MAIN LINE RAILWAY.

TREASURY CORRESPONDENCE.

GUARANTEED INTEREST.

*Tasmanian Main Line Railway Company, Limited,
General Manager's Office, Hobart, 14th January, 1881.*

SIR,

I HAVE the honor to forward you herewith an Abstract of the Receipts and Expenditure on Traffic Account of the Tasmanian Main Line Railway Company, Limited, so far as it can be prepared in this Colony, for the quarter ending the 31st December, 1880, which, you will notice, shows a slight loss to the Company.

It is, however, satisfactory to find that the traffic receipts have considerably increased as compared with the corresponding quarter of any previous year, and that the receipts and expenses of such quarter show a more favourable balance than hitherto,—the gross receipts in 1880 amounting to £13,378 7s. 4d.; in 1879 to £12,112 11s. 8d.; and in 1878 to £11,724 1s. 2d.: whereas the expenses were, respectively, £13,381 12s. in 1880; £13,333 9s. 8d. in 1879; and £13,549 10s. 1d. in 1878.

The full interest guaranteed by the Government being therefore payable, I have the honor to enclose an Account for the same, amounting to Eight thousand one hundred and twenty-five Pounds, which is, of course, rendered without prejudice to the existing claims of the Tasmanian Main Line Railway Company, Limited, against the Government.

I have, &c.

The Hon. W. R. GIBLIN, Colonial Treasurer.

General Manager's Office, Hobart, 14th April, 1881.

SIR,

I HAVE the honor to forward you herewith an Abstract of the Traffic Receipts and Expenditure of the Tasmanian Main Line Railway Company, Limited, so far as it can be made up in this Colony, for the three months ending the 31st March last.

You will notice that the Receipts show a satisfactory increase, which is doubtless due to the present activity in mining operations, and to the passenger traffic induced by the Melbourne Exhibition.

Such increase cannot, therefore, be considered permanent.

On the other hand, the expenses have been exceptionally heavy, owing to the necessary maintenance of the Southern end of the Line, which, having sustained a large traffic during the last six years, now requires a considerable outlay thereon to keep it in an efficient state. The renewals being made with steel rails, and much heavier sleepers than the contract required, it follows that this portion of the Line is in better condition than it has previously been.

The accounts now presented show a gross receipt from all sources of £16,843 6s. 9d., and a maintenance expenditure of £16,858 1s. 6d.; making a loss of £14 14s. 9d. on the quarter's working.

The full guaranteed interest is therefore due to the Company, and I enclose an account therefor, amounting to Eight thousand one hundred and twenty-five Pounds, (£8125), which I have to request may be paid to the Company in accordance with the conditions of their Contract.

This claim is presented without prejudice to the questions in dispute between the Government and the Company, which the Company are most anxious to have adjusted by mutual arrangement, or failing this, by a reference to the Supreme Court.

I have, &c.

SIR,

I HAVE the honor to forward you herewith an Abstract of the Traffic Receipts and Expenditure of the Tasmanian Main Line Railway Company, Limited, so far as it can be made up in this Colony, for the quarter ending the 30th June last.

I trust that you will be gratified in observing that my promise to endeavour to equalise the Receipts and Expenses, rather than generally show an absolute loss on Working Account, is being gradually fulfilled.

It will also, I hope, be satisfactory to notice that the Traffic Receipts still continue to show an increase; and although the Expenses are somewhat higher, this is solely due to the renewal of the Permanent Way with material of a more costly and durable class than originally contracted for, and also to the provision of additional but necessary accommodation for Passenger and Live Stock Traffic at several of the stations.

Since the result of the quarter's working shows a loss to the Company, the full amount of the guaranteed interest becomes due; I therefore enclose an account for the same, amounting to Eight thousand one hundred and twenty-five Pounds, which I have to request that you will direct the payment of in due course.

In presenting these accounts it is necessary that I should again refer to their being rendered without prejudice to the existing claims of the Tasmanian Main Line Railway Company, Limited, against the Government, which the Company have long been most anxious to have adjusted.

