Surplus (if any) Now the Condition of the above written Obligation is such That if the said Appeal shall in all necessary things and without delay be prosecuted and carried on before the Judicial Committee of the Privy Council against the said decision of the said Supreme Court of Tasmania so far as the said sum of Four hundred and eight Pounds nine shillings and three pence will meet the costs and expenses of prosecuting and

carrying on the same, and of the said sum of four hundred and eight pounds nine Shillings and threepence or so much thereof as may be necessary shall be duly expended and applied in the prosecution of the said Appeal and in the expenses incident thereto, and of a full detailed and accurate account of such expenditure shall be furnished to the Colonial Treasurer of Tasmania for the time being, and of any portion of the said sum of four hundred and eight pounds, nine Shillings and three pence which may not be necessarily expended in the prosecution of the said Appeal and in such expenses as aforesaid be repaid into the Colonial Treasury of Tasmania within twelve months after the decision of the said Judicial Committee shall have been given upon the said Appeal Then the same Obligation shall be void or otherwise the same shall be in full force and vertue.

Signed Sealed and delivered by the above bounded Michael Fenton in the presence of

Sir,

Your communication of the 5th ultimo having reached this Office during my absence on leave, it was not in my power to comply with the request it contained, that I would reply thereto before the 30th ultimo. Having now returned I hasten to address you on the Subject to which that communication refers.

1. With regard to the Assistant Clerk of the Council, and Librarian I submit that the fixed Salary ought not to be less than £300 per annum. It must be borne in mind that that Officer will be called upon to perform two distinct sets of duties - the Clerk Assistant, those duties will be both onerous and highly responsible, and in addition he will act as Librarian to the Parliament, an Office which so soon as the legislature shall be in full Operation may be expected to afford much employment.

I anticipate also that as a general principle the Office of Clerk Assistant, on account of its great importance, will invariably be filled by some gentleman whose previous experience and efficient services will entitle him to be promoted to it. Upon this general ground and taking it for granted, that alone will ever occupy the Office unless fully competent to discharge its duties, I hold that the Salary attached to it ought not in any case to be less than the sum I have mentioned - and having laid this down as a principle, I feel no scruple in drawing your attention to the fact patent to every Member of the present Legislature, that the gentleman who now holds that appointment is, for long previous consideration entitled at least to the remuneration I propose - while he is one who has had an opportunity of witnessing his labours during the past Five years, cannot fail to be impressed with a sense of his talent & efficiency, it is equally needless within my province to report to you that during each Session his continued and unwearied assiduity has run far beyond what the Public could reasonably claim from him, and such as materially to endanger his health.

2. Considering the greatly increased extent of the Buildings requiring further accommodations of the two Houses I submit that the Housekeeper will require considerable assistance to enable her to keep them in a proper State of Order and Cleanliness, and that her Salary ought to be £100, leaving it to her to employ and control such Servants as may be requisite to attain that object, and making her responsible for the due discharge of their duties.

3. For the reasons stated in reference to the Clerk Assistant of the Council, I conceive that the Clerk Assistant of the Assembly ought to receive a Salary of £250, and,

4. The Serjeant Clerk attached to that House ought to be a Clerk of the Second Class, according to the Scale at present proposed, the Clerk would receive a Smaller Salary than the Messenger to the Council.

Sir,

I have the honor to report that I yesterday received from the Accountant of Stores a case containing, as I believe the Portrait of Her Majesty, and to request that you will favour me with instructions as to its disposal.

As you are aware the Chamber intended for the Legislative Council is not yet built, and as the Painting in question is of such large dimensions, I submit that it is worthy of consideration whether it would be advisable to open the case until the Building is in such a state as to admit of the Painting being at once moved to its ultimate destination and finally hung.

The case is now in the open Vestibule under the old Council Chamber, and as I have given orders that the iron Gates shall be kept locked, and the Painting is doubtless sufficiently secure in the case, I apprehend that it can remain where it is without injury until the Building shall be completed.

The Case measures 8 feet by 3 feet 7 inches in depth.

W. Hartwell Henslowe

Legislative Council Chamber
23rd September 1856

Sir

During the Recess of 1854 I undertook the preparation of a General Index to the Votes and Proceedings and Papers of the Legislative Council of New South Wales from 1843 a work which was much needed by many Members of this Legislature who repeatedly applied to me to assist them in making references to the Proceedings of the Sydney Council and who hailed the completion of the work with much satisfaction.

On the 24th July 1855 having completed this Index (up to the previous Session) I laid it upon the Table of the Council and it was ordered to be printed.

The Government Printer having for a considerable period neglected to take any notice of that Order, and having intimated to me that there was no prospect of his being able to attend to it (although it stands in the Table of Contents of the Proceedings of the First Session of 1855 as a printed Document) I withdrew it

it from the Printing Office temporarily for the purpose of enlarging it. Immediately on my return from Sydney in July last I enlarged it by making it comprise references to the whole of the Proceedings of the Council of New South Wales which sat under the Acts of Parliament 5 & 6 Vict: and 13 & 14 Vict:, that is from 1843 to 1855 inclusive and I returned it to Mr Barnard in order that it might at length be printed during the present Recess.

