Audit Office, 5th December, 1871.

E. J. MANLEY, Colonial Auditor.

COPY of Parliamentary Paper V.D.L. Legislative Council, 1853, No. 15, Salaries, Message No. 5.

W. DENISON,
Lieutenant-Governor.

MESSAGE No. 5.

THE Lieutenant-Governor lays before the Legislative Council a Minute of the Executive Council, containing the result of the deliberations of that body upon the claims of the Officers of the different Departments of Government to an increase of Salary on account of the great rise in the price of the necessaries of life.

The scale of augmentation recommended in this Minute is assimilated, as far as regards the lower Salaries, to that proposed by the Executive Council of New South Wales; but the rate of increase is more gradual and uniform, and the actual amount of the addition to the higher Salaries much inferior to that adopted in New South Wales.

The Lieutenant-Governor is glad to be able to state that the condition of the Revenue is such as to enable it to bear the addition to the annual charges upon it herein submitted: and he recommends the claims of the Officers of all the Departments of the Government to the favourable consideration of the Council.

Government House, Hobart Town, 12th July, 1853.

[Enclosure.]

AT a Meeting of the Executive Council held at the Government House, Hobart Town, on Friday, the 8th July, 1853, at two o'clock.

PRESENT.

His Excellency the Lieutenant-Governor.
The Honourable the Senior Officer of Her Majesty's Land Forces.
The Honourable the Colonial Secretary.
The Honourable the Colonial Treasurer.
The Honourable the Chief Police Magistrate.

The Minutes of last meeting are read and confirmed.

MINUTE No. 5.

HIS Excellency the Lieutenant-Governor lays before the Council various Memorials from Officers of the Public Departments, praying for such an increase to their present Salaries as may enable them to meet the demands made upon them, augmented as these are by the unprecedented rise which has taken place in the price of the necessaries of life.

This rise of price presses most hardly upon those who are in the receipt of fixed incomes, and of small amount; but it is felt severely by all the Officers of Government.

The small increase which was granted to the Officers receiving Salaries of less than £300 per annum, has not been in any way sufficient to meet the rise in price of the necessaries of life; and His Excellency, therefore, requests the opinion of the Council as to the scale upon which the additions to Salaries generally should be made.

As some guide in considering this subject, His Excellency lays before the Council a copy of the Minute of the Executive Council of New South Wales, where the same subject was brought under its notice by the Governor-General.

The Council perceive from *data* before them that the relation between all the necessaries of life and their money value has, within the last twelve months, entirely changed,—and that within this period there has been a progressive rise in the prices of all necessary articles of consumption, until it has reached, upon the most moderate computation, an average advance of One hundred and twenty-four per cent.

After mature deliberation, the Council decide upon recommending the adoption of the following rates of temporary increase, which are calculated with a view of giving a higher rate of increase to those persons receiving the lower rates of Salaries, by whom the pecuniary pressure which it is now sought to alleviate is felt most severely.

On Salaries of		Increase.
£ 100 per annum and under	£ 150	£ 75
150	200	90
200	300	100
300	400	110
400	500	120
500	600	130
600	700	140
700	800	150
800	900	160
900	1000	170
1000	1100	180
1100	1200	190
1200	1300	200
1300	1400	210
1400	1500	220
1500		230

The Council recommend that this increase should take effect from the beginning of the present year, and be calculated with reference to the original Salary in each case, exclusive of any temporary increase already granted. That in cases where Officers are provided with quarters at the public expense, a deduction be made on this account of one-fourth of the entire increase. The Council, however, desire to record their opinion that this scale of increase bears but a small proportion to the increased price of all the necessaries of life, but is proposed as one which the limited means at the disposal of the Government can best afford to allow.

CHESTER EARDLEY-WILMOT,
Clerk of the Executive Council.

JAMES BARNARD,
GOVERNMENT PRINTER, TASMANIA.