You are aware that the suits of the Company against the Government were suspended to allow of the opportunity of settling them by mutual arrangement, which proceeding the Company have not ceased to urge upon the Government for many months past. I trust that you will soon be able to give this matter attention, because otherwise the Company, in recommencing the legal proceedings, will have had their interests seriously affected by the delay, although, so far as they are concerned, it has been entirely unavoidable.

I have, &c.

MAIL SERVICE.

*Tasmanian Main Line Railway Company, Limited,
General Manager's Office, Hobart Town, 8th December, 1880.*

SIR,

You are aware that the Tasmanian Main Line Railway Company, Limited, have, since the 1st May, 1879, accepted the monthly payments made to them for the carriage of Mails as being on account only, and subject to revision when the amount had been fixed by arbitration, in the manner provided by the Contract.

I have not pressed for an arbitration since the date of the expiration of the last award until this time, because of the great expense that would attend an arbitration conducted simply to ascertain the amount of this payment only; but rather waited until the amount due as Tolls to the Government for the use of a portion of the Launceston and Western Railway should also be arbitrated, in order that both decisions might be obtained at the same time, and at reduced expense.

The Manager of the Launceston and Western Railway and myself having agreed to an immediate arbitration respecting these Tolls, I have to request that you will concur in the remuneration to the Company for the carriage of Mails being fixed at the same time; and would propose that it should be settled for a term of years, say from seven to ten years, in order to avoid the trouble and expense of frequent arbitrations.

It would be easy to insert in the Agreement for the Reference that the Service could be altered from time to time to meet your requirements, and the corresponding remuneration be settled either by mutual agreement or by reference to some one Arbitrator in whom we have confidence.

Will you kindly let me know if you will prepare the Agreement for the Reference, or whether you would wish the Company's Solicitors to do so; and, in that case, whether you would wish any special terms inserted.

I should be glad to hear from you on this matter at your very earliest convenience.

I am, &c.

A. C. DOUGLAS, *Esq.*, Deputy Postmaster-General.

C. H. GRANT.

SUBMITTED to the Honorable the Colonial Treasurer.

A. C. DOUGLAS, *Secretary*.

General Post Office, 8th December, 1880.

10th December, 1880.

SIR,

YOUR letter of the 8th instant, addressed to the Secretary to the Post Office, has been sent on to this office to be dealt with, as you were doubtless aware it would have to be.

On the part of the Company you request that the amount to be paid by the Government for the carriage of the Mails between Hobart and Launceston may be submitted to arbitration, in order to determine what is a fair sum to be charged for the service performed by your Company.

The Government have no objection to the matter being dealt with by the gentlemen appointed to arbitrate on the question of Tolls; and the Solicitor-General will be instructed to that effect, and will provide that the Arbitrators in the case of the Tolls shall have power to dispose of the question of remuneration to be paid by the Treasury for the carriage of the Mails referred to.

The Solicitor-General will be requested to provide for the settlement of the remuneration for a period of five years, in the Agreement to be prepared in his office.

I have, &c.

W. R. GIBLIN, *Colonial Treasurer*.

C. H. GRANT, *Esq.*, Manager T. M. L. R. Co., Hobart.

MR. Grant's letter of the 8th instant, and reply thereto assenting on the part of the Government to the amount to be paid for the carriage of Mails between Hobart and Launceston by the Tasmanian Main Line Railway Company being determined by arbitration, are forwarded herewith to the Secretary to the Post Office, who will be good enough to confer with the Solicitor-General, and arrange with him that in the Agreement as to Tolls to be paid for running over the Launceston and Western Railway power shall be taken to deal with the question of the charge to be made for the Mail Service referred to, for a period not exceeding five years, by the same gentlemen appointed to decide the question of Tolls.

The Secretary General Post Office, Hobart.

W. R. GIBLIN, *Colonial Treasurer.*

A. C. DOUGLAS, *Secretary.*

Tasmanian Main Line Railway Company, Limited,
General Manager's Office, Hobart Town, 13th December, 1880.