Having several times urged upon the attention of the Government Printer the question of obeying the order of the Legislature in reference to this document and that Officer having recently expressed to me his opinion that there is no necessity for its printing, but that a MS Copy is all that is required I have the honor to bring the matter under the notice of the Government in order that the question may be decided whether the order of the Council shall be obeyed, or whether the Government will support the opinion of the Government Printer.

My reasons for doing so are just that as the Officer of the Legislature I am unwilling to see that Body treated with contempt, and secondly that while the sheets of the Index in question lie burned in the Offices of the Government Printing Office, a useful and valuable work is rendered unavailable.

I need hardly say that the work was not accomplished but at the expence of severe labour and much time bestowed upon it both by Mr Turnbull and myself, but I may add that upon my recent visit to Melbourne the Houses of the Legislature of Victoria requested that I would supply them with as many copies as could be spared

for the use of that Council, when I was assured that the need of such a work had been long felt.

To His Excellency Sir H. Ed. Young Knight Captain General and Governor in Chief of the Colony of Tasmania and its Dependencies.

May it please Your Excellency.

We Her Majesty's dutiful and loyal Subjects the Members of the House of Assembly of Tasmania in Parliament assembled respectfully request that Your Excellency will be pleased to cause to be laid on the Table of this House

A Return of the Number of Insolvencies in Tasmania during each of the last five years, distinguishing the years; and whether the Insolvencies have been declared at Hobart or Launceston.

The total Liabilities and Assets as stated in the Schedules.

The total amount of Debts proved.

The total amount of Dividends, and the Average time between the declarations of Insolvency and the declarations of dividend.

The total expenses incurred under such Insolvencies distinguishing the amounts of Law expenses, Agencies Commissions, and Sale and other incidental expenses.

The total number of Imprisonments for fraudulent Insolvencies, distinguishing each at Hobart Town from those at Launceston, & the average duration of such Imprisonments.

Lambert House

Sir

I have submitted a Plan for slightly altering the Speaker's Dais and the arrangement of the Tables in the House of Assembly — which is generally approved by the Members, and which will relieve me of very serious difficulties and inconveniences under which I have always laboured in the Chamber now occupied by the New Body.

The alterations are very trifling, can be effected between Friday night and Monday afternoon and only require your authority to the Director of Works — They can be more easily effected now than at any future period, seeing that Mr Whitesides has a Contract for such work, and is still I believe engaged in completing the Furniture of the Houses of Parliament. I therefore would request that you will be pleased to issue the necessary authority

Memorandum

Will the Colonial Secretary be so good as to authorise the payment to Mr Tombs of the sum of £2.10 being the amount due as subscription to the "Wellington Independent" News paper furnished for the use of the Members of the Legislature a Communication having been sometime received from the Proprietors by Mr Merlowe enclosing their account and requesting him to forward them a Draft upon the Union Bank of Australia at Wellington for the amount — a Bill was accordingly sent to the Auditor, but payment is refused at the Treasury until a receipt or order can be procured from the parties at New Zealand. In order to avoid the delay and inconvenience which would thus be caused, this application is now made.

Gentleman

With reference to your communication of the 17th October last, I have now the honor to acknowledge the receipt of the Cases shipped by you per "Woodcote" and containing the Books as per Invoice; and to inform you that Instructions will be sent by the Government, by the next Mail to Mr. Barnard the Agent General for this Colony to pay the amount due you for the same.

I have laid your letter before the Library Committee and in reply I am directed to put the following suggestions:-

1. That Application should be made to Messrs James Biggs & Son of Parliament Street Bookseller, from whom it is thought may be procured the Harleian Miscellany and Woodfalls Parliamentary Reports.

2. That Messrs Longman & Co. of Paternoster Row may probably be able to supply a Copy of Harvey's Memoirs of George 2nd.

3. That the "Year Book" being a series of Law Reports from the Reign of Henry III down to the end of Henry VIII (price about £11.) and also Fortescue de Laudibus

with Amos' translation may perhaps be obtained from Messrs Stevens & Norton (Law Booksellers) Bell yard from Messrs Butterworth & Co. Fleet Street, and failing these at the Sale of the Law Books of any deceased Lawyer of eminence.

I am therefore to request that you will have the kindness again to endeavour to procure these works, and if successful to transmit them as soon as possible, adopting the same course as before; and

In reply to the last paragraph of your letter I am to inform you that the Committee do not at present consider it expedient that you should carry out the intentions expressed therein.

The Colonial Secretary

To His Excellency Sir Henry Edward Fox
Young, Knight, Captain General and Governor in Chief
of the Colony of Tasmania &c &c Dependencies.

May it please Your Excellency

We, Her Majesty's dutiful and loyal Subjects the Members of the House of Assembly of Tasmania in Parliament assembled desire to convey to Your Excellency the expression of our loyal attachment to Her most Gracious Majesty, and to inform Your Excellency that we have this day unanimously adopted the following Resolutions;—

1. That this House, with feelings of sincere and unmingled gratitude recognise in the act of Her Most Gracious Majesty, by which the transportation of British criminals to these Australian Colonies, was made to cease & determine, the concession of a great and complete measure of justice which was sought for by the unanimous prayer of the Colonists, and has been productive of great and permanent satisfaction.

2. That in the opinion of this House, the compliance of Her most Gracious Majesty with the prayer of the Colonists in the settlement of a question so long agitated, while it has confirmed the feeling of loyalty and attachment to the Mother Country which happily exists in these communities, must inevitably lead to the most beneficial results in vastly improving their social condition, and in rapidly advancing their political character and commercial prosperity.

