Mr Tom Wise
Clerk of Committees
Legislative Council
Parliament House
Hobart TAS 7000

Dear Mr Wise,

Over the past 8 years, I have led some 30 experts and consultants in a wide array of disciplines to develop a Health Management System that focuses on how to identify, mitigate and manage chronic lifestyle diseases in targeted populations.

This work has led to the development of new products and services that are now being used in targeted populations.

It has also led to the development of a progressive view of how to think about the concept of "Preventative Health Care".

I would appreciate the opportunity to present this view in person to the committee, as it offers some unique ways to broadly think about the issues of the Joint Select Committee, Preventative Health Care terms of reference.

The presentation will require approximately one hour and the use of a projector and screen, which if necessary I can provide.

If it is at all possible, I would appreciate that my presentation be the first to the committee.

I look forward to your favourable agreement to my requests.

Yours faithfully,

A handwritten signature in dark ink, appearing to read 'Gordon Fyfe'. The signature is stylized with a large, sweeping 'G' and 'F'.
