

Vocational Education and Training

Mr WOOD question to MINISTER for SKILLS and TRAINING

Hundreds of my constituents are engaged in vocational education and training and are interested in what the government is doing to improve TasTAFE's facilities. This is particularly relevant following the Health minister's announcement last week of a recruitment blitz, as health services are crucial in our region. Making sure we have appropriate facilities to train the staff we need is crucial.

Can you please provide an update on when works will commence at TasTAFE's Alanvale campus, noting this was listed as part of the government's second 100 days plan?
