

## Bridport Pier

### **Mr FAIRS question to MINISTER for INFRASTRUCTURE**

My question is related to the government's election commitment to provide Bridport with a recreational pier that can be used by local community and visitors to the area. The Premier and I were there last week and spoke with a lot of people out there. I understand community consultation with the Bridport pier working group and broader community was scheduled to commence earlier this year. Can the minister please provide an update on what stage the Bridport pier is up to?
