

(No. 38.)

1856.

T A S M A N I A.

P E T I T I O N.

N E W D U T I E S.

Presented by Mr. Miller and Mr. Dunn, and ordered by the House to be printed,
15 January, 1857.

*To the Honourable the Members of the House of Assembly
in Parliament assembled.*

The Petition of the undersigned Inhabitants of Tasmania.

RESPECTFULLY SHOWETH :

THAT your Petitioners have observed with the deepest regret that your Honourable House have passed the Estimates for the year 1857, amounting to the enormous sum of £347,279.

That your Petitioners cannot but consider this amount as greatly disproportioned to the requirements of the Colony, and altogether in excess of the legitimate necessities of a Government for an adult population not exceeding 35,000 souls.

That the total population of this Colony does not exceed 70,000 persons; and the expenditure, as passed by your Honourable House, amounts to a tax of £16 per head on the entire male adult population.

That your Petitioners believe that the Revenue, estimated from all sources of income amounting to £269,098, is ample for the purpose of carrying on the Government of the Colony.

That your Petitioners suggest that, instead of raising additional taxes for the purpose of meeting the expenditure, the salaries of the high Officials should be reduced to meet the altered circumstances of the Colony,—the number of Officials reduced,—and various Departments consolidated under one head; and that if, after calm and deliberate enquiry by your Honourable House into the necessary reductions, additional taxation should be necessary, your Petitioners will cheerfully pay such taxes as impose on all classes their fair proportion of the public burdens.

That your Petitioners believe the additional Ways and Means proposed by the Finance Minister on Friday, the 9th January, to your Honourable House to be unequal in their bearing on different sections of the community; oppressive to the industrial classes, while the wealthier individuals (especially landed proprietors and capitalists) escape their just share of taxation.

That your Petitioners believe that the increased Duties on Spirits, Wines, and Tobacco will encourage smuggling and illicit distillation; and that the additional amounts placed on Tea, Sugar, Coffee, and Rice (absolute necessities in this Colony) will press with undue severity on the working and industrial classes of the community, who are already sufficiently taxed.

That the proposal to levy 10s. per head on cattle and 6d. per head on sheep imported from the adjoining Colonies is impolitic—opposed to every principle of free trade—calculated to excite retaliatory measures, by a tax on timber and other exports—and unjust to the inhabitants of this Colony, by raising the price of meat when the present inability of the Colony to provide sufficient meat for its own consumption is acknowledged.

That your Petitioners are of opinion that extra Tonnage Dues and Wharfage Rates should be abolished, as interfering injuriously with the trade of the various ports of the Island.

That your Petitioners believe that the increased rate of Postage will have the effect of checking any increase in the Letters, and lead to evasion of Postage by sending Letters in parcels and by private persons.

That your Petitioners believe the Auction Duty to be unjust in its operation—falling almost entirely upon the necessitous, and those who are compelled to dispose of their property; and is in reality an *ad valorem* duty of two and a half per cent. on all goods sold by auction; and that all such legislative restrictions upon any sections of the mercantile community have been abandoned, both in the United Kingdom and adjacent Colonies, as inquisitorial and incompatible with Free Trade.

That your Petitioners believe the Transfer Duty on all Real and Personal Property and Legacy Duties to be impolitic, wrong in principle, and opening the door to numberless frauds and evasions. That, but a short time ago, an Act was passed to facilitate and cheapen the Conveyance of Real Property; and now it is proposed to tax it to such an extent that the expenses of Conveyance will be, in many instances, increased tenfold.

That your Petitioners consider the Tax on Hawkers' Licences to be excessive.

That your Petitioners believe that there are less objectionable plans of raising an additional revenue than that proposed by the Finance Minister.

And your Petitioners pray your Honourable House to take the premises into consideration, and adopt such remedial measures as you in your wisdom shall deem fit.

And your Petitioners, as in duty bound, will ever pray.

JOHN LESLIE STEWART, *Mayor of Hobart Town.*

WILLIAM L. CROWTHER, *Chairman of Committee.*
