TO THE HONORABLE THE COLONIAL SECRETARY.

Legislative Council Office, Hobart Town, June 18, 1872.

SIR,

I HAVE the honor to forward to you the Statistics of this Colony for 1871.

As the meeting of Parliament will take place considerably earlier this year than has usually been the case, and the volume will in consequence have to be completed so much sooner, it will be necessary to make my observations on the returns contained in it as brief as possible, and to confine them chiefly to such matters as relate to the material condition of the Colony.

I am sorry to say that the tables relating to Road Trusts and the Political Franchise are not complete, since from one of the Trusts, and from several Electoral Districts, I have been unable to obtain returns.

I.—POPULATION.

Instead of reprinting the tables of the last Census, I have deemed it more convenient and useful to make abstracts of them, adding thereto the calculations given in my last Report.

The estimated Population on December 31, 1871, was 101,785, consisting of 53,911 males, and 47,874 females, being an increase on that of the previous year of 447 males, and 573 females, amounting together to 1020. The total increase was therefore at the rate of 1·01 per cent.

The increase by excess of Births over Deaths was 1698, or 1·68 per cent., being 780 males, and 918 females.

The decrease by excess of Emigration over Immigration was 678, or 0·67 per cent., being 333 males, and 345 females. Immigration
and Emigration.

The number of persons who arrived in the Colony in 1871 was 4648; the number of those who left it 5326, leaving a loss to the Population, as above, of 678. In the previous year the arrivals were 5982,—the departures 5888.

The number of Immigrants introduced in 1871 under what is known as the "Bounty System," was 9, of whom England, Scotland, and Ireland furnished equal proportions.

II.—TRADE, COMMERCE, AND NAVIGATION.

The value of the Imports in 1871 was £778,087, against £792,916 in 1870, being a decrease of £14,829, or 1·87 per cent.

The rate per head of Imports was, in 1871, £7 12s. 6½d.; in 1870, £7 17s. 4½d.; in 1868,* £8 7s. 10d.; in 1867, £8 13s. 11½d.; in 1866, £9 1s. 2½d.

* The year 1869 is excluded as being quite exceptional, in consequence of a large importation of Railway plant and specie.

The Import trade with the different countries in 1871 was as follows :—

COUNTRIES.	VALUE OF IMPORTS.	PROPORTION PER CENT. OF TOTAL IMPORTS.
United Kingdom	£ 272,797	35·06
Victoria	407,294	52·35
New South Wales	34,545	4·44
South Australia	—	—
Queensland	7785	1·00
New Zealand	2260	.29
Mauritius	45,151	5·80
Maldon Island	2520	.32
South Seas	5735	.74
TOTAL	778,087	100·00

Comparing the figures in the second column with those given in the last Report, it appears that the proportion of our Import Trade with the United Kingdom was less only in 1867 and 1868 ; that with Victoria occupied a larger proportion of the total value than in any of the five years except 1868 ; with New South Wales, New Zealand, and Mauritius, a smaller than in any year except 1869 ; with Queensland, an increase in the period generally, if we except 1869. From South Australia the Imports in 1870 were very small (only £2150) : in 1871 there were none.

As regards the actual values we find that in the last five years the Imports from the United Kingdom were less only in 1868 ; that from Victoria they were more than in 1870, but considerably less than in the other years ; that from New Zealand they were less only in 1869 ; and that from the Mauritius they were less than in any of those years. The Imports from South Australia altogether ceased in 1871 ; but those from Queensland had increased steadily from 1868, when they were only £135.

The total value of goods imported at Hobart Town and Launceston respectively in 1871, was—

	£
Hobart Town.....	448,990
Launceston	329,097
	£778,087

Exports.

The total value of the Exports in 1871 was £740,638, against £648,709 in the previous year, showing an increase of £91,929, or 14·17 per cent. The value of Tasmanian produce exported was £730,946, or 86·92 per cent ; that of foreign produce, £9692, or 13·08 per cent. In 1870, the proportion per cent. of home to foreign produce was as 96·42 to 3·58 ; in 1869, as 96·39 to 3·61 ; and in 1868, as 98·72 to 1·28.

The rate per head of Exports was,—in 1871, £7 5s. 6½d. ; in 1870, £6 8s. 9d. ; in 1869, £8 2s. 9½d. ; in 1868, £9 2s. 10½d. ; in 1867, £8 0s. 7d. ; and in 1866, £8 11s. 5½d.

The distribution of the Exports in 1871 was as follows :—

COUNTRIES.	VALUE OF EXPORTS.	PROPORTION PER CENT. OF TOTAL EXPORTS.
United Kingdom	£ 337,508	45·57
Victoria	262,734	35·47
New South Wales	86,119	11·63
South Australia	12,695	1·71
Queensland	7905	1·07
New Zealand	32,332	4·37
Hong Kong	1190	.16
Fiji Islands	155	.02
TOTAL	740,638	100·00

The proportion of our produce transmitted to the United Kingdom exceeded that in 1870 and 1869 ; while that sent to Victoria was less than in those years, but greater than in 1867 and 1868. The proportion taken by New South Wales was rather less than in

1870, and 1868, but greater than in the other years; by South Australia and New Zealand somewhat greater than in 1870, but less than in the other years; by Queensland, nearly the same as in 1869, but less than in the other years.

As to the actual values of the Exports to other Countries,—with the United Kingdom the trade was larger in 1871 than in the two previous years; with Victoria it was less only in 1867; with New South Wales there was an increase on all the five years, except 1868; with South Australia, and New Zealand, there was an improvement only as compared with 1870; with Queensland there was a decrease generally. To Mauritius there seem to have been no shipments of goods whatever.

At Hobart Town and Launceston respectively the Exports in 1871 were—

	£
Hobart Town	387,056
Launceston	353,582
	<hr/> <hr/> £740,638.

Compared with the figures for 1870, there is an increase at both ports.

Referring now to the decennial return of the quantities of the principal articles exported, we find that of Butter and Cheese declined from 1719 cwts. in 1870 and 2859 cwts. in 1869 to 786 cwts. in 1871; the export in the last being the smallest in the ten years. Of Flour, 1990 tons were exported in 1871, against 1073 tons in 1870, the quantity in 1871 being, however, below the general average. In Fruit, preserved, (jam) there was an increase from 1,489,940 lbs. in 1870 to 1,552,510 lbs. in 1871; in Fruit, green, a decrease from 144,622 bushels to 131,747 bushels; the export in 1871 being the smallest in the period. In Wheat there was an increase as between the two years from 78,955 bushels to 172,537 bushels; in Oats, a decrease from 359,225 bushels to 335,968 bushels; though the comparison, as regards the whole decade, is not unfavorable. The export of Barley in 1871 was 28,552 bushels; the largest in any previous year of the ten having been 13,301 bushels. It will be observed that a new article—Gold—has been introduced into the Return. It was not inserted in 1870, although 2141 ozs. were exported, because none had appeared in the Customs Returns for many years past, and it was uncertain whether the yield was likely to continue. As the permanency of at least one Gold-field—the Black Boy—seems now to be no longer doubtful, it has been inserted on the present occasion. The export in 1871 was 3702 ozs., being an increase of 1561 ozs., or 72·91 per cent. Hides, Skins, and Leather show an increase, but the quantity, being partly in packages and partly in cwts., cannot be ascertained: taking the value therefore as our criterion, it appears to have been considerable, the amount having risen from £23,180 in 1870, (hitherto the largest) to £29,493 in 1871. The article Hops was another which stood in precisely the same position; the export in 1871 having been 481,267 lbs., and in 1870, which showed a large increase as compared with any previous year, only 365,489 lbs. Unfortunately however, there was a decline in price in 1871, which is shown by a decline in the total value from £26,230 to £23,200, and in the price per pound, from 1s. 5½d. to 1s. 1½d. Live Stock—Sheep and Cattle—show a small increase on the previous year, but the numbers are miserably small compared with those in former years. The export of Sperm Oil was considerably larger than in 1870, and above the average of the whole period. There also appears the item of Black Oil 4318½* tuns in 1871. This Oil (with the exception of 6½ gallons. from Hobart Town) is stated by the Collector of Customs at Launceston to have been procured from a shoal of blackfish which were thrown up on the north-east coast, near Cape Portland. The Timber Trade seems to have improved in 1871, the value having increased from £37,267 in 1870 (the lowest in the period), to £49,540. Vegetables show a slight decrease in quantity, but a considerable decrease in value—from £24,315 to £17,132.

