Notices of Motion

404 Ms Woodruff to move—That the House:—

- (1) Acknowledges that 'Interim Planning Directive 4' was issued by the Minister for Planning, Hon. Roger Jaensch MP without consultation with Local Government and the community.
- (2) Recognises the Minister for Planning's unilateral issuance of this Directive to bring forward planning standardisation is a concerning departure from the legislated process and the understanding of Tasmanians.
- (3) Notes the Local Provision Schedules' process is designed to meet local needs and objectives, but is still being undertaken by most councils.
- (4) Further acknowledges the fast-tracking of provisions contained within 'Interim Planning Directive 4' undermines the process of transferral to a state-wide planning scheme and the role of the Tasmanian Planning Commission in accessing Local Provision Schedules prior to a Council's adoption of the Tasmanian Planning Scheme.
- (5) Calls on the Minister for Planning to re-commit to the reform process, as previously iterated, and rule out further Interim Planning Directives issued without consultation and community support. (2 March 2021)

405 Ms Woodruff to move—That the House:—

- (1) Acknowledges the Liberal Government's unsustainable salmon industry growth plan will continue the negative impacts of fin-fish farming operations on the environment and the quality of life of nearby residents.
- (2) Understands communities including those from the D'Entrecasteaux Channel, Huon River, Bruny Island, Nubeena, White Beach, Port Arthur and Okehampton Bay are being affected by noise pollution and the extensive degradation of their marine waterways caused by fish farming operations.
- (3) Notes the Marine Farming Planning Review Panel's process for approving new fish farming operations has been widely criticised, including by previous 'sitting members' who have described the panel as 'inherently compromised'.
- (4) Further notes the contentious Storm Bay fish farm expansions were approved by only three Members of a nine person panel, and no Members present had environmental or biosecurity expertise.
- (5) Recognises the threat to human life posed by fish farming marine debris, and that this pollution is routinely discovered along Tasmania's coast lines.
- (6) Further understands that without independent and rigorous environmental monitoring and regulation the fin-fish farming industry will remain unsustainable and environmentally damaging.

NOTICES OF MOTION AND ORDERS

- (7) Further recognises the Environment Protection Authority (EPA) is not independent of Government direction, and is incapable of protecting the environment while it is constrained by the Minister's Statement of Expectations.
- (8) Calls on the Government to implement a moratorium on the expansion of fin-fish farming in Tasmania until such time as we have laws which protect the environment and the amenity of coastal communities. (2 March 2021)

410 The Attorney-General to move—That the House:—

- (1) Agrees that the Tasmanian Liberal Government has clearly established its law and order credentials with its extensive law reform agenda, prioritising victims and community safety.
- (2) Further agrees that the Tasmanian Liberal Government's policy to modernise Tasmania's bail laws to better reflect community expectations is an important measure to ensure community safety from high –risk offenders.
- (3) Further agrees that legislating a presumption against bail in circumstances when offenders are accused of committing a crime such as murder or serious drug trafficking, or deemed a high risk, is the right thing to do.

- (4) Notes that MWCC shamelessly bought up domain names that include the title '*kunanyi*' without consulting the Aboriginal community and since refused to do a comprehensive on-site heritage survey.
- (5) Understands MWCC's cable car proposal is just one of dozens of deals being done behind closed doors, through the Office of the Coordinator General.
- (6) Further recognises that MWCC's disregard for Aboriginal heritage has been, in large part, fostered by the Liberal Government facilitation of their divisive, destructive cable car proposal – supported by the Labor Opposition.
- (7) Agrees *kunanyi* should be protected for its outstanding natural and cultural values, not exploited by private developers. (3 March 2021)

- (2) Records this Governments continuing drive for the development of the Battery of the Nation and the crucial second interconnector, the Marinus project, which have the potential to inject up to \$5 billion into the Tasmanian economy and deliver 2,000 jobs, particularly into regional areas.
- (3) Further notes that the development stage of the first phase of the Battery of the Nation carries the commitment of the Federal Government through the Federal Underwriting New Generation Investment program.

To which the following amendment has been proposed by Dr *Woodruff*, by leaving out all words after “That the House:-” and inserting instead:

- “(1) Notes that the Liberals repeatedly talk about the Marinus project and use it as a political wedge, particularly during election periods, despite the fact that they have not put forward a financing proposal or a position on who should finance the multi-billion project.
- (2) Agrees that the project could cost in excess of current total Public Non-Financial Corporations Sector debt, and feasibility studies and prominent economists such as Saul Eslake have raised serious concerns about the viability of the project, which have not been addressed by the State Government.
- (3) Notes that the Liberals passed legislation to set wholesale electricity prices at a rate higher than projected, leading to energy bills decreasing by less than they would otherwise would have.
- (4) Notes with alarm that the Liberal Government continues to allow Entura to engage in profiteering from immoral projects overseas such as the Karuma hydro power project Uganda, which has been linked to killings and other human rights violations.