SIR,

I HAVE the honor to acknowledge the receipt of your letter of the 10th instant, and beg to express my regret if I have been guilty of a breach of etiquette in addressing the Secretary of the Post Office instead of yourself. The reason for my doing so was that the correspondence respecting the Mail Subsidy has hitherto been carried on direct with him.

I am greatly obliged by your forwarding me the consent of the Government to an arbitration being held to determine what should be a fair sum payable by the Government to the Tasmanian Main Line Railway Company, Limited, for the Mail Service; and am pleased that you consent to its being assessed by the same Arbitrators who will decide the question of Tolls payable for the use of the Launceston and Western Railway.

I note that you will instruct the Solicitor-General in the matter, and have kindly consented to extend the period covered by the award over five years, which I presume will be from the 1st day of January, 1881, with a correction of the accounts up to that date.

The Hon. W. R. GIBLIN,
Colonial Treasurer and Postmaster-General.

I have, &c.

AUDITOR'S REPORT.

COLONIAL Auditor's Report on the Accounts of the Tasmanian Main Line Railway for the Quarterly periods ending respectively 30th September and 31st December, 1880.

Audit Office, Hobart, 11th March, 1881.

SIR,

In accordance with the provisions of the Tasmanian Main Line Contract, the books and accounts of the Company for the quarters ending respectively 30th September, 1880, and 31st December, 1880, have been duly examined by this Department; and, with respect to the same, I have now the honor to submit the following report:—

Accounts for Quarterly periods ending 30th September to 31st December, 1880. (Table A.)

The accounts for the periods mentioned above, as usual, are correctly stated, and are fairly apportioned under the various heads of revenue and expenditure; and, with the exception of the estimated "London Office Expenses," and certain adjustment items hereafter fully referred to, are supported by properly accredited vouchers.

The estimated London Office Expenses still remaining to be adjusted are as follows:—

	£
Four Quarters ending 31st December, 1878	2000
Ditto 31st December, 1879	3200
Ditto 31st December, 1880	3200
TOTAL	£8400

For the estimated sums £2000 (1878), and £3200 (1879), the London office of the Company has submitted accounts purporting to be the actual expenditure for the respective periods, viz. £3457 10s. 3d. (1878), and £3116 5s. 0d. (1879).

The difference, £1457 10s. 3d., was taken to account by the Company in the Quarter ending 31st December, 1879, but was not included in the abstract prepared by Mr. Johnston, because, at the time, the item was unsupported by the necessary vouchers. Upon the application of Mr. C. H. Grant, the Manager of the Railway, the London office has now submitted certain statements and vouchers for the years 1878 and 1879, as follows; viz.—

	1878.			1879.		
	£	s.	d.	£	s.	d.
1. Estimated "London Office Expenses" already taken to account.....	2000	0	0	3200	0	0
2. Statement purporting to be the actual Expenditure..	3457	10	3	3116	5	0
3. Vouchers supporting Item 2	3604	3	3	3223	8	9
4. Summary accompanying the same	3616	13	3	3223	8	9

It will be observed that there are certain disagreements between items 2, 3, and 4, which, probably owing to hasty preparation, had not been discovered and corrected prior to despatch from London. A reconciliation is necessary before the proposed adjustments can be acknowledged by this office.

There are also three items for Petty Expenses included in these accounts, amounting in all to £292 13s. 6d., vouched for by the Secretary merely as "Petty Expenses" "as shown by the books of the Company." Further particulars or sub-vouchers are required. Until these matters are satisfactorily disposed of the items for adjustment had better rest in suspense.

It will be noticed by a reference to Tables A. & B. that all the heads of Expenditure, excepting Maintenance of Permanent Way, maintain a remarkably steady average for the various quarterly periods. In each case where the Permanent Way Department shows a striking contrast with a similar period, the extreme difference is principally due to an unequal distribution of the charges made in respect of the immediate purchase of the costly or long-life materials. This has been pointed out in a former report, and perhaps cannot altogether be obviated. Of course its chief objection is that it renders it difficult to arrive at an approximate of the actual cost of maintaining the Railway within any one period.