3. That it is the opinion of this House that any step on the part of Her Majesty's Government to revive the transportation of Convicts to Australia or the Islands adjacent, would create universal discontent, and lead to consequences greatly to be deplored.

4. That the foregoing Resolutions be embodied in an address to the Governor, with a request that His Excellency will be pleased to transmit them to the Principal Secretary of State for the Colonies.

In accordance with the last of the foregoing Resolutions we have now respectfully to request that Your Excellency will be pleased to transmit them to the Principal Secretary of State for the Colonies for the information of Her Majesty's Government

At the same time it is right that I should mention that although I am diligently labouring at the various Tables and Indices necessary to complete the First Volume of the House of Assembly Journals & the Volume of Standing Rules and Orders yet, deprived of his aid considerable delay must take place before I can succeed in passing them through the Press.

I think you will find it will be attained previous this Session for I cannot discover a single erratum or corrigendum but I have inserted a couple of addenda.

My dear Sir,

I entirely agree with you

House of Assembly
30th July 1857.

Sir,

A paragraph in the Launceston Examiner has attracted my attention which appears to me to demand some reply, it contains an assertion that a copy of the Estimates (as amended) for 1857 was not supplied to that Establishment.

I beg to state that every precaution has been adopted by me to ensure the delivery of all Parliamentary Papers both to the members and to the Press - but that among the numerous Papers issued, many are overlooked by the recipients, who afterwards imagine that they have not been supplied, I speak positively upon the point from actual observation - and however indefatigable the Clerks of the House may be in their efforts to supply accurately I despair of securing on the part of the recipients a corresponding accuracy. With regard to the particular Paper in question - on account of its importance, I myself gave special directions that the Press should be supplied without delay.

The duty of putting up the Papers devolves upon Mr Young who then submits them to me to be franked, and they are immediately despatched to the Post Office by the Messenger - the Office having just been established.

I enclose Mr Young's reply to my query in reference to the Papers in question.

I have &c.

H. Hartwell Kemlover

158.

P.S.

I ought to have added that every night I call upon Mr Young for a written Report of the Papers issued during the day - which report I insist with my own hand on the day's Votes & Proceedings - any individual therefore entitled (by right or courtesy) to receive Parliamentary Papers can always see day by day what has been issued, and can thus verify his own receipts - I cannot imagine any further or more elaborate check - although frequent complaints have induced me to devote the utmost attention to this subject.

If you will take the trouble to refer to the Votes & Proceedings of the 6th December 9th instance you will observe at the end of No. 34. February 18th - "The Estimates" (Draft) and in No. 34. February 18th - "The Estimates and Ways & Means for 1857. Paper No. 19." being the (Amended Estimates)

Nothing surely, can be easier than for a recipient to refer to the Votes day by day as received, and to apply at once for any Paper that may have miscarried.

Sir,

I regret to inform you that I continue to receive the most distressing accounts from Dr Turnbull respecting his son, W. George Turnbull, and am therefore under the necessity of requesting on his behalf an extension of his leave of absence.

I have sedulously exerted myself to accomplish some portion of the labours belonging to this office and hope to be able to complete all that he would have had to do during the recess, before the 1st October — before which time I shall have the honor of submitting some proposal for the labour of the Session should he still be confined by sickness.

I enclose Dr Valentine's Certificate — and the honor to be,

Sir
Your most obedient,
Humble Servant.

House of Assembly
12th September 1857.

Sir,

At the time I was called upon by your Circular of the 14th ultimo to furnish an Estimate of the probable Expenditure of this Department for the ensuing Year, it was not in my power to procure that I submit a transcript of the Estimates settled for this Year.

I now beg most respectfully to represent that that Estimate places this Department upon a footing which as compared with other Departments is derogatory to its high functions, and uncommensurate with the labours those functions entail upon its Officers.

I will at present content myself with observing upon the Salary allotted to the Clerk of the House. In doing so I of course entirely put aside all personal Considerations - God holding me to the Queens Letters Patent appointing me Her Majesty's Clerk of the Legislative Council both upon my present position merely as an Incident which must in time be rectified.

The Salary attached to an Office is I apprehend calculated according to the importance and responsibility of such Office - the Amount and nature of the Education, acquirements, judgement, intelligence and experience required properly to discharge its duties - and lastly according to the Amount of labour which the discharge of such duties involves.

Now the Office of a "Clerk of a Legislative Body", to use Sir T. May's words - "is an Office of great trust and importance" The power has been pleased to assign to all such Officers in the Colonies a High Rank by the Royal Regulations which settle all matters of Colonial Administration - and in accordance with their importance and Official Rank, a respectable Salary has always been attached to them.

When I was first appointed Clerk of the Councils in 1842 - the Salary attached to the Office was £500. per annum, and never I believe had been less. When I again undertook those duties in 1851, the Salary was the same; but so soon as the Representatives of the People perceived the increased amount of Labour which devolved upon the Clerk

of

of the Council under the Representative System, they (not the Members of a Town Government) proposed as a matter of justice and Reason to raise the Salary to £600 - and it was so raised accordingly.

The New Constitution replacing the One Chamber by two Houses, has now divided the labours between the two, however materially increased the labours of the Clerk - and those of the Clerk of the House of Assembly are incomparably more irksome than were those of the Clerk of the Council under the former System - Yet his Salary is fixed at £400 - being one third less than that of the Clerk of the Single Chamber.

