GEORGE'S BAY TO MOORINA.

VOTE—£1000.

Portion of this line only from George's Bay to Lower Junction, Blue Tier (distance $15\frac{1}{2}$ miles), is now in course of erection under tender of Mr. W. Fitzpatrick, at £11 15s. per mile.

It is desirable to defer the construction of the remaining portion of this line until a through road or pack-track is formed, as the difficulties in keeping the line in working order, if constructed in such a dense forest through which it must pass, would be very great.

In accordance with instructions a road was laid out to these Gold Fields, and particulars taken of most necessary works, by Inspector Cunningham, which, in order to prevent any delay in opening the line, were at once commenced by party of men on day labour under Overseer J. R. Hall.

An expenditure of about £2250 has been incurred in the performance of these works; viz., clearing, forming, blasting, culverts, draining, &c., and a further amount of £300 is now being expended in continuing the same through the Town of Lisle, towards which a sum of £50 has been subscribed privately. These latter works are being carried out in the same manner by Overseer Bonser and labourers under Mr. Cunningham's supervision.

Authorised by Governor in Council, £100.

The special employment of Mr. Conway (prior to the appointment of Clerk of Works) to consult with and ascertain requirements of Board of Management was duly authorised and plans were prepared by him to provide for the necessary accommodation, which were revised and approved by me.

These works being of a very urgent character, tenders were invited for same, but the acceptance of the lowest, that of Messrs. J. & T. Gunn, at £1635 for the entire works, has not yet been authorised, nor have any instructions been received to carry out any portion of the works.

CUSTOMS BUILDINGS, LAUNCESTON.

Authorised by Governor in Council, £25.

The employment of a special officer (Mr. Conway) prior to the appointment of Clerk of Works was also authorised to take particulars of these most necessary works, and prepare plans, &c. of same, which has been done; but no instructions have yet been received to invite tenders.

This work is of a very urgent character. The walls of old building are falling to pieces, floors are rotten, and foul drainage-water has collected under the building. I have satisfied myself by a special inspection that this old building is beyond the remedy of mere repair.

POLICE BUILDINGS, LISLE.

Owing to the necessity for the immediate erection of Police Buildings at these gold-fields, a number of men were employed on day labour, under Overseer S. Frith, to prepare and erect these buildings, which have been completed at a cost of about £350.

The cost is certainly great, but the excessively high rates prevailing for labour, materials, and cartage have made it much more than was anticipated.
