

(No. 47.)

1877.

SESSION II.

T A S M A N I A.

LEGISLATIVE COUNCIL.

TELEGRAPH :

SUPERINTENDENT'S REPORT FOR 1876.

Laid upon the Table by Mr. Crowther, and ordered by the Council to be printed,
May 16, 1877.

Telegraph Department, 30th April, 1877.

SIR,

I HAVE the honor of forwarding my Annual Telegraph Report for presentation to Parliament, showing the following highly gratifying results as compared with 1875 :—

1. *Inter-Tasmanian Lines*.—An increase of 12,393 Messages, and £688 6s. Receipts.
2. *Inter-Tasmanian Lines*.—*Fees derived from Intercolonial Business*.—An increase of 1517 Messages, £111 19s. 7d. Receipts.
4. *Intercolonial Business*.—An increase of 1517 Messages, and £998 6s. 7d. Receipts.
5. *Messages "on Public Service only"*.—An increase of 2503 Messages, and £368 8s. money value.
6. *Launceston and Western Railway Local Telegraph Business*.—From information supplied by Mr. Lord, the Manager, a small decrease is shown of 17 Paid Messages, and 16s. 11d. in Receipts; of 21 O.P.S.O. Messages, and £1 3s. 6d. money value. The total work of this Line was 478 Paid Messages, £25 9s. 10d. Receipts; 67 O.P.S.O., £7 6s. 4d. money value; 18,000 Service Memos.
7. *Total Business*.—An increase of 16,462 Messages, and £1978 11s. 6d. Receipts and money value.

It will be seen from the above summary that the work of the Department has increased to an extraordinary extent,—far beyond anything experienced in former years; and I have the gratification of stating that at the date of forwarding this Report the improvement is steadily maintained.

The several Lines have continued to work exceedingly well, with the exception of the North West Coast section; that, however, has now been placed in the charge of an experienced Telegraph Contractor, who has undertaken to place it in proper working order in a short time from this date.

The George's Bay Line has just been completed, and telegraphic communication with that important mining district will be thrown open to the public immediately.

Telegraph materials are daily expected to arrive from England for opening (1) the new duplicate Line between Hobart Town and Launceston, (2) the Line between Bishopsbourne and Carrick, and (3) the Line from Hobart Town to the Huon.

The duplicate Line between Hobart Town and Launceston will, by arrangement with the Manager of the Main Line Railway, be carried on the Railway telegraph posts, securing the great advantage of daily inspection, and affording an invaluable opportunity for effecting repairs without delay.

By further arrangement with Mr. Grant, the Railway Telegraph Line is now being brought into the Government Telegraph Offices at Hobart Town and Launceston, thereby greatly facilitating the speedy delivery of telegrams forwarded on the respective systems, preventing the delay which is at present unavoidable through messages for re-transmission having to be forwarded to the respective Offices by Messengers. This arrangement will also afford a still greater boon by placing a triplicate Line between Hobart Town and Launceston at the service of the Government. In carrying out the details of this arrangement Mr. Grant has done all that could be desired to meet the wishes of the Government and the convenience of the public.

Notwithstanding the unprecedented augmentation of business on the Lines, involving a corresponding increase of responsibility and liability to error, there has been no period at which so few official complaints as to negligence, irregularities, &c. have been made.

The Officers of the Department have discharged their duties with attention and zeal.

I am assured that unless some appreciable increase be made to the salaries of Operators at the chief offices, we shall shortly lose the services of many of our most valuable, trustworthy, and competent Officers, who, already tempted by offers of higher pay, are driven to reluctantly leave the Department where they received their training, and which they have served so faithfully. It militates very seriously against the proper working of the Department, particularly against the expeditious despatch of telegrams, that, so soon as such Operators have completed a thorough course of training, and have become really reliable Officers, they leave us for other Colonial Telegraph Departments, the highest prizes in our own Chief Offices (at Hobart Town and Launceston) never rising, with but one exception, above £90 a year. I have already received actual notice of leaving from some of our best Officers, whose services might have been secured to the Department by an annual addition to their salaries. Their junior successors may bring any amount of willingness to the discharge of their duties, but it cannot be expected that they will perform them with the expedition, and above all with the discretion, of their experienced predecessors. I would point out that these salaries were fixed in the old days of the Department, before the establishment of Inter-colonial Telegraph communication,—a period when the work was as nothing to what it is now, either in extent, importance, or responsibility.

I beg most earnestly to draw the attention of the Government to the position of the Telegraphists at the various Inland Stations, who have to give a never-varying attendance of 12. to 13 hours a day for the small salary provided on Estimates, in the hope that their case may occupy the favourable consideration of the Executive.

I have deemed it my duty, with the utmost respect, to bring these matters very pointedly forward on behalf of those who are precluded from doing so for themselves.

I have the honor to be,

Sir,

Your most obedient Servant,

F. A. PACKER, *Superintendent of Telegraphs.*

The Hon. the Colonial Treasurer.