The quarterly periods ending respectively 30th September and 31st December, 1880, in each case show a loss: that for the former being £2282 12s. 6d., and for the latter £3 4s. 8d. The full amount of guarantee for each quarter may therefore be claimed by the Company.

Unadjusted Guarantee Items.—Table B.

Table B. has been prepared to show in a connected and convenient order the following particulars in detail for the several quarterly periods from 1st November, 1876, to 31st December, 1880, inclusive; viz.—

1. Mileage.
2. Traffic Receipts.
3. Working Expenses.
4. Balance Profit or Loss
5. Guarantee due, according to the opinion of the Law Officers of the Crown.
6. Guarantee advanced in respect of the same.

During the period stated it appears that the Government has advanced to the Company the following; viz.—

	£	s.	d.
On account of Guarantee proper	133,291	13	4
Interest on certain deferred payments	3128	2	6
TOTAL.....	£136,419	15	10

Leaving out of the question the adjustment of London Office expenses held in suspense, there remains the differences between the Government and the Tasmanian Main Line Railway Company in respect of profits connected with the following quarterly periods, to which special attention has been directed in former Reports ; viz.—

	£	s.	d.
Balance profit, quarter ending 31st March, 1878	2165	8	8
Ditto, 30th June, 1879	126	1	7
Ditto, 31st March, 1880	1844	4	5
Excess of Interest on deferred payments in respect of Guarantee for quarter ending 31st March, 1878 ; viz., 6 months at 6 per cent. on £2165 8s. 8d.	64	19	2
TOTAL.....	£4200	13	10

The total amount of Guarantee, and Interest on deferred payments, claimed by the Company for the particular period referred to amounts to £138,419 15s. 10d. The Government, however, claim the balance profit of particular quarterly periods as abatements of liability, and reduce the amount accordingly to £134,219 2s. The amount already advanced by the Government in respect of Guarantee, without prejudice to existing differences of opinion, exceeds the latter sum by £2200 13s. 10d.

The total Traffic Receipts to 31st December, 1880, amount to £189,920 4s. 3d. Total Working Expenses, including suspense items, £215,589 5s. 9d. Total loss on working, £25,669 1s. 6d.

I have to state, in conclusion, that every facility was given by the Manager and the Accountant of the Company to this Department while engaged in the examination of the Accounts.

I have, &c.

W. LOVETT, *Colonial Auditor.*

The Hon. the Colonial Secretary.

W. LOVETT, Colonial Auditor.
10th March, 1881.

Audit Office, 1st April, 1881.

SIR,

I HAVE now the honor to report that I have received the accompanying letter from Mr. Grant with respect to the suspense adjustment items,—£3457 10s. 3d. for 1878, and £3116 5s. for 1879,—referred to in my last Report upon the Tasmanian Main Line Railway Company's accounts.

The reconciliation statement enclosed, as attested by Mr. Ellis, Accountant, has been examined by this office, and is now certified to be satisfactory.

The included items will have the effect of modifying the figures of former abstracts as follows :—

	<i>Unadjusted items as published.</i>			<i>Amended items in accordance with authorised adjustments.</i>

These amended adjustment items are already included in the closing paragraphs of last report, although they have not been formally included in the accompanying tables.

I have, &c.

General Manager's Office, Hobart, 18th March, 1881.*

SIR,

I DULY received your letter of the 14th instant, in which you desire an explanation in regard to the adjustment items for London Office Expenses for the years 1878 and 1879 in the Company's accounts as placed before you.

By the last mail I have received from the Secretary (in reply to a request previously sent) a statement which reconciles the discrepancies you allude to; and you will find in the enclosed paper—prepared by the Accountant—a copy of the particulars you desire. The originals are at this office, and at your disposal.

I agree with you in considering that it is desirable to specify in greater detail the items for petty expenses, which together amount to £294 13s. 6d. in the years 1878 and 1879; and have represented this to the Secretary, who I have no doubt will furnish all particulars.

The Chairman has several times written to me requesting that I will procure from the London Office every particular you require, since there is not the slightest desire to hide one single item of the Company's expenses from your criticism, and I shall always be happy to obtain any supplementary information you wish supplied.

I have, &c.