The weight of wool exported in 1871 was 5,254,719 lbs. against 4,146,913 lbs. in 1870, being an increase of 1,107,806 lbs. The declared value was, in 1871, £298,160, and in 1870, £246,402, the increase being £51,758. The price of Wool per pound, as fixed for Customs purposes, appears from these data to have been 1s. 2½d. in 1870, and 1s. 1½d. in 1871.

The amount of the Imports and Exports in 1871, added together, representing the Total sea-borne trade, was £1,518,725, showing an increase upon the corresponding amount in the preceding year (which was £1,441,625), of £77,100, or 5·35 per cent.

* In the return at p. 51, this quantity appears as 4618½, 300 gallons. of foreign production having been inadvertently included.

Shipping.

The number and Tonnage of shipping in the last two years was—

YEARS.	INWARDS.		OUTWARDS.	
	Ships.	Tons.	Ships.	Tons.
1870.....	613	105,647	611	107,263
1871.....	635	107,271	648	108,889

The aggregate Tonnage both Inwards and Outwards was—

In 1870	212,910.
In 1871	216,160,

The increase being 3250 Tons, or 1·53 per cent.

At Hobart Town and Launceston respectively the tonnage in 1871 was—

	INWARDS.	OUTWARDS.
Hobart Town.....	50,242	52,904
Launceston and sub-ports	57,029	55,985

The increase in the tonnage of 1871 occurred entirely at the sub-ports, since at Hobart Town and Launceston there was a decrease. As regards the shipping inwards (and the case of shipping outwards is precisely the same), this will be clearly seen from the subjoined table.

PORTS.	TONNAGE INWARDS.		Increase (+) or Decrease (-) per cent.
	1870.	1871.	
Hobart Town.....	51,866	50,242	— 3·13
Launceston.....	36,072	35,419	— 1·81
Ditto, sub-ports....	17,709	21,610	+ 22·03

The increase was principally at Leith. At Stanley there was a slight decrease.

The return of the state of Shipping registered on 31st December, 1871, shows an increase of 654 tons, the numbers being in 1870, 16,913 tons; in 1871, 17,567. In the latter year 14 new vessels, with an aggregate tonnage of 943, were registered.

Steamers.

The steamers on the register were less by one, with a tonnage of 424, in 1871 than in the previous year.

Whale Fisheries.

In the Whale Fisheries there were engaged in 1871,—Vessels, 19, with a Tonnage of 4917; Crews, 470: being an increase upon those of the preceding year of Vessels, 4, with Tonnage, 1471; Crews, 94. The increase in the quantity and value of Oil and Whalbone produced by Vessels entered inwards (not including 4312 gallons of Oil obtained from the accidental capture of Blackfish before referred to) was—Black Oil, 4 tuns; Sperm Oil, 211 tuns; Whalbone, 100 lbs; in the value, £10,470.

Coal.

In the quantity of Coal raised in the year 1871, namely 9527 tons, I am sorry to observe there is a decrease of 259 tons, the quantity being smaller at Seymour and Tasman's Peninsula, while at New Town and Port Sorell it was increased.

Rates of Wages.

Taking Hobart and Launceston as a criterion, the rates of Wages seem to have been somewhat lower in 1871 than in 1870. The wages of agricultural labourers at Hobart, however, are returned at higher rates.

Market Prices.

The return of Market prices at Hobart Town shows but few, and those inconsiderable, variations as compared with the previous years. The contract price of the following

articles of ordinary consumption, namely, Bread, Flour, Salt, was higher ; while that of Butcher's Meat, Butter, Coffee, Tea, Eggs, Porter, Soap, and Port Wine, was lower.

The total number of Trades and Manufactories returned in 1871 was 3101, against 3194 in 1870. Trades and Manufactories.

Taking some of the principal Trades as a criterion, we find an increase of—Boot and Shoemakers, 45 ; Corn and Ship Chandlers, 3 ; Gardeners (Market), 2 ; Grocers and General Dealers, 15 ; Millwrights, 5 ; Saddle and Harness Makers, 4 ; Saw Mills, 8 ; Ship and Boat Builders, 4 ; Stonemason, 1 ; Tailor, 1 : while there is a decrease of—Agricultural Implement Makers, 4 ; Breweries, 6 ; Bricklayers, 13 ; Builders, 25 ; Butchers, 32 ; Carpenters, 17 ; Fellmongers, 9 ; Hawkers, 2 ; Plasterers, 6 ; Printing Offices, 3 ; Publicans, 25 ; Wheelwrights, 8. The disappearance of 8 Jam Manufacturers, and 2 Maltsters may not unreasonably be assumed to have been caused by the operation of the protective duties imposed by our neighbours.

III.—FINANCE.

The following Statement, furnished by the Assistant Colonial Treasurer, shows the financial transactions of the Government in the last two years :— Revenue and Expenditure.

RECEIPTS and Expenditure of GENERAL REVENUE and LAND FUND, for the Years 1870 and 1871, as ascertained up to 31 May, 1872.

GENERAL REVENUE, exclusive of Debentures and Expenditure under Loans Acts.

	1870.	1871.
REVENUE.		
Customs and Bonding Rents	£ 137,034 16 10	£ 140,987 0 8
Inland Revenue	56,099 9 5	52,250 17 0
Other Receipts	27,681 15 1	26,278 16 6

Reserve under Waste Lands Acts	9505 1 1	7318 16 9
Estimated Expenditure outstanding	—	100 0 0
	57,228 4 9	52,643 2 10

W. LOVETT, Assistant Colonial Treasurer.

The Expenditure on account of the Imperial Government was £32,772 6s., against £65,759 8s. 2d. in 1870, being a reduction of more than 50 per cent. Imperial Expenditure.

The Bank Exchange on London was steady at 1 per cent. discount for purchasing; and 1 per cent premium for selling Bills ; the rates for buying in 1870 ranging from one-half per cent. discount to 1½ per cent. premium ; and for selling, from 1 to 3 per cent. premium. The violent fluctuations which appeared in 1870 did not reappear, therefore, in 1871. The Exchange on the other Colonies was the same in both years. Course of Exchange.

Such was also the case with the Rates of Discount and Interest on Bank Deposits.

Banks:

The most significant items in the Bank Returns for the two past years are compared below :—

YEARS.	AVERAGE ASSETS.		AVERAGE LIABILITIES.	
	Coin and Bullion.	Debts due to Banks, &c.*	Notes in Circulation.	Deposits.
1870	£ 185,755	£ 1,084,966	£ 86,094	£ 712,472
1871	178,658	1,048,331	79,815	656,186

* Including Notes, Bills of Exchange, Stock and Funded Debts, but not including Debts due from other Banks.

By referring to the last Report, the comparison may be carried back to 1866. It thus appears that the quantity of Coin and Bullion in 1871 was larger than in 1866-8; the Debts due to Banks greater than in 1866-7, and 1869; the Notes in circulation of larger amount than in 1867-8; while the amount of Deposits was smaller only in 1867.

Savings' Banks.

The business of the Savings' Banks for the two last years was—

YEARS.	AVERAGE ASSETS.			AVERAGE LIABILITIES.		Deposits during the Year.	Repayments during the Year.
	Mortgages.	Debentures.	Cash in other Banks, and on hand.	Amount of Deposits.	Reserve Fund.		
1870	£ 134,492	£ 87,189	£ 19,595	£ 223,262	£ 23,648	£ 119,120	£ 109,065
1871	145,700	78,542	14,721	219,752	24,958	112,981	121,600

The increase under the head of Mortgages was caused by a sum of £13,084 at Launceston having been transferred to that column from Debenture account.

Post Office Money Orders.

The number of Post Office Money Orders issued in 1871 was 5685, and the amount £21,015 19s. 3d.; the number paid 4411, and the amount £16,467 13s. 7d. The increase upon the corresponding figures for 1870 was,—number issued, 9·47, amount 8·68, per cent.; number paid, 18·51, amount 13·18, per cent. The great convenience of this mode of transmitting small sums of money seems to be well understood.