There are Offices of great trust, responsibility and difficulty - recognized by the Crown as such, recognized as the Head of a Department, a Suddenly reduced below the level of the Chief Clerks in other Departments who are subordinate to & reduced to the level to which a Mechanic was at the same time raised.

The only plea I have heard urged for this reduction is the relaxation afforded by the long recess - but I beg to state that while during the Session the aggregate amount of labour endured is pretty nearly equal to that of other Offices during the whole year - those recesses also are in great part occupied at Office - and I will venture to affirm that since the Prorogation I have performed as much actual work in this Office as any Head of the Government, not a Minister.

We seek a Pension that my own evidence is liable to suspicion - but I beg to state that my health has suffered materially during the last five years from the close application exacted by my duties - and my eyesight is well nigh destroyed - I may add that from the same cause Mr. Dumbrell has ever since the Prorogation been labouring under illness so severe as to excite the most serious fears for his life.

The Volume which I forward herewith contains some evidence in support of what I advance - and I may mention in illustration the following circumstance - Towards the close of the last Session on the Friday night at Eleven o'clock, I was requested to summon a Committee for the following Monday - As soon as I could, namely between Midnight & one o'clock I handed the Summonses, duly signed to the Messenger who in addition to many other duties had to carry round Summonses for several other Committees -

Yet the Members complained that they did not receive the Summonses on the Saturday morning prior to their leaving Town to enjoy the Saturday's holiday which by the Rules of the House was devoted to labour.

I trust that the Status of this Department will be reconsidered.

I have the honour to be
Sir,
Your most obedient Servant.
H. Hartwell Newlands

The Hon.ble
The Colonial Treasurer.

Hobart Town
21st September 1857.

Sir,

The Reports which I receive from Mr Valentine upon the State in which Mr George Dumbrell still continues show that it will not be possible for him to resume his duties for some time - and it now becomes necessary that some provision should be made for their performance. Inasmuch as Mr. Dumbrell's health has been sacrificed to the zeal and unremitting assiduity with which he has devoted himself to the arduous labours of this Office, I take it for granted that the Government will be desirous of showing him every consideration and indulgence in his affliction. I would therefore propose that sick leave be granted him that he should during that leave be permitted to draw half his Salary and that the other moiety should be paid to some competent Officer who should undertake to discharge his duties.

The only application which has been made to me is that of Mr Smith of the Survey Office, which I enclose - nor am I in a condition to recommend any one as being (in my knowledge) adequate to the task - Still I trust

that some temporary arrangement may be made for supplying a deficiency which I feel most severely.

I have the honor to be &c

The Hon:
The Colonial Secretary

House of Assembly
26th: October 1857.

Sir

With reference to my letter of the 12: ultimo, I deem it necessary to request the attention of the Government to a point of considerable importance to myself.

My complaint, ill health, and seriously impaired eyesight, the death of my Lamented Assistant who recently fell a sacrifice to his Zeal, leaving me to struggle alone - and the dangerous illness from which the Chairman of Committees has scarcely yet recovered - & all circumstances which force upon my mind the anticipation of finding myself at no very distant period compelled by disability, to relinquish my arduous duties. Whenever that time arrives I do not doubt that the justice of the Government will award to me a Retiring allowance according to a fixed Scale. But I cannot help feeling considerable apprehension lest the cruel change effected in my position upon the first meeting of the new Parliament, may be used as an argument against my receiving the Rate of Retiring allowance which I should be fairly entitled - I do although I am receiving the same Rate of Pay this year as in former years (minus of course the Gold Allowance) my fixed Salary has been reduced by one third.

I trust that measures may be adopted to guard me against such an injury.

I take this opportunity of Submitting Copies of three letters addressed to me by the Colonial Secretary during the year 1856. The first dated 19: February, Second last, as I conceived, in the Appointment conferred upon me by the Queens Patent which I still hold - as Her Majesty's Clerk of the Legislative Council.

The Second dated 22: November (Saturday) announced me by the information that my Salary was to be reduced to £460 - but stated "on my acceptance the "Appointment of Clerk of the House of Assembly with the "Salary I had received as Clerk of the Legislative Council "namely £600 per annum;" and requiring an immediate reply as the appointment must be made on Monday.

I Without loss of moment acknowledging my Patent I was compelled to submit to whatever the Government chose to inflict upon me, and on Tuesday (I received) the third letter dated 25. November acquainting me that His "Excellency had been pleased to appoint me Clerk of the House "of Assembly, and that my Salary had been fixed at £400 "per annum" - but &c -

You will observe that this was the very last week prior to the Opening of Parliament - that I had up to that moment been permitted to repose upon the sponge I had received, and to make all the necessary preparations for the proceedings of Parliament - in the course of which I had visited Sydney and Melbourne and had devoted much time to conference with many Members of the Colonies of N.S. Wales, Victoria - and South Australia - and I could not fail to be painfully impressed with the contrast between the Reward of a quiet, zealous and faithful Servant I had been invited - and the liberal, confidence & considerate treatment those Gentlemen have met with at the hands of every one of their Governments.

Memorandum

One of the Messengers is to attend at the printing Office daily (except Monday and Tuesday) at twelve o'clock at noon precisely, or sooner if the Government Printer should intimate his acquiescence, to obtain copies of the Votes and Proceedings.