C. H. GRANT.

I AM enabled by an Explanatory Statement from the Secretary, received since last visit, to submit the following reconciliation of the supporting Vouchers (your set of figures No. 3) with the statement of actual Expenditure (your set of figures No. 2), and which will, I trust, be satisfactory :—

The period of 1 year of voucher for £25 is not the same period for amount entered, £37 10s., and as the amount has to be estimated when there is any alteration in this Tax, a difference will ensue, but be corrected year by year.

We will also write the Secretary for the sub-vouchers you require for £292 13s. 6d., petty expenses, as shown by the books of the Company; but would remind you that this entry and amount is principally for postages, stamps on bills, cheque books, and such like items, for which receipts or vouchers are not given, and for which the Secretary will have to give his own voucher as expending the amounts.

TELEPHONES.

Tasmanian Main Line Railway Company, Limited,
General Manager's Office, Hobart, 30th June, 1881.

SIR,

I HAVE the honor to address you, at the instance of the Collector of Customs, respecting a claim made by him for duty on Telephonic Apparatus imported from Melbourne per the last trip of the *Te Anau*, and which was exclusively intended to be used as a part of the telegraph system of this railway, and is therefore a necessity to its equipment and maintenance.

I am at a loss to understand the claim of the Collector, since he bases it on the words "Stationery or similar articles" not being included in the exemption from duty granted to materials imported for railways and tramways.

A greater dissimilarity than exists between Stationery and Telephonic Apparatus could scarcely be imagined, since the latter does not include one article in which paper or a similar manufacture is used, but consists wholly of wood and metals.

I shall therefore feel obliged if you will, after consideration of the matter, instruct Mr. Watt that the apparatus in question should be exempt from duty.

I have, &c.

C. H. GRANT.

The Hon. W. R. GIBLIN, Premier and Colonial Treasurer.

REFERRED to the Collector of Customs for his observations. How are Telegraphic Instruments imported for the railway treated?

W. R. GIBLIN.
1. 7. 81.

I CERTAINLY have some doubt whether the Telephonic Apparatus can come as exempt from duty under the wording of the Table of Exemptions, more particularly as the line has been worked for some years with a perfect system of Telegraph still in operation, and was passed free of duty.

T. T. WATT, *Collector.*
1. 7. 81.

THE Telephone is a new invention, but cannot be distinguished on principle from Telegraphic Apparatus, and should be passed in the same way free of duty. The doubt can be cleared up in any future legislation.

W. R. GIBLIN.
2. 7. 81.

MANAGER informed in accordance with this Minute.—2. 7. 81.

*Tasmanian Main Line Railway Company, Limited,
General Manager's Office, Hobart, 4th July, 1881.*

SIR,

I HAVE the honor to acknowledge the receipt of your letter of the 2nd instant, and to thank you for the kind consideration you have given to my representation as to the nature of Telephonic Instruments, which should preclude their being considered as "Stationery or similar articles" in the exception of the exemption of Railway Plant from Customs Duty, and for your information that you have instructed the Collector of Customs that they may be passed free of duty.

I have, &c.

C. H. GRANT.

The Hon. W. R. GIBLIN, Premier and Colonial Treasurer.

MAIN LINE RAILWAY.

TREASURY CORRESPONDENCE.

FREE PASSES TO MEMBERS OF PARLIAMENT AND VISITORS.

Treasury, 31st August, 1881.

SIR,

As the question of Passes to Members of Parliament and distinguished Visitors has been again brought under the notice of the Legislature, and the Government are desirous of dealing with the matter, I have the honor to request that you will be good enough to inform me at what sum for each Ticket the Tasmanian Main Line Railway Company, Limited, will be willing to issue Free Passes,—

1st. To Members of Parliament, available only during Session, for three days before and after.

2nd. To Members of Parliament, available during the whole year.

3rd. To distinguished Visitors from Europe or the Australian Colonies, when the Government may desire to pay the compliment of a Free Pass, available during their visit.

