

Residential Tenancy Act - Interim Protections

Ms FINLAY question to MINISTER for SMALL BUSINESS and CONSUMER AFFAIRS

Constituents from Bass, members of the Tourist Park Residents Association from Beauty Point, a few of them are here this morning ask the following questions. When will you, as minister, as a matter of urgency, effect an interim moratorium on evictions at the Beauty Point Tourist Park by making a regulation to do so as allowed under the Residential Tenancy Act 1997? This interim protection is clearly required, as you have demonstrated that you will take your time to consult on reforms much needed for long-term residents in caravan parks.
