

## Housing Australia Future Fund

### **Ms BROWN question to MINISTER for HOUSING and PLANNING**

My question is from Brett, from Kingston. Brett noticed the Minister attempting to claim credit in yesterday's *Mercury* for a housing project funded through the federal Labor government's Housing Australia Future Fund. Brett would like to know: does the Tasmanian Government support the Housing Australia Future Fund? And is it concerned that the Coalition policy is to abolish it, the impact of which would reduce the amount of affordable housing built in Tasmania?