As you are now in a better position than heretofore to estimate with an approximate correctness what is the fair money equivalent for a Member's Pass, I should hope that a sum may be now named that may enable me to submit proposals to Parliament for a fair settlement of this matter. The Government are fully sensible of the very liberal way in which your Company have treated distinguished Visitors and others; but they are strongly of opinion that they should be in a position, on the part of the Colony, to reciprocate the courtesies shown in other Colonies to gentlemen holding public positions in Tasmania, when visiting there.

I have, &c.

W. R. GIBLIN.

C. H. GRANT, Esq., *Manager T. M. L. R. Company,*
Hobart.

Tasmanian Main Line Railway Company, Limited,
General Manager's Office, Hobart, 1st September, 1881.

SIR,

I HAVE the honor to acknowledge the receipt of your letter of the 31st ultimo, in which you express the desire of the Government to consider the question of their issue of Passes to the Members of the Legislature, and to distinguished Visitors from Europe and the neighbouring Colonies; and require me to state the terms on which the Tasmanian Main Line Company would issue such Passes,—

1st. To Members of Parliament, such Passes to be available only during the Session, and for three days before and after.

2nd. To Members of Parliament, available during the whole of the year.

On this question I would remark that the exact data obtained since I was last called upon for an estimate proves that the Members do not make so much use of the line as I anticipated; and although in some cases the fares of Members travelling to and from the North (strictly on Parliamentary business) amounted to as much as Twenty-eight Pounds ten shillings each per annum, the average use of such Passes is very much less.

On the assumption that each of the Members of the Legislature were furnished with Free Passes, I consider that the rate of Six Pounds five shillings each, or Three hundred Pounds per

Session, would be a fair amount; but this rate would not apply, except to the whole of the Members; and were it optional to pay for a reduced number, I do not think that less than double the above amount, or Twelve Pounds ten shillings each, should be charged.

The amount of travelling out of Session is so exceedingly small that the sum of Seven Pounds each, or Three hundred and thirty-six Pounds per annum, would apply to the whole of the Parliament; but if to a portion only, Fourteen Pounds each per annum should be charged.

3rd. It is difficult to estimate the value of Passes for distinguished Visitors, for many of whom special preparations entailing expense upon the Company have to be made; but as an experiment, for the first year the Company would be willing to issue such tickets at the price of a single journey only, being Three Guineas, which is the lowest minimum sum that would be payable under any circumstances. As, however, such tickets can never be issued at a less rate, I would ask that this minimum sum may be subject to revision at the end of the first 12 months should I be able to show that the Railway Company were unfairly prejudiced by the lowness of the rate.

In conclusion, I have to express my thanks for the courteous manner in which you allude to the conduct of the Company hitherto in respect to the travelling of Members of Parliament and distinguished Visitors; and beg to assure you that the resources of the Line are at all times freely at the disposal of the Government and of the Parliament, whether or not it should be considered advisable to offer any remuneration for such use.

I have, &c.

C. H. GRANT, *General Manager.*

The Hon. W. R. GIBLIN,
Premier and Colonial Treasurer.

Treasury, Hobart, 8th September, 1881.

SIR,

I HAVE the honor to acknowledge receipt of your letter of the 1st instant, in reply to enquiries made by me as to the terms upon which the Main Line Railway Company would undertake to supply Free Passes to Members of the Legislature and such Visitors from other parts as the Government might desire to pay the compliment of issuing a Free Pass to.

I propose to lay the papers before the House at an early date and take the opinion of Members upon the question; in the meantime I have to thank you for the liberal spirit in which the terms named by you have been put forward.

I have, &c.

W. R. GIBLIN.

MAIN LINE RAILWAY.

*COLONIAL AUDITOR'S Report upon the Accounts of the Tasmanian Main Line Railway
for Quarters ending 31st March and 30th June, 1881.*

Audit Office, Hobart, 6th September, 1881.

SIR,

IN accordance with the provisions of the Tasmanian Main Line Railway Contract, the books and accounts of the Company have been duly examined by this Department; and with respect to the quarterly periods ending respectively 31st March, 1881, and 30th June, 1881, I have now the honor to submit the following Report:—

Accounts for Quarterly Periods ending 31st March and 30th June, 1881. [Table A.]

