    - (b) That despite the concerted efforts to transform the subordinate position of women and girls in many societies, the progress made so far towards gender equality, the advancement of the status of women and girls has been slow and uneven and investment to address the inequalities between women and men in all areas of social, civic, and economic life, including in efforts to address the impact of climate change has been low;
    - (c) That women face bias along multiple identity dimensions, including gender, race, disability, sexual orientation, gender identity and age and we must focus our efforts on those facing multiple disadvantage where progress is slowest and that addressing this is a pre-condition for the promotion of women’s leadership, economic empowerment and equitable participation in all spheres, which will result in an empowered future for women and girls; and
    - (d) That the Commonwealth Women’s Forum (CWF) called on the Commonwealth to lead the world by creating and strengthening an enabling environment for women’s empowerment, for a sustainable, secure, prosperous, and fairer society that is free from violence and coercion, focuses on actions to mainstream gender in all government programmes, policies and initiatives; including gender budgeting.
- 5 Ms *Forrest* to move — That this House notes:
  - (1) The gender pay gap remains as a major impediment to gender equality.
  - (2) The gender pay gap negatively impacts on the well-being of women, particularly the financial and social wellbeing, from the commencement of employment to well beyond retirement.

- (3) Progress made in gender equality and equity has contributed to making the world a better place across all well-being measures and it is critically important to our future that we all do much more to address and eliminate the gender pay gap.
- (4) The gender pay gap has narrowed over time but still exists.
- (5) The gender pay gap is the average difference between a man's and a woman's remuneration.
- (6) According to research undertaken by the Commonwealth Workplace Gender Equality Agency (WGEA) using any measure the gender pay gap exists;
  - (a) The national gender pay gap is 15.3%, with women earning on average, \$253.70 a week less than men;
  - (b) The total remuneration gender pay gap is 22.4%;
  - (c) There is a gender pay gap favouring men in every industry and occupational level, regardless of whether they are male or female-dominated;

  - (e) Technicians and trades positions have the highest gender pay gap at 26.7%, while clerical and administrative roles have the lowest at 8.4%; and
  - (f) There is a 24.9% pay gap between male and female key management personnel.
- (7) Employers are continuing to act on pay equity with 155 Australian business leaders publicly signing on to the Workplace Gender Equality Agency (WGEA) Pay Equity Ambassador program, 38% of employers are analysing their pay data and more than half of those are acting on the results, however greater awareness and more direct action is required.
