Sir,

I have to acknowledge the receipt of cheque for Eight
Pounds Five Shillings and Six Pence (£8:5:6) being cost of printing

House of Assembly,

A. J. Mullett, Esquire,

Government Printer,

MELBOURNE.

My dear Sir,

I have to acknowledge the receipt of your letter of 8th instant on the subject of copies of the Commonwealth Acts for the use of the House and the Library of Parliament.

You state that 4 copies are sent as issued to the Clerk of the Legislative Council, 4 copies to the Clerk of the House of Assembly, and 4 copies to the Parliamentary Library. As I am Clerk of the House of Assembly and Librarian to Parliament, this corroborates my statement that I have been receiving 8 copies of each volume as issued. But as I have only received four copies of Vol. XX I shall be glad if you will very kindly forward me four additional copies, as I require eight copies in all for the use of the House and the Library.

The existing arrangement set forth in your letter whereby I get 4 copies of each vol. as Clerk of the House and 4 copies as Librarian, is quite satisfactory but in regard to Vol. XX as I have shown, I have received four copies, so that I require four additional copies. Very kindly acquaint the Secretary to the Prime Minister accordingly.

Yours very truly,

Clerk of the House of Assembly
and Librarian to Parliament.

House of Assembly,

Hobart, 15th June, 1923.

W. Salmon, Esquire,
Council Clerk,
FINGAL.

My dear Sir,

I am returning to you the cheque you have sent me in settlement of the expenses in connection with the Fingal Water Bill of last Session. As you will observe, the amount in the body of the cheque, One Pound Seventeen Shillings, is correct, but the figures will have to be corrected and initialled. Will you very kindly do this and return the cheque to me?

Yours very truly,

Clerk of the House.

the first time in the history of the world, the whole of the human race has been gathered together in one place, and that is the city of Rome.

Now, if you will look at the map of Italy, you will see that Rome is situated in the middle of the country, and that it is surrounded by mountains on all sides. This makes it a very difficult place to attack, because any army that comes from the north or the south must pass through the mountains, which are very steep and rocky. Also, there are many rivers and streams that flow through the mountains, making it even more difficult to cross them.

But, despite these difficulties, the Romans were able to build a great empire that lasted for many centuries. They did this by using their excellent engineering skills to build roads and bridges that connected all parts of their empire. They also had a strong military force that was able to defend their borders and expand their empire.

One of the most important things about the Romans is their way of life. They believed in hard work and discipline, and they lived simple lives. They also had a strong sense of justice and fairness, which is why they were able to rule over such a large and diverse population.

Today, we can still see the influence of the Romans in many places around the world. Their engineering skills are still used today, and their way of life continues to inspire people all over the globe.

Memorandum re payment of Members serving on Select Committees.

In the Session of 1910-11 Members of the Committee on the Huon Railway were paid their expenses and those on the Committee on the Zeehan Smelters were paid their personal expenses at the rate of £1 a day. These were the first cases of payment.

From 1911 to 1919-20 inclusive Members were paid when absent from home only, £1 a day.

In the Session of 1920-21 for the first time Members of the Select Committee on the Nike Mining Company were paid £1:1:0 a sitting, or if absent from home, £1:5:0 a day. This is still the present practice.

P. L. R. T. E. W. A.

Dear Sirs,

YOUR Letter of 6th inst. to hand this morning. You state that you are surprised at not receiving an order from us for your Bibliography of Western Australia. We all have our surprises, but I confess my very latest surprise is the tone and import of your letter. You are apparently a believer in the truth of the adage saying "Sweet are the uses of advertisement". The Old Book's advice to young men is "Let another man praise thee, and not thine own mouth". This advice appears to me to be more fitting and comes il faut.

The matter of getting a copy of the Bibliography will be considered by the Library Committee shortly, and if agreed to will be procured through a local bookseller, as is our custom.