The accounts for the above periods, as shown by accompanying Table A., are correctly stated and fairly apportioned under the several heads of receipts and expenditure. With the usual exception of the sum estimated for the current London office expenses (£800), the various items are supported by properly accredited vouchers.

The estimated sums which still remain to be adjusted are as follows:—

	£
London Office Expenses, 1880	3200
Ditto, quarter ending 31st March, 1881	800
Ditto, quarter ending 30th June, 1881	800
	<hr/> £4800 <hr/>

Satisfactory particulars have now been submitted for the sum of £292 13s. 6d., "petty expenses," referred to in a former Report.

Independently of the fluctuations of seasons and the growth of traffic, it will be seen, from the accompanying Table B., that the traffic receipts of each quarterly period respectively have a remarkably steady relative value within each particular year. The relative value of each quarter varies upon different railways according to the nature of the prevailing traffic.

Upon the Tasmanian Main Line Railway the relative average value of each respective quarterly period's traffic receipts, based upon the receipts of the four years ending 31st December, 1880, is as follows:—

1st quarter	30·7 per cent. of the yearly total.
2nd ditto	23·6 ditto ditto.
3rd ditto	20·1 ditto ditto.
4th ditto	25·6 ditto ditto.

100·0

This shows that the 1st and 4th quarters, taken together, exceed the average of the yearly period by 6·3 per cent. As the profit or loss of each quarter is reckoned by itself without reference to a yearly period, it follows, if working expenses did not closely coincide with the fluctuations of the quarterly receipts, that one or more quarters within a yearly period might show a profit even though the aggregate of the yearly period might show a loss. Notwithstanding the aggregate loss over the yearly period, the Government, as legally advised, could claim the profit of a particular quarter as an abatement of the guarantee. It would appear from these considerations that, so long as the yearly working expenses do not exceed the total traffic receipts by a sum equal to about 6·3 per cent. of the latter, the 1st, and probably the 4th, quarter of the year would show a profit if costly stores were charged according to actual consumption, and not, as at present, according to the date when stock stores are purchased. The expenses for stores upon railways generally averages from 21 to about 25 per cent. of the total working expenses; and it is therefore a simple matter to cause the costly stores to be charged out against sub-departments quarterly in such a way as to correspond closely with the natural fluctuations of the quarterly receipts as already shown. The Company have evidently availed themselves latterly of this privilege, as the receipts and working expenses for the last two quarters nearly correspond; the working expenses following as if guided by the natural fluctuation of the receipts: *e.g.*, the working expenses for quarter ending 31st March, 1881, were £16,858 1s. 6d., or equal to 4s. 5·63d. per train mile; while the working expenses for quarter ending 30th June, 1881, only amounted to £12,707 1s. 9d., or equal to 3s. 5·73d. per train mile. It is but right to state,

GUARANTEED INTEREST.

*Tasmanian Main Line Railway Company, Limited,
General Manager's Office, Hobart, 14th October, 1881.*

SIR,

I HAVE the honor to forward you herewith a Statement of Traffic Receipts and Expenditure, so far as it can be made up in this Colony, of the Tasmanian Main Line Railway Company, Limited, for the quarter ending the 30th September last, which, I trust, you will consider satisfactory.

The gross traffic receipts for the quarter amount to £10,534 12s., as compared with £9702 18s. 10d. last year; while the expenses are but £10,537 7s. 4d., as contrasted with £11,901 16s. 4d.; but the cost of the permanent way maintenance is this year reduced by an exceptionally large credit from the sale of old material.

Since the whole amount of the guaranteed interest is payable, I enclose an account for the same, amounting to Eight thousand one hundred and twenty-five Pounds (£8125), which is rendered without prejudice to the questions at issue between the Government and the Company; in regard to which I can only reiterate the statement made in several quarterly letters,—that the Company are most anxious to obtain a settlement at the earliest possible moment, and only delay pressing it waiting the convenience of the Government.

I have, &c.

C. H. GRANT, *General Manager.*

The Hon. W. R. GIBLIN, Premier and Colonial Treasurer.