Of the whole amount (omitting fractions) of Orders issued, those on other places in Tasmania were in the proportion of 39·84 per cent.; on England and Wales, 13·97 per cent.; on New South Wales 5·79 per cent.; on New Zealand, 2·11; and on Victoria 32·52, per cent. Of the amount of Orders paid, the proportions were,—Issued in Tasmania, 49·34 per cent.; in England and Wales 6·18; in New South Wales 8·39; in New Zealand 6·84; in Victoria 24·15.

Public Debt.

The Public Debt on the 31st December, 1871, was £1,294,400. Beside this, Debentures to the amount of £34,000 were authorised to be issued, but had not been issued, on that date.

Gold-mining.

The return relating to Gold-mining presents a favourable comparison with that for the previous year, and is at the same time more complete; although it will always be impossible to obtain more than an approximate result as regards the yield from alluvial operations.

In 1870 the quantity of Gold produced from those operations, so far as could be ascertained, was 600 ozs.; in 1871 it was 4020 ozs. The quantity of quartz crushed in 1870 was returned as 884 tons; in 1871, 4045 tons. The yield in 1870 was 364 ozs., valued at £1360; in 1871, 1985½ ozs., valued at £7699. Making all due allowances for the greater imperfection of the earlier return, it is plain that in 1871 a much greater degree of activity was shown in Gold-mining than in the previous year. This is also seen from the Customs returns, the exports of Gold in 1870 having been 2141 ozs.; in 1871, 3702 ozs.

The average yield per ton of quartz crushed in 1871 was 8 dwts. 1 $\frac{1}{4}$ grs. The highest, at Mangana and Reedy Marsh, was 12 dwts. 12·29 grs. per ton; the lowest, at Waterhouse, was 4 dwts. 10·85 grs. The average cost of crushing was 9s. 9d. per ton.

The prospects of Gold-mining in Tasmania are, on the whole, decidedly favourable; but it is much to be regretted that the progress of this industry is impeded by three causes—1. The absence of a sufficient mining population thoroughly to test the ground; 2. The want of capital for quartz mining; and 3. The locking up of the extensive flats, where the deep leads would probably be found, in the neighbourhood of Reedy Marsh. It would be a great advantage to the district, to the whole Colony, and to the proprietors themselves, if these flats were thrown open, under proper regulations, for mining purposes. The importance of this consideration is greatly increased by the fact that the present alluvial ground at Reedy Marsh must soon be worked out; and if the progress of quartz mining be not sufficiently rapid to counterbalance the decline in alluvial, the population of the rising little town of Mathinna must be scattered to other districts, or driven out of the Colony.

The Gold Commissioner for the district of Fingal reports as follows:—

“During the year 1871 Gold-mining has made slow, if sure, progress in this District.

“With the single exception of the Tower Hill Quartz Company, which carries on its operations some three miles from the village of Mangana, the whole of the Gold-mining in the Fingal District, both alluvial and quartz, has been carried on within a radius of about two miles at the furthest from the township upon the Black Boy Gold Field, and which has lately received the name of Mathinna.

“The population at this latter place has, however, steadily increased during the past year, and a rough census taken during the first week in January, 1872, gave the following as the population on 31st December, 1871:—

Miners and Labourers on Reefs	60
Ditto alluvial	250
Storekeepers	5
Butchers	2
Bakers	2
Publicans	2
Shoemakers	2
Carpenters	12
Sawyers	6
Splitters	2
Servants	24
Unenumerated	20
 Total adult Males	387
Women	93
Children	100
 To these may be added Miners and Labourers at Mangana...	30
Women and Children belonging to them	20
 TOTAL.....	630

“Alluvial mining has been carried on with greater activity during the past year as compared with 1870.

“The reduction in the size of claims has conduced much to this result, and claims might be still further reduced in area with advantage.

“I anticipate that alluvial mining will come to an end in this District during the current year, unless fresh discoveries are made, as the area of known alluvial ground is of very limited extent.

“The population on the Black Boy will have some difficulty in making a living during the coming winter, and it is to be earnestly hoped that unemployed persons in the towns may not be led away by the accounts that have from time to time been published of this Gold Field, and come here with the idea of getting employment. The population is already composed of such elements that an influx of low class persons only accustomed to a town life would lead to very undesirable results.

“Young, active single men of steady habits and inured to hardship might, in very limited numbers, find employment, especially if they had a knowledge of quartz mining; but unless a very considerable and unlooked for impetus is given to reefing, even these would find a difficulty in getting a living. A large number of reefs with most promising indications are already known, but the apathy or want of means of those interested in testing them keeps quartz mining in a state of stagnation.

“The City of Hobart Company is still at work, and has obtained very satisfactory results, the crushing of about a thousand tons of quartz having yielded some four thousand pounds worth of gold. The mine still promises well, and would, I believe, prove a profitable investment had the Company sufficient capital to carry on operations on a fitting scale. The Caledonian Company will probably have machinery at work by the end of June; and an attempt is being made to obtain a public crushing machine, which is regarded by many as the one thing needful to secure the prosperity of the District. The tables already forwarded by me show the practical results of the work of the past year, and I can add but little as to actual progress since the date of my last Report.

"A revision of the Gold Fields Act and Regulations is urgently needed, and if properly carried out, would relieve the Commissioners of a great amount of annoyance and difficulty which they now experience in the discharge of their duties."

The Commissioner at George Town, in forwarding his Return, says:—

* * * * *

"Although the Return cannot be supposed to be quite accurate, it is I believe a near approximation to the actual result of the year's operations."

* * * * *

"I have to acknowledge the readiness with which the particulars necessary for compiling the Return have been furnished whenever applied for. There has, however, been a difficulty in ascertaining the exact quantity of Gold obtained by the Chinese, and their reply to enquiries is invariably the same, 'poor diggings.' They exhibit extreme reluctance to let the result of their work become known, and I have estimated it from the apparent circumstances of the men."

"The yield of Gold at Waterhouse was small. Quartz crushing was suspended until the close of the year, and the quantity given in the Return is, with the exception of three or four ounces, the result of one cleaning up of one machine. Crushing operations have since continued, and are now in full play. Several co-operative parties, holding claims under Miner's Rights, were engaged raising quartz during the latter part of the year, and some have had trial crushings since the close of it, with, however, not very satisfactory results: nevertheless there is at this moment more *bona fide* mining at Waterhouse than at any previous time in its history."

"The Back Creek is now practically deserted, the attractions at the Black Boy Gold Fields having drawn off the alluvial miners."

"Mining operations are being conducted at the Nine Mile Springs with less energy than last year, but perhaps in a more wholesome spirit. Two reefs, the Excelsior and Industry, are being worked, and several parties of Miners are engaged prospecting other claims, and in procuring Gold from alluvial deposit. There are also a number of Chinese, whose operations are, I believe, highly remunerative. They have been joined recently by a number of their countrymen from Victoria, and I am told others are preparing to come over from that Colony."

I believe, in spite of several apparent or temporary failures, that the only thing necessary to ensure at least a fair amount of success in Gold-mining in this Colony, is adequate capital. Those who have realised the capital here will not risk it in such undertakings; and until the means can be obtained from abroad to develop the mineral wealth—gold, silver, iron, &c.—known to exist in the Island, all progress will be slow and uncertain. The Black Boy gold-field has been so far proved as to lend strong probability to the conclusion that with a capital of say, £20,000, capable of being extended, if necessary, a Mining Company might, under skilled and judicious management, make a handsome profit by working promising reefs which are now neglected through want of money, and when the batteries were not otherwise employed, in crushing for the public. The risk involved in such a venture is not greater than that which is continually incurred by capitalists in other undertakings. A considerable amount of money is now invested in Mexican and other foreign mines; and there would surely be less hazard were it placed in a British Colony where the Government is stable, and property is securely protected by the law.

IV.—ESTABLISHMENTS OR INSTITUTIONS MAINTAINED OR ASSISTED BY GOVERNMENT.

Post Office.

On the present occasion a change has been made in the Post Office Returns, by including the Letters, Newspapers, &c., which passed through the Country Post Offices: in former years this was not done. It would be futile therefore to make any comparison between the returns of 1871 and those of previous years.

