

## Beauty Point Tourist Park - Eviction of Permanent Residents

### **Mrs PENTLAND question to MINISTER for HOUSING and PLANNING**

Three permanent residents of the Beauty Point Tourist Park have been evicted and are facing homelessness. A constituent in my electorate of Bass has very big concerns for the wellbeing of these residents and asks what measures the government is taking to support them, especially if evictions cannot be stopped. Also, how can the government assist them in finding new suitable accommodation so they do not become homeless?