Yours truly,

On the 12th September the Hon.

chosen to fill the place in the Senate rendered
vacant by the death of Senator Thomas J. K. Buckley.
I am writing now to inquire whether you will pay
him as a Senator for the 12th or whether I should
pay him as a Member of the House of Assembly for
that day. My object is, if it is in accord with
your practice, to give Mr. Hayes the benefit of the
higher pay at the higher salary. I shall be glad
if you would very kindly let me know by return post.

1. The first stage of the process is the initial screening of the data. This involves identifying the most relevant and useful information from the raw data set.

2. The second stage is the feature selection process. This involves selecting the most important features or variables that contribute to the outcome. This can be done using various statistical methods such as correlation analysis, principal component analysis, and discriminant analysis.

3. The third stage is the model building process. This involves developing a mathematical model that can predict the outcome based on the selected features. This can be done using various machine learning algorithms such as linear regression, logistic regression, decision trees, random forests, and neural networks.

4. The fourth stage is the model evaluation process. This involves evaluating the performance of the model using various metrics such as accuracy, precision, recall, F1 score, and AUC-ROC. This helps to determine the effectiveness of the model and identify areas for improvement.

5. The fifth stage is the deployment and monitoring process. This involves deploying the model into a production environment and monitoring its performance over time. This helps to ensure that the model remains effective and accurate even as new data is introduced.

Dear Sir,

YOUR NOTE OF THE 11th INST. TO ME, asking me to apologize for my letter of the 1st instant, in which I say that

your library has no copy of "A Bibliography of

"Wesley and His Church."

I have now seen both "Wesley and His Church" and

"Wesley and His Church, Part II," and I am sorry to say that

the former is not available. The latter is not available

either, though it is represented as having been published

in 1875. It would not be appropriate to be so

specific in a letter from the "Wesley Library," and I feel

that it would be better to leave the subject to another

library. I have, however, written to you again to let you know

another library, and you dropped me a postscript note on the

subject. I have never done what I could, but an official letter

of challenge I resent, and it was just as well to let you

in no doubt of the fact.

Further, apart from your letter and yours in the

letter of 11th inst. of things officially, as well as privately

surprised at not receiving an order from you, I have informed

informed myself of the contents of your letter to Mr. Grant

written to Mr. Grant covering a copy of your letter, and I have

decided to refrain from taking this action. But I might

right damage you if I thus expected you to do the same

and contented myself by writing you after you had received

my letter. You will therefore I trust understand perfectly the

insult as on your part, but as you are apologizing very

cordially, I will withdraw my letter.

Library of Parliament,

24th October, 1923.

The Government Printer,
Brisbane, QUEENSLAND.

My dear Sir,

I have to acknowledge the receipt of your Memorandum of 12th inst. in reply to my letter of 1st inst. in reference to supplying another copy of the Acts of Parliament of Queensland for 1922 for the Library, in place of the copy you sent in March, which has apparently miscarried.

I will not attempt to conceal from you the fact that I was greatly surprised, and I may add disappointed, to receive your communication. In my former letter I acquainted you that the volume you had sent had not come to hand, and requested you to supply another copy, and now to be billed in this blunt and somewhat peremptory manner is a course which, I confess, I have not been used to. I would remind you that I have had nothing to do with the miscarriage of the volume you sent, that it is not for me personally but for the Library of the Parliament of a Sister State in the Commonwealth, and that we reciprocate by sending our Acts of Parliament to the Library of Parliament of Queensland.

I desire therefore to afford you an opportunity of arriving at a considered decision in the matter, and in the meantime I will retain the volume you have just sent me. I trust, upon reflection, that you will withdraw your Memorandum and see your way to make good the lost volume.

Yours very truly,

G. J. G.
Clerk of the House of Assembly
and Librarian to Parliament.

T. Lonsdale Webster, Esquire, C.B.,
Clerk of the House of Commons,

L O N D O N .

Sir,

I have to acknowledge the receipt of your letter of 29th September last, in which, at my request, you very kindly favour me with the benefit of your Opinion on the questions referred to in my letter of 30th July.

