

## Victoria Pass Repairs

### **Ms DOW question to MINISTER for INFRASTRUCTURE and TRANSPORT**

Helen asks the Minister why there hasn't been maintenance and repairs undertaken on Victoria Pass, which is 30 kilometres from Queenstown. I understand that Helen has written to various ministers over various years about the safety improvements that are required on that stretch of road and there's been nothing done to improve signage, warnings or any repairs been undertaken and Helen would like to see some repairs undertaken.