In 1871 the number of Inland Letters received was 763,878, and of Ship Letters, 188,934; the number of Inland Newspapers 472,468, and of Ship Newspapers 212,688. The numbers despatched were—Letters, 998,489; Newspapers, 890,820.

Electric Telegraph.

The working of the Electric Telegraph in 1871, as compared with 1870, was not satisfactory. In the number of paid messages there was a decrease of 1144, or slightly more than 10 per cent.; and in the amount received, a decrease of £71 17s. 8d.

Salmon Breeding Establishment.

The return showing the Expense of the Establishment at New Norfolk for the breeding of Salmon and Trout, presents no feature worthy of remark. It will be sufficient to subjoin a return furnished by the Secretary to the Salmon Commissioners, showing the results of their operations for the furtherance of Pisciculture, during the past year.

RETURN showing the Distribution of OVA and FRY from the BREEDING PONDS, RIVER PLENTY, during the Year ending 31st December, 1871.

OVA.	
Salmon Trout—Launceston.....	750
Brown Trout—Victoria	3300
Launceston.....	1000
Chudleigh.....	600

	FRY.
Salmon Trout—River Huon	70
Brown Trout—Bagdad Rivulet	500
River Jordan	500
Lake Echo	500
River Ouse	1000
River Derwent	1000
River Jordan	500
Back River	400
River Styx	500
Southport	400
Port Esperance	400
Seymour	50
Broad Marsh	50
Guy Fawkes Rivulet	80
River Huon	650
Victoria	700
TOTAL	12,950

I have not time to dwell on the returns relating to Penal and Charitable Institutions. It will be sufficient to remark that they show, generally, a diminution of expense, except in regard to Pauperism, which is becoming a serious item in the expenditure of the Colony, and will soon force itself into a position of especial prominence. At the Brick-fields there was an increase of 7½ in the daily average number of Paupers, with a corresponding augmentation of expenditure of £1029 3s. 0½d.; and in the disbursements of the Benevolent Societies there was an increase of £932 7s. 1d. But the most serious indication of the extension of Pauperism is furnished by the returns of Out-door Relief distributed by the Government, which show an increase from £5703 14s. 2d. in 1870 to £7056 17s. 11d. in 1871,—a difference of £1353 3s. 9d. From the Report of the Royal Commission on Charitable Institutions it appears that the sum disbursed on this account was, in 1862, only £48 14s. 6d., from which small beginning it has grown year by year to its present amount.

Penal and
Charitable
Institutions.

V.—CROWN LANDS.

The Land Sales in 1871, compared with those in 1870, show the following result:— Land sold.
Number of lots, *decrease* 41; on area of land, *increase*, 7124a. 3r. 22½p.; on amount received, *increase*, £944 14s. 5d. On the average price of Country land per acre, there was a decrease of 4s. 2d. in 1871; but on Town lots an increase of 9s. 3d. per acre.

The extent of Crown Land leased in 1871 was 1,396,026 acres, being 45,815 acres Land leased. more than in 1870. The amount received by way of rental in 1871 was £6147 3s. 11d.; being less than that in 1870 by £1063 13s. 3d.

Proceeding to the returns relating to auriferous Crown Lands, we find that in 1871 Gold Fields. there were *taken up*, Mining Leases, 89; Prospecting Claims, 2; Machinery Areas, 9. In 1870 the corresponding numbers *applied for** were—Miners' Rights, 1524; Mining Leases, 161; Prospecting Claim, 1.

Some additional returns have been added by the Hon. the Commissioner of Crown Lands, from which I find that on the 31st December there were in force,—Mining Leases, 50; Prospecting Claims, 3; Machinery areas, 10. All Miners' Rights ceased to be in force on that day.

The amount received for Fees (including Surveys) under "The Gold Fields' Regulation Act," in 1871, is stated to have been £1190 17s. 6d.

Having already dealt with the subject of Gold-mining under a former head, I need not dwell further on it here.

The meeting of Parliament having been appointed this year for an earlier date than usual, and the time available for the preparation of the Statistics having been by so much curtailed, I found it necessary to proceed with the printing without waiting for the Agricultural and Live Stock Returns, the completion of which was delayed by the illness and press of work of the Chief District Constable at Torquay. They are therefore published as an appendix to this volume.

Agricultural
and Live Stock
Returns.

The acreage of land under the following crops in the two past seasons is shown Acreage. below:—

YEARS.	Wheat.	Barley.	Oats.	Potatoes.	Hay.
1870-1.....	57,382	7617	30,946	9823	33,612
1871-2.....	63,332	4275	29,631	8154	31,578

* The distinction between these terms will probably account for at least a part of the decrease.

The extent of cultivated land employed in other ways in those years is thus compared:—

YEARS.	Gardens and Orchards.	In Green Forage.	In permanent artificial Grasses.	Under bare fallow.	All other cultivated land.	Total land in cultivation.
1870-1.....	5962	2098	82,197	26,124	64,526	330,257
1871-2.....	5997	1218	90,247	27,287	68,472	340,451

Gross produce.

In the produce of most of the crops in 1871-2 there was a serious deficiency as compared with that of the preceding season, the cause of which was the severe drought, especially in the months of April, May, and June. The total rainfall at Hobart Town in 1871 was only 18.25 inches; the average for 30 years being 22.71 inches.

The following was the yield of the principal crops in the two last years:—

YEARS.	Wheat.	Barley.	Oats.	Potatoes.	Hay.
1870-1.....	bushels. 896,881	bushels. 161,729	bushels. 691,250	tons. 36,028	tons. 40,763
1871-2.....	847,962	76,812	593,477	22,608	30,891

The subjoined table shows the average produce per acre for those years:—

YEARS.	Wheat.	Barley.	Oats.	Potatoes.	Hay.
1870-1.....	bushels. 15.92	bushels. 22.44	bushels. 22.79	tons. 3.41	tons. 1.31
1871-2.....	14.09	18.20	19.93	2.88	1.10

The land in Hops in 1871-2 shows an increase of 10 acres, and the produce an increase of 39,157 lbs.

Prices.

The price of Wheat in the districts where it is principally grown, as returned for the last year, was generally in excess of that in the preceding year; and that of Barley is stated to have been considerably higher at Hobart, Launceston, Westbury, &c., but lower at Deloraine, Evandale, and some other places. Oats were generally lower in the more important districts.

Live Stock.

According to the Returns of Live Stock, there were, on March 31, 1872—Horses, 23,054; Horned Cattle, 101,540; Sheep, 1,305,489; Goats, 2488; Mules, 8; Asses, 6; Pigs, 52,863.

The increases or decreases, as compared with the numbers in the previous year, were—

	Increase.	Decrease.
Horses.....	375	..
Cattle	81	..
Sheep	44,286
Goats	193
Mules	2	..
Asses
Pigs	3431	..

The return of Live Stock imported and slaughtered (in which the imports differ somewhat from the Customs Returns) shows the following numbers, which are placed in juxtaposition to those of 1870:—

YEARS.	SHEEP.		CATTLE.		PIGS.
	Imported.	Slaughtered.	Imported.	Slaughtered.	Slaughtered.
1870.....	17,515	89,585	1653	7196	3863
1871.....	11,889	75,500	967	7101	4146

The number of Pigs slaughtered was in excess of those in the previous year; but in Sheep there was a decrease in 1870 to a large extent; and the number of Cattle was somewhat smaller.

VI.—LAW, CRIME, &c.

The number of persons tried in the higher Courts in 1871 was less by 4·55 per cent. Crime. than in 1870.

The number of persons dealt with magisterially was also less than in 1870 by 3·48 per cent.

The amount of Litigation in 1871 was, however, much greater than in the preceding year; the increase in the number of money cases tried in the higher and lower Courts taken together, being 35·75 per cent.

In the number of Bankruptcies there was a remarkable decrease. In 1870, 80 Bankruptcies persons were declared, or declared themselves, insolvent; in 1871, under the new law, only 25 were adjudicated bankrupt, or presented petitions for liquidation by arrangement. The difference, being chiefly in those who voluntarily sought protection from their creditors, is doubtless due to the more stringent character of the Act now in force.

The number and amount of Mortgages registered in 1870 and 1871 were :—

Mortgages.

