

Half Price Bus Fares – End of Scheme

Ms BURNET question to MINISTER for TRANSPORT

Peter from West Hobart wants to know, does your budget announcement mean that the cost of catching a bus will revert from half price to full fare in metropolitan areas as of 1 July? Some of the state's most disadvantaged people live in outer metropolitan areas, including those holding multiple jobs. If someone is travelling from Chigwell into the city, how much will their fare cost, and how does that compare to the people travelling from New Norfolk? Will outer suburban metropolitan commuters effectively be disadvantaged by your ad hoc approach to fare setting?