The Messenger will obtain from Mr. Barnard or Mr. Robarts a certificate of the precis book at which he receives the same - and will immediately bring them down to me, or (should I not be in my Office at the moment) to Mr. Hull or Mr. Young who will be good enough to add the precis book receipt - to the filed on my Table.

Immediately after this, copies are to be dispatched to those Members who have signified their desire to have them so delivered. As yet, Mr. Miller is the only member who has signified such a desire, - should any other Member follow his example, it will be necessary that careful and judicious measures be taken to comply therewith with the least possible loss of time - and to compel the Messengers to do their duty faithfully.

The Assistant Clerk attention is at the same time requested to my memo. of the 22 ultimo.

Sir,

You are aware that I have long since directed that one of the Hobart Town Newspaper should be filed in my Office.

Upon your claiming them as your private property some days since, I explained to you that the Papers were supplied to this Department, and not to yourself.

Yesterday I ordered Mills the Messenger to file the Mercury, upon my inquiring whether he had done so, he informed me that although he communicated to you the Order he had received from me instead of permitting him to obey that Order, you directed him to carry the Papers to the Post Office, and there Post it, which he did.

Be good enough to inform me whether this is the case.

Sir,

In answer to your note, received this day, I beg respectfully but distinctly to repudiate and emphatically to deny, that I ever prevented W. Mills from carrying out any instruction which may have been given to him, about filing Newspapers, by W. Rendlesham.

The Papers called the Mercury, sent by me to the Post on the 5th inst, understood, the day by Mr. Davis had been good enough to supply to me gratuitously, at my own especial and personal request, for some considerable time back, and which I have always hitherto done with just what I thought fit, without interference of any kind from

from any person whatever; — although all the gentlemen and Others connected with the Office have always had the entire use of it during the whole day.

Memo:

Before entering upon another Session, I deem it necessary to impress upon W. Young the necessity of bringing to the discharge of his duties a little more energy and zeal & with an accuracy than heretofore His [illegible] deliberations in performing his duties has been a serious source of hinderance and inconvenience to me — and I beg that he will endeavour to adopt a little more rapidity in future.

Before next Saturday, he will be good enough to clear the Pigeon Hole of Bills, Papers and Votes — to make up the Papers & Votes into Number, and to put away all the Spare Copies.

With regard to the delivery of Papers &c. during the Session, I beg that he will be exceedingly accurate and expeditious. Immediately upon receiving from myself, or from the Printer Bills, Papers, or Votes, he will without loss of time file in my Office

185

a Receipt showing the hour and day — He will be unremitting in his supervision of the Messengers to insure that they do their duty. He will take care to have the Messengers Blank Forms ruled, he will see that they have a sufficient number of them, and that they fill them up with strict accuracy. He will then enter in the Letter Book the delivery of each Paper &c. with reference to the Messengers Certificate, which he will take care to number for that purpose beforehand.

As he will be held strictly responsible for the due execution of these instructions, I trust he will take care to guard against the possibility of complaints — which have hitherto been much too frequent.

The Clerk-Assistant will be good enough to communicate these instructions to W. Young and to cause them to be entered.

Mr W. Solly's note to the Serjeant-at-Arms, respecting the appointment of an Assistant Messenger.

— With reference to your note respecting the application of O'Brien — I have to observe, that it was intimated to me by the Clerks of the House of Assembly that a person should be nominated to perform the duties of Assistant or temporary Messenger & the nomination rested with me. I accordingly made inquiries & recommended "Gear" as a qualified person.

W. J. Solly Esq

Re Timothy O'Brien's letter to the Colonial Secretary.

– The appointment of Asst. Messenger is one of an entirely temporary character & I have no idea that the past or individual having been employed on more occasions could be looked upon as establishing a claim to the appt. whenever it becomes necessary to obtain temporary additional assistance. I recollect that during one Session a man named Reynolds was the Assistant Messenger.

O'Brien was during the last Session totally incompetent – and occasioned considerable inconvenience this his incompetence – the temporary nature however of his appointment, and consideration for a man whom I had known to be an old servant of Sir R. Dr – prevented my taking steps to obtain his dismissal – I never understood that his lameness arose from any accident occurring in the discharge of his duty – but in addition to that lameness, he had become very deaf & stupid – and I am informed that he is addicted to drink. With reference to any communication that the Messenger Mills may have had with Mr. Bedford – it was by no authority from me.

I. H. Hartwell Hamilton

P. S. I may add that in 1855 he put me to great inconvenience by resigning in the middle of the Session.

House of Assembly
Sept. 1858.

Sir,

Although every precaution that could devise has been made to ensure the regular & punctual delivery of Votes & Papers to Members during the Session, I regret to find that instances still occur of Members complaining that they do not reach them.

May I therefore request that upon such omission occurring you will immediately report it to me? The issue of every Bill & Sessional Paper is noted on the days Votes: it is therefore easy to ascertain when the issue of any Paper is made.

I have also to request the favour of your entering your Address in the Members' Letter Box which is kept in the Library by the Clerk Assistant, who will receive & note any instructions that you may leave from time to time, on a change of Residence, may render necessary.

I have &c.

signed H. H. H.