	1870.		1871.	
	Number.	Amount. £	Number.	Amount. £
By the Registrar of Deeds	234	139,138	254	129,336
By the Recorder of Titles	117	46,341	139	41,487
	351	185,479	393	170,823

The business of the Lands Titles Office showed increased activity in the past year, Lands Titles as the following Table indicates :— Office.

Year.	Number of Transactions.	Value of Property. £	Area of Property. Acres.
1870.....	584	135,466	90,510
1871.....	691	214,515	107,202

The number of Grant Deeds enrolled in the Supreme Court in 1871, was smaller Grant Deeds. than that in 1870, by 136.

VIII.—VITAL STATISTICS.

The number of Births, Deaths, and Marriages registered in 1871 are compared with Births, Deaths, and Marriages. those in 1870 in the following table :—

Years.	Births.	Deaths.*	Marriages.
1870.....	3054	1404	670
1871.....	3053	1355	598

* Beside the Deaths registered, there were in 1870 five, and in 1871, eight unregistered deaths of Convicts under sentence, which are included in calculating the ratio.

The ratio per 1000 of the living population in those years was,—

<i>Years.</i>	<i>Births.</i>	<i>Deaths.</i>	<i>Marriages.</i>
1870.....	30·31	13·98	6·65
1871.....	29·99	13·39	5·87

The Birth and Marriage rates were below those of 1870; but since 1857 (the furthest period to which I have carried the comparison) with the single exception of the year 1865, the death rate has never been so small.

I have the honor to be,

Sir,

Your most obedient Servant,

E. C. NOWELL, *Government Statistician.*

Difference of Tonnage between old and new measure- ments.....	—	—		
ADDED—				
New Vessels	14	943	166	15,024
Vessels registered <i>de novo</i> on account of purchase, transferred from other ports or otherwise	7	1600	21	2543
Difference of Tonnage between old and new measure- ments	—	—		
<i>Total on 31 December, 1871</i>			187	17,567

[Compiled from the Returns of the Registrars of Shipping.]

E. C. NOWELL, *Government Statistician.*

RETURN showing the Number, Tonnage, and Crews of registered VESSELS (including Steamers), belonging to the Ports of HOBART TOWN and LAUNCESTON, on 31st December, 1871.

PORTS.	NO. OF VESSELS.	TONNAGE.	NO. OF MEN AND BOYS.
Hobart Town	136	14,740	1257
Launceston	51	2827	212
TOTAL	187	17,567	1469

SHIPPING—STEAMERS.

RETURN of registered STEAMERS belonging to the Ports of HOBART TOWN and LAUNCESTON on 31st December, 1871.

PORTS.	BUILD.		TONNAGE.	HORSE-POWER.	PADDLE.	SCREW.
	Wood.	Iron.				
Hobart Town	2	4	2011	510	2	4
Launceston	2	2	431	225	2	2
TOTALS	4	6	2442	735	4	6

[Compiled from the Returns of the Registrars of Shipping.]

E. C. NOWELL, *Government Statistician.*

WHALE FISHERIES.

RETURN showing the Number of VESSELS, with CREWS, engaged in the WHALE FISHERIES belonging to the Port of HOBART Town, in the Year 1871.

VESSELS.	TONS.	CREWS.
19	4917	470

RETURN showing the Quantity and Value of OIL and BONE produced by Vessels belonging to the Port of HOBART Town entered inwards during the Year 1871.

VESSELS EMPLOYED.			PRODUCE.			
Number.	Tonnage.	Crews.	Black Oil.	Sperm Oil.	Whalebone.	Value.
		Men.	Boys.	Tuns.	Tuns.	lbs.
18	4275	438	—	5	659	100

T. T. WATT, *Registrar.*

COAL.

RETURN of the Quantity and Value of COAL raised in the Colony during the Year 1871.

LOCALITY OF MINES,	NO. OF TONS RAISED.	AVERAGE PRICE PER TON.	VALUE OF COAL RAISED.
New Town.....	2016	£ s. d. 0 15 4	£ s. d. 1545 12 0
Seymour	1821	0 16 0	1456 16 0
Port Sorell (River Don)	2810	0 12 0	1686 0 0
Tasman's Peninsula	2880	1 3 0	3312 0 0
TOTAL.....	9527	—	8000 8 0

The above particulars were obtained from the Returns of the Superintendents of Police; those referring to the Mines at Tasman's Peninsula from the parties working them. The price at the latter appears to include freight and cartage.

E. C. NOWELL, *Government Statistician.*

34 Vict. No. 1.	Agricultural and Horticultural Tools and Implements, including Spades, Shovels, Forks, Hoes, Rakes, Chaff-cutters, and other Agricultural Machinery, Cart and Carriage Axles, Arms, and Boxes, per cwt.	0 2 6	34 Vict. No. 1. 14 Sept. 1870.

All goods subject to Duty by cubic measure to be measured outside the package, and all packages of and under half a cubic foot to pay Duty as if half a cubic foot, and all packages over half a cubic foot but not exceeding one cubic foot to pay duty as if one cubic foot.

All goods rated for Duty at per hundred pounds, or per hundredweight, or per ton, to pay Duty on gross weight, and on fractional parts of a quarter of a hundred pounds as if twenty-five pounds, or of a quarter of a hundredweight as if twenty-eight pounds, and so in proportion.

EXEMPTIONS.

Guano, Bones, Bone Dust, and Manures of every description.	Timber of all kinds, except as in Customs Duties Act, 1868. (Vide p. 78.)
Trees, Plants, Shrubs, Bulbs, and Seeds for Agricultural or Horticultural purposes.	Veneers of every description.
Hay, Oranges, Lemons, Pine Apples, Cocoa Nuts, Grapes, Green Fruit, and Vegetables of every description, and Linseed Oil Cake.	Rattans, split or unsplit.
Horses, Pigs, Poultry, Dogs, and Living Animals of every description, except Cattle and Sheep.	Carriage Shafts, Spokes, Naves, and Felloes.
Corks, Bark, Firewood, Logwood, and Dyewoods.	Iron Bridges, Iron Pipes, and Iron Tanks.
Copper, or Yellow Metal, Rod, Bolts, or Sheathing, and Copper and Yellow Metal Nails.	School Slates and Slate Pencils, Slates for roofing, and Slates and Stone for Flagging.
Felt for Sheathing, Oakum and Junk, Pitch, Tar, and Resin.	Marble, Granite, Slate, or Stone in rough block.
Sail Canvas, Boats, and Boat Oars.	Soda Ash, Caustic Soda, and Silicate of Soda.
Whalebone, whalefins, and Oil from the Whale Fisheries.	Cotton Waste, Woollen Waste, Candle Cotton, Wool, Flax, Hemp, Tow, and Jute, unmanufactured.
Whaling Implements and Gear of every description.	Works of Art; viz., Statues, Busts of Marble, Bronze, Iron, Alabaster or Plaster of Paris, Paintings, Drawings, Prints, Engravings, Lithographs, Photographs, Specimens of Sculpture, Cabinets of Coins, Medals, Gems, and all Collections of Antiquities.
Ships' Blocks, Binnacle Lamps, Signal Lamps, Compasses, Shackles, Sheaves, Dead-eyes, Rings and Thimbles, Dead Lights, Anchors and Chain Cables of every description, and Galvanised Iron Wire Rope.	Specimens of Natural History, Mineralogy, or Botany.
Lime Juice and Ice.	Ores of all kinds of Metals.
Printed Books, Music and Newspapers, Maps, Charts, Globes, and uncut Card Board, Mill Board, and Paste Board.	Gold Dust, Gold Bars, Bullion, and Coin.
Ink, Printing Presses, Printing Type, and other Printing Materials.	Coir Bristles and Hair unmanufactured.
Passengers' Baggage or Cabin Furniture arriving in the Colony at any time within three months before or after the owner thereof.	Broom Heads and Stocks partly manufactured for brush-making purposes.
Tablets, Memorial Windows, Harmoniums, Organs, Bells and Clocks specially imported for Churches or for Chapels.	Jars of Glass or of Earthenware, specially imported for Jam.
Railway Plant, Rolling Stock, and all Material which may be applied to the construction or maintenance of Railways or Tramways.	Unmanufactured Tin and Tin Plates.
Traction Engines and their Carriages.	Unmanufactured Steel of all kinds.
Millstones and Machinery for Mills worked by Wind, Steam, Water, or Horse-power.	Rod, Bar, Hoop, Sheet, Plate, and Pig Iron, and Pig Lead, Share Moulds, and Mould Boards.
Fire Engines, Steam Engines, Pumps, and other Apparatus for raising Water.	Epsom Salts, Citric Acid, Sulphuric Acid, Muriatic Acid, Carbolic Acid, Chloride of Lime, and Carbolate of Lime.
Hides and Skins of every description, raw and unmanufactured.	Haircloth for Hopkilns.
	All empty Casks, Cases, Boxes, and Bags, certified by ship's manifest as returned having been used in the export of Tasmanian Produce.
	All Goods the produce of Tasmania.
	All Goods imported for the use of Her Majesty's Government, and Wines and Spirits for the use of Her Majesty's Military Officers serving on full pay in this Colony, under such regulations as the Governor in Council may from time to time cause to be published in the <i>Gazette</i> .

