

Moonah – Netball Facilities Upgrades and Investment

Ms BURNET question to MINISTER for SPORT and EVENTS

My question is from Jordan, my constituent in Moonah:

“I play netball and there are not enough courts available to accommodate the number of games and teams. The other issue is wear and tear. Outdoor courts such as at Bayswater Road require a more even surface to play safely. The Creek Road facility should be upgraded to host national games and to be a worthy home of netball in southern Tasmania. When is the government going to recognise the needs of women in sport, invest in netball in particular and help fund and upgrade netball facilities?”
