THE Board of Education has directed the publication of the annexed Report of the Examiners appointed to conduct the Examination of Candidates for Exhibitions from Public to Superior Schools.

The Candidates who obtained the highest number of marks were :—

ALFRED BROCK BRYAN.

##### *Females.*

#### EXAMINERS' REPORT.

WE have the honor to present to the Board of Education a Report of the Twenty-first Annual Examination for Exhibitions from Public to Superior Schools.

The Examination began on the 22nd of June, and ended on the 25th. The standard of qualification and the marks obtainable in the several subjects were the same as those of last year. Twenty-four boys and seven girls presented themselves, nine of whom were examined in Launceston, and the rest in Hobart Town. They represent thirteen schools, the large majority of which are in the rural districts.

**READING.** *Mr. Inspector Rule, Examiner.*—To let one Examiner hear all the Candidates read, this part of the Examination was held in Launceston on the 24th and in Hobart Town on the following morning. Several read very well. M'Loughlin, Annie E. Thyssen, Langley, Hogarth, Ellen E. Rule, Read, Emma L. Rule, Parry, Harris, Wells, and East deserve special mention. Fifteen others obtained more than half marks.

**DICTIONARY.** *Rev. Canon Bailey, Examiner.*—The spelling was, with very few exceptions, correct throughout; the failure was in punctuation, which seems to receive little, if any, attention.

**PENMANSHIP.** *Rev. Canon Bailey and Mr. Inspector Rule, Examiners.*—Most of the specimen papers showed clear, neat, and free writing; and nearly all the papers in other subjects showed creditable penmanship.

ENGLISH GRAMMAR. *Rev. Canon Bailey, Examiner.*—The answering in this subject was, on the whole, weak. Six Candidates obtained more than three-fifths of the marks allotted to the subject, but none of the others reached half the number. Hubert East, Albert Murray, Howard Chiplin, Malcolm Johnston, William Parry, and Alfred Bryan sent in very creditable papers.

GEOGRAPHY. *Rev. Canon Bailey, Examiner.*—In this subject the answering was, on the whole, more satisfactory than usual. Three Candidates gained more than three-fourths of the maximum number of marks, ten others more than two-thirds, and two others more than half. Hubert East, Caleb Adams, and Emma Rule deserve special mention.

HISTORY. *Mr. Inspector Rule, Examiner.*—The answering of several Candidates was terse and to the point, showing a fair acquaintance with the outlines of history as given in ordinary text-books; in most of which the history of the People is either ignored altogether, or subordinated to that of Courts, political intrigues, and details of battles. Some Candidates neglected to make their answers explicit. Twenty-five obtained more than half marks; and East, Halloran, Emma L. Rule, Johnston, Bryan, Murray, Parry, Adams, Annie E. Thyssen, Harris, Bennett, Ellen E. Rule, and Chiplin deserve credit, having exceeded three-fourths of the marks.

ARITHMETIC. *Mr. Inspector Rule, Examiner.*—Only nine Candidates obtained half marks in this subject. Johnstone did excellent work, showing himself master of the paper; two mistakes, evidently slips, in easy sums prevented him getting full marks. Chiplin and East, who reached three-fourths of the marks, and Murray, Adams, Parry, and Halloran deserve special mention. Many of the others lost marks through ignorance of the divisions of a *chain* into *rods* and *links*. Many also lost marks through not recognising the technical meaning of *product*. Several multiplied the length of a field by its breadth to ascertain the amount of fencing required to enclose it. The majority need exercise in sums concerning ordinary business.

The annexed Table of Marks shows the results in detail. Three of the Candidates failed to obtain 400 marks, the standard qualifying for a place in the Table. Fourteen boys and three girls have attained the standard for an Exhibition. One of the female Candidates was absent from the Reading through illness; otherwise it is more than probable that she would have gained the number of marks requisite for an Exhibition. We have pleasure in recommending for Exhibitions Hubert Springford East, Howard Chiplin, Albert Edward Murray, Walter John Johnstone, William David Parry, Alfred Brock Bryan. Also, Emma Louisa Rule, Annie Elizabeth Thyssen, and Ellen Elizabeth Rule.

The results are, we think, upon the whole satisfactory; but it will be seen from the Table of Marks that there are some subjects on which many of the Candidates were weak. To these the Teachers will do well to pay more particular attention in future.

J. BROOKE H. BAILEY, } *Examiners.*  
J. RULE,

NOTE endorsed on a letter to the Board from Mr. George Hawthorn, requesting that his daughter, who missed the examination in Reading, might be permitted to present herself for special examination in that subject:—

“We have much pleasure in recommending that Mr. Hawthorn’s request be complied with. Reading differs from other subjects in that there is no possibility of collusion between the candidates, each one being merely required to reach a certain standard, which can be ascertained without using the same passage for all to read. It will be seen, moreover, that in this instance no injustice will be done to any other Candidate by allowing the favour requested by Mr. Hawthorn.

J. BROOKE H. BAILEY, } *Examiners.”*  
J. RULE,

#### MEMORANDUM.

IN obedience to the Board’s instructions Amy J. Hawthorn has been examined in Reading, and has obtained 70 marks. Her reading is good.