Drawbacks.

There is allowed upon the exportation of the following articles and goods imported into the Colony; viz.—Wine, tea, sugar, coffee, cocoa, chicory, currants, raisins, dates, rice, hops, malt liquors, candles, wax and composition, ginger, pepper, sago, soda crystals, sulphur, white lead, sheet lead, Barcelona nuts, mustard, manufactures of silk, cotton, linen, and wool, and all articles manufactured therefrom; drapery, haberdashery, hosiery, millinery, furs, hats, boots, shoes, wool-bags, and cornsacks, being in the original packages in which the same were imported, a drawback of the Duty paid thereon, provided always that proof be made to the satisfaction of the Collector that the full duties due on importation have been paid; and upon the exportation of jam, packed in jars or tins only, manufactured in the Colony, a drawback of two pounds eight shillings for every ton net weight of jam: provided that the exporter or manufacturer gives notice in writing to the Collector of his intention to pack jam for export; and the Collector is required upon the receipt of such notice, either himself or by an officer of Customs appointed by him for such purpose, to view such jam, and also to seal the case or cases in which such jam is packed.

No drawback is allowed upon the exportation of jam in any quantity less than one ton, or on any other articles or goods entered for drawback unless the Duty on any one of such articles or goods amounts to Five Pounds, and unless such goods are shipped within three years from the day of importation thereof, or in the case of the exportation of jam manufactured in the Colony, within one year from the time when the exporter shall declare the same to have been manufactured, or in the case of malt liquors within one year from the day of importation thereof: and any person making such declaration falsely in any particular is subject to a penalty of not less than One hundred Pounds.

Drawback of Duty is allowed upon Carriages imported by Visitors for their private use, upon re-shipment within six calendar months from date of inward entry; upon silver plate imported by the owner for his own use on exportation at any time; a drawback of sixpence per 100 lbs. is also allowed on export of malt made from imported barley, provided Duty has been paid on such barley within three months before the date of exportation.

<i>Authority under which levied, or by which legalised.</i>	<i>Specification of Taxes, Duties, Fees, &c.</i>	<i>Authority under which originally established.</i>	<i>At what Period.</i>
34 Vict. No. 2.	<p>NOTE.—The purchase or consideration money is to be truly expressed and set forth in words at length in or upon every such principal or only deed or instrument of title or conveyance.</p> <p>And where any lands or other property of different tenures or holdings, or held under different titles, contracted to be sold at one entire price for the whole, shall be conveyed to the purchaser in separate parts or parcels by different deeds or instruments, the purchase or consideration money shall be divided and apportioned in such manner as the parties shall think fit, so that a distinct price or consideration for each separate part or parcel may be set forth in or upon the principal or only deed or instrument of conveyance relating thereto, which shall be charged with the said <i>ad valorem</i> duty in respect of the price or consideration money therein set forth.</p> <p>And where any lands or other property contracted to be purchased by two or more persons jointly, or by any person for himself and others, or wholly for others, at one entire price for the whole, is conveyed in parts or parcels by separate deeds or instruments to the persons for whom the same is purchased for distinct parts or shares of the purchase money, the principal or only deed or instrument of conveyance of each separate part or parcel, shall be charged with the said <i>ad valorem</i> duty in respect of the sum of money therein specified as the consideration for the same. But if separate parts or parcels of such lands or other property are conveyed to or to the use of or in trust for different persons in and by one and the same deed or instrument, then such deed or instrument shall be charged with the said <i>ad valorem</i> duty, in respect of the aggregate amount of the purchase or consideration moneys therein mentioned to be paid or agreed to be paid for the lands or property thereby conveyed.</p> <p>And where any person having contracted for the purchase of any lands or other property, but not having obtained a conveyance thereof, shall contract to sell to any other person, and the same shall in consequence be conveyed immediately to the sub-purchaser, the principal or only deed or instrument of conveyance shall be charged with the said <i>ad valorem</i> duty in respect of the purchase or consideration money therein mentioned to be paid or agreed to be paid by the sub-purchaser.</p> <p>And where any person having contracted for the purchase of any lands or other property, but not having obtained a conveyance thereof, shall contract to sell the whole or any part or parts thereof to any other person or persons, and the same shall in consequence be conveyed by the original seller to different persons in parts or parcels, the principal or only deed or instrument of conveyance of each part or parcel thereof shall be charged with the said <i>ad valorem</i> duty in respect only of the purchase or consideration money which shall be therein mentioned to be paid or agreed to be paid for the same by the person or persons to whom or to whose use or in trust for whom the conveyance shall be made without regard to the amount of the original purchase money.</p> <p>And in all cases of such sub-sales as aforesaid the sub-purchasers, and the persons immediately selling to them, shall be deemed and taken to be the purchasers and sellers within the intent and meaning of the provisions of this Act relating to the <i>ad valorem</i> duties on conveyances on the sale of property thereby imposed.</p> <p>But where any sub-purchaser shall take an actual conveyance of the interest of the person immediately selling to him, which shall be chargeable with the said <i>ad valorem</i> duty in respect of the purchase or consideration money paid or agreed to be paid by him, and shall be duly stamped accordingly, any deed or instrument of conveyance to be afterwards made to him of the property in question by the original seller shall be exempted from the said <i>ad valorem</i> duty, and be charged only with the ordinary duty on deeds or instruments of the same kind, not upon a sale.</p> <p>And where any lands or other property separately contracted to be purchased of different persons at separate and distinct prices shall be conveyed to the purchaser, or as he shall direct in and by one and the same deed or instrument, such deed or instrument shall be charged with the said <i>ad valorem</i> duty in respect of the aggregate amount of the purchase or consideration moneys therein mentioned to be paid or agreed to be paid for the same.</p> <p>And where any lands or other property shall be sold and conveyed in consideration wholly or in part of any sum of money charged thereon by way of mortgage or otherwise, and then due and owing to the purchaser, or shall be sold and conveyed subject to any mortgage, bond, or other debt, or to any gross or entire sum of money to be afterwards paid by the purchaser, such sum of money or debt shall be deemed the purchase or consideration money, or part of the purchase or consideration money, as the case may be, in respect whereof the said <i>ad valorem</i> duty is to be paid.</p>	27 Vict. No. 38.	24 Sept. 1863.

<i>Authority under which levied, or by which legalised.</i>	<i>Specification of Taxes, Duties, Fees, &c.</i>	<i>Authority under which originally established.</i>	<i>At what Period.</i>	
34 Vict. No. 2.	<p>And to prevent doubts respecting what shall be deemed the principal deed or instrument of conveyance in certain cases, it is declared :</p> <p>That where upon the sale of any annuity or other right not before in existence the same shall not be created by actual grant or conveyance, but shall only be secured by bond, warrant of attorney, covenant, contract, or otherwise, the bond or other instrument by which the same shall be secured, or some one of such instruments if there be more than one, shall be deemed and taken to be liable to the same duty as an actual grant or conveyance.</p> <p>And where there shall be several deeds, instruments, or writings for completing the title to the property sold, such of them as are not liable to the said <i>ad valorem</i> duty shall be charged with the duty to which the same may be liable under any general or particular description of such deeds, instruments, or writings contained in <i>The Stamp Act</i>.</p> <p>And where in any case not hereby expressly provided for of several deeds, instruments, or writings a doubt shall arise which is the principal, it shall be lawful for the parties to determine for themselves which shall be so deemed, and to pay the said <i>ad valorem</i> duty thereon accordingly ; and if necessary the other deeds, instruments, or writings on which the doubt shall have arisen shall be stamped with a particular stamp for denoting or testifying the payment of the <i>ad valorem</i> duty upon all the deeds or instruments being produced and appearing to be duly stamped in other respects.</p> <p>And where there shall be duplicates of any deed or instrument chargeable with the said <i>ad valorem</i> duty, one of them only shall be charged therewith, and the other or others shall be charged with the ordinary duty on deeds or instruments of the same kind not upon a sale, and on the whole being produced duly stamped as hereby required, the latter shall also be stamped with a particular stamp for denoting or testifying the payment of the said <i>ad valorem</i> duty.</p>	<i>f s. d.</i>	27 Vict. No. 38.	24 Sept. 1863.

