Hi Scott,

Following on from our discussions this morning, please note the following reply to the item 3.

“Following an announce by the Health Minister on 6 September (2021) where he committed to the accelerated opening of 25 new Emergency Department beds by the end of 2022, Paediatric Outpatients Unit, which is currently located in in Lower Ground H-Block, will be relocated temporarily to Level 3 in D-Block. This move will allow the refurbishment of Lower Ground H-Block, thereby providing additional floor space to accommodate the 25 additional beds outlined in the Ministers announcement. This work is planned to commence in early 2022.

Paediatric Outpatients Unit will subsequently be required to relocate, most likely to vacated space in the Wellington Centre, by mid-2022. This will enable construction works in 3D to establish the new Paediatric Outpatient Clinic (as per details contained in the PSCPW submission). This work is scheduled to be completed July 2023.”

I hope this provides clarification to this matter.

Kind regards,

Rick