As the number of Copies of each paper is limited, I venture to suggest that those which you may not wish to retain after perusal, be returned to my Office, rather than destroyed. —

B. T. Solly Esqr

House of Assembly
5 March 1859. —

Sir

A matter of extreme insignificance has by peculiar circumstances been made to assume such a character as to compel me to bring it under your notice, and to request that the Government will condescend to give it their consideration, because, however undeserving of notice in itself, it involves three principles of some importance viz:— 1st. Whether a special distinction shall be made in the case of a Messenger of one particular Department. —

2d. The propriety of allowing a subordinate to move the Government, or any Department of the Government independently of, or in opposition to his own immediate superiors, and without any reference to the latter. —

3d. The advisability of unnecessarily making Class distinctions. — The

The facts of the case are simply as follows:— A few days ago the Assistant Clerk of the House applied to me for instructions upon a Memorandum addressed to him, and purporting to come from the Colonial Treasurer, desiring that "the Salary Abstracts should be made in strict accordance with the Estimates". — Not being in a position to give him any instructions, I addressed the Colonial Treasurer, requesting him to point out any error which had been committed in my Abstract. — From the Colonial Treasurer I received no reply, — upon which I would venture to observe that during the 18 years I have served this Government, I have never held any Office requiring me to communicate with any but Heads of Departments, and although I no longer hold the Office conferred upon me by Her Majesty, yet even the one I do hold is recognized in the Queen's Instructions as a high Office, I received instead a Memorandum from Mr Jean, requesting that the Abstract should be made out in the order observed in the Estimates. — He at the same time returned the Abstract with a mark opposite the Messengers name, apparently intended to designate his position as above the Doorkeeper. —

Now, it must be quite obvious to the Government that to myself or to the Head of any Department it must be a matter of perfect indifference in what order the servants of that Department are placed on the Salary Abstract; but as regards the individuals immediately concerned I

I do feel it to be my duty to remonstrate against so invidious a distinction being made in this Department.—

1. I need hardly point out that in every Department of every Government the Messengers occupy the lowest grade, but in this Department peculiar & urgent reasons exist for the adherence to this rule.— the Doorkeeper and Housekeeper occupy situations of great trust and responsibility, upon which assertion I surely need not occupy your time by details — while the Messengers duties are purely of a menial character.—

Upon the establishment of Responsible Government I received written instructions which have never been cancelled, from the Head of the Government, on the subject of the Staff of Officers attached to this Department,— the Messenger being there placed as is the case in all other Departments at the bottom of the list,— and so it appeared in the Estimates for 1857- and for 1858, and in the Estimate which I furnished for 1859.— In the Estimates submitted to the Legislature for 1859, an alteration was made with which I had nothing to do, nor have I ever received any instructions on the subject. Had I been consulted I should have deemed it my duty to remonstrate as I do now, against any such alteration, in justice to all the other servants of this and other Departments.—

2. I venture to assert without fear of contradiction that the present

present unnecessary correspondence has been occasioned by the Messengers Wills having presumed to originate an agitation in one of the Departments to procure for himself an elevation at the expense of other more deserving, more respectable, but more retiring individuals, and I am quite sure that such underhand interference would never have been countenanced in any Department, but through inadvertence, while I am equally certain that the Government will not permit so unprecedented a practice.

It unfortunately happens that the man in question is remarkable for possessing an extraordinary amount of impudence and arrogance, such as wholly to disqualify him for the satisfactory discharge of his duties.— I have myself heard him within the walls of the House of Assembly itself abuse and threaten a Member in order to induce that Member to vote him a higher rate of salary, and on another occasion when he was reprimanded by the Serjeant at Arms for neglect of duty, his reply was that "he would not stay there to be "imposed upon, but upon the next "vacancy in the representation of "Hobart Town he should offer himself "as a Candidate for a Seat in the House".—

All this was duly reported to the Speaker by the Serjeant at Arms.—

All this is very ludicrous, but the Government will I am sure perceive that the effect of countenancing such

such impertinence would be to convert it into a serious evil.-

3. I submit that to gratify this mans nonsensical vanity would be a dangerous step in the elevation of one Class over another.- If all the servants attached to the Houses of Parliament be is the only one whose presence in the Colony is due to the rigour of the Law. The Doorkeeper and Housekeeper of the House of Assembly are individuals of the highest respectability and are at the head of a numerous & most respectable family.- Upon these young people (some of them I believe respectably married) I submit that the elevation of such a man as Mills would operate in a most cruelly humiliating manner.-

Again, the Messenger attached to the Legislative Council is an old Soldier whom for a period of 18 years I have known as a highly respectable man. Upon what principle could so invidious a distinction be made between him and this man?

I regret exceedingly to be compelled to waste so much time and paper upon so insignificant, an individual, and upon a question which, let alone, is so unimportant, but which being once mooted, can only be decided upon principles which cannot be deemed insignificant.-

My dear Sir

When the enclosed Account was submitted to me for my Certificate, I enquired of Mr Hull under what circumstances 7/6 stood charged as the first Item.- His Explanation to me (which he has now repeated in writing) did not satisfy me that the charge was a just one, and therefore I declined to certify.- Mr Hull's explanation is forwarded herewith, from which it appears that he sent the order on the 19th for the attendance of the Contractor on the morning of the 22d.

Supposing that he did not receive the order in time, it must be obvious that his attending at two o'clock was useless; seeing that the Office closes at 4, and even had he been properly

in

in attendance from two till four, he could hardly be entitled to receive 7/6 for it, seeing that his Contract is for 1/6 a load.