Exemptions from the preceding Duties on Conveyances upon the Sale of Lands, &c.

* REVENUE (*estimated*) £9000 0 0

+ EXPENDITURE..... £16,817 8 1

* It is impossible to give the actual Post Office Revenue, as the Stamps used for the transmission of Letters, &c. through the Post Office are similar to those used on Bills of Exchange, &c. under "The Stamp Act;" but the estimated Revenue given above is believed to be as near as possible the actual Post Office Revenue for the year 1871.

+ This Return shows the actual Expenditure of the Post Office Department for the year 1871 as made up to this date; but it is possible that a further claim may be made against the Department on account of the English Mail Service via Suez.

NOTE.—In this Return the total number of Letters, Packets, and Newspapers that have passed through the whole of the Post Offices in the Colony during the year 1871 is given: previous Returns have only included those distributed through the General Post Office, Hobart Town, and the Post Office at Launceston.

A. C. DOUGLAS, *Secretary.*

General Post Office, Hobart Town,
22nd May, 1872.

ELECTRIC TELEGRAPH.

Total Daily Average	9	—	159									

Proportion of Net Expenditure chargeable to.....	Colonial Funds	£3687 10 1
	Imperial Funds	67 1 0
		£3754 11 1

* In making this calculation fractions have been taken into account, although for convenience sake they are omitted in the previous columns.

NOTE.—In the expenditure is included a sum of £57 3s. 7d. expended on extra provisions to prisoners employed at the Battery, One Tree Point, and which might fairly be questioned as constituting a prison charge. In no instance has any credit been taken for the labor of gangs supplied the Public Departments. Had such been done, the Establishment would have been found self-supporting.

THOS. REIDY, Superintendent.

MEMO.—The Returns hitherto furnished of the Area of Crown Land under Rental have, for many years past,* shown a considerable excess beyond the actual quantity under lease. It is difficult now to account for the very great discrepancy; but it may have arisen, in some measure, from the fact that, after the annual Returns are made up, lists of persons who have failed to pay rent are received from the Colonial Treasury, and they have not been taken into consideration when the Returns for the following year have been prepared.

* Up to, and including, 1866.

CROWN LANDS—*continued.*

* Thirty-eight of these were Tasmanian Sheep taken to Sydney for exhibition, and returned.

[Compiled from Returns obtained through the Mayors of Hobart Town and Launceston.]

E. C. NOWELL, Government Statistician.

*REPORTS, or Extracts from Reports, of Collectors of Agricultural Statistics,
1871-2.*

BRIGHTON.

THE Returns will show a great falling off in the yield of all the crops; it has been in consequence of the very dry season. The grasshoppers were very numerous in this District, and very destructive to grasses.

CHAS. WRIGHT, *Superintendent of Police.*

CAMPBELL TOWN.

I HAVE the honor to forward herewith Returns of Stock, &c. collected by me within this Municipality for the year ending 31st March, 1871; and beg to inform you that the average yield of crops is below that of last year, which may be attributed to three causes,—viz., drought, frost, and destruction caused by rabbits.

Owing to the absence from home of several Stockowners, &c., I was unable to furnish the Returns at an earlier date.

JOHN R. CHAMBERS, *Collector.*

DELORAINÉ.

THE grain crop this year has been a partial failure, owing, in a great measure, to the severe frosts coming so late in the season: for the same reason, the yield of peas is very small this year in comparison with that of other years.

I have nothing particular to report respecting agriculture in this part of the Colony, except that reaping machines are coming more generally into use here, no less than four having been at work during the late harvest, and having cut about five thousand bushels of grain, principally oats.

EDWARD WILLIAMS, *Superintendent of Police.*

EVANDALE.

I AM sorry I cannot make a favourable report of the state and prospects of agriculture and pastoral pursuits in this District. A considerable falling off has taken place this year in barley and hay, which I presume may be accounted for by the low prices ruling. There are also over 12,000 sheep less than in last year's return. Messrs. Cox and Blomfield having sold their flocks will go a great way in accounting for the falling off in the numbers. There has been very little new land broken up; and, altogether, I may say that agriculture is in a very depressed state at present.

R. MARRIOTT, *Superintendent of Police.*

FINGAL.

THE past season, as will be seen by the Returns, has not been a very favourable one. The yield in almost every kind of agricultural produce is very far short of last season, dairy produce in particular. As a rule the farmers do not plough and sow their land early enough in the autumn; some do not sow their wheat until the spring, and consequently it is attacked by red rust, and little or no yield. The season for dairying has been very bad; and, to make matters worse, very few of those engaged in that pursuit make any provision for their cows in the spring, such as mangolds, &c. The cows as they calve have to live the best way they can on the scanty pasture, and so remain very poor until the middle of the summer.

FRED. T. RANSOM, *Collector.*

GLAMORGAN.

COMPARING the Returns of 1871-2 with those of 1870-1, I cannot give a very favourable report on the state and prospects of agriculture, excepting the cultivation of hops, which have increased $6\frac{1}{2}$ acres during the last year, showing an increase of produce of 8577 lbs. hops.

Regarding pastoral pursuits—owing to the late, abundant rains the stock look remarkably well, and there is every prospect of there being an abundance of food during the coming winter.

ALFRED JNO. AMOS, *Collector.*

GLENORCHY.

IN reference to Section 6 of the Memorandum forwarded with the Stock and Crop Forms, which I now beg to return filled up, I have the honor to state that the mode of cultivation in this District generally is of an improved character, many of the farmers having turned their attention not only to dressing their land but to a more thorough system of working it, which in many cases has already shown its advantages.

The cultivation of canary grass and flax seed has been introduced upon a small scale. The result has been very satisfactory, and this District has been found favourable to its growth.

JOHN F. HULL.

GREEN PONDS.

HEREWITH I beg to forward you Agricultural and Live Stock Returns for this Municipality for the year ending the 31st March, 1872.

The Returns have been delayed in order to give time to the farmers to have their grain threshed. With the exception of that on about six farms, the whole of the grain in this District has been threshed out; therefore the Returns, as regards quantities, are as nearly correct as possible. In very few instances, not more than three or four, has the grain yielded the farmers' estimate,—in some instances not more than half. If, therefore, the Return had been made out before threshing, it would have been totally unreliable.

In grain there were about 170 acres less sown in 1871 than in 1870, but the crop is nearly 24,000 bushels less. The causes of failure were rabbits in the sandy ground, want of rain, blight, and, in some parts of the District, severe summer frosts.

The majority of the farmers here crop the land year after year with wheat, and very few use manure of any sort,—the small tenant farmers have not the means.

The dry season and fire-blight are the causes of the deficiency in the apple crop.

THOS. W. STANWIX, *Collector.*

HAMILTON.

I FIND, on comparing the number of sheep depastured on crown land during the years 1870 and 1871, that a great difference exists, but, upon enquiry, also discover that, beyond a doubt, many have been removed from the up country runs in consequence of the heavy losses sustained by tigers and other wild animals.

W. BELLETTE, *Collector.*

HORTON.

THE Stock and Crop Collector for the District of Horton has the honor of forwarding the following Report on the Returns collected in his District:—

The Collector has delayed sending in his Report and Returns for a day or two for the purpose of sending them by steamer instead of by post. The post is carried on horseback, and without sufficient protection the contents are thus always more or less injured, and in wet weather might be nearly destroyed: the forms suffered in coming here, as their condition shows.

