- (3) Further notes that the development stage of the first phase of the Battery of the Nation carries the commitment of the Federal Government through the Federal Underwriting New Generation Investment program.
- (4) Further notes that support by both the Hodgman Liberal Government and the Federal Government, gives UPC Renewables and AC energy, more confidence to develop their Robbins Island and Jims Plain wind and solar parks.

To which the following amendment has been proposed by Dr *Woodruff*, by leaving out all words after "That the House:-" and inserting instead:

- (2) Agrees that the project could cost in excess of current total Public Non-Financial Corporations Sector debt, and feasibility studies and prominent economists such as Saul Eslake have raised serious concerns about the viability of the project, which have not been addressed by the State Government.
- (3) Notes that the Liberals passed legislation to set wholesale electricity prices at a rate higher than projected, leading to energy bills decreasing by less than they would otherwise would have.
- (4) Notes with alarm that the Liberal Government continues to allow Entura to engage in profiteering from immoral projects overseas such as the Karuma hydro power project Uganda, which has been linked to killings and other human rights violations.
- (5) Condemns the Liberal Government for their lack of honesty, ethics or plan in their handling of the Energy portfolio." (Next Speaker: Minister for Energy)