25 May 1859

Sir

The near approach of the period fixed for the re-assembling of Parliament renders it necessary that I should make arrangements to secure the services of a temporary Writer during the Session, in accordance with the alteration made in this Establishment by the abolition of the permanent Office of Writer. —

The selection of this Officer occasions me considerable anxiety, because his duties will be various and laborious and it will be no light or easy task to instruct him at the commencement of a busy Session. — It has, however, occurred to me that my difficulties might be somewhat diminished were I permitted to employ my Son who is at present engaged in business with his elder brother in the Country, (should the latter be able to spare him for a few of the Winter months) because residing with me he would be more entirely under my control, and would have better opportunities of receiving instructions than a Stranger.

I have therefore the honor to propose that Mr Cecil Wm Edward Benslowe be appointed temporary writer for the evening Session. — He will be 18 years of age when the Session commences, and I consider him competent to discharge the duties. —

I have also the honor to request that the rate of remuneration may be fixed. As the Officer employed must be prepared for a daily confinement (with doubtful and varying intervals) of fourteen or fifteen hours, I submit that the rate of remuneration cannot be less than ten shillings per diem. —

I have &c
C. T. H. H.

The Hon:
The Colonial Treasurer

Mem[o] by Colonial Treasurer as above.
£50 are provided on the Estimates for this service, and on the part of the Government I will cheerfully assent and give effect to any arrangement by which the required service will be covered, (assuming the Session not to be a protracted one) by that provision. Uncertain as to the duration of the daily sittings it might be that 10/ a day would be quite inadequate remuneration. I would therefore rather confide the outlay of the £50, or so much as it may be necessary to draw entirely to Mr Benslowe. —

House of Assembly 6 June 1859

Sir

In accordance with the instructions contained in your communication of the 1st instant, I have now the honor to submit a detailed estimate of the probable expenses of this Department for the year 1860, observing strictly the rates voted for the present year. —

I venture, however, to suggest some alterations

alterations which I consider to be needed.

And first, I earnestly request your attention to my letter of the 5th March and trust that as the impertinent interference of the Messenger has now made the order of the Servants of the House a matter of some importance you will now revert to the order fixed by the Ministry themselves, and observed until the Messenger presumed to make an irregular application at your Office which was unfortunately, (I presume on account of its extreme insignificance) allowed to take effect.—

Secondly, I beg most strongly to recommend that an increase of £20 per annum be made to the Salary of the Doorkeeper, and a similar increase to that of the Housekeeper.— These are most efficient servants who not only exert themselves to discharge their duties conscientiously, but employ several members of their large family to assist them; without which assistance indeed, I doubt whether the labours of the Session could be adequately met. When the present holders of these Offices were first appointed, they were relieved of much of their responsibility by a night Watchman a Member of their own family, who received a Salary of £80 a year. Since then their labours have been very materially increased, in consequence of the altered arrangements of the Department, and the Office of Watchman has been abolished.—

I have &c.
(Signed) F. A. A

I

I fear that £50 may not be sufficient for Clerical Assistance,— the sum I suggested last year when I proposed the abolition of a permanent Office was £100.

The Honorable
The Colonial Treasurer

H. A 7 June 1859

Sir

Having understood that it is proposed to take off and reconstruct the Roof of the Chamber, I beg to draw the attention of the Government to the fact that the proposed works will endanger the very valuable Painting now in the Chamber which is too large to remove except by taking the Frame to pieces. I take the liberty of suggesting that either Mr Hood the maker of the Frame be employed to do so, or that some other measure be adopted for securing Sir Richard Dry's portrait against damage.—

In accordance with the request contained in your note just received,

I

I have the honor to transmit a Return shewing the date, and day of return of each Writ for Members of the House of Assembly issued on the first Summoning of the present Parliament. –

On many of the Writs there is no record of the day on which they were actually returned, – in most instances therefore I have taken the date on which they were ordered to be returned; but in some few cases the Returning Officer has dated the Return and in others the Governor or Colonial Secretary has noted the day of receipt. –

Memo

I have carefully investigated this matter. The Estimates, as the Colonial Treasurer is aware are disposed of in Committee where I have no control over them, and it appears that the necessary correction in reference to the Item under the Head of Hospitals was not made. — I find that upon the Question being put that £1841.14.0 be appropriated to defray the expenses of the Medical Department, it passed in the negative, and it was then resolved that the General management of each Hospital shall be vested in a Board after which a vote was taken for the gross sum of £14300 for Hospitals without specifying any details, & the

the details which appear in the Draft ought to have been struck out. — I have made arrangements with the Government Printer to cancel Page 17 of the Estimates and reprint it correctly. — I would therefore suggest that all copies which may be in the Public Offices be returned to the Printing Office. —

Sir

With reference to the Memo of the Assist Colonial Secretary of yesterday's date stating that "neither the balance of Postage Stamps in hand nor the account of Receipts and Issues during the quarter ending the 30th September last have reached your Office, but acknowledging that the Postage Book had been duly received" I have the honor to inform you that on the 29th September the postage Stamps & account referring to them were most carefully examined by myself by Mr Hull and by my Son, and with the Book were carefully packed up, and sealed and despatched to your Office.— Unless the Packet

Packet was broken open & it transmit from my hands to yours, the Book could not have reached you without the Stamps and Account.—

I had experienced so much trouble and annoyance (as well as some little loss) through the system of Postage Stamps, that I paid the utmost attention to the winding up and hastened to despatch the Packet.