I desire to thank you very sincerely for the trouble you have taken in the matter, and I am gratified that you substantially support my views. In view of your authoritative Opinion, I trust that our usage as to Crown recommendation will now be settled.

I note the fact you point out, which I confess escaped me, that the Language of Section Fourteen of the Act 15 & 16 Vict. Cap 59 confines the prohibition of the Council to the stage of passing the Bill. I desire specially to thank you for pointing this out, as the Administrator relied greatly on their Authority.

I am, Sir,

Your obedient servant,

Clerk of the House.

CLERK OF THE HOUSE.

To the Honourable

The Minister for Lands and Works.

House of Assembly,

Hobart,

November 28, 1923.

Hon. Jas. G. Newton, M.R.A.,

LAUNCESTON.

Dear Mr. Newton,

Your letter of 26th instant to hand this morning. You ~~want~~ to submit the copy of the Launceston Grammar School Bill to the Attorney-General and have the Bill printed.

I would very willingly do so, but I have not got the Draft Bill. I have the Guarantee of Messrs Ritchie & Parker, Alfred Green & Co., and the Petition but not the Bill.

You will very likely be coming to Hobart to attend the private meeting of Members of both Houses on Friday, but I thought I had better let you know that I had not received the Bill, so that you may inquire whether Mr. Tasman Shields has it.

By the way, while writing, I may mention that I have not got the Treasury receipt for the £100 paid into the Treasury on account of the Bill. Under the Standing Orders you are only required to exhibit the Under-Treasurer's receipt to me, but the practice is to file the receipt in my office with the other papers.

With kind regards and hoping to see you on Friday in your usual good form,

Yours very truly,

HONORABLE MEMBER,

Senate, December 25, 1892.

Hon. Jas. G. Blaine, Esq.,

SECRETARY OF STATE.

Dear Mr. Secretary,

As requested I am now sending you three
true copies of the Legislative Bill of England concerning
Mining Bill (Franchise). You will please have them
copy, and an exact copy of the Act of Parliament
by which it was passed returned to me when you please, so that I
may get the copy you wanted off an earlier law, and
for distribution to members whenever the Bill is introduced
in the House.

With kind regards,

Yours truly,

Copies of the House.

A. E. D. R. S.

Dear Sir,

I have the honour to inform you of your
request at letter last, to be allowed a sufficient number
to the Leader of the Committee in the House.

In reply I beg to inform you that the number
of the Committee does not exceed two or three and
that it is proposed to make them of three or four members.
Please see the following suggestion for the use of the
Leader of the Financial and Commercial Committee, but
the number may be less than the above mentioned or larger, upon
these conditions. No member are proposed and to be
left out of the Committee, so, as their names, I enclose
merely an ordinary Member.

I remain faithfully,

Chair of the House

House of Assembly,

Hobart, December 7, 1923.

The Honourable

The Premier,

Sir,

In reply to your letter of 28th ult., on the subject of effecting possible economies in Contingency expenditure in connection with the House, I have the honour to point out that it is difficult effectively to control this expenditure, as it is almost wholly incurred by or for the service of Honourable members of the House, such as Catering, Salient Committees, Sessional Messenger's Salary, and so on. However, every endeavour will be made on my part and on the part of the other Officers of the House to minimise such expenditure.

I have the honour to be,

Sir,

Your obedient Servant,

Clerk of the House.

House of Assembly,

Hobart, December 21, 1824.

The Speaker

Sir Charles Lort, M.P.

Mr.

I have the duty to call your attention to the
subject of late fire which occurred in connection
with the House and the deficiency of the
water supply. I am informed that the supply
of water is totally inadequate and, if this is
the case, of a fire, the result might be
very serious. I have the honour to recommend
that this matter should be reported upon by the
public authorities.

I have the honour to be,

Yours,

John Chidiock L'Estrange,

Secretary of the House.
