* The decrease in Glenorchy is to be accounted for by two Parishes having been taken from it and added to Hobart Town since 1857.

† The decrease in Selby is attributable to the same cause, two having been added to Launceston.

N.B.—The following "Circular" was sent to all the Medical Practitioners in Tasmania:—

Colonial Secretary's Office, 12th January, 1864.

SIR,—In order to enable the Government to obtain complete and satisfactory statistical information respecting the extent to which Vaccination is carried out in the various Districts of the Colony, it is a matter of necessity that they should receive accurate accounts of the number of private Vaccinations performed by each professional gentleman; and I should esteem it a favour if, in order to assist the Government in arriving at just conclusions, you would have the goodness to fill up one of the enclosed Forms for the period commencing 2nd November and ending 31st December, 1863, and similarly for each subsequent quarter during 1864.

I have the honor to be, Sir,

Your very obedient Servant,

(Signed) FRANK C. TRIBE, *Chief Clerk, for the Colonial Secretary.*

Many of the above Returns were only for one or two quarters. 33 of the Medical Practitioners made no response to the Circular, and yet, from the Lymph supplied by me, I must suppose that more private vaccinations than those returned in the above Table were performed.

E. SWARBRECK HALL, *Superintendent of Public Vaccinations for Tasmania.*

TASMANIA from the 1st January to 31st December, 1864.

WITH					TOTAL POPULATION BY CENSUS APRIL, 1861.	BIRTHS REGIS- TERED.		REMARKS.
5	6	7	8	Total Families.		In all 1863.	In all 1864.	
6	3	..	..	54	2794 Cumberland, including Hamilton.	43	36	N.B.—After the 30th September all public vaccination ceased throughout the Island, except in Launceston and Hobart. Vaccine Lymph was obtained from Mr. Ceely, of Aylesbury, in June, and subsequently from the Royal Vaccine Institution, London, (through Dr. Wigan.) Both were propagated successfully, but were in no respect superior to that already in use by me, and furnished, on application, to the Public Vaccinators and private Medical Practitioners.

..	..	..	..	..	Ditto	15	14	
..	..	..	..	..	See Kingbo- rough	21	13	The Registration District of Launceston embraces the two Electoral Districts of Launceston and Selby. In Dr. Maddox's last quarter's Return he states, "They are unsatisfactory as regards numbers. It only wants one case to be brought forward (for violation of the existing Vaccination Act) to show people that they must submit to the Law. If it were not for my private patients I could not have kept up the supply of Lymph." Similar statements have been received from many other of the Public Vaccinators. Though gratuitous public Vaccination had been in operation two months previous to the commencement of 1864, and every means taken to apprise parents, both by personal notices as well as public advertisements, that the existing Vaccination Act requires all children to be vaccinated before attaining the age of six months, under a pecuniary penalty for non-compliance, yet this Table shows how few under six months old have been submitted for vaccination out of the number of registered births. The number certainly does not amount to more than the difference between actual births and those duly registered. Here, as everywhere else, the result proves that, notwithstanding the facilities offered for vaccination without cost, voluntary compliance with the Law cannot be depended upon; and that, to preserve the community from the possible extensively destructive invasion of Small-pox, compulsory measures to enforce Vaccination must be resorted to. There is evidence to show that this disregard of the public welfare is by no means confined to the illiterate or lowest classes of the people. In the first two months of Public gratuitous Vaccination, (November and December, 1863), more than nine-tenths of the Vaccinations, (2829), were above the age of six months. The proportion in this Return for 1864 is even much greater than that.