Heading "Permanent Artificial Grasses."—There are no natural grasses in this District, the whole country being either dense forest or barren heath. All pasture land, therefore, has been entered under this head, (though there may be very little artificial grass upon it) because it is always supposed to be in grass, and always does contain more or less of it, and depend chiefly upon it.

Heading "Rotation of Crops."—The usual course of culture professed by the farmers is to take first a crop of potatoes, then one of grain, then leave the land down in grass. All or nearly all recognise this in a loose way as the idea to be kept in view, and approximate to it more or less, and in so far observe a rotation of crops; but no fixed rule is or at present can be adopted; and there is nothing resembling system in the mode of farming.

Price of Wheat.—Wheat raised in this District is always from Sixpence to a Shilling lower than other wheat, being notoriously inferior for flour. This I believe is partly the fault of the soil, rich basalt never yielding such good flour as sandy soils; and partly from the extreme prevalence of rust. Nearly all the flour used here is imported from elsewhere.

The whole District being either dense forest or barren heathy plain, there is no natural bush pasture: hence no Stock returned as running on crown land, and no pastoral class, excepting one representative (Mr. Field) who runs large herds of cattle in the wild regions far back, and on the V.D. Land Company's ground.

Heading "New land broken up."—There is a great deal of land returned under this heading which, taken as it stands, would give a delusive appearance of expanding agriculture in this District.

There is no heading under which to return land formerly cultivated lapsing into a state of nature, but such a Return would be large. My subordinate reports that in the locality of the Cam alone—a small one—there are 390 acres so lapsed. But I intend to go over and make enquiry into this on the first opportunity.

All the farming here is and must continue in the most primitive condition. Much of the land belongs to the V.D. Land Company, who will let only on yearly leases (as I am given to understand); this alone would be sufficient to prevent all agricultural improvement, but the thickness of the timber would forbid it under any circumstances.

The custom on commencing is to clear out all the scrub and timber under 18 inches, leaving the rest standing dead. This is the heaviest item in the farmer's work, and has all to be done with the pick and axe. There is no opening for educated intelligence or for capital: muscle and skill are all in all. The farming thereafter presents the same features. It has to be carried on in and out amongst large trees, which are annually falling down, interrupting work, and giving great trouble. The farmer is rigorously confined to the use of the simplest and strongest instruments, and simplest processes of agriculture. The Returns show that there are no field implements above the common plough and harrow throughout the District, except scarifiers, which are ponderous masses of wood and iron; one reaping machine, for which only 9 acres could be found suitable; and one seed-drill, which cannot find much employment, I am sure.

The farmers are men of small means: their farms are of small size: they cannot combine sheep and agriculture to any extent, owing to the absence of all natural pasture, and the distance from the market of fat stock; and thus have no resources to fall back upon in bad agricultural times.

Still it is emphatically the land of the cockatoo or peasant farmer, and if he cannot succeed here none else can.

ARTHUR JAS. OGILVY.

LAUNCESTON.

A GREAT deal of land has been left under bare fallow and perennial artificial grasses, which will, I think, account for the deficiency in the crops generally, with the exception of those above mentioned. In Live Stock you will perceive a general increase in every class.

I regret that I could not forward the Returns before; but my District being a very large one, information is often difficult to obtain: therefore I could not forward them with any degree of accuracy before.

JAMES PROPSTING, *Collector.*

NEW NORFOLK.

In some parts of this District the yield of wheat and hay has been rather small,—in some few instances not four bushels to the acre of wheat, and hay in proportion. In others there has been a fair yield.

In hops the acreage has been less than that of last year, but taking the crop generally the return has been favourable and the price more encouraging.

Owing to the low price of last year, combined with the spider, some growers were induced to grub up or to leave uncultivated a portion of their acreage under hops; but the spider has not been so destructive to the present crop. The frost has, however, done great injury in a number of places. I think it likely that the hop cultivation will increase, especially with those who have skill and can command capital.

The potato and root crops have been rather under an average, and in this District potatoes will be rather scarce.

In pastoral pursuits the District is not largely represented; but there is an improvement amongst the sheep since the introduction of the present Scab Act, and the present price of wool is more remunerative to the grower.

Cattle are selling at a fair price, and good horses are in demand at a paying figure.

JAMES STEVENSON, *Collector.*

OATLANDS.

IN forwarding the Stock and Crop Returns for this District for the year ending the 31st March, 1872, I see nothing calling for special remark. The number of acres in cultivation shows but a slight increase. The dryness of the season, and a severe summer frost, will account for the falling off in yield.

The rabbit nuisance is still a great drawback to agriculture in a great part of this District, but it seems to be in a fair way to be overcome, since rabbit skins have now a market value. One storekeeper has for some time back bought rabbit skins procured in the immediate neighbourhood to the number of three hundred dozen weekly, and he is only one of many that are buying.

WILLIAM EXTON, *Superintendent of Police.*

PORT SORELL.

I HAVE the honor to forward herewith the agricultural returns for this year, and in doing so regret to be obliged to state that very great depression exists amongst the agricultural (being the only) interest in this District.

Several of our farmers, storekeepers, and largest landowners have been compelled to succumb: credit to the small farmers, most of whom are landowners, is almost entirely stopped by the storekeepers: the grain crop has not turned out more than one-third its expected yield: and the potatoe crop, upon which they usually rely for their annual supplies, having also comparatively failed, their prospects between this and next harvest are, in my humble opinion, very gloomy indeed.

The labour status having been drained by this class becoming landowners and no corresponding class of cheap labour having been supplied, and the present labour class of this District being of a very low order, most of the profits of the farm (where any have been realised) have gone in a direction from which but little return has been received.

The loss of Victoria as a market for our surplus produce, and the almost prohibitory tariffs at other more distants parts, has also had a very serious effect upon this Coast; and unless some more local market be developed by some fresh industry establishing a fixed population sufficient to consume our surplus agricultural produce, I fear we are at the beginning here of a very serious state of things for the agricultural interest.

I very much regret indeed that the returns which show so poor a comparative increase on last year have been so unavoidably delayed.

J. REYNOLDS, *Chief District Constable.*

ROSS.

THE lands of this District are mostly pastoral, consisting of large estates, and, with few exceptions, occupied by the owners; the greater part are fine grazing lands, but for the last two years have been so overrun with rabbits that the proprietors or occupiers have been compelled to reduce their flocks considerably. The area of lands well adapted for agriculture is of small extent, the most part of that under cultivation being of an hungry, sandy nature. The crops of last season as shown by the returns were very bad in quantity, this was mainly owing to great scarcity of rain during the growing season.

There are no improvements to note during the past year.

Tobacco is not grown to any extent in this District now, most of the flockmasters using carbolic acid for sheep-dressing.

W. E. WARNER, *Collector.*

SORELL.

I HAVE the honor to forward herewith the Stock and Crop Returns for the Municipality of Sorell for the year ending 31 March, 1872, which I believe you will find to be correct. Great pains have been taken to prepare them correctly and forward them as early as possible.

The crops in general this year have proved very unsatisfactory, owing to the continual drought which prevailed here throughout the whole season.

I observe a remarkable difference under the head "Rotation of Crops," which may be attributed to the great number of the farmers heretofore not properly understanding the meaning of the term.

I also perceive a difference in the number of gardens and orchards, which I believe is caused by the reluctance of some people to crop them on account of the dryness of the season.

I may draw your attention to the acreage of land in some instances exceeding largely that of last year's Return, though the increase in produce is very trifling, which may be accounted for by the drought before referred to.

By the recent rains the ground is thoroughly moistened, and the farmers are taking heart in hopes of reaping a good harvest next year.

There is a slight increase in horned cattle and sheep, also in pigs.

ROBT. J. HARRIS, *Superintendent of Police.*

SPRING BAY.

HEREWITH I forward a Return of Crop and Stock, which I trust will be found correct. I should have sent them in before this, but I had to call at some places no less than three times before I could get their Returns.

I find in many instances that the acreage of some crops exceeds those of 1870, and the produce less, the pea crop especially. The only reason that can be given for this decrease is on account of the very dry season. The number of sheep are less than I returned last year, and that is on account of two persons having their sheep in the adjoining Districts,—namely, Richmond and Oatlands.

I cannot observe any marked improvement in the way of farming in this District.

S. MURPHY, *Collector.*