Although therefore three months have elapsed (and I regret that the matter was not noticed earlier— when it would have been easier to investigate the circumstances attending the transit of the Packet from my Office to yours) the transaction is very fresh in my memory.

Sir

I have the honor to draw your attention to the following paragraph in the report from the Library Committee appointed on 15th Dec. 1856

"Your committee would repeat the recommendation made by the Library committee which sat during the last session of the late Legislative Council but which does not appear yet to have been acted upon. That an application should be made to the Secretary of State for the Colonies requesting that all Papers of the Imperial Parliament for the last five years may be sent to the Colony without delay and that for the future these Papers may be forwarded as they are published; and in addition they would propose that a set of the Lords and Commons Journals complete as far as possible up to the present time should be obtained to be continued at the termination of each Session of Parliament."—

The same recommendation was again submitted to the House in 1857 and adopted by this House on the 17th November 1857. But up to the present time the only volumes of the Commons Journals which have come into the possession of this Legislature are Vols 110 111 112. I have received with much surprise your Communications of the 25th Sept. calling upon me for payment of subscriptions to the Argus. —

If you will take the trouble to refer to my official communications you will see that not only I never subscribed to your Paper myself from Nelson & Barker but when you commenced to send a copy to the Parliamentary Library distinctly pointed out that the Paper you supplied addressed to me was for the use of Parliament, and paid for regularly whenever your accounts came in from the Public Funds

On the 29th May 1852 I ordered the Argus for the use of the Legislative Council Finding some difficulty about settling the accounts no Agent of Yours being appointed here I wrote to You on the Subject 24th July 1854 since which the accounts have been regularly settled At the beginning of last Year You began to send a Copy to the Parliamentary

Library with which I had nothing to do but for fear of mistakes as soon as I became aware of the circumstance I wrote to You on the 18th March 1859 warning You against falling into any error. The Copy applied for the Legislature since 1852 has always been addressed to me personally but You will see that in all my communications to You on the subject it was distinctly stated that the Legislature not myself were Your Subscribers.

My dear Sir

To make up the necessary issue of Volumes of the Assembly Journals, 20 are required of Volume 4.

You have sent me 56 Volumes, which are noted to have been received as follows:

8	" "	11 "
17	" "	14 "
20	March "	12 "

Pray

May look into the matter; especially as you will remember that our accounts of the supply of Volume 3 differed to the extent of 15 or 16 Volumes.—

Yours truly

F. H. H.

The Government Printer 1st October 1860.

" " "

P.S. It is absolutely necessary that some definite arrangement should be made to enable me to supply the requisite number of copies each Session.— I would suggest that the Government should be applied to, to supply additional means.— 80 is the smallest number of Volumes which will enable me in any Session to make the issue required of me.—

F. H. H.

My dear Sir

Although Mr Roberts account does not yet quite tally with Mr Rutledge Yet I am very glad to find that there is some chance of my obtaining the supply required of Vol 4. If we can make out eleven Volumes in addition to the ten which you have sent me this day (that is 21 in All) I shall be able I think to supply all the demands which have been made upon me.—

I think it prudent to repeat that for the future Eighty is the number of Volumes which it is indispensably necessary for me to have to satisfy the supply which has been ordered, and I must beg You to bear in mind that even if the Government call upon you for unauthorised and unexpected issues that circumstance does not relieve me of my responsibilities I observe by your last Memo that You have supplied Volumes on an entirely new demand for instance Law Institute Melbourn Assistant Col Sec Record Branch &c &c If such demands are likely to be made it seems that additional provision must be made in Your Department. They must not be debited to me.—

The Government Printer 3 Oct 1860

House of Assembly 16 Oct 1860.

My dear Sir

I have learned in an irregular manner through Mr Hull who appears to have received a communication from the Government Printer that the latter has been called upon to supply certain papers (ordered by the House of Assembly to be printed) to individuals unconnected with the House, of whom a long list has been shewn to me.— It becomes therefore my duty to represent to you the perplexing position in which this Department is constantly placed, by unexpected demands for particular papers.— I have from time to time arranged with the Government Printer the number of Copies of each Paper required to be printed to supply the Members of Parliament and other Officers.— This number is very considerable, but I believe that

that the Government Printer does not exceed it; consequently unexpected demands cannot be supplied unless the Government will do that which I have frequently suggested, viz: instruct the Government Printer beforehand to print additional copies to meet those demands of the Government.

At the present time I am still waiting for a sufficient number of copies of the Journal of the Session before last, which the Government Printer has not yet been able to supply me with. -

I am now under the necessity of expressing a hope that the Government will not withdraw from the Printers' hands the papers required by this Department, & that for the future the Government will direct the Printer as to the number of Copies required by the Government, altogether apart from those required by Parliament. -

Up to the present moment I have not received from the G.P. a sufficient number of Copies of Vol 4. that is the Journal of the Session before last to supply all the Claimants on my stock. - I do take this opportunity of renewing my suggestion to the Govt that the Printer should receive special instructions to supply the Govt with such papers as the Govt may for instance taking care to print off an add° number of Copies for the purpose. -
