**2. Minister, what resources were released as a result of your cutting 12 courses' last year, and where specifically were those resources reallocated to, (as I understand was agreed to between TasTAFE and Skills Tasmania at the time)**

**Were resources reallocated to increasing deed-funded activity in priority training areas, as required by Skills Tasmania, and can you provide evidence of this? (LE)**

- These resources are absorbed into the operating costs of the organisation and financial systems do not provide for specific reporting granularity.

## DEPARTMENT OF STATE GROWTH

### Output Group 3 – Skills, Training and Workforce Growth

#### 3.1 – Skills and Workforce Growth

1. In relation to the Closing the Gap initiative which provides a 20 percent loading of support/subsidy or Aboriginal students, how is the implementation of this by private providers as either fee reduction or additional support monitored?

The State Growth *Skills Tasmania Policy Statement - Subsidy Policy (What we pay for training)* sets out requirements and eligibility for learner cohort loadings.

For some learner cohorts, private Registered Training Organisations (RTOs) may experience higher costs to effectively support that cohort access and complete training. In

other cases, there is high public benefit from the Government supporting that cohort to participate and complete training. Learner cohort loadings recognise these factors and are added onto the base Government subsidy rate.

It is expected that RTOs pass-through the benefits of these loadings by reducing any fees or charges for eligible learners by a comparable amount.

The Skills Tasmania Grant Agreement and Standard Conditions Manual are the legal mechanisms by which Skills Tasmania can hold RTOs to account for delivering Tasmanian Government funded training. To meet compliance requirements, RTOs receiving a learner cohort loading must report (at minimum, quarterly) the corresponding learner cohort data element in their Australian Vocational Education and Training Management Information Statistical Standard (AVETMISS) data submission to validate the learner's eligibility for the loading. This also ensures an ability to interrogate the data to inform future policy decisions.

In addition, Skills Tasmania's TasVET Supplier Program establishes, and seeks verification through quantitative and qualitative evidence, of an RTOs ability to deliver learner outcomes and make adjustments to support learners. Aboriginal and Torres Strait Islander learners are identified as a priority equity cohort in this context.

Yours faithfully

Felix Ellis MP
